2010 Set For FUN To Begin

Eyes On Icons

With winter upon us, those in the numismatic world have set a predictable course for warmer weather. The destination for most of this hobby's brethren is the Sunshine State. Some have arrived early to shake off old man winter's chill, and all associated with the certified coin arena are anxious to check the pulse of the rare coin market, and of course attend one of the premiere numismatic gatherings held any time during the year. Orlando, already a hotbed in more ways than just the agreeable climate, is the host city for the 55th annual FUN Convention. Dealers, collectors and interested spectators have already set up temporary digs in hotels, restaurants, amusement parks, you name it, all wanting to be the first to take advantage of fresh deals for 2010. For those that can't wait for FUN to begin, The First Show, held in Orlando as well, with an auction by Bowers & Merena, should set the tempo, January 3-5. Then the FUN show officially begins as the doors will open to the Orange County Convention Center's massive bourse January 7. Along with the expected anticipation of this bellwether event, excitement is also revolving around the fate of several numismatic icons set to meet the hammer at the official host auction held by Heritage, the results of which will be a key indicator as to the strength and conviction of the present market. One stellar attraction for this or any other relevant event is the heralded 1913 "Hawaii Five-0" Liberty Nickel. Perhaps the most well branded of the 5 examples extant, she is acknowledged as the second finest known. Embraced by mainstream collectors as well as the public at large due to that show biz moniker, this NGC CAC approved PR64 slab is already basking in pre-auction media blitz with advance Bidding at \$2.76 million as we go to press. Another marquee player, a PCGS MS66 1927D \$20 Saint has also reached quite a formidable level with pre-Bidding now at \$1.265 million.

Several dealers have commented that prices in general may tend to be a bit stronger out of the starting gate. The reason? Half as many auctions are vying for buyers' dollars. This year, instead of the usual four public sales hosted by Bowers & Merena, Heritage, Stack's and Superior, only the first two of that quartet will be present in Florida. Time will tell. Three years ago at Stack's Orlando sale, the finest known 1913 Liberty Nickel, the Eliasberg PCGS PR66, did not sell because the ambitious reserve wasn't met.

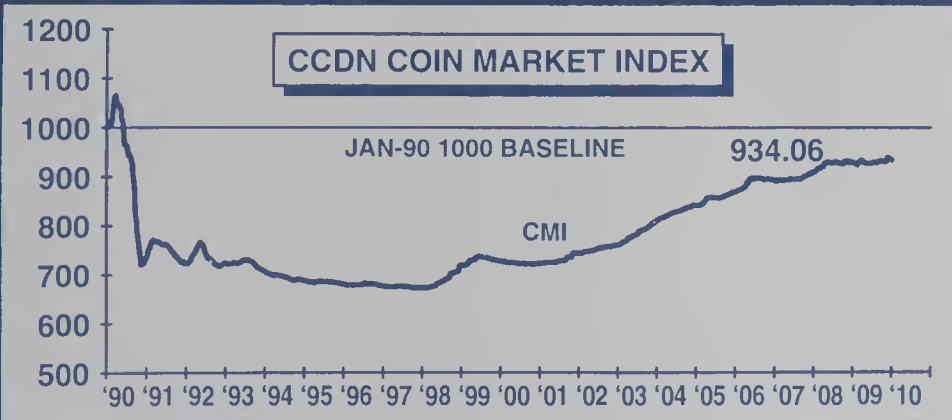

One series under intense pressure are those bearing the Liberty Seated design with the accent on Quarters and Halves. Key dates and low mintage mint-marked

rarities are being courted with higher bounties being sanctioned to secure them. Gold, although not breaking out of the gates with the fury that fanned her flames in early December, is still trading near \$1,100 per ounce. The electronic trading workhorse, CCE, finds that the big Generic Market closed out 2009 in grand fashion, reeling in over \$2 million in certified Double Eagle trades. Volume on this scale hasn't been heard from since the beginning of 2008.

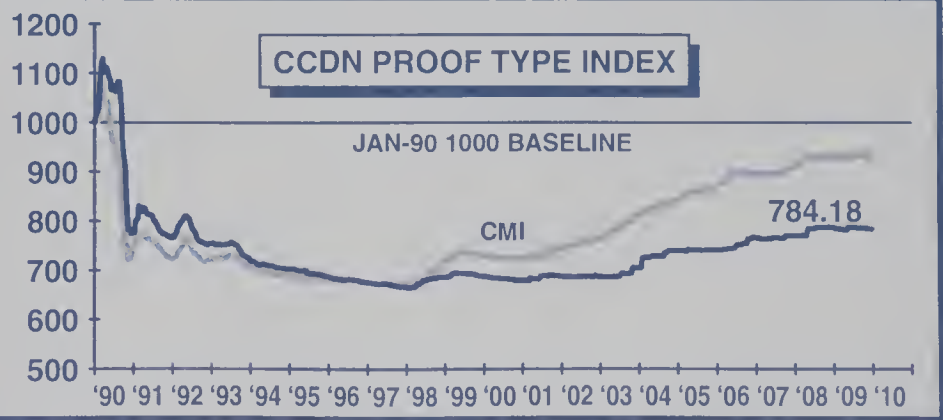

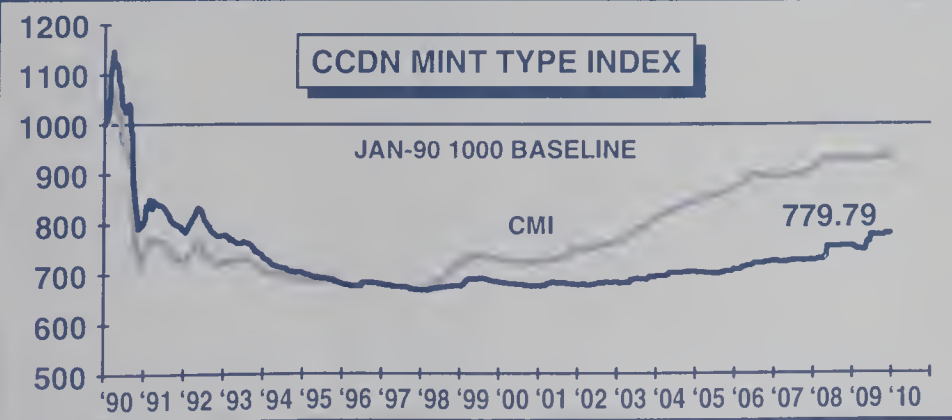

Silver Commemoratives start the year on a positive note as eight issues step up to new levels on the PCGS side. The \$5 increase from \$35 to \$40, a 14 percent advance, for any example of the ubiquitous 1893 Columbian Exposition in PCGS MS63 is encouraging. So too is the modest advance on the Isabella Quarter in PCGS MS64 to \$525. The sale of a 1934 Texas in PCGS MS67 for \$920 at an online venue necessitated a downward adjustment to Bid. Sales leaving money on the table include that of a 1928 Hawaiian Sesquicentennial in NGC MS63 as well as a 1923S Monroe Doctrine in NGC MS65, both selling below the binding sight-unseen Bids.

Though the negative signs swamp the positives on the Morgan Dollars chart, the adjustments in either direction are slender, the majority of negative signs going to common dates in MS65 which drop from \$114 to \$113. The most significant adjustment adheres to the 1880O in PCGS MS64, which drops from \$1,080 to \$1,000, and is the result of coins offered at the wholesale level at or near *Bluesheet* Bid, and in the absence of supporting Bids on the electronic networks. Common date Peace Dollars in NGC MS66 suffer downward adjustments with the 1922, 1923, and 1924 starting the new year at \$335, \$365, and \$370, respectively.

Mint State Type starts 2010 with a positive spin as Barber Quarters in PCGS MS63 advance to \$250, a 10 percent increase out-of-the-gate. Numerous Seated Quarter and Half Types in PCGS plastic enjoy \$25 to \$50 increases, which translate to 4 to 7 percent increases to start the new year. Gold has come off its world record high of \$1,217.40 and has now dipped below \$1,100. TIII \$20 Libs and the \$20 Saints in MS61 and MS62 have adjusted downward anywhere from 5 percent to 10 percent. Among the positive movements include a \$50 increase for \$3 Princesses in MS61 and a \$5 increase on TIII \$1 Indians. Examples of the \$2½ Liberty in ICG MS63 plastic tumble from a lofty perch of \$785 to \$625.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL coins will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror proof specimens.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN B* may be more indicative of current market value.

[illegible]

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

FUN In The Cold Walkers, Commems & Early Gold Jump

As the proverbial and literal deep freeze envelopes most of the country, the numismatic world is attempting to find refuge in the Sunshine State. Although unseasonably cold temperatures kept daytime highs in the low 50's, it didn't matter, as the mammoth bourse was the scene of heated action from the get go. FUN has begun, and with it, the usual feelings of excitement and trepidation. While many newbies are well-versed, courtesy of the internet, reference books, pop reports, etc., the actual encounter of the coin kind can be quite an eye opener, with aisle upon aisle of gleaming slabs. Where to begin? Those attending the First Show and Bowers & Merena's Rarities sale did get the ball rolling. The first major auction of the year is in the books, claiming a tidy \$2.35 million. With a sell-through rate of 71%, resistance was observed on several of the six-figure coins, as reserves were not met. However, many in the mid five-figure range performed quite well, especially Mint State Liberty Seated offerings which have been heating up lately. We have listed several of the sale's highlights herein.

It was voiced by several prominent dealers in Orlando that quality, rarity, pedigree and value are strong selling points for any certified coin in this market. No ifs ands or buts, the coin must be solid for the grade and then some. This is where CAC verification is a must, not only for many newcomers, but for seasoned hobbyists as well. That little green sticker is often worth a premium and in high demand. Of the over 700 CAC certified coins slated to meet the hammer in the feature sale, neraly 85% are already assured of new homes. As we go to press, the first of Heritage's seven-session auction is in the books with a total of \$2.64 million and a 91% sell-through rate.

Although Gold is now trading near \$1,140, Silver bouncing back over \$18 seems to have elicited more interest from buyers, targeting Morgans, Walkers and Merics. In fact, the latter has stormed out of the gates in record fashion. CCE's Big Generic Market confirmed this demand with transactions involving 616 PCGS Merics grading MS65FB-MS67FB, totaling \$24,500, this being the largest volume of

Merics traded in a single week by far since the Big Market's inception. To put this into further perspective, in all of 2009, only \$23,860 worth of generic Full-Banded Merics were traded. So buyers be on your toes. Although winter weather has put things on ice, interest in Mercury's may be rising.

Silver Commemoratives are positively charged with numerous issues advancing in grades MS64 thru MS67. Six listings climb by ten percent or more from last week. The 1926 Sesquicentennial leads the way, with PCGS MS64 examples climbing to \$175 from \$150, for a 17 percent increase. The 1925S California Diamond Jubilee in NGC MS67 is the only casualty this week, and stems from this year's first major auction. An astute buyer nabbed a 1926 Sesquicentennial in an NGC MS65 holder for \$1,150 even though two Bidders will pay \$1,350 sight-unseen for that item. This sight-unseen offer amounting to \$200 more for the seller, not to mention auction fees incurred by the consigner, is valid for even the worst possible example imaginable, and the coin cannot be returned. Gold Commemoratives are unfazed at the sight-unseen level.

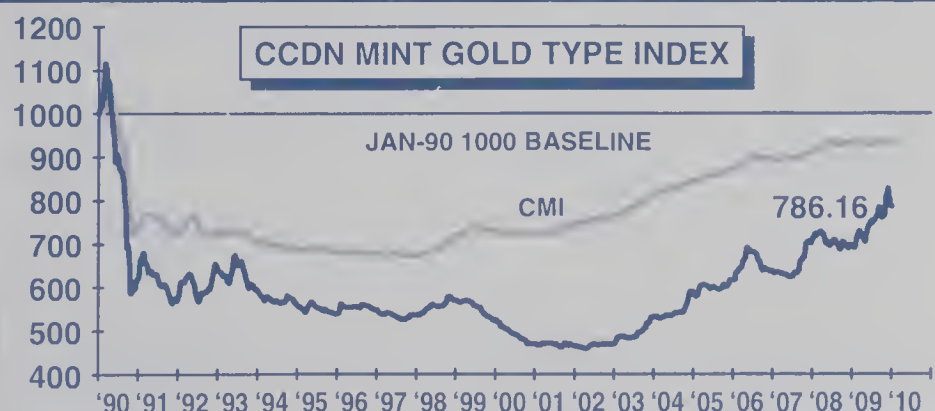

The Morgan Dollar segment ekes out a few positive signs this week. The most important transaction occurring in this area is the discounted sale of an 1897 in the lofty grade of NGC MS67. Mint State Type remains stable, apart from two Half Dime subtypes — the No Stars in NGC MS64 and the No Drapery in NGC MS65. Mint State Gold Type is a varied mixture of positives and negatives with no real direction.

Conversely, Early Gold Type includes some stunning advances. For example, The Capped Bust \$5 jumps from \$4,500 to \$6,000 in PCGS AU58, while the Draped Bust Large Eagle \$10 advances to \$17,500 from \$13,500.

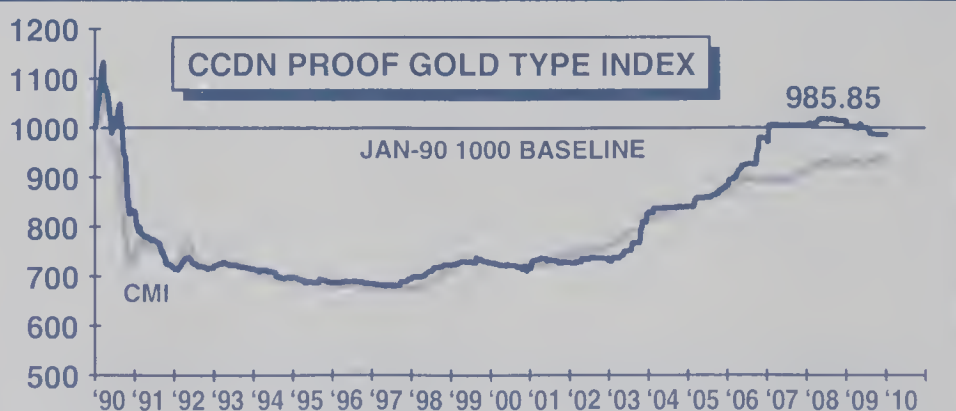

Proof Type incurs multiple minus signs this week, specifically with NGC Liberty Seated Dimes and Quarters in PR66 and higher, and Shield Nickels with Rays in PR64 and PR66. Generic Walkers are quite active with numerous short-set participants advancing in MS63-MS65. Better Date coins are relatively quiet with the exception of the somewhat sluggish sight-unseen market for Washington Quarters. The key date 1932D drops to \$2,000 in PCGS MS64 by virtue of a recent retail sale.

Bowers & Merena Orlando Sale

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the high nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublishing.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bid for PCGS PL and NGC PL coins will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully decodable specimens.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

To learn more, visit www.NGCcoin.com/security

**Now you can verify certification on the go.
Visit m.NGCcoin.com from your mobile device.**

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the drop-mirror Proof type. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Trio Gains Admittance To Million Dollar Club Sight-Unseen Market Active

If the first major numismatic event is any indication, 2010 may very well be a banner year. Barely two weeks into January, and already the sale of several high caliber certified icons have the coin kingdom buzzing. The three ultra rarities gaining admittance to the million dollar club at FUN include the 1913 Liberty Nickel, at \$3.7 million; the 1927D \$20 Saint, fetching \$1.5 million; and the 1874 \$10 Bickford Pattern that pulled in \$1.3 million. This one sale has already equaled in number and eclipsed in dollars the complete cast of million dollar plus coins sold in the entire year of 2009. Three "million dollar plus club" coins sold at auction last year are the 1804 Dollar at \$2.3 million; the 1856O \$20 reeling in \$1.4 million; and the 1795 RE Cent, capturing \$1.3 million. The last time the market witnessed this much excitement to greet the New Year was at the 2005 FUN sale when a trio of coins sold for seven figures each, including an 1894S Barber Dime and two Brasher Doubloons.

This year's Heritage auction saw a 92% sell-through rate; of the 6,000 lots sold, 104 lots claimed over \$50K, 40 of which rolled well into 6-figures and beyond. Perhaps more astounding, less than 2 percent of these lots accounted for nearly half of the total price realized. We would be remiss in not mentioning the sale of a piece struck by our neighbors to the north. The legendary 1936 Canadian Cent with Dot, PCGS SP66RD and the finest of three known, captured \$402,500.

The rare coin industry is not just about breaking records, and while there has been give and take in the certified arena, material is selling well, at all price levels. This hobby has more than survived the financial turmoil which had threatened far more than the rare coin market. Currently, dealers and collectors seem to be more or less on the same page. As a result, there is less resistance on transactions, at least for quality coins, which have been finding homes in the collector friendly tier up to \$5K. For the well-heeled, slabs in the mid to high 5-figure territory were reported to be virtually flying from dealers' showcases in Florida. Several prominent market-makers reported that if they had more eye appealing, problem-free rarities in any series, they could easily have sold them.

Of the 600 plus Silver Commems offered at public auction in Orlando, just 25 of the results necessitated a downward adjustment here. Gold Commems struggled a bit with issues like the 1905 Lewis & Clark Exposition Gold Dollar in PCGS MS66 selling for less than sight-unseen Bid. Morgan Dollars have softened significantly this go round, primarily as a result of poor auction performance. Peace Dollars are also weaker, though a few bright spots are seen including the 1925S in MS64 now Bid \$560. Also, the 1921 and 1934D are higher in grades MS63 and MS64.

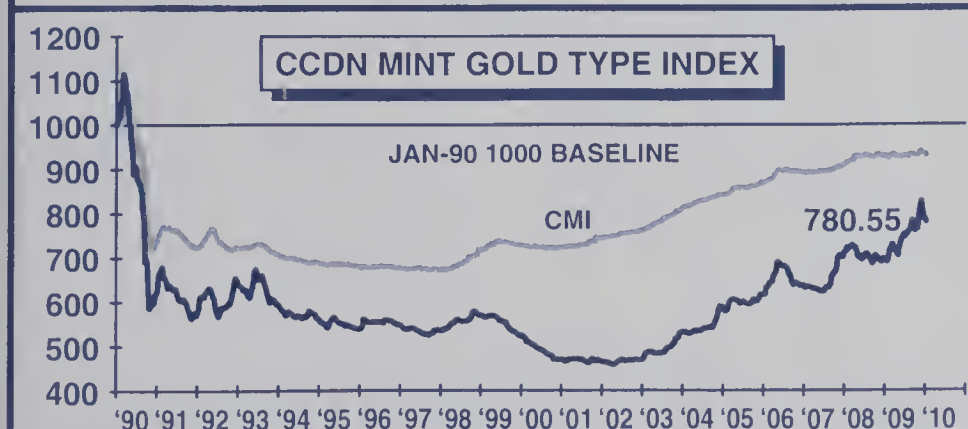

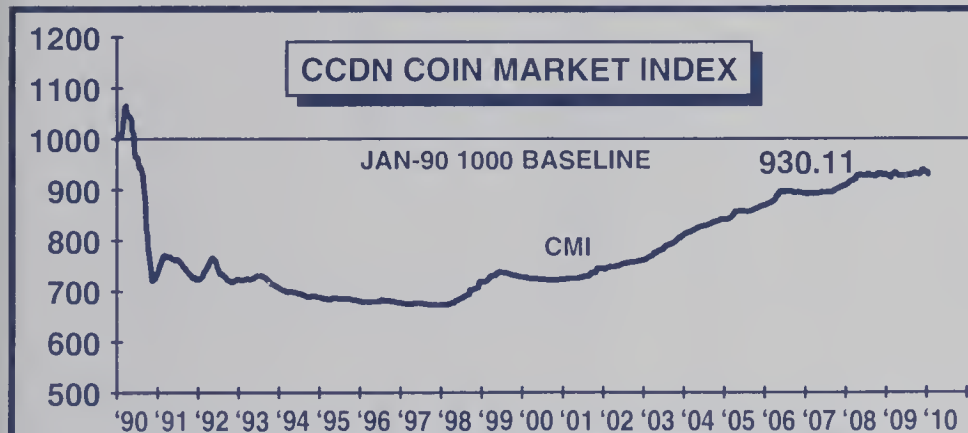

Mint State Type includes a couple of weak results like the sale of a 1797 Large Cent, Rev. of 1797, Stems graded MS65BN by PCGS for \$16,100. In like fashion, the 1795 Half Dime entombed by NGC as MS67 Prooflike, which realized a hefty \$86,250, is nevertheless \$1,750 less than the former **Bluesheet** Bid. Mint State Gold Type remains mixed, even though Gold Spot is creeping back up near \$1,150 an ounce. Proof Type sees NGC PR67 Twenty Cent Pieces drop by 10 percent after an 1875 example sold at a FUN auction for a discount. Proof Gold Type reveals that an NGC PR67 \$4 Stella realized just shy of \$300K. A rather handsome 1906 \$20 PR66 NGC realized \$80,500, still some \$4,500 below previous Bid.

The most significant of eight declines among the Buffalo Nickels, from the pool of over 160 examples auctioned in Florida, was the 1915D in NGC MS65, which dropped \$200. The others did quite well, including a PCGS MS65 1918/7D which brought \$264,500 against a sight-unseen Bid of \$160K. A handful of declines within the Merc segment are a direct result of auction prices realized in Orlando. On the positive side, numerous issues received well in excess of **Bluesheet** Bid, while generics continue to inch up in MS65FB and higher. Generic Walkers are mixed, up in Gem and down in higher grades. There are minus signs on the chart, but no real casualties.

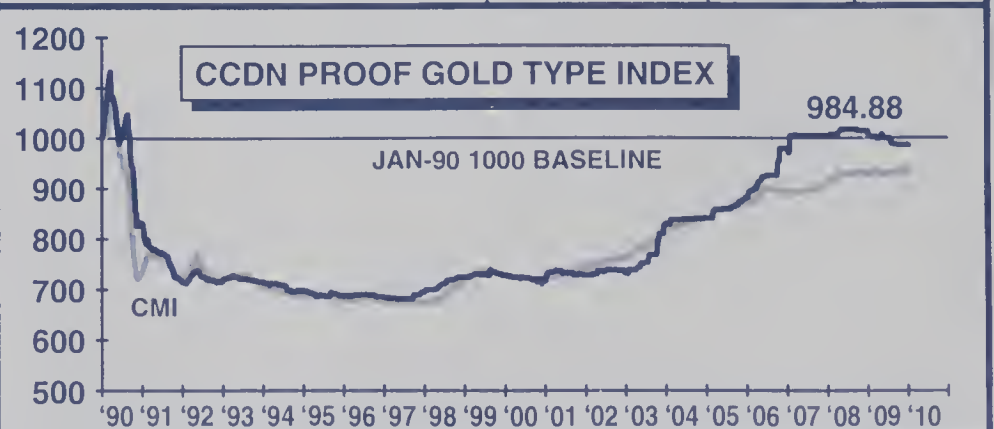

Next on the agenda is the highly eclectic Americana sale by Stack's in New York, Jan. 26-27 (see highlights herein). Then it's time to traverse the continent for the Goldberg's Pre-Long Beach sale, Jan. 31-Feb. 2 in Beverly Hills. Following closely is the Long Beach Expo with host auction by Heritage, set to run Feb. 4-6.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers; are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Attn: Coin Dealers

The "Ship of Gold" Sails Into Long Beach Feb. 4.

Are YOU On Board?

The *SS Central America* (aka Ship of Gold) exhibit is one of the biggest attractions you'll ever see at a coin show. That's why you need to be here!

Presented by Monaco Rare Coins, the Ship of Gold exhibit returns to the Long Beach Expo after a ten-year absence. Inside the 40-foot long representation of the ship's hull, coin enthusiasts and history buffs can view \$10 million of the sunken treasure recovered from the *SS Central America* over 100 years after its ill-fated voyage from Panama to New York. It was called "the greatest treasure ever found" by Life Magazine, and in 2000, over 10,000

people lined up to have a look at our exhibit. We're counting on even more in 2010.

In addition to checking out the Ship of Gold and other stellar attractions, show attendees will of course want to see coins – including yours if you have a table. To reserve your space or to inquire about special pricing and contract options for the Long Beach and Santa Clara shows, please contact

Taryn Warrecker at **805-962-9938** or **taryn@exposunlimited.com**, or visit our web site, **longbeachexpo.com**. Don't miss this golden opportunity to display your coins!

Do you enjoy fine wine?

Is Your Wine Cellar Running Out of Room?

Did your futures shipment just come in? Did you get a great deal at the last wine auction? Do you need to free up room in your wine cellar?

You might know Spectrum as one of the largest and strongest buyers of coins and currency in the world. You're right! Spectrum has grown to this level by always delivering the highest possible price, accompanied by fast, courteous, knowledgeable service. And Spectrum buys it all and pays top dollar for items under \$5 to well over \$1 million.

So what's this about wine? By popular demand from our customers, Spectrum has established an expert wine division, headed up by noted wine connoisseur Mario Sculatti. Whether you want to sell your Screaming Eagle Cabernet, your Kongsgaard Judge Chardonnay, or thin out your collection of Domaine de la Romanee Conti, Leroy Montrachet, Petrus or Sassicaia to make room for that original wood case of 1961 Latour you've had your eye on, Spectrum is the answer.

Just like with coins and currency, Spectrum buys it all and we pay more for your wine!

Whether you want to sell a single bottle or a lifetime accumulation, Spectrum is the answer. We'll even travel to see you!

Spectrum is known for their fast, convenient, and personal attention to customers. Call Spectrum today to begin the process that will produce the highest possible prices for your wine. Call Spectrum today to conduct business with the new market leader!

Meet Mario Sculatti, Spectrum's expert wine buyer. Mario brings years of experience as an international dealer and winemaker to his job. Hundreds of wine owners have discovered how easy, enjoyable, and profitable it is to sell their wine to Mario. When you're ready to sell, and you want a BIG check from a 100% reliable source, call Mario Sculatti. Toll-Free at 888-982-1982.

\$100 Million Milestone

CAC has passed the \$100,000,000 milestone by leaps and bounds

In just a short amount of time, CAC has purchased more than \$100 million of CAC verified coins from the dealer community. With that milestone now well surpassed, CAC continues to race on, seeking and purchasing stickered coins. That's because CAC strongly stands behind coins with the "green bean" as an active bidder in the market. And as CAC stickered coins gain recognition for trading at a premium, you can only imagine how fast the next milestone will be passed.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

"Because Confidence is Priceless"

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher CDN Bid may be more indicative of current market value.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 4

January 22, 2010

Single copy price \$4.00

Sight-Unseen Bidding Deserves Attention Twentieth Century Proof Singles Jump

The sight-unseen market is predicated on a notion that runs counter to what dealers spend so much of their client-side time teaching customers. That is, to avoid purchasing those very coins which are unattractive, low-end for the grade and quite possibly worst case examples. Ironically, we often report on coins that sell at retail auction for below sight-unseen Bid, and the coins are usually not the worst example out there. We discuss these transactions because they are not supposed to happen. They should never sell, especially retail, for less than what someone is willing to pay sight-unseen, wholesale. We are still trying to put our finger on why this continues to occur. Have sight-unseen Bids somehow become meaningless, and therefore ignored?

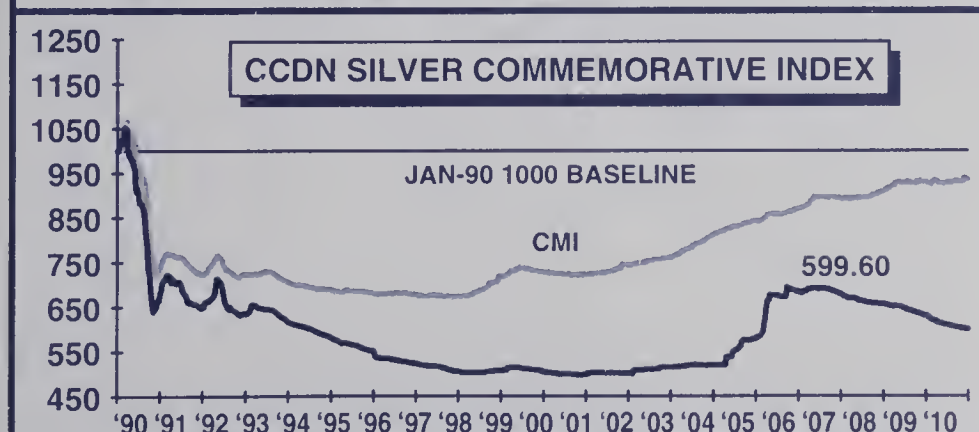

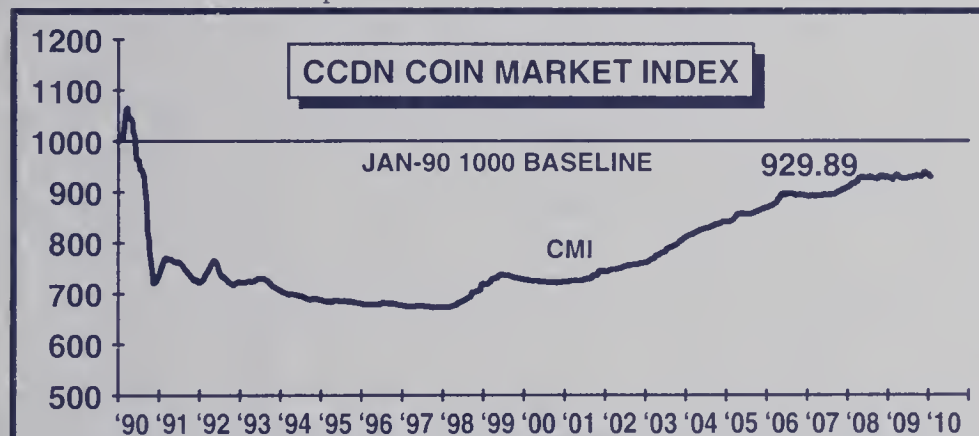

The \$40 million worth of coins sold at auction in Orlando is a perfect example of how easily the discussion focuses on the small amount of material that flirted with sight-unseen levels, while the vast majority of material sold for way above **Bluesheet**, as it should. And that leads us to this rumination. There is one other area of discussion in our weekly market report, indeed the topic we would prefer to discuss in the weekly write-up and that is the Bidding activity occurring on the various electronic networks. If there is one thing that is clear from Orlando it is this: certain segments of the market, such as Buffalo Nickels in MS63-MS65; select Saints from AU58-MS64; Silver Type in MS62-MS64; and Matte Proof Lincoln Cents, are worth significantly more than what the high sight-unseen Bidder is presently paying. We can say with absolute confidence that many of the coins listed herein have routinely sold at auction for well above of sheet levels, even in the face of this fierce recession, and can be seen throughout this week's Market columns.

Silver Commems show some increases this week as the 1935S San Diego, California Pac Expo advances in grades MS63-MS65. Additionally, only a single decline was recorded as a result of an NGC MS66 1937 Texas PDS set being offered for \$800. This Ask price can be seen in this week's Market column preceded by a "w" representing that we saw this set available for sale this "week." Gold Commems are also stable with only a single decline to report, that being the 1926 Sesqui in PCGS MS66. Fortunately, we did not witness a single Commem sell for less than sight-unseen Bid this go 'round. Morgan Dollars show a fair amount of activity and remain one of the most important collector driven areas of the market. At least one

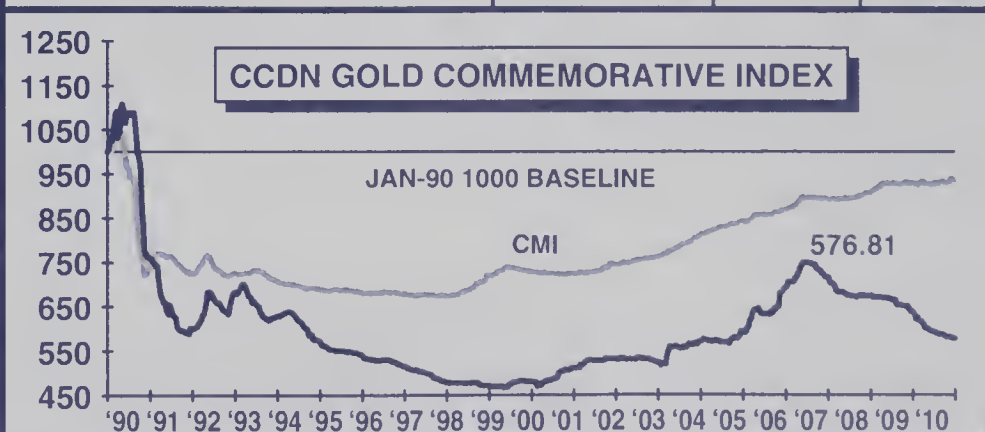

dealer has targeted the 1899O in PCGS MS67, thinking perhaps that a solid \$500 Bid (45%) advance might pry one of these pop 87 coins loose. The *CCDN CMI* for Morgans is now at 1110.96 and is one of only two market segments above the baseline set in 1990, as seen below. Mint State Type is host to a dozen higher sight-unseen Bids for mid-priced Silver issues in grades MS62-MS64 in addition to a couple Braided Hair Half Cents. Most notably is the \$1,250 Bid for the Reduced Size Planchet, Capped Bust Dime in MS63. This new offer is a whopping 25 percent higher than previous Bid. The other issues targeted include Three Cent Silvers and various Liberty Seated Half Dimes and Dimes. Gold Type is taking it on the chin as Spot falls some \$40 in two days.

Proof Type goes quietly this week with not one adjustment to Copper, Nickel, Silver or Gold. We do note the sale of an 1871 Indian Head Cent in PR64R that appeared in the 101-lot "CAC only" Jan. 19 Teletrade sale. That particular coin yielded \$990. This result can be seen in our Market column, preceded by an "a" for "auction." Buffalo Nickels are stone cold quiet. Actually, we're hard pressed to find any sight-unseen Bids for NGC material, other than for generics, but we do see visible buyers at or near current levels for a fair number of PCGS examples, especially in higher grades. Mercury Dimes are percolating upward for numerous generic issues graded PCGS MS67FB as well as a more modest number graded MS65FB and MS66FB. These higher sight-unseen Bids are for any PCGS slabbed Mercury Dime regardless of the coin's date or appearance. Generic Walkers remain active with buyers at or near Bid present across-the-board. Proof versions have heated up, most notably in grades PR65-PR67. Dealers have raised the Bid on Proof Mercs as well in the same grade range.

A few days hence and many of our **Bluesheet** subscribers will participate in the Stack's Americana sale, set for Jan. 26-27. Following this, much of the same contingent will head for the opposite coast to work the Goldberg's Pre-Long Beach auction, Jan. 31-Feb. 2 in Beverly Hills. The Heritage sale, set to run Feb. 4-7 in conjunction with the Long Beach Expo, arrives swiftly on the heels of the Goldberg's sale. Scotsman Auction Co. is offering 958 lots of US and foreign coins on Feb. 12 in St. Louis, Missouri. The catalog is a wonderful mixture of collector oriented material that includes a 1918/7D Buffalo graded VF25 by PCGS and an 1865 Seated Liberty Half Dollar, gorgeously toned, that is certified by NGC as PR65.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Announcing the 2009 NGC Registry Award Winners

Grand Prize Winner

Chappell

Winner of a personal registry set consultation.

Z Willie • J & L Commemoratives

Summer97 • Coronet Half Eagles, With Motto, 1866–1908

Chappell • Chappell Collection Morgan Silver Dollars 1878–1921, Proofs

Brenda John Collection • Buffalo Nickels 1913–1938

49er • Seated Liberty Dimes 1858–1891, Proofs

Chauncy Renard • Modern Commemoratives 1982–date, Complete

GNLD • 1 Oz. Gold Eagles 1986–date, Proofs

trinity-cole • Roosevelt Dimes 1950–date, All Proofs

West Coast • West Coast Washington Quarters 1936–1998, All Proofs

Mark Bressler • Jefferson Wartime Nickels 1942–1945

E.M.O. Collection • First Republic, Complete Set MS

Worldwide Numismatics • Landenmar Mexican 50 Peso Collection

ROBBAKE12157 • Bakewell ZAR 1 Pond Collection

VUMC409 • Linda C. Prescott Birth Year Set—1947 Mint Set

gherrmann44 • Gary's 20th Century Type Set

rfa • R&R Capped Bust Quarters 1815–1838

Layton Kor • Carson City Morgans in GSA Holders Only 1878–1893

Rayshield • Ultrafiltered—2005 Proof Set, Complete

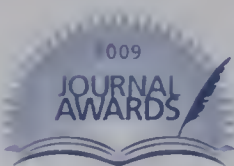

RAM-VT • The Best Overall Signature Set • All that I have left—Parts 1 through 4

Zohar444 • The Best World Signature Set • Habsburg Empire Talers

YannSan • The Most Creative Signature Set • Latin Monetary Union 20 Francs

Mahdi Bseiso • The Most Informative Signature Set • Jordan—Circulation Type Coins

The Collectors' Journals awards are based on user-contributed articles regarding the collecting experience.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

CAC[®]

"Because Confidence is Priceless"

[illegible]

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 5

January 29, 2010

Single copy price \$4.00

Long Beach Show Set To Sail Stack's Americana Sale Secures \$4.9 Million

There is an understandable desire to profess enthusiasm for a market where select coins are bringing into the millions, and in some cases more than what that same specimen may have sold for previously. "Smart money" is undoubtedly looking to acquire remarkable, quality pieces and take them off the market for the foreseeable future. Such buyers and such coins form the smallest fraction of the overall market. Bread-and-butter coins of the sight-unseen market — average quality, common date Walking Liberty Halves, Morgan Dollars, and Mercury Dimes come to mind — have been quite active as sight-unseen Bids have been increasing for weeks now. Better date material sometimes goes unsold or sells for less than current levels. In order to encourage tentative sellers in this area of the market, perhaps it is necessary to firm up sight-unseen Bids so that a prospective seller has a good idea of what his/her coins might bring in the present market. Otherwise, they may sit and wait and wait.

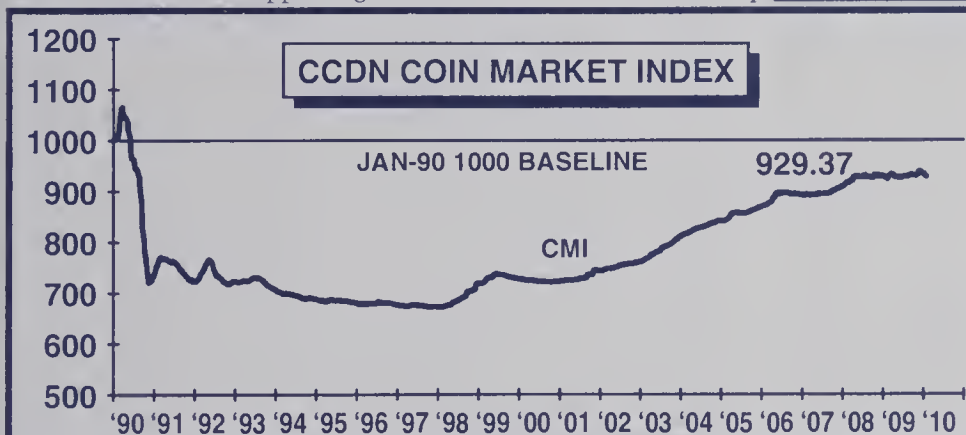

Silver Commems are stunningly quiet with respect to adjustments. Gold Commems, similarly quiet, are well supported, particularly in MS65. The only issue in that grade lacking a supporting Bid is the 1905 Lewis and Clark Gold Dollar graded by PCGS, a pop 232 coin in Gem with 72 higher. Morgan Dollars are exploding with advances, with over 140 moving up, more or less equally distributed over both services, in grades MS61-MS64. Aside from a single minus sign, the higher grades are status quo. Higher Bids have been recorded for the 1927 PDS Peace Dollar trio in MS61; they are at \$60, \$150 and \$160 respectively. Mint State Type suffers no declines this go 'round, yet coins continue to sell for less than published sight-unseen Bids at retail auction. An 1883 Shield Nickel graded MS66 by NGC is one such example as it sold for \$719 with juice and shipping at an internet-only venue, even though there is an active Bid of \$800. Mint State Gold Type, as might be expected, is experiencing significant corrections across-the-board due to a declining Gold Spot, now at \$1,084 per ounce. Most denominations and Types are affected as this low level for Gold has not been seen since early November. Some issues have dropped by as much as 11% from last week. Demand for the rare issues within this segment retain many of their five-figure sight-unseen Bids. The Proof Type chart reflects interest in 3-Cent Nickels as PR66 examples advance to \$640. The remainder of this market segment is stable with NGC appearing to have about 3 times as many

visible sight-unseen Bids at or near current levels than PCGS. A similar situation exists for Proof Gold Type with one difference, that being that not a single sight-unseen Bid can be found at or near current levels for PCGS graded examples. In MS67, Buffalo Nickels are quiet overall with a single advance recorded for the most common date in MS67, the 1938D. Current pops for PCGS and NGC are 1,429 with 8 higher, and 1,639 with 15 higher, respectively. The Mercury Dimes chart is host to perhaps the most significant Bid increase to show up on this chart in quite some time. The key date 1916D in MS65FB and ensconced in NGC plastic jumps from \$26,000 to \$30,000, or better than a 15 percent increase. There are presently 24 specimens graded MS65FB by NGC according to the census. At the other end of the spectrum, common dates in NGC MS67FB advance by a couple of dollars. Perhaps more importantly, this advance comes on the heels of yet another brisk trading week. Late date Walking Liberty Halves are moving higher in the collector oriented grades of MS63 to MS64, primarily for slightly better dates within the short-set. In addition, sight-unseen buyers are available in these same grades for all issues from the '30s at or near published levels. Proof Singles emerge from hibernation, and several advances have been recorded for the second week in a row. This week's action targets Lincoln Cents and Mercury Dimes in a number of grades.

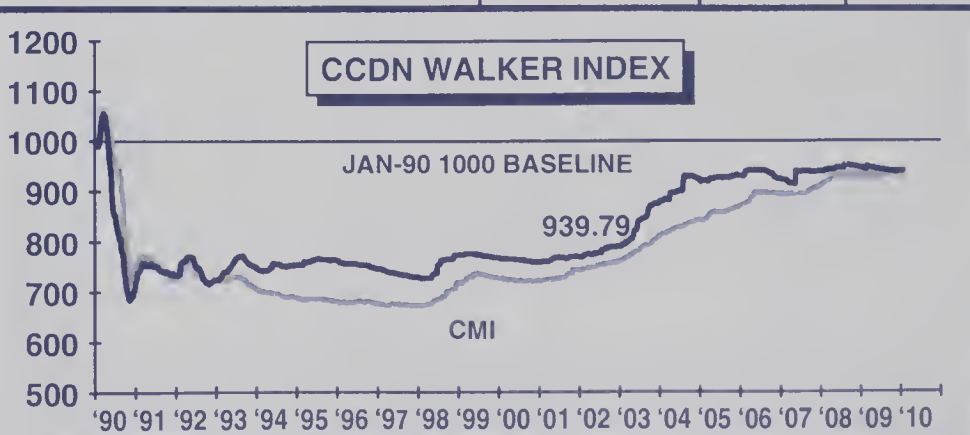

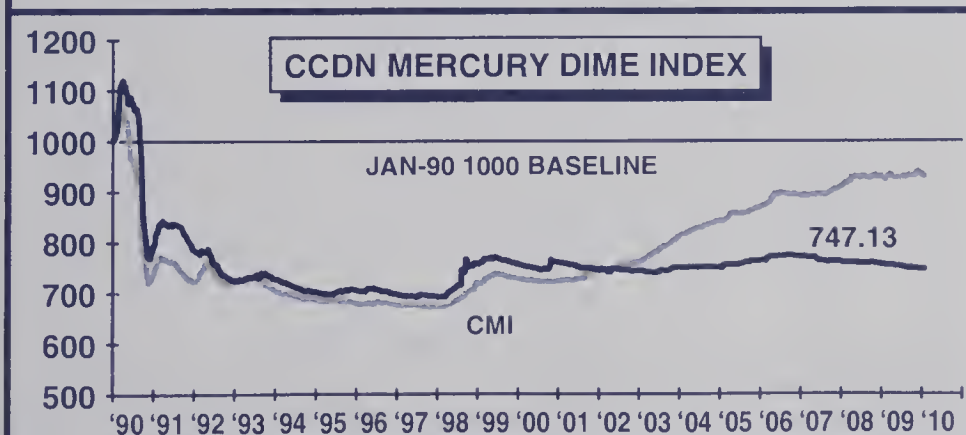

The Stack's sale that concluded on Wednesday, Jan. 27 realized over \$4.9 million with a couple coins bringing in excess of \$100K. Further analysis of the sale indicates that some rare dates and Types are bringing prices indicative of a solid market for the "right" coins. See several certified highlights herein. The Goldberg's Pre-Long Beach

auction is scheduled to begin Sunday, Jan. 31 and conclude on Tuesday, Feb. 2. The Heritage sale is set to run Feb. 4-7 in conjunction with the Long Beach Expo. On display at this show will be the SS Central America Ship of Gold which hasn't docked for public view in ten years. This time, in addition to the \$10 million worth of coins and treasure on display will be a 64 pound Eureka Gold Ingot from 1857 valued at 8 million.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers — are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In this regard, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

Who Can Help You **DOUBLE** Your Bulk Business?

You're Looking at Him

In the world of modern coins, PCGS has yet again revolutionized the numismatic industry with two words – Bulk Certification. These two words define a program that allows dealers and collectors to submit high volumes of coins at discounted prices.

Miles Standish, creator of the program, knows more about bulk certification than anyone and he can show you how to double your business and expand your market through our bulk program.

With the Mint continually creating new designs and innovative coins, Miles can design specific campaigns to target new markets with innovative ideas, such as specialty flips and roll certification programs. The possibilities are endless!

Find out how Miles can bulk up your business through PCGS Bulk Certification.

Contact him today by calling **(949) 922-0515** or sending an e-mail to **Mstandish@collectors.com**. Trust us, he won't let you down!

Gold Suffers Worst Day In 14 Months

Silver Down, Dollars Up

Observers of the rare coin market have often noted that it is both resilient and elastic. It is the type of market that presents well to a wide audience in either a strong economic climate or a weaker environment. Some might argue that this is perhaps one of its neatest features or saving graces depending upon one's point of view. In an up market, when coins are routinely advancing in price across a wide range of types and price points, when enthusiasm is widespread and folks at shows have money, the competition to acquire one-of-a-kind coins for big money is on. In that type of environment, Registry Set quality collections might routinely cross the auction block, something that has not occurred for the better part of two years. Instead, these more subdued times are preferred for exhibiting such sets as is the case of the Dale Friend Half Dollar Set currently on display in Long Beach. In these leaner times, collectors (who never stray too far from the fold) note that a coin they have wanted for some time now is priced significantly less than what it was a year or two ago, prompting them to act accordingly.

There is a fair amount of activity on the Silver Commems chart this week. Three issues advance by ten percent or more while a slightly larger number of issues decline. The advances, of course, come by way of at least one dealer willing to accept any example of the coin indicated, so long as the grade and grading service specifications are met. The Long Island Tercentenary in PCGS MS65 advances from \$125 to \$150 – regardless of the coin's merits or lack thereof. To the downside, we acknowledge the sale of a few coins at auction and another couple that were sold/traded on the electronic networks sight-unseen for less than previous Bid, including a 1946 Iowa in PCGS MS67.

Morgan Dollars, perhaps reflecting the new mood of buyers and sellers, abounds in positive movement. Well over 130 listings move up by as much as 35 percent, such as the higher sight-unseen Bid of \$310 for any 1888O in MS65 and graded by NGC. On the downside, an 1884O in NGC MS67 slips to \$1,300 as a result of a possibly inferior example selling at auction. Just three weeks ago, a like graded example yielded \$1,725, undoubtedly a much nicer coin. The Peace Dollar chart is also flowing with positive energy. Leading the pack is the 1934D in the prime collector grade of MS63. At least one dealer is

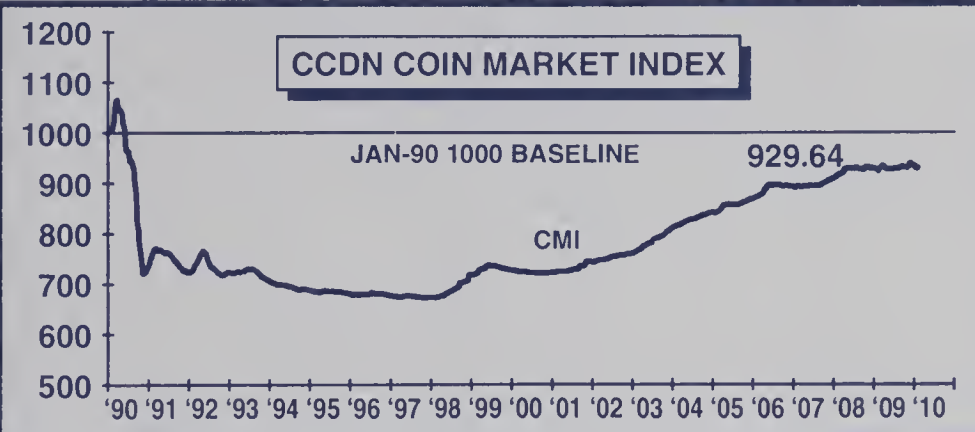

pleased to take these off your hands for \$290 each, in PCGS or NGC slabs, regardless of what the coins look like. All this positive action is taking place even with Silver Spot at a five-month low, now at \$15.34 an ounce.

Mint State Copper Type enjoys a plethora of upticks distributed across the Half Cents, Large Cents and Indian Head Cents. The only downtick involves Gem Liberty Nickels where an example that sold at auction necessitates an adjustment to \$340 for PCGS MS65 specimens. Within this market segment, NGC has nearly twice as many visible sight-unseen Bids at or near current *Bluesheet* levels than PCGS. Mint State Gold Type makes an overall movement in the direction of the Spot price, which is to say downward, as Gold Spot has now slipped to \$1,062 an ounce. This \$50 fall represents the worst day for Gold Spot since December 1, 2008. PCGS Gem TIII \$20 Libs drop to \$4,200. The PCGS Pop for the Type/grade is 4,875. The 1904 alone accounts for over three fourths of this total.

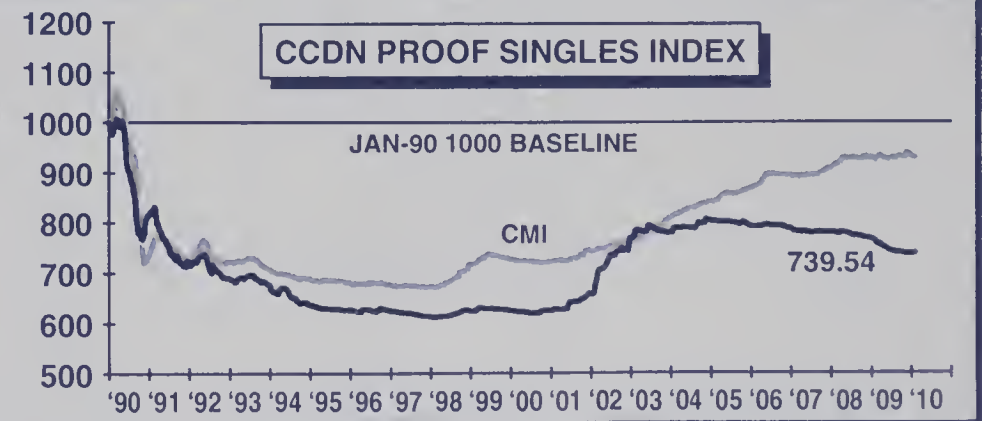

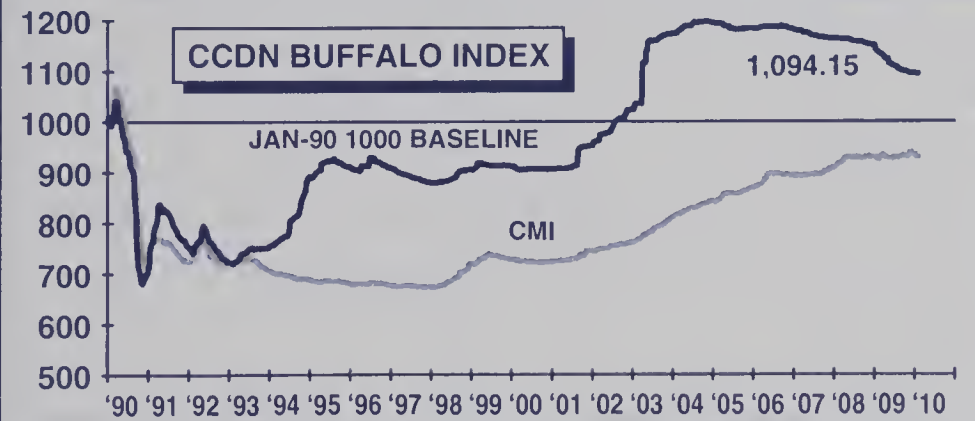

The Buffalo Nickel chart is host to a couple of minus signs, both adhering to Gem quality NGC coins, the 1920D and 1925S, an example of each of these performing poorly at recent auction. Interestingly, a PCGS MS65 example of the 1937D 3 Leg variety, with a *Bluesheet* Bid at \$20,000, saw a sight-seen trade on the electronic networks take place at the \$36,000 level, ever reminding us of the vast difference in value between sight-seen and sight-unseen material.

Heritage, the host auctioneer for the Long Beach Expo, is just hours away from their sale. The Goldberg's pre-expo auction is now in the books, and we have included a few certified examples herein. A little more than a week from now, Feb. 12, Scotsman offers 900 plus lots of US coins in Saint Louis, Missouri. A month away is the Baltimore Whitman Coin Expo and a sale from Bowers & Merena, the host auctioneer. The mid-year ANA National Money Show, never too far from the mind's of collectors and dealers, is scheduled for Mar. 25 to Mar. 28.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

Peace Dollars Make A Ruckus Dealers Weather Storm

Numerous dealers characterized the recently concluded Long Beach Expo as better than their previous Long Beach experience. Is this perhaps a sign that the rare coin market is in sync with the overall economy? The economy, according to experts including Fed Chair Bernanke, is in a fledgling recovery, albeit fragile, and will take years to return to normal growth. The Goldberg's and Heritage sales that extended over the course of one week yielded up over \$15 million in coins transacted. All in all, this appears to be a somewhat downsized market, but not one that has changed in its fundamentals, something that was much feared at the onset of the recession.

The blizzard conditions that have slammed the Mid-Atlantic region have resulted in a tremendous disruption to travel and business in those areas hardest hit, including Washington, D.C. Thousands of flights have been cancelled along the East Coast, not to mention that locales as far away as California are unable to take flights into certain areas. The U.S. Mint is closed as is the entire federal government, which has been shut down for three days as of this writing. The Post Office has suspended deliveries. Of course, this has slowed down activity in the numismatic world significantly, stopping the road warriors in their tracks. In addition, parcel deliveries of bullion as well as purchasing opportunities have been thwarted by the record breaking snowfall. Of course, numerous mom-and-pop shops have simply had to close their doors and stay home, holed up until the storm passes over.

Silver and Gold Commemoratives held up well during the recent auctions in and around Long Beach. There are some minus signs on both charts, though; the most sizable dollar decline goes to the 1905 Lewis and Clark \$1 in PCGS MS64 as it drops \$250 from its previous Bid. It is notable that an NGC example of the Octagonal Slug realized \$100,625 against a sight-unseen Bid of \$95,000.

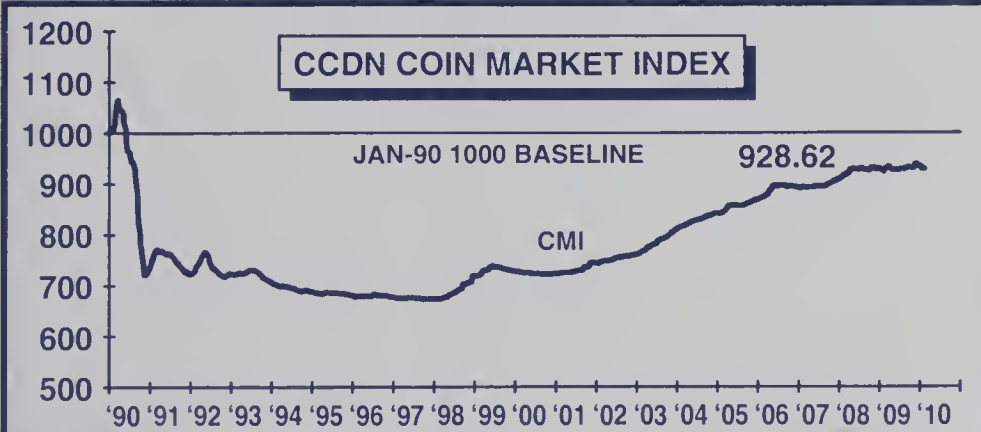

Morgan Dollars undergo some downward tweaking. Ironically, the auction venue is not the sole reason. Instead, a number of coins were traded electronically at lower levels, mostly coins Bid under \$1,000. These coins were traded in strict sight-unseen fashion. The big action this week is on the Peace Dollar chart. Five issues in Gem and above have been Bid to higher levels, two of which are in the 5-figure range. One of which is the 1924S in PCGS MS66, rising to \$10,000 for this pop 5 coin with none higher. An even more impressive increase is in place for the 1928 in PCGS

MS66 as one dealer is willing to pay \$11,000 for any one of the 11 examples graded so far, with none graded higher; previously, the high Bid was \$7,000.

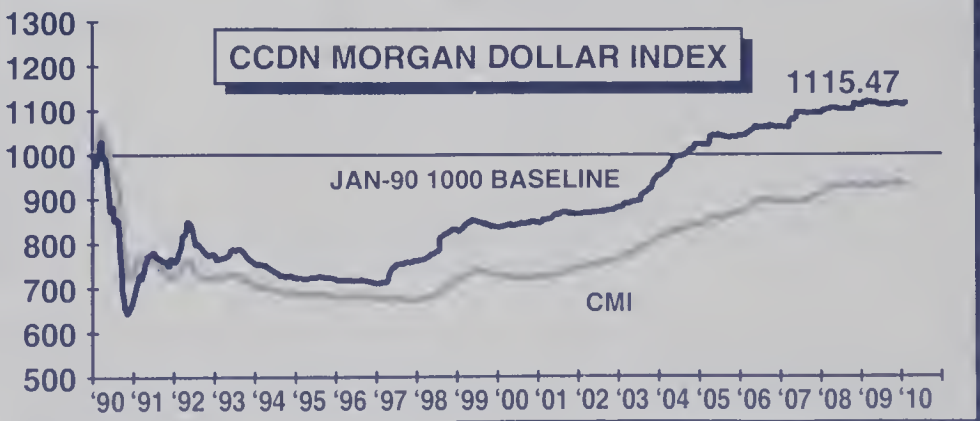

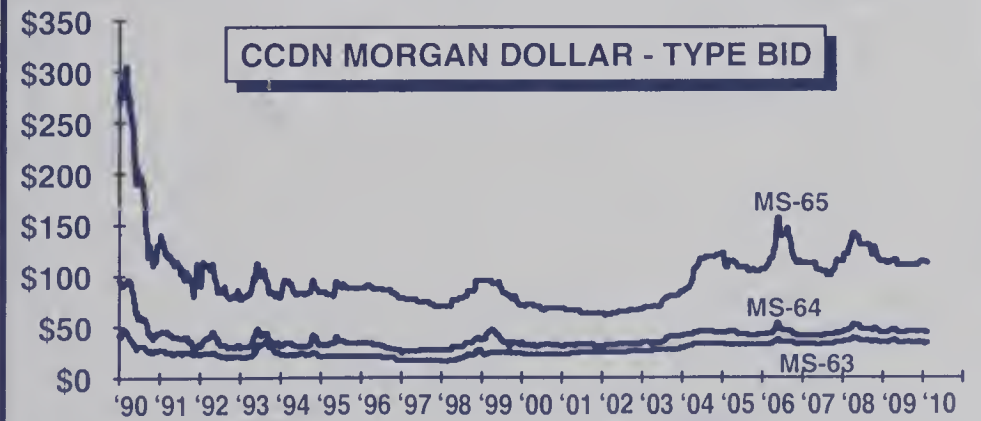

The Mint State Type chart is good for one plus sign, and that is for Standing Liberty Quarters with Full Head graded Superb Gem by PCGS. The new high Bidder is willing to pay \$2,400, and will take them sight-unseen. Activity within Mint State Gold Type is widespread. At least one dealer has stepped into the fray for TIII \$20 Libs, offering a little bit more on five of the listings to acquire this material. With Gold Spot losing 5% in two days last week, auction prices realized for Mint State Gold Type suffered, reflecting this drop. There is an advance on the Early Gold Type chart for the Draped Bust, Large Eagle \$10 1797-1804 in PCGS AU58, now Bid at \$11,000, with NGC examples Bid \$17,500.

Proof Type softens this week as the result of recent price realizations, primarily surrounding the Long Beach Expo. Many feel it is better that some of these more esoteric issues trade at some price level as opposed to not trading at all. The casualties include Flying Eagle Cents in NGC PR66 and PR67 and the Seated Dimes with Arrows of 1873-1874 in NGC PR66. The declines on the Flying Eagle Cents are non-trivial, not to mention that there is still downside potential given that this Type is not supported whatsoever by way of visible sight-unseen Bids. A handful of 20th century examples sold for a discount recently, resulting in a few minor declines for Buffalo Nickels, Mercury Dimes, Washington Quarters and Walking Liberty Half Dollars. The most notable issue is perhaps the 1925 Mercury Dime as it takes a hit in the MS66FB and MS67FB columns, dropping by as much as 9%.

A 1995W American Silver Eagle, graded PR70 by PCGS, a population two coin, is one of the more exciting lots in Teletrade's Feb. 28 sale. The popularity of the Proof Silver Eagles in the Registry Set world rivals the popularity of some of the most traditionally collected series like Morgan Dollars and Lincoln Cents. A Bidding war is likely to ensue among the 1,800 registrants who would love to add this coin to their Registry Set. The Baltimore Coin Expo is scheduled for Mar. 4-7 along with a sale from Bowers & Merena, the host auctioneer. Highlights from the Bowers sale include a 1901S Barber Quarter, PCGS MS68, the only such coin graded at this level; a 1909S V.D.B Lincoln Cent, PCGS MS66R; an 1842C \$5 Liberty, Small Date graded MS63 by NGC, and CAC stickered.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report - an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

To learn more, visit www.NGCcoin.com/security

Now you can verify certification on the go.
Visit m.NGCcoin.com from your mobile device.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

2009 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than \$930 over First Class postage stamps!). Need just one state or region? Need a trial sample? Contact us for details!

YES, I want to order mailing labels averaging 5,000+ names from the 2009 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

My check for \$325 payable to CDN, is enclosed.

Sight-Unseen Market In Need Of Fresh Bids

The numismatic calendar was seasonably quiet on the national front. That and the insane weather in the Mid-Atlantic region prompted dealers to stay put for a moment and carefully review inventory in preparation for the upcoming shows and auctions. At the regional level, a show in Saint-Louis came off without a hitch, the weather not stopping any of the action. In a separate Saint-Louis venue, Scotsman held an auction that realized \$859K. The word out of Saint-Louis confirms what many market observers have been saying for some time now: over-graded coins, or those with any hint of a problem, are extremely difficult to move, while PQ material trades based upon a coin's individual merits.

Bidding activity within Silver Commemoratives is mixed this week. The 1936 Oregon Trail Memorial climbs to \$175 for Gems residing in NGC holders. The downside involves a couple of Sets, the 1937 Texas PDS in MS66 and the 1937 Arkansas in PCGS MS65. Gold Commems enjoy solid support across-the-board in grades MS63-MS66, including the \$50 Pan Pac slugs. Gold Commems represent one segment of the market where dealers believe that the quality of PCGS and NGC material is virtually equal, resulting in very tight spreads between the two grading services.

Morgan Dollars have a new player in town in need of a couple of New Orleans issues in MS63, pushing sight-unseen Bids for the 1880O to \$265 and the 1891O to \$240. A few Carson City Morgan Dollars sold for less than sight-unseen levels—a situation that has become routine—suggesting that perhaps Bids are placed for coins, inventory needs are filled, but the Bids are not updated or removed. In the context of CC Dollars, the dollar amounts are modest, but the situation arises in other areas where the dollar amounts are significant, possibly causing problems by keeping the market propped up with stale Bids, hindering transactions. New counterfeit Morgan and Trade Dollars have shown up, reportedly through eBay, including an 1894S in a PCGS AU58 slab. At least one tell-tale sign of these fakes is a sharp overhang on the edge of the slab where the two plastic halves are not sealed in alignment. The PCGS barcode and number unfortunately will match that of the real coins, as with nearly all recent counterfeits.

Peace Dollars remain extremely strong with visible, sight-unseen buyers available for every date in MS63 for either service. This amounts to an offer of \$6,300 for a full

24-piece set from either service. There are four minus signs, however, with the largest decline being the 1927D in PCGS MS64, which drops \$40 to \$625. The Mint State Type portion of the market is quiet from the standpoint of plus signs and minus signs; sales and offers to sell not necessitating any adjustments to Bid. Of the 94 Type coins listed there are 18 that are supported at or near Bid for coins graded MS65 by PCGS. On the NGC side in that same grade the tally is 59. Mint State Gold Type enjoys widespread,

positive movement in a natural response to Gold Spot's recent advances. Double Eagles, both Saints and Libs, move up across-the-board, with the largest advances occurring in the lower Mint State grades, over 5% in MS61.

There are no changes to report for Proof Type in any denomination. The sale of the 1892 \$20 Liberty, graded PCGS PR66 DCAM – an undeniable "monster" and formerly in John J. Pittman's collection – sold for \$120,750 and will be noted in next week's market column against a current *Bluesheet* Bid of \$100K for an "ordinary" PR66 example. Buffalo Nickels are generally quiet, and have an undeservedly poor showing of relevant, sight-unseen Bids. This is rather unfortunate for this uniquely rich series of coins, popular with newbies on a budget, as well as affluent

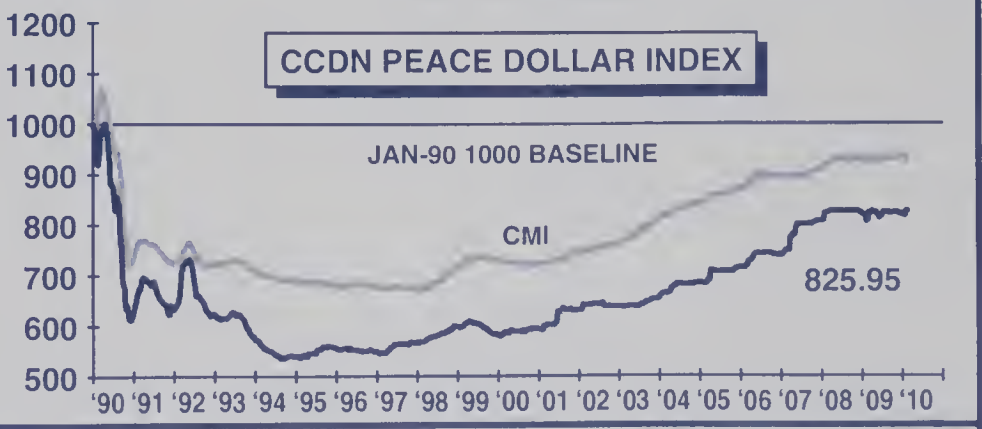

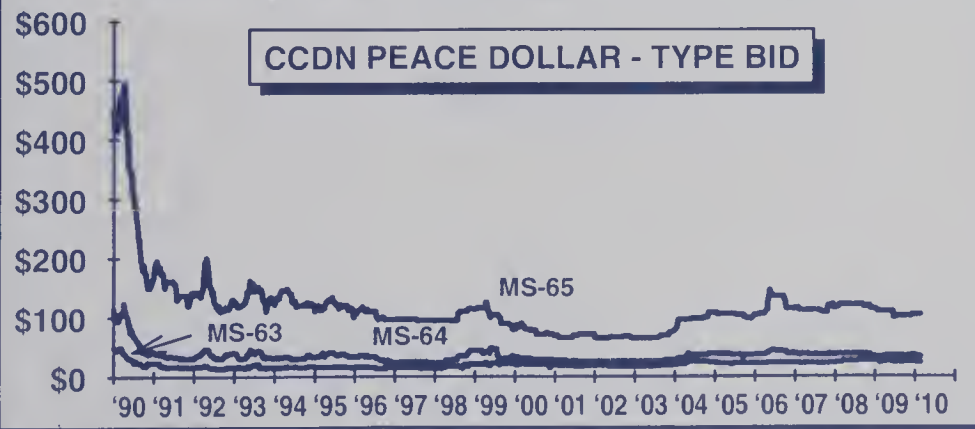

collectors in pursuit of Registry quality sets. Mercury Dimes remain pretty much status quo, although a couple of modest declines are seen for NGC MS66FB examples. Common date Walkers drop once again in MS65 as a number of examples traded electronically in addition to a handful being sold at public auction for less than the previous level of \$95.

The PCGS Vegas invitational is wrapping up on Feb. 20. Undoubtedly, a few dealers will elect to stay in Sin City for the 47th annual LVNS coin show, dubbed "The Best Retail Show in the West" with dealer set-up scheduled to begin Feb. 25. The Baltimore Coin Expo is up next, scheduled for Mar. 4-7 along with two major auctions. Stack's is set to conduct their Eliasberg and Krause Collection sale Mar. 2-3. Bowers & Merena, the official host auctioneer, will conduct their sale Mar. 4-6. A highlight preview of the B&M sale is listed herein. Teletrade is set to conduct another CAC only sale, on Mar. 9. To date, CAC has received over 144,000 submissions, and have approved over 68,000 with a green sticker, while a mere 296 have received the coveted gold sticker.

------	---	-----	---

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In the cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

\$100 Million Milestone

CAC has passed the \$100,000,000 milestone by leaps and bounds

In just a short amount of time, CAC has purchased more than \$100 million of CAC verified coins from the dealer community. With that milestone now well surpassed, CAC continues to race on, seeking and purchasing stickered coins. That's because CAC strongly stands behind coins with the "green bean" as an active bidder in the market. And as CAC stickered coins gain recognition for trading at a premium, you can only imagine how fast the next milestone will be passed.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

CAC[®]

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

2009 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than \$930 over First Class postage stamps!). Need just one state or region? Need a trial sample? Contact us for details!

YES, I want to order mailing labels averaging 5,000+ names from the 2009 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

My check for \$325 payable to CDN, is enclosed.

Baltimore Eagerly Anticipated CAC Gaining Ground

By the time the Stack's sale, which is set to begin Mar. 2, gets underway in Baltimore, it will have been nearly a month since the last national level show and auctions concluded in and around Long Beach. Then there was a two week period where weather conditions, especially along parts of the East Coast, brought some coin businesses including the US Mint to a snow impacted halt. Lest we forget that, we are in the midst of a fragile recovery from the longest recession in US history, and it is no surprise that the upcoming Baltimore show and accompanying auctions are eagerly anticipated. They ought to provide much needed clues and direction for the certified coin market as well. Additionally, the Baltimore festivities will further highlight the level of impact of CAC approval upon price realizations at auction. The Bowers & Merena sale includes 171 lots featuring coins with a CAC sticker. The "green bean" appears on a wide range of numismatic material. At the lower end of the dollar spectrum are items like an 1882S Morgan Dollar graded PCGS MS67 CAC. At the high end of the scale is an 1842C \$5 Liberty, NGC MS63 CAC, nominally a six-figure coin. The Stack's sale boasts a more modest 40 lots of CAC coins, but covers a similarly wide range of material from an 1883 No Cents Liberty Nickel, PCGS PR65, to an 1853 Liberty Seated Dollar, NGC MS64. Richard Nachbar will once again host a sealed Bid auction in Baltimore. Most of these coins, 19 of a total of 24 in fact, are CAC adorned. Two offerings, a pair of \$5 Liberties graded MS63 by NGC, have been awarded the rare and coveted gold sticker. Keep in mind, only 296 of the 144,000 submissions to CAC have received a gold sticker. Yet another sticker themed auction is on the horizon with Teletrade hosting their CAC only sale, on Mar. 9. Perhaps in time, the CAC sticker will enable quality coins to be traded sight-unseen, something that as of today is a medium for trading generally low-end material.

The sight-unseen market for Silver and Gold Commems is status quo. The upcoming Bowers sale, which includes 25 Silver Commems graded MS67 including a 1921 Alabama Centennial, NGC MS67, will undoubtedly provide valuable information to help analyze the state of the ultra high end market in this series. A number of high dollar Gold Commems will also cross the auction block, including a \$50 Pan Pac Round slug graded PCGS MS66. Morgan Dollars remain extremely robust with sight-unseen buyers available for all common dates across-the-board in grades MS61-MS67 at published levels. Quality cartwheels, both common and better dates, are also performing well. Reports from local and regional shows indicate that such

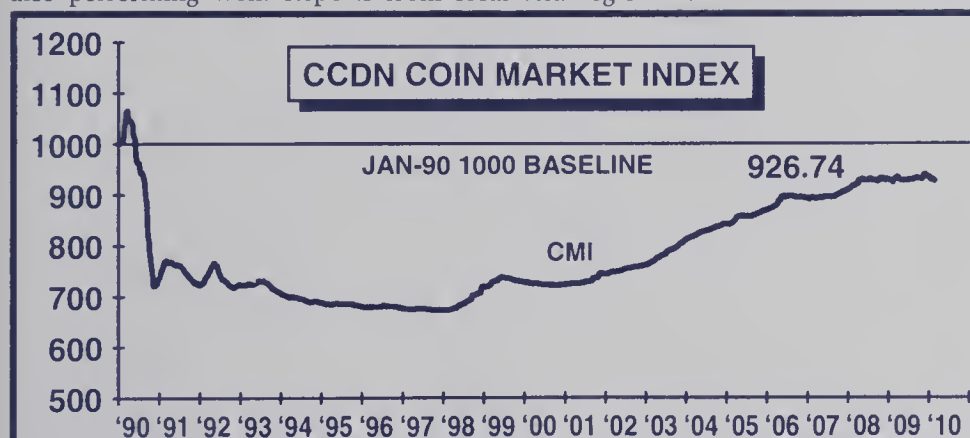

material is "selling like hotcakes" when priced properly. The few minor declines present are the result of lower asking prices and/or trades. Peace Dollars are good for two sizable advances, specifically the 1925S and 1927S, both in NGC MS64. The \$50 and \$60 increases on the '25S and '27S amount to 11 percent and 9 percent, respectively.

Moving on to Mint State Type, we see an increase for Liberty Seated Dimes With Legend, PCGS MS63, and a \$25 drop for Twenty Cent Pieces in NGC MS64, these being the only outward signs of activity for this area of the market. This week's Market column reveals how some Types performed at recent auctions, denoted by "a", and also reflects current offers to sell, denoted by "w". For example, a PCGS MS65 Barber Quarter sold for \$805 as noted in the market column by "a 805". Another example is the availability of a Liberty Seated Half Dollar With Motto, NGC MS65, for \$4,000 represented by "w \$4,000".

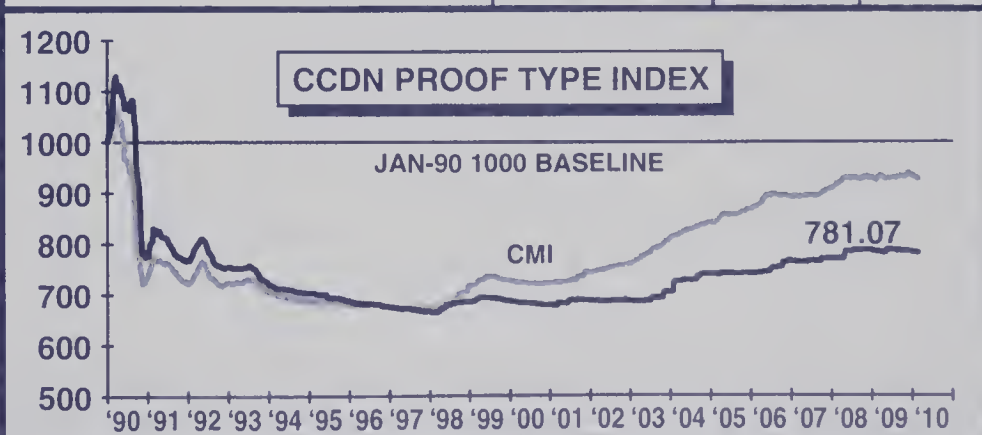

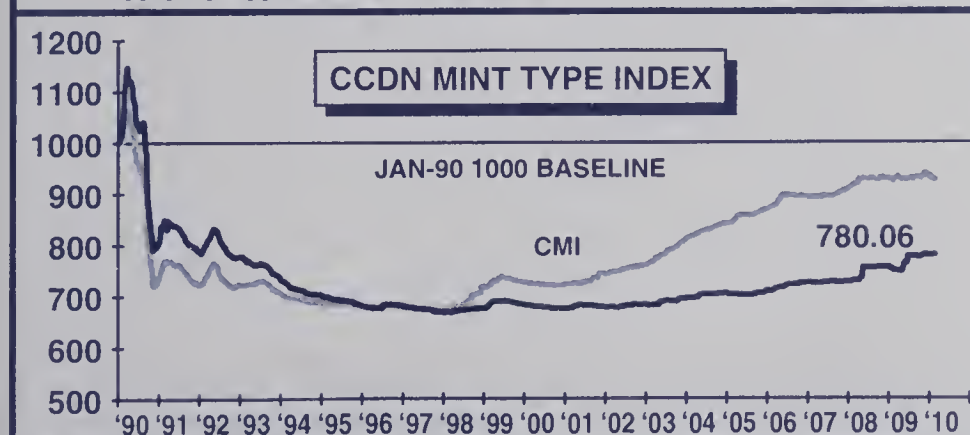

Mint State Gold Type involves a number of changes including both grading services. As we hover around \$1,100 per ounce level, much of the smaller size Gold Type is increasing modestly, specifically for NGC graded material. Double Eagles are mostly steady, with a few upward adjustments recorded. On the down side, of the nine declines, the most significant reductions are hitting \$10 Liberty Heads and \$10 Indians in MS65, losing as much as 5% from last week.

There are no real changes to report this week for Proof Type, Copper, Nickel, Silver or Gold. At least one interesting development coming to light is the fact that not a single meaningful sight-unseen Bid can be found for PCGS Proof Gold. This week's Market column does provide a wealth of information, showing the prices at which many of these Proof Gold Type coins have traded in the not-too-distant past. The symbol, "oa" (old auction) refers to results that are between 30 and 90 days old.

The Buffalo Nickel market, as well as the Mercury Dimes are bereft of minus signs or plus signs. In fact, Mercury Dimes have moved lower since this bull market started nine years ago, earning the title of worst performing market segment. The CCDn Coin Market Index was 758.43 in 2001 and is at 746.78 today, with no real volatility in between. Walkers show just a couple minor adjustments this week, that being the 1942D in MS66, now Bid \$210 and \$82 for the 1945D in NGC MS65. What can't be seen is that sight-unseen buyers are available for nearly all dates from 1934 on in grades MS61-MS64.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers — are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell list, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month, "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Gresheet) Bids have always represented fully deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

VARIETY DIAGNOSTICS

Hubbed front with a large date design. Small hubbed areas with a small date design. Doubling mostly on the inside of date especially on "960" variety.

COMMENTS

This is a very strong variety that continues to gain in popularity. Its popularity will likely be maintained as the only mint state overdate known for the 1960 cents.

The Beauty's in the Details[®] NGC's VarietyPlus

The NGC VarietyPlus Catalog
Just another way NGC demonstrates
our ongoing commitment to the
hobby. This free online resource
now includes even more attribution
information, along with detailed
photographs of your favorite varieties.

The Online VarietyPlus Reference Guide

The most popular and widely sought-after US coin die varieties are recognized in VarietyPlus, NGC's variety attribution program. Now, new tools for collectors make VarietyPlus better than ever! NGC is pleased to introduce the latest version of the NGC VarietyPlus Catalog. Expanded content includes:

Guides to Variety Collecting by Coin Series

Get overviews and historical
information for every major
coin type.

Diagnostics Information

Learn the easy ways to identify
important coin varieties.

Cross Reference Information

Variety descriptions include
multiple catalogue numbers
corresponding to the most
widely available specialized
references.

Population Reports

Get up-to-date population
reports for each variety, straight
from the NGC Census.

Detailed Images

View rich photographs and
close-up perspectives of many
VarietyPlus varieties.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

"Because Confidence is Priceless"

PCGS Proof Gold Wakes Up Stack's Pre-Baltimore Sale Realizes \$4.2 Million

Things are off to a pleasant start in the Baltimore environs as Stack's completes a two-day, four-session sale where prices realized were in excess of \$4.2 million. Many of the folks reading this perhaps witnessed the sale of lots 454, 455 and 456, historical documents relating to the Eliasberg and Clapp Collections, which realized \$51,750, \$57,500 and \$37,375 respectively. When an inventory of Eliasberg's coins—typed on onion skin paper—regardless that it is now elegantly hardbound and includes extensive comments by Walter Breen, sells for 38 grand, it is a pretty safe bet that the market for rare coins is full of players waiting for an opportunity to purchase coins. Another charming item in the sale was lot 518, a complete set of Wheat Back Lincoln Cents from 1909 to 1958 in a two panel, Capital Plastics holder, sans the 1922 "Plain", that brought \$18,400. If it was assembled "back in the day" one has to admire the collector's fortitude and eye for quality at a time when Mint State distinctions were not prevalent in the marketplace. Conversely, if the set was assembled recently, it is somewhat inconceivable that coins of that quality would be located outside of a TPG holder. Certified highlights from the Stack's sale are listed herein.

Silver Commems undergo three downward adjustments. A rather handsome 1949 BTW PDS Set, each of the three pieces graded NGC MS66, sold for \$345, significantly less than the previous Bid of \$420. Indeed, Bid drops to \$350, which is the price a dealer is willing to pay, sight-unseen, for this trio of coins. We harp on this subject, but it is astonishing that someone would place such an item at auction, incur the seller's and buyer's premium costs, wait for final payment ... and leave money on the table. Gold Commems are witness to a \$25 increase for any 1917 McKinley Memorial Gold Dollar graded MS64. Bid is now \$800. This otherwise well-supported segment of the market is externally quiet. There are a few tweaks to the pricing of ANACS and ICG coins worth visiting. Most notable is the decline adhering to ICG MS65 examples of the Isabella Quarter.

Morgan and Peace Dollars are quiet for the moment, though the recently concluded Stack's sale and the upcoming Bowers sale which is set to begin as we go

to press, should provide valuable information on this segment of the market. The two most expensive Morgan Dollars in the Stack's sale, an 1884S MS63 and an 1889CC MS63 DMPL, both graded by PCGS, did not sell. The sale of a 1928S Peace Dollar, PCGS MS65, for \$25,300 against a *Greysheet* Bid of \$20,400 reinforces the fact that quality coins bring quality money nearly every time. This week's GSA listings are mixed. All in all, the movements are trivial. The newly released reference book on GSA CC Dollars might help to re-stimulate this market, which was wildly hot a few years ago.

Mint State Type suffers no adverse activity, while Mint State Gold Type is replete with positive momentum. \$20 Saints, along with many other issues, are advancing. The few minus signs on the chart are minor and may in fact be the result of sales which took place five or six days ago, so that in this highly volatile arena it would not be surprising

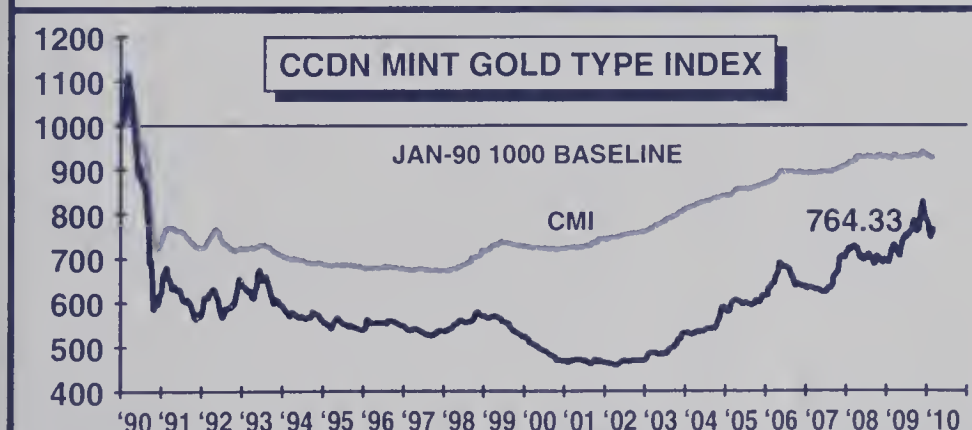

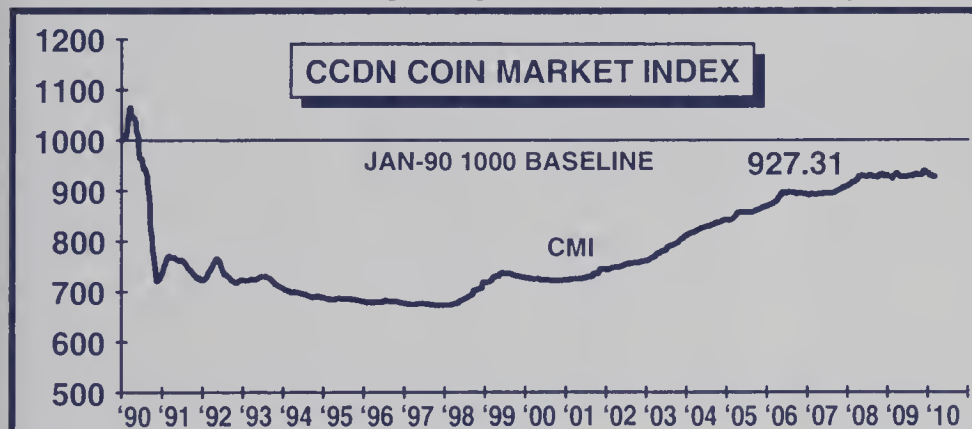

to see someone step in and reverse those minus signs at any time. The ANACS and ICG listings reflect similar advances to Mint State Gold Type.

Proof Copper, Nickel and Silver Type boast no changes whatsoever. Not so for the Proof Gold Type, where we can joyfully point to multiple increases for listings involving the \$1 Princess and \$2½ Quarter Eagles in PCGS holders. Understandably, serious study and contemplation is required before posting Bids for such material. One can hope that perhaps the larger denomination coins will be reviewed next, and fresh, sight-

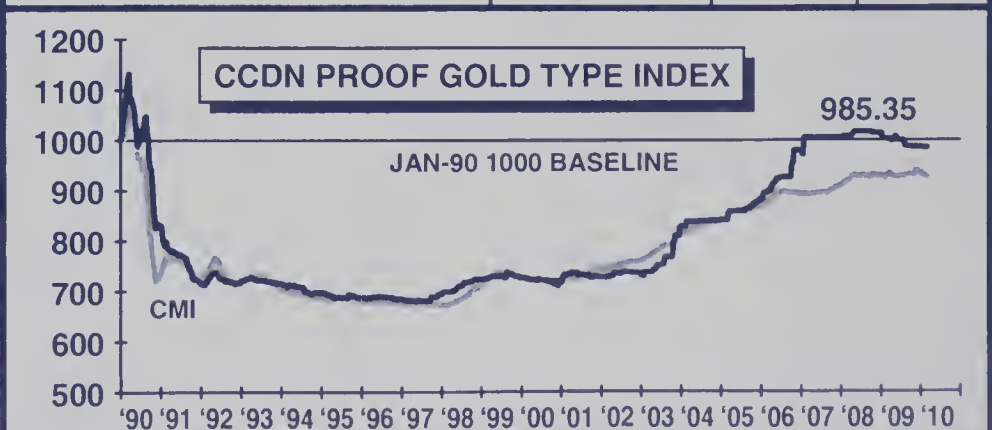

unseen Bids posted in the near future.

Apart from a \$2 increase on the 1945D and \$2 decrease on the 1946D, both involving MS65 NGC coins, the Walking Liberty Half Dollars are remarkably quiet. It is worth reminding the crackout artists that there is a standing offer of \$40,000 for a 1942S in PCGS MS67 plastic. To date, only one has been made, while 327 reside in 66 holders. Buffalo Nickels have finally received some long overdue attention on the NGC side. In any event, higher Bids are in place for a number of issues, including the 1920D in MS63 and MS65, now Bid \$1,050 and \$3,450, respectively.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,

Peace Dollars Rage On Mercury Dimes: "The Lost Decade"

Let's recap the week in sight-unseen trading, beginning with Gold Commems, which had a slightly peppier week than their Silver brethren. The \$2½ Pan-Pac in NGC MS63 to MS66 shows considerable strength. The other Quarter Eagle, the Sesqui, is up as well, posting gains in NGC MS64 and MS65. A PCGS MS66 \$50 Pan-Pac Round sold at auction in Baltimore for a whopping \$281,750. This is a PCGS pop 1 coin with no previous auction results. Just over a year ago, an MS66 example graded by NGC sold for \$138K. There is some downside to report, with the largest decline being a 1904 Lewis and Clark Gold \$1, falling by 6 percent, to \$800. Two Silver Commems declined this go-round, the Hawaiian in PCGS MS64, and the Missouri, in like grade. We note that a Lafayette Dollar in NGC MS65 sold for \$5,635 at public auction in Baltimore. There is at least one dealer that will pay \$6,150 for that coin – sight-unseen. That's \$500 plus commissions left sitting on the table.

Morgan Dollars enjoy a wide range of positive advances, pretty well distributed across both services. MS63 Morgans are now pegged at \$34. Such a large volume of generics previously trading at \$33 probably serves to indicate that product has dried up at that level, necessitating the one dollar increase, which is a not-so-modest 3 percent. Recent auctions indicate some distress in this segment, as eight four-figure Morgans lose ground. Peace Dollars offer a much rosier outlook. A wide swath of listings are in positive territory, with six issues advancing by greater than 10 percent. While recent auction activity has resulted in a handful of declines, none involve coins that have a Bid of over \$1,000. Peace Dollars have been on an incline for over a month now, and are currently one of the leading market segments we report on. Mint State Type fared nicely in Baltimore. There are only two visible declines to report – Seated Dimes, No Drapery, NGC MS66, and Barber Half Dollars, PCGS MS63. Do not allow the minus signs on the Mint State Gold chart to deceive; this phenomenally active area of the market appears to be firming once again, having softened a little – as all markets do – after Gold Spot achieved world record highs on a daily basis in December 2009.

Market observers have often commented that the offering of a stunning collection of coins is the single most effective advertisement to attract collectors. In this case, we are thinking of the gorgeous Barbers that appeared in the January Goldberg sale. Proof Type posts net gains this week for NGC nested Barber Half Dollars, PR63 to PR67. An 1859 Indian Head Cent in an old green holder falters in PR66, and Bid drops to \$4,300. This Cent is a one-year Type coin with a PCGS pop of 19 in PR66 and one in PR67. Proof Gold Type appears to be comfortable at its present cruising altitude. The sale of a PCGS PR62 \$20 Lib for \$15,525 easily surpasses the "worst case scenario" of \$11,000, the current sight-unseen Bid.

Generic Mercury Dimes have been active of late. Last week, \$8,100 worth of MS66FB and MS67FB Mercs flew across the wires on the CCE Big Generic Market. Year-to-date, the total traded is just over \$51,000. Since the inception of the CCE Big Generic Market, the total is \$83,127. Hopefully, this bodes well as we close out what might easily be dubbed the "Lost Decade" for Mercury Dimes. A study of every listing on the Merc Dime charts reveals that, compared to 10 years ago, more

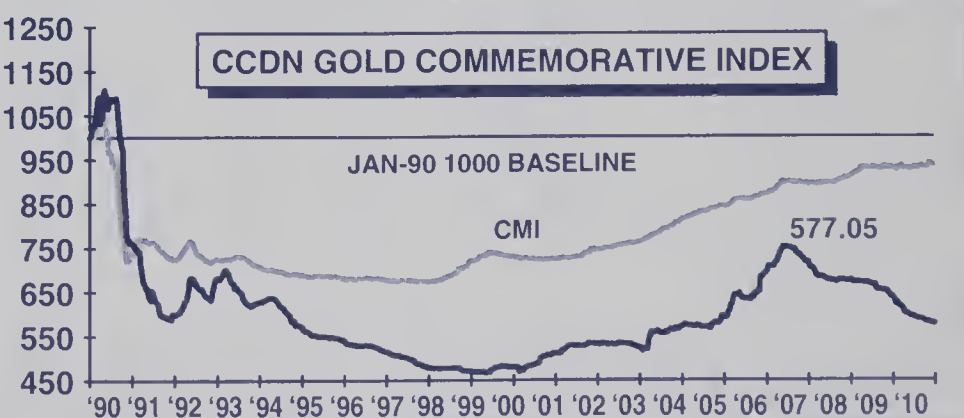

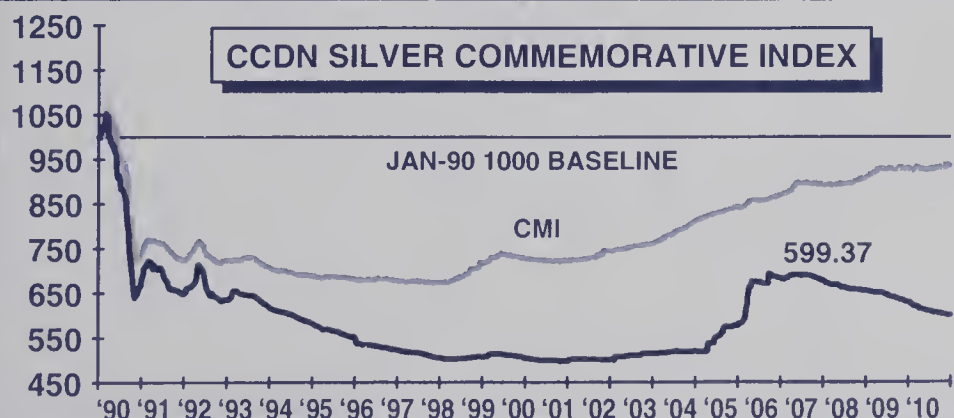

than half of those listings are down, many having lost anywhere from 50 to 70 percent of their value, while the much lower number of listings which have advanced, roughly one-third, are up by a much smaller proportion. See the graph herein comparing Mercury Dimes to the entire sight-unseen market over the last ten years. Walking Liberty Half Dollars, through a peculiar blend of advances and declines, now list an unusually large number of common fare Gems at \$86. Many of those listings are coins that are usually offered on the retail side at a significant premium to Type. Unfortunately, Proof Walkers do not appear to have located a sight-unseen bottom with a PCGS

PR65 example of the 1936 suffering a precipitous 11 percent decline to \$3K.

Aside from the many local and regional shows scheduled this month, several dealers will be heading to Chicago for the CPMX, March 18-20, where Lyn Knight will host a paper money auction. This will be followed by the ANA National Money Show, March 25-27 in Fort Worth, Texas. Heritage will serve as the host auction house of the show, with a 4 floor-session sale of nearly 3,000 lots of US coins.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

.. Betty Morris

6 Months-\$65 1 Year-\$117 2 Years-\$193

Zip

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

Your kind of world?

Have we got a place for you.

One online community understands that passion for the hobby reflects how collectors see the world — the **NGC Registry**.

Users of the Registry enjoy the most comprehensive online showcase of sets, and many exciting features:

- Awards competition
- Custom-designed Signature Sets
- Personal coin galleries
- Collectors Journals (blogs)
- Integrated messaging

Engage with collectors and share the passion.
To begin, visit **NGCcoin.com/Registry**

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report - an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CAC

"Because Confidence is Priceless"

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Need to MAIL?

**SAVE MONEY
ON POSTAGE!**
We will
pre-sort your
mailing labels
to get you the
BEST RATE!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.

MARKET CONSOLIDATES PRIMARY STRENGTH DISPLAYED AT AUCTION

ACTIVITY

across the market

By Robert Fisher

The outlook for the collectible currency marketplace appears marginally brighter than at this time one year ago. As 2009 drew to a close, the peak levels of an overheated market had been reached and were, nearly a thing of the past. Transactions were continuing, both as to their overall numbers and the levels at which they were taking place. A general air of trepidation as to what the future held pervaded the market. Dealers were reluctant to buy for fear that more attractive prices would likely be available from the simple expansion of waiting. Buyers were concerned with contradictory price levels both with secondary auction activity and prices for sale offerings at yesterday's much stronger prices from sellers reluctant to accept the sale yet understandable, real, that there still was no market as to what there had paid. Indeed, it was difficult to believe where levels really were as those who remained market makers bought and sold at what the current interplay of supply and demand dictated, while others sought to transfer the consequences of a decline in value of their inventories onto the shoulders of buyers less informed of the new lower levels than they should be. The one bright spot yet in evidence a year ago was that auction sell-the-high sales remained at a higher level than might have been expected in a market that was truly collapsing, rather than simply undergoing a price correction to rebalance supply and demand at more rational price levels.

As we move on to the new year, what might be some have seemed a lingering depression in the marketplace, would have clearly it came to pass. The various auction companies active in the currency trade are conducting sales consistent in size with their offerings of a few years ago, although the product mix has clearly changed. One feature that once commanded mid six figure and higher prices are far less often available at auction now. As sellers of such items wait for a hoped for return to higher levels for such items. While overall prices undoubtedly remain significantly lower than two years ago, auction sell-through rates, a real measure of the balance between seller and buyer price expectations, continue to suggest growing levels of underlying demand prompted by the lower prices currently in effect.

LARGE SIZE TYPE NOTES
Prices for Large Size Type continue to slowly recover, rather than continue to fall. U.S. and P.M.S. certification has become a near necessity for any item represented as being some degree of uncirculated. Indeed, driven by the concept of regular sets, where buyers compete against each other to claim boasting rights to the finest holdings in various categories, the two certification firms have invigorated a clear way of presenting demand for their product at the very end of the marketplace. Here there actually exists the most logical and useful demand for their services, i.e. the upper end of the necessarily somewhat supportive quality spectrum in the 11 point 1 inch graded range where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third party

grading label attached to an item. The same is true of the 1 inch graded range where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third party

SMALL SIZE TYPE NOTES
Prices for Small Size Type continue to slowly recover, rather than continue to fall. U.S. and P.M.S. certification has become a near necessity for any item represented as being some degree of uncirculated. Indeed, driven by the concept of regular sets, where buyers compete against each other to claim boasting rights to the finest holdings in various categories, the two certification firms have invigorated a clear way of presenting demand for their product at the very end of the marketplace. Here there actually exists the most logical and useful demand for their services, i.e. the upper end of the necessarily somewhat supportive quality spectrum in the 11 point 1 inch graded range where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third party

FRACTIONAL CURRENCY
Fractional currency remains very much a difficult area, as opposed to a speculative dominated area. Although levels are very attractive, a material of a given size in remaining well below that of Large and Small Size Type Notes. This is due to the fact that the material is not as well known as the Large and Small Size Type material, and the material is not as well known as the Large and Small Size Type material, and the material is not as well known as the Large and Small Size Type material.

NATIONAL BANK NOTES
National Bank Notes, comprised of multiple geographic specialties, are a rather more specific than the other currency specialties. The material from the demand side is not quite as strong as ever, but is surprisingly strong at auction, while material from the supply side is more robust following well continued early levels that can leave sellers feeling somewhat better than they are and quite disappointed. It can be a hard lesson to learn in any collectible marketplace, but there is a real distinction between what sellers think something ought to be worth and what it actually is worth based on the interplay of potential buyers competing against each other at auction. What the seller and what he wanted is what he thought the item should be worth is really quite different from the entire process. Some sellers seem to figure this out

MISCELLANEOUS
The business continues to be a bright spot in the market, with material moving at a brisk and growing demand. This remains an area driven by unmet collector's, with very little involvement by the third party certification firms. The exception is for extremely common items that are marketed as 27 or higher to buyers more impressed by the certified grade label than the ease of locating and acquiring an item.

The Green Sheet reports the national currency market on a monthly basis.

Fresh, Five-Figure Sight-Unseen Bids Abound Gold Commems Heat Up Across-the-Board

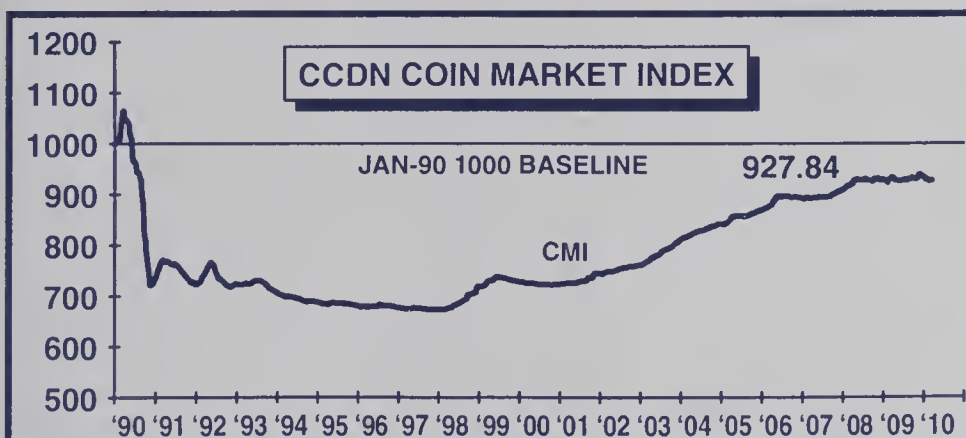

Some of you are no doubt en route already, others perhaps are getting ready to embark, and in a few days, most of our readership will have arrived in Fort Worth, Texas for the ANA National Money Show and sale by host auctioneer, Heritage Galleries. ANA conventions always provide a plethora of numismatic events and "not-so-numismatic" but fun. (The March 24 BBQ, by the way, includes the opportunity to tour a BEP facility located nearby.) Many of us that have attended an ANA convention find there is something special about the buzz at an ANA show. To be sure, there are some fabulous shows on the circuit and the list keeps growing. What sets the ANA shows apart is their membership — its legions of collectors and dealers — which is perfectly suited to bring together the best, the brightest, the largest, the most distinguished participants in the hobby, show after show, year after year. This year's show has even more anticipation heading into it than usual with the "Big One" announcement coming from PCGS on March 25. Hyped up for months, this is said to be the most important announcement the grading company has ever made and "will change coin grading for the better."

Silver Commemoratives — unlike a couple of the market segments we review each week — is remarkably slow heading into the ANA. Sometimes, dealers post Bids before the ANA to draw material out, or reinforce the notion as a form of advertisement, if you will, that a market-maker is present in a given segment. Two PDS Sets grading MS66 — 1936 Columbia and 1937 Texas — are the only issues to decline this week. Gold Commemoratives are on fire with higher sight-unseen Bids across-the-board in grades up to MS67. The Pan-Pac \$2½ is the percentage leader, where MS62 examples jump by a healthy \$190 to \$1,700, a 13% gain. Those not increasing are steady and strong at current levels. The chart for Morgan Dollars involves numerous sight-unseen Bid increases for five-figure coins, which, to state it quite candidly, are for some key issues which have been ignored for too long now. DMPLs — namely the 1879CC and Capped Die variety, and a couple of first year of issue 1878 varieties paving the way. Also receiving attention this week is the 1895 Proof Dollar. Six months ago or so, this coin was well supported, but has since faltered. The situation has been rectified with a sight-unseen Bid on PR61 examples increasing from \$25,000 to \$30,000 and \$26,000 to \$31,000 for PCGS and NGC coins, respectively. There are 10 at NGC and 41 at PCGS. Modern Proof

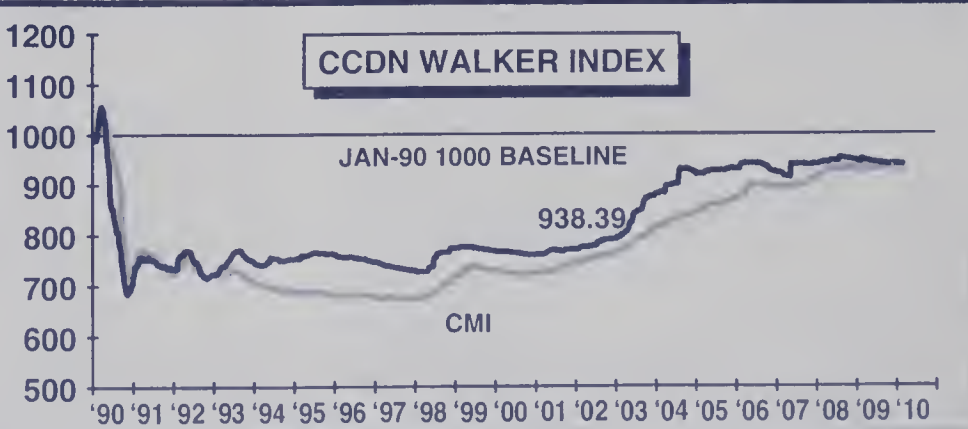

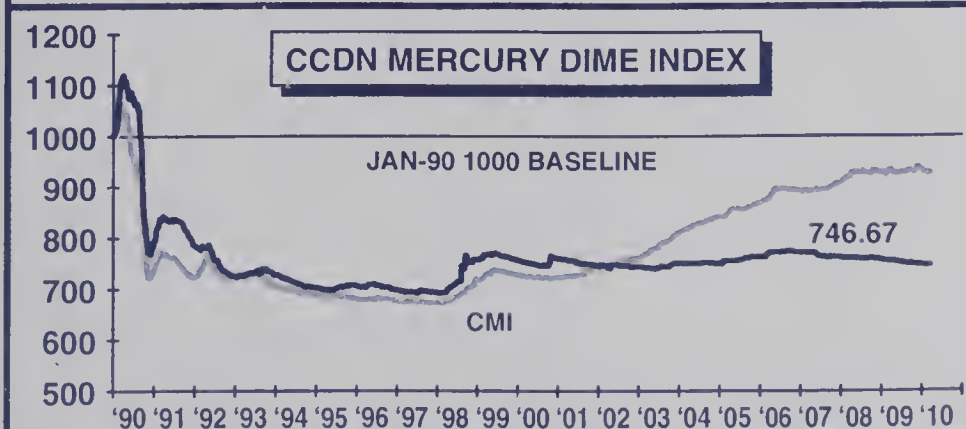

Dollars are garnering five-figures as well. Teletrade just auctioned a 1995W PR70 DCam American Silver Eagle graded by PCGS which realized \$46,000. Peace Dollars, aside from a few minor declines, are mostly steady with incredible support throughout, up to MS65.

Barber Half Dollars lead Mint State Type higher as PCGS encapsulated examples in MS62 and MS63 advance. An example of the 1839 Capped Bust Half Dollar, Reeded Edge, PCGS MS64, sold at a level prompting us to lower Bid. Our next example — a transaction that took place recently — is mind numbing. Sight-unseen Bid for a Reeded Edge Capped Bust Half is \$8,500. An example sold retail in an online auction for \$6,040. A number of generic Mint State Gold Type issues gain ground, while a few more in number lose ground, as this segment looks to hit the "sweet spot" with Spot trading in a narrow range for the past three weeks. An array of coins, from small denom to big, are targeted for acquisition with advances topping out at 7 percent for MS62 \$5 Indians. The downside reflects a greater than 10 percent decrease for PCGS plasticized Type I Gold Dollars in MS63. Buffalo Nickels and Mercury Dimes are stable overall, and Walkers tell a similar story with just three trivial adjustments. Standing Liberty Quarters are somewhat busy, with one dealer raising Bid on several common dates to \$127. Though only a dollar increase, as mentioned earlier, perhaps this dealer wants to remind folks if you have these coins for sale, a willing buyer is present. NGC graded Type II 1917S and 1918P & D are up in several grades from MS64 on. Other than the 1949D moving up in NGC MS65, Franklin Half Dollars are still looking for direction and continue to flounder.

Proof Gold Type finds a sight-unseen Bidder willing to raise the stakes, once again, for five-figure plus coins housed in PCGS holders. The \$3 Indian Princesses have increased in PR63 and PR65 to PR67. A stunning 29 percent increase has been recorded in PR67, which moves from \$45,000 to \$58,000. Also among the coins targeted is the \$20 Saint-Gaudens Type in PR67. This issue undergoes a no less dramatic rise in Bid from \$75,000 to \$95,000, or 27 percent. No recent recorded sales of a PCGS PR67 \$20 Saint have taken place. In January of this year, four NGC PR67 \$20 Saints sold for \$92,000, \$74,750, \$86,250, and \$80,500. These were dated in order, 1908, 1912, 1913, and 1914.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

\$100 Million Milestone

CAC has passed the \$100,000,000 milestone by leaps and bounds

In just a short amount of time, CAC has purchased more than \$100 million of CAC verified coins from the dealer community. With that milestone now well surpassed, CAC continues to race on, seeking and purchasing stickered coins. That's because CAC strongly stands behind coins with the "green bean" as an active bidder in the market. And as CAC stickered coins gain recognition for trading at a premium, you can only imagine how fast the next milestone will be passed.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

Do not assume that because something has never happened before that it can't happen now...

THE COIN COLLECTOR'S SURVIVAL MANUAL® SIXTH EDITION

by Scott A. Travers

NEW!
**COMPLETE GUIDE TO
PRIVATE DEPOSITORIES
AND HOME SAFES**

"The gold standard for coin books on consumer protection and investment."
—Ed Reiter, author, *The New York Times Guide to Coin Collecting*

PREPARE FOR 2010 AND BEYOND! Scott A. Travers reveals shocking new secrets of our changed world and tells how you can prosper and avoid even the smallest mistakes in the treacherous coins and precious metals marketplace. This totally rewritten straight-forward guide candidly examines all of the issues needed to survive the global financial collapse and examines the controversies of playing the "crack out" game with third-party encapsulated coins, the dangers of online auctions, and coin doctoring.

1,200 consumer protection caveats give you the most candid advice on how to buy and sell coins profitably, whether it's a sleeper found on the bourse or a multi-million dollar rarity seen at auction. Detailed photographs of coins with genuine and difficult-to-detect artificial toning give you unprecedented side-by-side comparisons.

Illustrated with more than 260 state-of-the-art digital color and black and white images of coins, this 390-page guide packs a powerful, one-two punch. It combines a thorough update of earlier editions of *The Coin Collector's Survival Manual* with another of Travers' seven acclaimed books, *How to Make Money in Coins Right Now*. Both were bestsellers in their own right, and now both are available in a single, updated and timely volume. Among the topics covered in the new mega-book:

- ✓ **How you can capitalize on the gyrations of gold prices when buying rare, generic and "spread" gold coins. What specific coins you should buy when gold is moving up, and how to minimize losses when gold prices are falling (page 167).**
- ✓ **Extraordinary insights and secrets of crack-outs and getting lucrative upgrades from third-party grading services. Well-known dealer Jim Halperin tells how he made millions in profits by resubmitting coins and reveals details of his ownership interest in NGC (page 148).**
- ✓ **How to protect yourself when buying CAC-verified coins (page 123, color page 13).**
- ✓ **Exposing the pitfalls and avoiding the perils when buying coins through online auctions (page 216).**
- ✓ **Detecting altered, counterfeit and "doctored" coins (page 134).**
- ✓ **How the popular registry set programs have changed the numismatic market, and how to use registry sets to your advantage (page 192).**
- ✓ **Fake PCGS (color page 6) and NGC (color page 16) holders featured in detailed photographic blow-ups**
- ✓ **Comprehensive discussions by leading experts about tax consequences on buying and selling numismatic items, including record keeping, estate planning secrets, retirement plans and in-kind exchanges (page 288).**
- ✓ **New chapter on financial privacy authored by attorney David L. Ganz (page 330).**

This is the book about the coin business "you can't afford to be without." **Newsweek**

"Should be read before a single coin is bought - and read again and again!" **Coin World**

"Travers is fearless in revealing the behind-the-scenes realities of the coin dealing profession." **About.com**

"A sensational read...the ultimate manual to get your money's worth." **Rosen Numismatic Advisory**

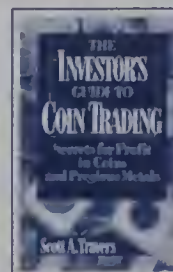

"...if followed closely, it should help [you] do far more than just survive; it should point the way to prosperity." **The New York Times**

Now you can survive, prosper and be safe in an unsafe world!

THE COIN COLLECTOR'S SURVIVAL MANUAL, SIXTH EDITION Random House Profusely illustrated in color and black and white; 390 pages; \$22.95 postpaid

The "Big One" Is Revealed PCGS & NGC Offer PQ Designation

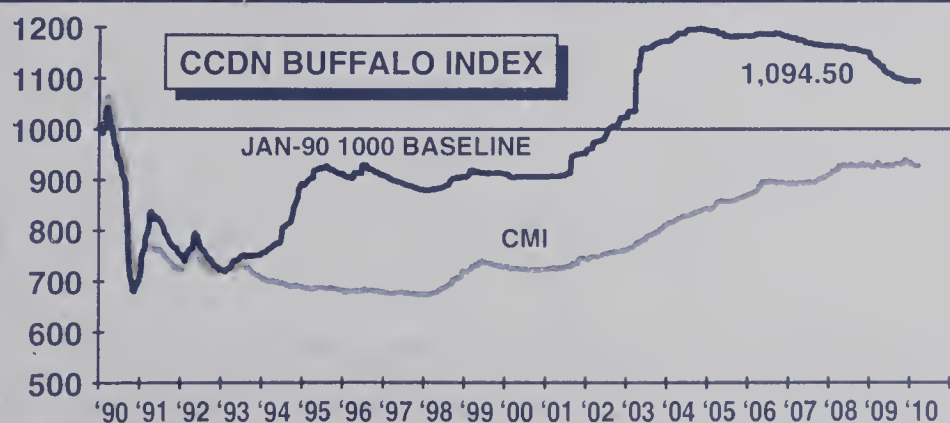

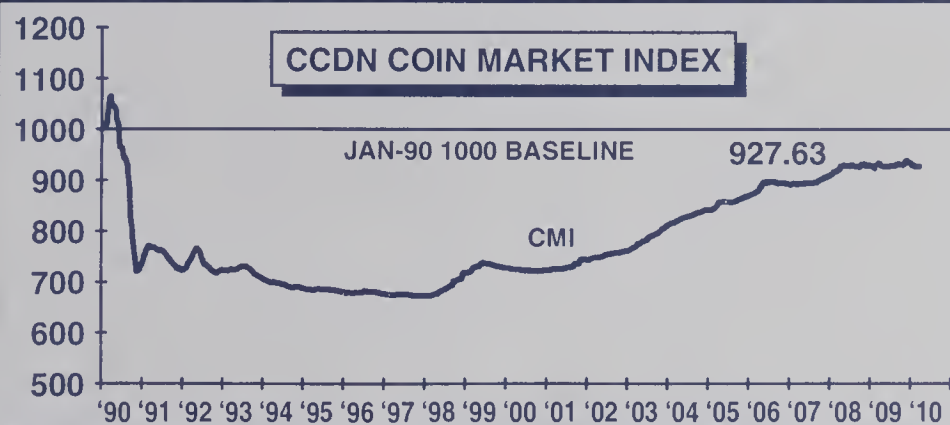

The moment everyone has been waiting for has finally arrived. PCGS and NGC have both announced that they will add a plus sign to the numerical grade on their holders designating *premium quality*. David Hall of PCGS announced on March 25 at the ANA National Money Show in Fort Worth, Texas how this process will work. Graders at PCGS will now use a 700 point scale internally when assigning a grade to a coin. Those that represent the top 30% of the scale within a grade will receive the plus designation, if the submitter has chosen to use the new PCGS Secure Plus service, which is currently only available at the Gold, Express and Walk-through tiers. This is slightly different from the CAC service which evaluates a coin, and then determines if it falls into the A, B or C category for the grade, with the A and B coins getting a green sticker, which equates to a coin being considered solid for the grade, not necessarily meaning PQ. CAC will evaluate any non-modern PCGS or NGC graded coin, while PCGS will only consider a plus designation on specific grades including: XF45 thru AU58 and MS62 thru MS68. MS60 and MS61 graded coins will not qualify for a plus designation, nor will any coin in a condition below XF45. Even though PCGS has stated that the top 30% of coins will qualify for a plus sign, their prediction is that less than one in six coins within any individual grade will in fact be worthy of this premium quality designation. This new PCGS Secure Plus service will also include the use of a patent pending process for unique coin identification that uses laser scanning hardware and digital imaging software to record a "coinprint" which will be stored in a permanent database. PCGS says coins are like snowflakes at the micron level, each one is different and can be identified as such. This technology will make it possible to detect resubmissions, but more importantly, to identify artificial enhancements and/or doctoring of coins since their last time through the system. David Hall says PCGS was never designed to see the same coin forty times in an attempt to reach a higher grade, and he believes this new system will help control such behavior. New rules for trading Plus coins on the Certified Coin Exchange take effect Monday, March 29. PCGS and NGC Plus coins can **only** be traded **sight-unseen** through the network, and sight-seen Bids will **not** be accepted. Additionally, if one is Bidding sight-seen for a non-Plus coin, they must accept a Plus coin, **sight-unseen**, meaning *no returns*. This could create a problem for some legendary dealers who refuse to buy coins sight-unseen under any circumstances.

A few issues on the Silver Commems grid find their way to higher ground. The Bridgeport makes strides upward in MS65 and MS66, along with the Maine Centennial. A handsome, brilliant white 1948 BTW PDS Set graded MS66 by NGC sold for

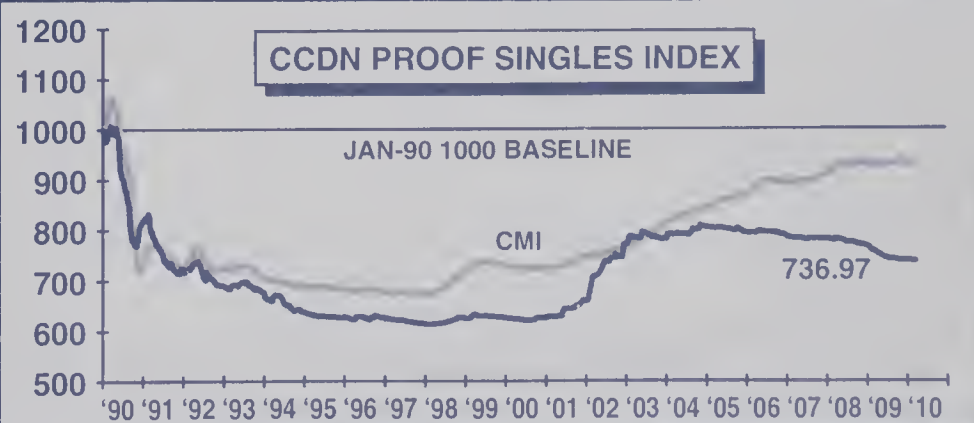

\$558, and can be seen in this week's Market column. Gold Commems continue to be actively Bid on, with most issues sought at present levels from MS61 to MS66. Morgan Dollars are quite active this week, led by the semi-key 1887S in NGC MS65, now at \$1,700, a greater than 20 percent hike from the previous Bid of \$1,400. This issue first found the \$1,400 level in June 2009 and has remained there since that time. The PCGS counterpart also moves up to \$1,700, but this accounts only for a 3 percent hike. Six other listings advance by 10 percent or more, the 1894 in Choice Unc tacking on \$660, a sturdy 18 percent move. Superb Gem common dates fall to \$600 in NGC holders.

Common dates in MS63 also relax a bit, sliding to \$33 as the result of coins transacting over the wire. Peace Dollars, which have been a market leader recently, continue that trend as this week's generics advance in MS63 and MS64. Capped Bust Half Dollars, Reeded Edge are perched at \$3,000 in NGC MS64, up \$150 or 5%. Mint State Gold Type, the segment of the market that has buoyed many a dealer's business prospects this past year, is still working its way lower overall, though there are some distinct positive movements. The upticks are for the smaller denomination fare - \$1, \$2½ and \$5 - while the downward movement is spread all over.

Proof Type reflects some opportunity to acquire coins. An example of which is the PCGS PR63 Barber Dime, available at \$495, as seen in the Market column preceded by a "w." A Gem Twenty Cent Piece in PCGS plastic is currently available for \$7,650. On the NGC side, we see that a PR65 Barber Quarter traded sight-unseen for \$1,925 as indicated in the Market column by a "t". Buffalo Nickels, as we have pointed out before, are lacking in supporting Bids; the MS67 column on the NGC side is literally barren. The 1939D, 1941D, and 1943D Mercury Dimes in PCGS MS65 and MS66 trend lower as the result of discounted sales and lower wholesale Asks. In regard to the market column, this series behaves predictably. There is not much being offered, certainly nothing of great importance. Walking Liberty Halves are stable at present. Proof Singles tell a similar story with only one downward adjustment as the 1951 Franklin Half PCGS PR64 drops \$10 from last week, now residing at \$260.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell net, *consensus* and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PC's DMPL and NGC DPL Bids are for fully Deep Mirror Protilike cones. Bids for PC's PL and NGC PL cones will be listed monthly in a supplemental insert: CDN (Greysheet) Bids have always represented fully deep mirror protolike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL coins will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

Bulk Submissions Have Never Been Easier

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

NGC offers dealers a personal consultant for bulk submissions.

For years, NGC has led the industry with consistent and accurate grading, the best customer service and the fastest turnaround times — all at an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Grading finalizer and expert numismatist Ron Drzewucki will assist you personally, to help you choose the submission program that works best for you.

To discuss your options or to arrange a visit to your location, contact Ron at 800-NGC-COIN (642-2646) or Ron@NGCcoin.com. To learn more, visit www.NGCcoin.com/bulk

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade a higher CDN Bid may be more indicative of current market value

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple. CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

Same Players — New Game

Silver Type Sees Six-Figure, Sight-Unseen Spikes

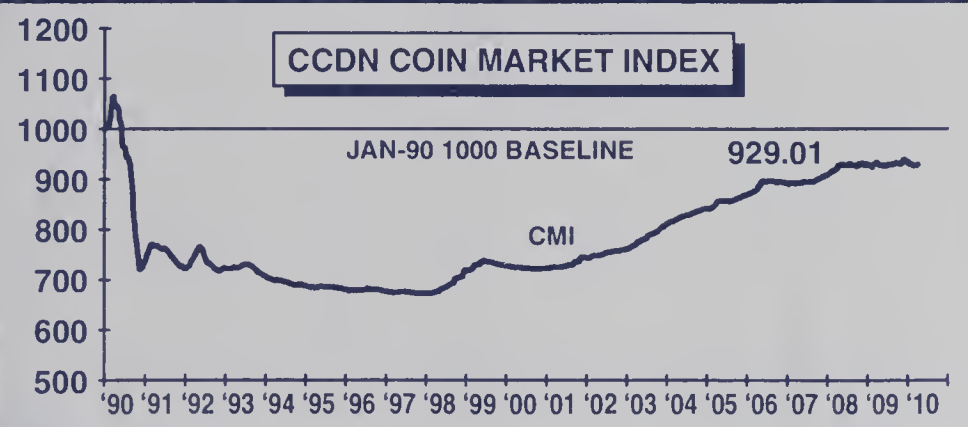

There is a pervasive sense of renewed optimism in the marketplace fostered by PCGS's recent announcement of their new Secure Plus service. From a market perspective, that part of the new service which includes the designation of coins as PQ and a pre-fab platform for the trading of these coins via the CCE trading network is hard to ignore as a potential dynamo. The effect of the new service on CCE has already taken place. Just one trading day after the announcement of the new service, total value of Bids doubled, as predicted, though not so specifically, by Don Willis of PCGS. CCE Bids are now valued at a total of \$282 million, versus \$145 million March 25th, the day of the "Big One" announcement. This could be considered artificial by some, since the new rules require accepting a plus graded coin, sight-unseen, for any sight-seen Bid. This has, in effect, doubled the value of Bids placed, as each sight-seen Bid now functions as a sight-unseen Bid as well. Because of this new policy requiring Bidders to accept PCGS plus graded coins sight-unseen, some have reduced and even removed their Bids all together. Some dealers have chosen to Bid sight-seen for NGC material instead, since their plus graded coins will not hit the marketplace for another two months.

Classic Silver Commemoratives adjust lower this week following recent auction results. The 1928 Oregon Trail sheds \$30 in NGC MS66 to \$250, a nearly 11 percent decline. Another issue in a similar predicament is the 1925 California Jubilee, which declined in MS67. Four items from the Gold Commemorative series take a tack lower with none suffering by more than 5 percent. A \$50 Pan-Pac Round Slug in an NGC holder at the MS65 level sold for \$115K, easily clearing the \$95,000 sight-unseen hurdle. Morgan Dollars enjoy a resurgence this week. Activity on the positive side far outweighs the decliners in both number and significance. Visual inspection of the chart reveals that the preponderance of the increases fall in the MS64 and MS65 columns, for the most part, real-world coins that are bought and sold every day. Peace Dollars enjoy a similar burst of activity, the majority of increases landing in the MS64-65 Bid columns, and then sporadic, but important interest shown for select issues in lower Mint State grades.

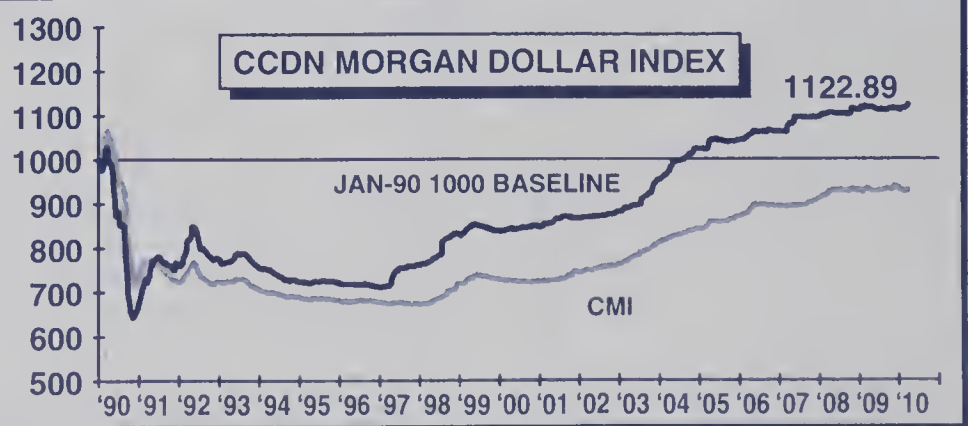

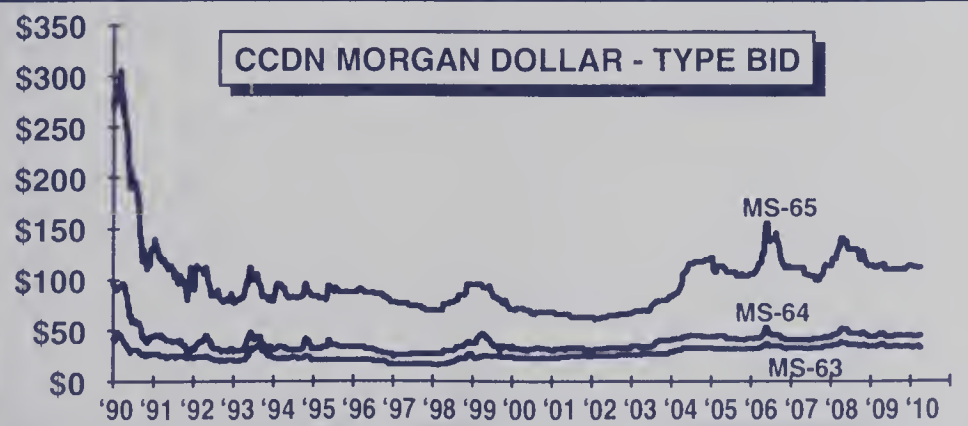

Mint State Type boasts an incredible array of Bid increases, the likes of which one would hope would entertain even the most world-weary, jaded, seen-it-all observer of the market. The Draped Bust Half Dollar, a super scarce, two-year Type, soars to \$300K in MS64 from its prior perch at \$135K. Other Types included are a veritable who's who of great and important issues from the galaxy of Early to Liberty Seated Half Dollars and Dollars. A few of the issues targeted, which might be said to trade rather frequently, are PCGS MS65 Trade Dollars, which increase by nearly 7 percent from \$7,500 to \$8,000. Decliners are almost entirely the result of recent retail auctions, as are the nearly 200 lots this week that sold below sight-unseen Bid, leaving us, once again, scratching our heads.

Proof Type undergoes about a dozen downward adjustments, the most severe clinging to the diminutive Half Dime with Stars. The sale of a PCGS PR65 1857 Flying Eagle Cent forces Bid down to \$14,500 from \$15,000. Proof Gold shines brightly as a host of PCGS items are tagged with plus signs. \$4 Gold Stellas, arguably one of the most fascinating and engaging issues ever struck in the U.S. and always on the want list of well-heeled collectors, moves to \$170K from \$152K. Stellas trade as frequently, perhaps more so, than any other six-figure coin on the planet. Increasing Bid on such a coin may very well pry one free. Buffalo Nickels plod along on the coattails of PCGS Mint State Type and Proof Gold Type as the 1937 3-Leg Buffalo gimps to \$25,000 in MS65, an increase of 25 percent, while the same coin, one grade higher, advances by 14 percent to \$50,000. Mercury Dimes fall somewhat under the pressure of recent sales. Proof Singles continue their ongoing struggle and reflect what worst-case examples will bring when offered for sale. Walking Liberty Half Dollars enjoy the PCGS prosperity as Superb Gems are now Bid \$600, some 33 percent higher.

The Santa Clara Expo is next up April 9-11 in California. Teletrade will be onsite allowing collectors and some 400 dealers at the show to view the coins offered in the official online auction. Consignments will also be accepted for future sales that will include PCGS plus graded coins.

\$100 Million Milestone

CAC has passed the \$100,000,000 milestone by leaps and bounds

In just a short amount of time, CAC has purchased more than \$100 million of CAC verified coins from the dealer community. With that milestone now well surpassed, CAC continues to race on, seeking and purchasing stickered coins. That's because CAC strongly stands behind coins with the "green bean" as an active bidder in the market. And as CAC stickered coins gain recognition for trading at a premium, you can only imagine how fast the next milestone will be passed.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

PCGS Plus Rejuvenates Sight-Unseen Market Rare Type Coins Explode

Excitement continues to grow as the PCGS Secure Plus service enters its second week in hobby-wide release. Clearly, all of us would like to know many things about the service, but like the release of any new and innovative product, only time will yield definitive answers. Perhaps it is akin to the iPad; presumably, it offers features that everybody desires, but how do these features fit into the existing landscape? At the more practical level, one can observe the brisk activity on CCE as dealers vie with each other to place Bids for coins that will eventually appear with the desirable Plus grade. The chart below compares the differences in sight-unseen Bids for the few dated Saints that are currently in the marketplace. PCGS has awarded a total of 54 \$20 Saint-Gaudens the MS64+ grade to date. Last week's *Bluesheet* recorded a huge number of increases for "ordinary" sight-unseen PCGS material. This week's installment continues that trend. It would appear that the launch of the new service has precipitated a review of all PCGS material. The most casual observation suggests that dealers who had for the most part dropped out of the sight-unseen market are joining in once again. As these dealers prepare their sight-unseen Bids for Plus material, they have in many instances raised their stale, sight-unseen Bids for worst case examples.

Silver Commemoratives are a bit weak, with only a single advance to report, that being a higher sight-unseen Bid of \$550 for a PCGS MS64 Isabella Quarter. The sale of a 1936S Columbia in an online auction produces the largest decline as Bid drops from \$175 to \$145. Gold Comms rage on with multiple advances. Most of those not going up have buyers at current levels. Nearly eighty plus signs are on display within the Mint State Morgan Dollar Bid columns. Advances range in amount from just \$2 up to \$800, the latter targets the 1904S in NGC MS65, an 18 percent increase. Prooflike Morgans also notch a victory, with advancers eclipsing decliners quite handily. Peace Dollars continue their winning streak, with five of the 24 dates increasing in various grades. Mint State Type would appear to be one of the market segments that has most favorably benefited from the increased attention PCGS coins are receiving on the electronic trading networks. Among the more stunning increases is that which hit the 1796 Draped Bust Quarter. Sight-unseen Bid has skyrocketed from \$70,000 to \$200,000 for MS65 specimens. NGC material is also

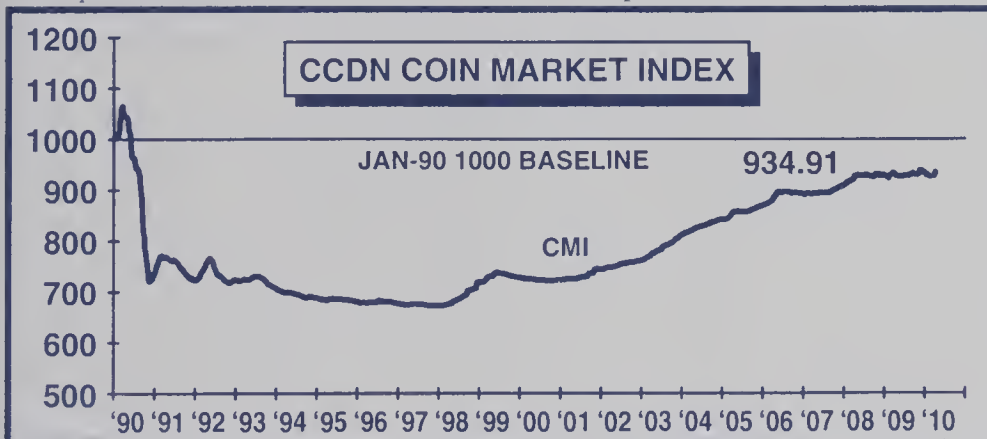

notching similar increases, albeit on a somewhat smaller scale. Mint State Gold Type includes many increases as well, likely the result of an increasing Gold Spot, now at \$1,152. Early Gold Type is in full bloom. Nearly every listing on this compact, but numismatically rich chart is craning toward the sunlight in every grade, from AU58 through MS65. AU58 examples of the 1808 \$2½ Capped Bust are needed as sight-unseen Bid increases from \$28,000 to \$75,000 in an attempt to pry any PCGS or NGC example from tight hands, regardless of eye appeal or any other attribute.

Proof Type is enjoying a diverse collection of higher Bids, distributed fairly equally over both grading services. The issues targeted are "collector friendly" Types, coins that sell for \$150 to \$4,000. A couple examples include Lib Nix in PR64, and Liberty Seated Halves, with Motto in NGC Gem Proof. Proof Gold Type is a bit quiet, with only a couple increases recorded for \$5 Indians in NGC holders. The Buffalo Nickel, Mercury Dime and Walking Liberty Half Dollar segments have not, at least to

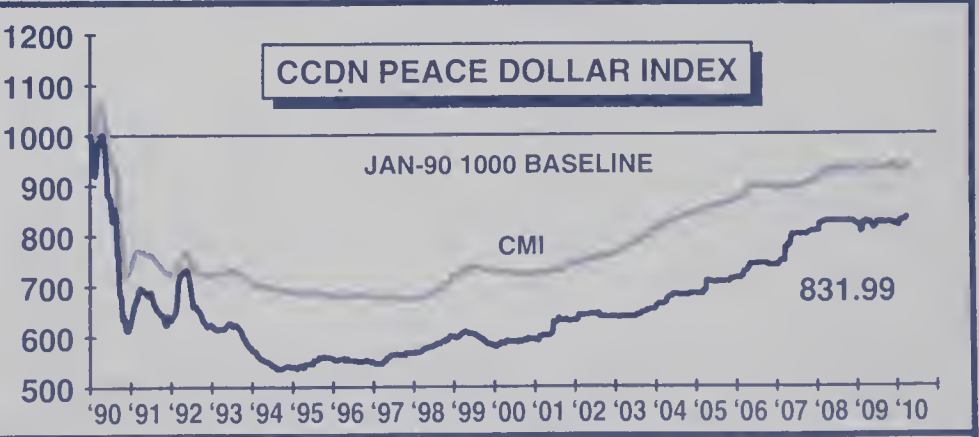

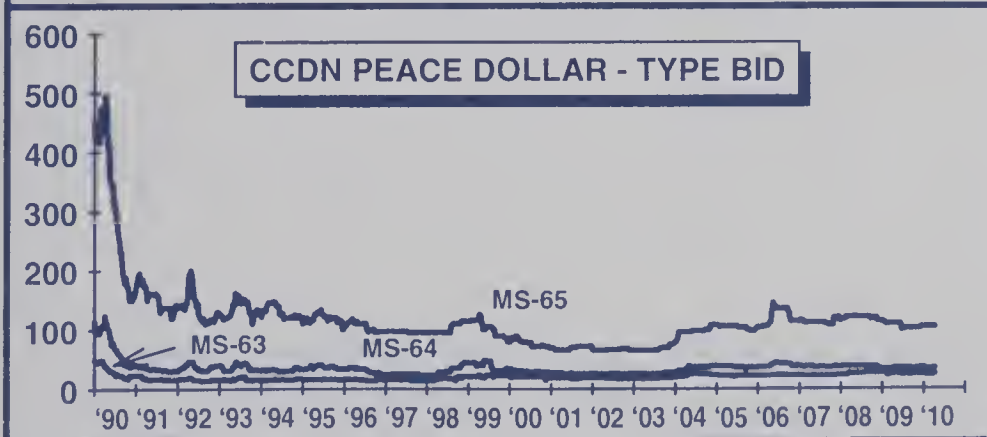

this point, received the renewed attention of dealers by way of higher sight-unseen Bids. Better Date material is finally showing some positive activity, with PCGS MS65 to MS67 Washington Quarters in particular. The 1939S, residing in a PCGS MS67 holder, will garner \$1,700 sight-unseen, no questions asked.

April has a lot in store for both collectors and dealers as multiple shows and auctions are on the immediate horizon this spring. The Santa Clara Expo will kick things off April 9-11, with an official online auction conducted by Teletrade of Irvine, CA. Later in the month, the Chicago International Coin Fair will hold their 35th annual gala in O'Hare, Illinois, April 22-25. Heritage will serve as the host auction house for the fair. Next up is the Old San Francisco Mint Coin Show, which will run April 23-24. Visitors to this show will be given a complementary tour of the building, which is one of only five structures in San Francisco protected as a National Historic Landmark. Beginning the same day, and continuing until the 25th of April is the Dulles Coin and Currency Expo in Chantilly, Virginia. Finishing off the busy month is the Central States Numismatic Society Convention, celebrating their 71st annual gathering. This show, held in Milwaukee, WI, begins with security rooms opening on April 26, with a PNG Day and Heritage auction beginning April 28.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Bulk Submissions Have Never Been Easier

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

NGC offers dealers a personal consultant for bulk submissions.

For years, NGC has led the industry with consistent and accurate grading, the best customer service and the fastest turnaround times — all at an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Grading finalizer and expert numismatist Ron Drzewucki will assist you personally, to help you choose the submission program that works best for you.

To discuss your options or to arrange a visit to your location, contact Ron at 800-NGC-COIN (642-2646) or Ron@NGCcoin.com. To learn more, visit www.NGCcoin.com/bulk

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

"Because Confidence is Priceless"

www.caccoin.com

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXV No. 16

April 16, 2010

Single copy price \$4.00

Market Takes Time To Digest PCGS Plus

April Auctions May Flower

The initial commotion surrounding the new PCGS Secure Plus Service seems to have abated somewhat this week as market-makers and other participants review the situation. In particular, we are hearing reports that dealers, and those to whom the dealers will sell the Plus coins, are taking a close look at the quality of the coins residing in the new holders, especially those that have received the "+" designation. Conversely, these same folks are comparing coins that are known *not* to have received the "+" designation against those that have, presumably to understand what constitutes Plus quality. Further, this week's breather may also reflect the ongoing concern by some big players that the emphasis on *high end for the grade material* might depress the lesser quality certified material even further. Or, that as perceptive buyers gauge the market for coins exhibiting the Plus designation and/or the presence of a CAC sticker, that coins not so designated – even though they are decidedly not inferior examples – might suffer.

Silver Commem advances are in place for the 1920 Pilgrim Tercentenary and the 1936 Albany, both in PCGS MS66. The decliners are the 1921 Alabama Centennial 2X4 in PCGS MS64 and the 1925 Fort Vancouver in NGC MS62. Gold Commems enjoy solid support; perhaps the market is suggesting that for this series, technical criteria and aesthetic appeal tend to correlate well at various grade levels. Morgan Dollars are mostly unfazed this week, the amount of plus signs a mere fraction of the activity in weeks past, while the declines are limited to a few issues. Common date Morgan Dollars have risen to \$34 in MS63. The sale of a 1921D graded MS65 by NGC at an online auction for \$161, while there is at least one dealer willing to pay \$240 sight-unseen, is mystifying. Peace Dollars enjoy some respectful positive movement as the 1934D in MS63 climbs to \$300, and the same issue in MS65 is now Bid \$1,000. Declines here are minimal and include only NGC material. A 1934S traded "over the wire" for \$3,400, which resulted in a \$25 downward adjustment. The sale of a 1928 NGC MS63 for \$520 against a sight-unseen Bid at \$640, and the sale of a 1921 PCGS MS64 for \$445, even though there is a sight-unseen Bid of \$520, leaves one incredulous. Bids for Standing Liberty Quarters continue to rise, especially those housed in PCGS plastic. Choice Unc examples with Full

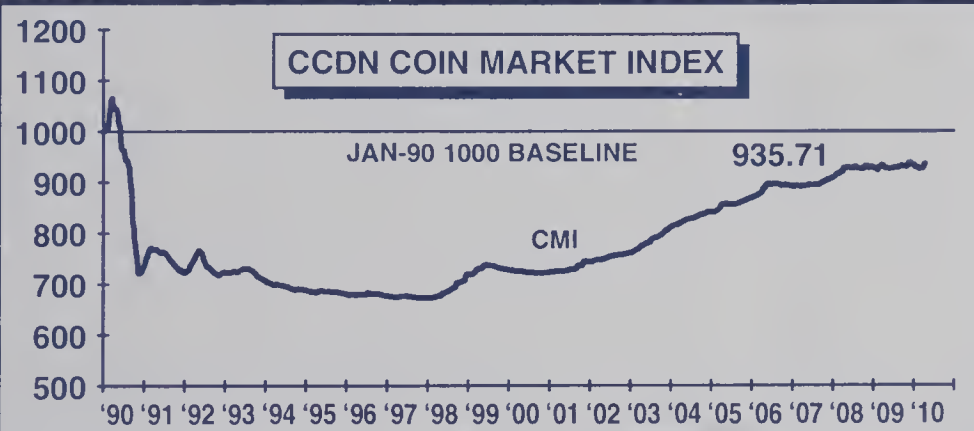

Head now reside on the \$200 pedestal, a better than six percent increase. There is a new \$30,000 sight-unseen Bid in place for any 1916 Standing Liberty Quarter graded MS66FH by PCGS. This represents a 20 percent jump over the previous Bid of \$25,000.

Mint State Gold Type offers little in the way of overall market direction. Spot is up from last week; meanwhile, sight-unseen Bids for lower Mint State \$20 Saints drift down a little, up in MS64 and down in MS65. Go figure. Buffalo Nickels maintain status quo. Apart from the Bids for PCGS examples of the 1937D 3-Leg in MS64, MS65, and MS66, and just a handful of other supporting Bids, this once and still very popular series deserves more attention at the sight-unseen level. Mercury Dimes incur no positive movement, while the sale of a 1942S NGC MS67FB example – a textbook sight-unseen coin with mottled, unattractive toning, albeit flawless surfaces from a technical standpoint – was blown off for \$275, resulting in a \$50 decline to Bid.

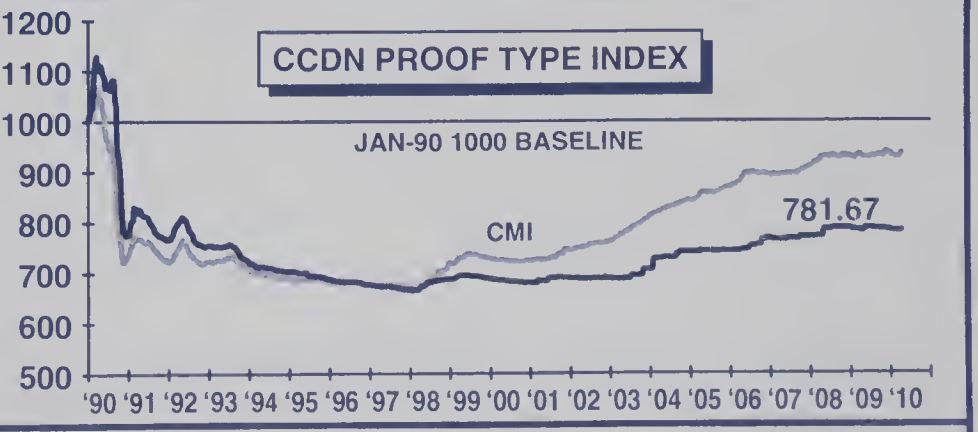

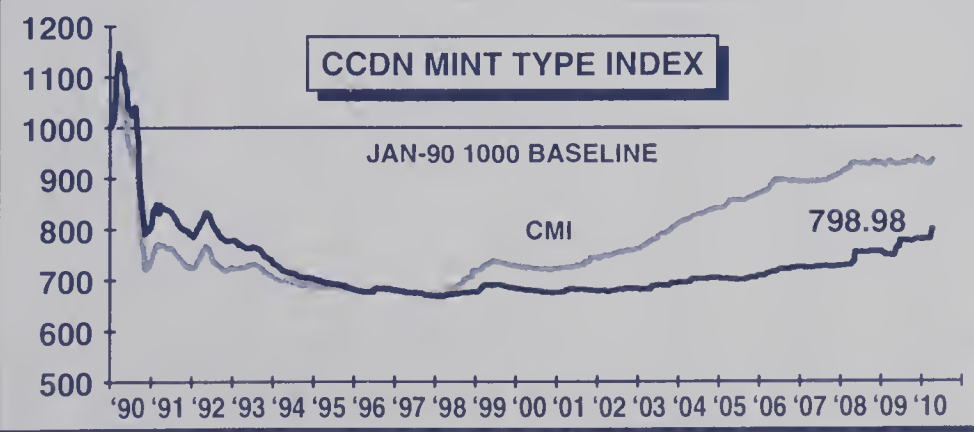

A bounty of \$75K has been offered for any 1942S Walking Liberty Half graded MS67 by PCGS. Some 323 examples have already been imprisoned in MS66 holders by PCGS, which are Bid at only \$675. One savvy cowboy may attempt a jailbreak for an upgrade resulting in a high five-figure payday. This gunslinger would be well-advised to start with a roundup of the 16 MS66 CAC designated examples for this reward. Proof Singles, an area of the market which has worked itself to lower and

lower levels in recent months, is mostly steady this week with a few declines adhering to coins Bid less than \$100. Perhaps the good news here is that many of the higher dollar issues from 1940 to 1952 are well supported at present levels should additional examples make their way to market. We have listed a preview of some highlights from upcoming auctions beginning April 24 herein.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Excitement Brewing In Milwaukee Walton Nickel On TLC

Dealers are en route to Milwaukee for the CSNS show, one of just a few coin club sponsored shows still in existence which commands a national level presence. This is the first such show since the Mid-Winter ANA. Ten years ago, a hiatus of two months or more might lapse from one national level show to the next; the Mid-Winter ANA concluded less than a month ago. The announcement by PCGS of its new tier of service and the subsequent revamping of the CCE trading network resulted in a hectic two weeks following the ANA. The sight-unseen market underwent widespread revision of Bid levels. Perhaps the Milwaukee show will provide a decent sampling of the new PCGS "+" graded coins. A review of the Bidding structure at CCE reveals that the higher the Mint State grade, the larger is the percentage difference between sight-unseen Bid and sight-unseen Bid for a "+" graded coin. Taking the simple example of a common date Gem Morgan Dollar, Bid is \$112. Bid for an MS65+ is \$130. MS66 Bid is \$190 while "+" Bid is \$240 and finally, the situation in MS67 is \$575 and \$850, respectively.

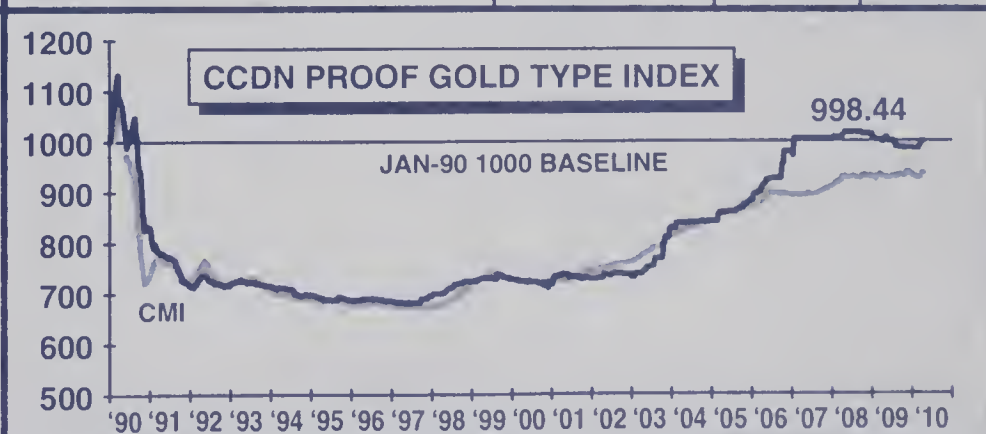

Silver Commems offer just a few adjustments. The 1936 Bridgeport advances in MS66 while a couple other issues slip by only modest amounts. Presently, lower quality coins are being liquidated at less than what might be considered desirable. Simultaneously, those coins presently in inventory that can migrate to CAC approved holders or garner a "+" designation, might upon liquidation, result in an overall higher profit margin. Gold Commems take a rest with no outward signs of activity; the only transaction worth noting is the sale of a \$2½ Sesquicentennial in PCGS MS63 for less than sight-unseen Bid. Sight-unseen trades of common date MS66 Morgan Dollars through CCE transactions result in Bid falling to \$190 on the NGC side and \$185 on the PCGS side. Peace Dollars are better than 90 percent steady with the cumulative downdraft amounting to less than a \$5 bill. *Support* is defined by the presence of at least one dealer offering to buy sight-unseen at or near published Bid. Such support for Mint State Type is thick for higher grade examples of very rare Types. In particular are offers like \$200K for the 1796 Draped Bust Quarter in PCGS MS65 and \$400K for a PCGS MS65 example of the Draped Bust Half Dollar with Small Eagle.

Proof Type is status quo, though the sale of an 1894 Barber Half graded PR67 by NGC is worthy of mention. Sight-unseen Bid for the Type is \$5,200. Oddly, the dealer responsible for the \$5,200 Bid auctioned the aforementioned 1894 for \$5,175. Numerous common date Buffalo Nickels continue to trade at current levels. The 1938D is tagged with an increase from \$45 to \$46 in PCGS MS66 with close to 26,000 graded. Sight-unseen Bid is \$65 for the 1937 in the same grade and service. The latter issue is the second most common date in MS66 with a population of just over 3,300 or an 8:1 rarity factor compared to the 1938D. Next in line is the 1937D with a population of 1,521 and a sight-unseen Bid of \$50 in MS66. The market for Walking Liberty Half Dollars will be tested significantly as Heritage is set to offer nearly 250-lots of Walkers in its April 28 Milwaukee sale. The Platinum Night contingent is a six-pack of NGC graded coins, starting with a 1917 in MS67, a pop 4 coin with none higher, followed by a 1919S in MS66, a pop 8 coin with one graded higher. The other three business strike offerings are similarly high powered; the final coin of the six is a 1936 graded PR67. Mercury Dimes offer a cautionary tale this week. An example of the 1926S graded MS67 by NGC was offered on the market less than two months ago for \$4,150 at the wholesale level. This week the coin is offered at \$3,000.

The Walton Specimen 1913 Liberty Nickel, the last of the five in existence was re-discovered, and given an estimated grade of PR63 by PCGS (though not slabbed) and is now the subject of an episode of a new program, *Accidental Fortune*, scheduled to air on The Learning Channel, May 2. The appearance of the Walton coin at the 2003 ANA, and the authentication of the coin by PCGS and other experts in a secret, midnight meeting in the security room of the Baltimore Convention Center, is recreated in the special TV episode. This publicity could really turn out to be a shot in the arm for numismatics, as the nation-wide broadcast of this television program may very well inspire viewers to enter the hobby of collecting rare coins. In addition, those who have dropped out may re-evaluate their collection and return to coin collecting after having their passion rekindled.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$2.50 each • 11-25 issues - \$2.00 each • 26 & over - \$1.50 each

Or, you can purchase *complete sets* of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter (Greysheet)**
from June 14, 1963 to December 18, 2009, now includes 2,373 issues.
At \$1.50 each this would normally cost \$3,559.50, but a complete set
is only **\$2,375.**

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2009, now includes 401 issues. At \$1.50
each this would normally cost \$601.50, but a complete set is only ... **\$465.**

Complete set of the **CDN Quarterlies**
from January 1992, to December 2009, now includes 216 issues, a
complete set is only **\$240.**

Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies**
now includes 2,990 issues, and extra savings at only **\$2,950.**

Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)**
from August 22, 1986 to December 18, 2009, now includes 1,151 issues.
At \$1.50 each this would normally cost \$1,726.50, but a complete set
is only **\$1,185.**

Complete set of the monthly **Currency Dealer newsletter (Greensheet)**
from September 1980 to December 2009, now includes 352 issues.
At \$1.50 each this would normally cost \$528, but a complete set
is only **\$415.**

**4,493
Newsletters**

For the most complete numismatic pricing library possible, you may order a
COMPLETE set of all of the Back Issues listed above for only **\$4,150.**

All prices are sight-unseen dealer-to-dealer Bids. Bid prices are for the most common date within each type. Bids listed for issues that trade infrequently are the last known.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or Dealer sight-seen trades can be expected to occur at substantially higher levels in many cases.

For certified coins not listed in the CCDn, please refer to the COIN DEALER newsletter for current Bid levels.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

Verify NGC Coins ON THE GO

NGC's new mobile site makes verifying certification more efficient and accessible than ever. Whether you're at a trade show or just on the go, you can visit **m.NGCcoin.com** on your Internet-enabled phone or mobile device. Enter the certification number of any NGC coin, and gain valuable information from our database — date, denomination, grade and more — as well as detailed images of the coin's obverse and reverse. It's complete protection for you and your coins, wherever the hobby takes you.

**Take advantage of the hobby's leading security feature today.
Visit www.NGCcoin.com/mobile to learn more.**

Gold Nears All-Time High Proof Indians Sound Off War Whoop

The Federal Reserve announced on Tuesday that it will not raise interest rates for an "extended period." Language of their official press release summarizing the results of their Tuesday meeting suggests that there is some improvement in the economy. Perhaps it is what the Fed does or *doesn't* do as opposed to what they say that has allowed Gold to continue its fight to stay within striking distance of its world record close of \$1,217 per ounce on December 3, 2009. Hitting \$1,171 this week marks the second highest Spot ever recorded. Observers feared that, once having peaked, it might plunge just as quickly, behavior the metal has shown before. How does this translate into the current rare coin marketplace? It doesn't, quite frankly. The frenzy of activity in the fourth quarter of calendar year 2009 drove premiums higher and higher, as Spot continued to set world records on a daily basis. Next, as Gold slowly retreated from its high watermark, premiums dropped much faster than Spot. The situation now is that Gold is just below 4 percent of its record high, and premiums on Gem \$20 Saints are only a fraction of what they were 5 months ago, as seen in the chart herein.

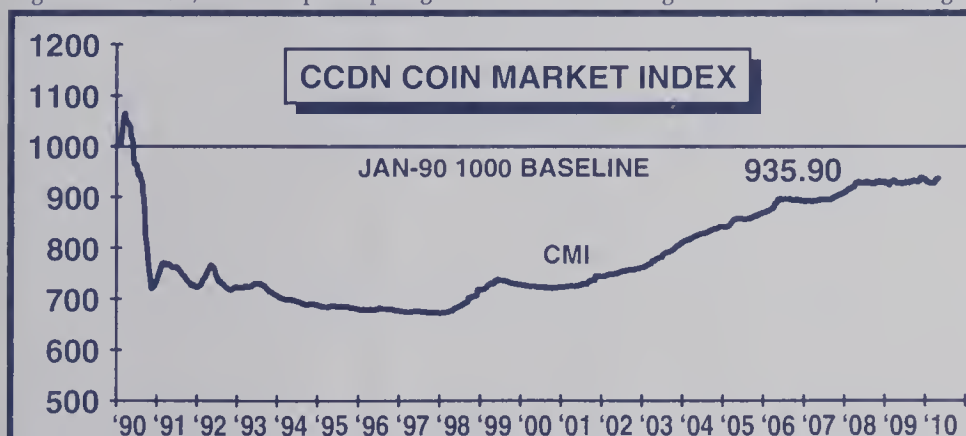

Minor adjustments to two PCGS issues account for the only activity within the Classic Silver Commemoratives series. With a third tier of quality — PCGS Plus and CAC — making their way into the marketplace, will there be a further deterioration to sight-unseen Bids for series such as Classic Silver Commems? Might there be a dealer that would Bid more sight-unseen for an MS63+ Antietam Half Dollar than for a non plus MS64? This scenario would most likely occur within series like Silver Commems where the price difference between grades is minimal, often only a few bucks. Gold Commemoratives are a bright spot this week as both \$2½ issues move higher, the Sesquicentennial in grades MS63 through MS65 and the Pan-Pac in grades MS63 through MS67. PCGS MS65 Lewis and Clark Dollars dated 1905 fall \$300 to \$8,500 as one was offered wholesale for a discount. Three plus signs hit the Morgan Dollar chart, the 1885S in PCGS MS65 being the most important of the three with a new, higher Bid of \$1,160. It is perhaps significant that 63 Morgan Dollars traded, all sight-

unseen, across the wire this week — especially the popular and scarce 1883S issue in a PCGS MS63 holder that sold for \$1,680. Peace Dollars remain exceptionally strong, with Gem examples of the 1922 and 1924 now higher than their 1921 and 1923 counterparts. Mint State Type boasts a few increases this week as Barber Dimes climb in MS65, MS66 and MS67. Bids now reach \$400, \$650, and \$3,000 respectively for coins encapsulated by PCGS. In the nearly 25 years that PCGS has slabbed coins, there are 163 coins at the MS67 level encompassing the entire Barber Dime series. At the MS68 level there are but three coins. The bias is marginally positive this week for Mint State Gold Type as TIII Gold Dollars move up in MS61 through MS64 tipping the scale in favor of the advancers.

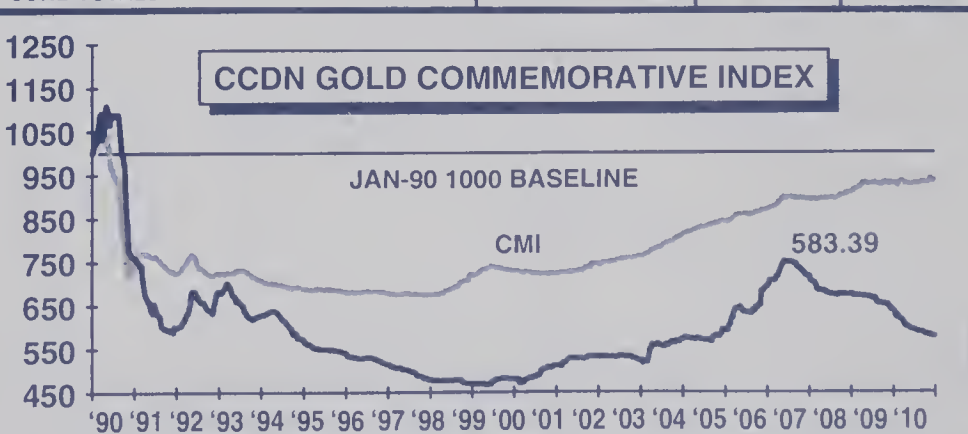

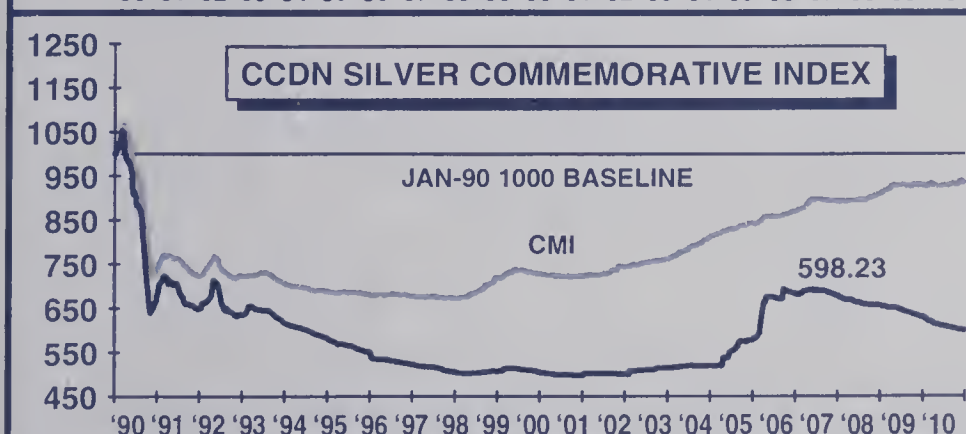

Indian Head Cents are the story this week in the Proof Type segment. From PR61B through PR65RB, it is all upward movement. PCGS has graded 1,554 Indian Heads at PR64R, while NGC has graded 568, and sight-unseen Bid has advanced to \$245 for both services. The only other movement in Proof Type is the Barber Quarter in PCGS PR67 where examples now command \$3,700. Proof Gold Type, usually quiet heading in to a major show, is true to form and exhibits no movement this week. Buffalo Nickels remain quiet overall with only a couple minor declines being recorded for NGC material. Mercury Dimes are a bit weaker with multiple examples trading lower through the networks. Walking Liberty Halves remain strong with buyers available for nearly every date from 1933S on, in most Mint State grades through MS66.

Most dealers are currently in Milwaukee attending the CSNS show and Heritage auction, this on the heels of the April 24 EAC convention and auction which realized a total of \$273K, held in Annapolis, MD. Stack's realized \$1.8 million from their April 28 sale that included selections from the Louis E. Eliasberg, Jr. estate. A few highlights certified by PCGS include an MS66 1899 Liberty Nickel that realized \$920; a 1925S California, graded MS64/CAC, that brought \$489; and an XF40 1872 Liberty Seated Dollar which brought home \$489 as well.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Shirley L. Appian & A. W. Morrison Betty Morris

6 Months-\$65, 1 Year-\$117, 2 Years-\$193

Some bid, with a represent very conservative sight-unseen buy prices on the part of the highest value bidder. In the US, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

CCDn does not buy/sell any coins whatsoever. CCDn will not recommend any particular dealers. R.I.

CCDn does not buy/sell any coins whatsoever. CCDn will not recommend any particular deals. All prices are represented as authentic to the CCDn, nevertheless, CCDn implies no guarantee whatsoever.

May 7, 2010

Single copy price \$4.00

New Nashville Show—All Systems Go! Sight-Unseen Market Maintains Equilibrium

When sales of the magnitude that took place in Milwaukee occur, we might expect a significant round of downward adjustments on the sight-unseen front. Some might argue that this would be the logical result when coins on the bourse are sold solely to raise cash or without reserve at auction in a market that is struggling for direction and under a cloud of global economic conditions that are fragile at best. *Such sales do not appear to be nearly as prevalent as some may have feared.* Indeed, there are numerous segments where Bids are increasing, and Heritage did bring in a total of over \$17 million in Milwaukee, which makes the upward movements that much more impressive.

Silver Commemoratives remain relatively stable, with the Bridgeport, Connecticut moving up in MS65-66. Minor declines have been recorded for the 1922 Grant Memorial with Star at the NGC MS66 level. An MS67 Isabella Quarter, also in an NGC holder, sold at auction for below sight-unseen Bid. Gold Commemoratives continue as one of the stronger areas of this market even though a few dropped a bit this week. Buyers are lined up, ready to make purchases for nearly every issue in the series in grades MS64 to MS67. Auction results confirm this as the majority of recent offerings realized in advance of published Bid. Witness a PCGS MS62 \$50 Panama-Pacific Octagonal that sold at retail auction for \$57,500 against a sight-unseen Bid of \$45,700; an NGC MS63 example of the same issue brought \$69,000; and an MS64 from PCGS, again the same issue, garnered \$83,375. Morgan Dollars show a few advances in the area of "collector friendly" fare, notably the 1878S in PCGS MS66 which makes a sizable jump forward. Among four-figure items, only Choice Unc examples of the 1896S in PCGS plastic are lower. Recent auction results include the sale of multiple examples of the 1879CC graded PCGS MS64; an 1890O MS65 DMPL from PCGS and CAC approved; an 1895S PCGS MS65; and a 1901 PCGS MS63, all bringing prices realized that strengthens the argument that "good stuff" will bring all the money. Mint State Dime Types are rockin'-and-rollin' this week on the PCGS side as Bid climbs for every issue from the Capped Bust Large Size through the Liberty

Seated with Arrows (1853-1855). Activity is pegged to grades MS65 to MS67. Mint State Gold Type is decidedly mixed, with the minus signs adhering mostly to the smaller denomination Gold. As of this writing, Gold Spot has once again broken \$1,200 an ounce, this in light of the current economic crisis in Europe and the plummeting Dow, resulting in safe-haven buying. Proof Type - Gold, Silver, Copper and Nickel - are all responding to recent sales with a downdraft. Examples of the famous \$4 Stella in NGC

PR66, Liberty Seated Quarters with Arrows in NGC PR67, as well as Indian Head Cents in PCGS PR67 are among the Types that sold at a discount. Buffalo Nickels, Mercury Dimes, and Walkers, similarly responded to recent sales. Losing some ground are the 1919S Buffalo in NGC MS64, the 1920S Mercury Dime in NGC MS65FB, and the 1919S Walking Liberty Half in NGC MS66.

PCGS is hosting a Members Only show, open to booth holders May 12 to 15 at the Venetian in Las Vegas. Up next is the 50th Anniversary Texas Numismatic Association show, May 14 to 16 in Fort Worth, Texas. Spink-Smythe is set to conduct a sale at the Texas venue. Included amongst the US coins in the sale are an 1879 Morgan Dollar graded PR65 by PCGS, and a 1904 \$20 Liberty graded NGC PR62.

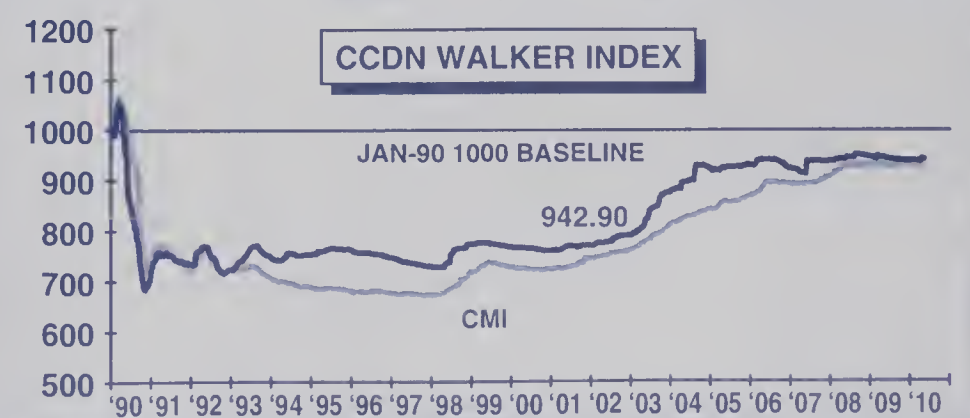

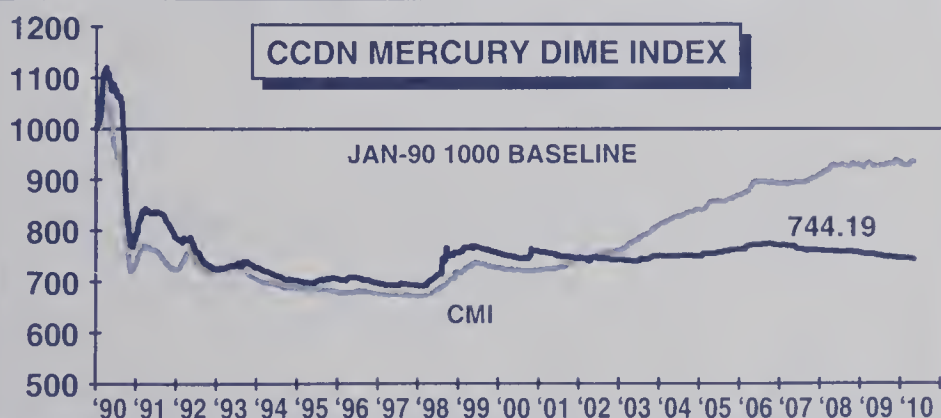

Bowers & Merena is set to conduct an online only auction on May 17. Among the highlights are a 1912 and 1914 \$5 Indian Head graded PR67 and PR66 by NGC, respectively. Also, an 1867 Shield Nickel with Rays graded PCGS PR65 and residing in an OGH. Whitman Coin and Collectibles has expanded its horizons to include Nashville, Tennessee where it will host a coin show from May 20 to May 22. Stack's is set to conduct their sale May 21 as host auctioneer of the Expo. The one-session 523-lot sale is highlighted herein. According to Whitman, "the flood waters are receding...the first ever Nashville Expo will go ahead as planned, and should not be affected in any significant way." Further, "...the Nashville Convention Center (where the Expo will be held) and the Renaissance Nashville, which is the headquarters hotel, are ready to accommodate without any problems."

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

How to Receive the Largest Check for Your Coins and Currency: Call Spectrum Today

Spectrum is one of the largest and strongest buyers of coins and currency in the world. (We have more full-time buyers than most dealers have employees!). That's why so many dealers, collectors, investors, heirs, attorneys, and estate administrators depend on Spectrum when selling all kinds of coins and currency. They trust Spectrum to deliver the highest possible price, accompanied by fast, courteous service.

We buy thousands of coins and notes every week – items with values from under \$5 to over \$1 million. Spectrum buys individual coins and notes, partial and complete collections, accumulations, hoards, rarities, Territorials, Colonials, Large and Small Notes, National Currency, even errors!

And unlike so many of our competitors, who are only interested in your most valuable coins and/or notes, Spectrum buys it all and pays top dollar!

Whether you deliver your coins or banknotes by U.S. mail, in person, or we come to visit you, you'll be conducting business with today's market leader: Spectrum, the company known for fast, convenient, personal attention to you, and to your coins and notes.

Join the thousands of sellers of coins and currency who have done business with Spectrum. Call, fax or e-mail Spectrum today to begin the process that will produce the highest possible prices for your numismatic valuables. Remember, Spectrum buys it all, and we pay more for your valuable coins and notes!

Red Book Contributor

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

CAC[®]

"Because Confidence is Priceless"

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$2.50 each • 11-25 issues - \$2.00 each • 26 & over - \$1.50 each

Or, you can purchase *complete sets* of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter (Greysheet)**
from June 14, 1963 to December 18, 2009, now includes 2,373 issues.
At \$1.50 each this would normally cost \$3,559.50, but a complete set
is only \$2,375.

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2009, now includes 401 issues. At \$1.50
each this would normally cost \$601.50, but a complete set is only ... \$465.

Complete set of the **CDN Quarterlies**
from January 1992, to December 2009, now includes 216 issues, a
complete set is only \$240.

Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies**
now includes 2,990 issues, and extra savings at only \$2,950.

Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)**
from August 22, 1986 to December 18, 2009, now includes 1,151 issues.
At \$1.50 each this would normally cost \$1,726.50, but a complete set
is only \$1,185.

Complete set of the monthly **Currency Dealer newsletter (Greensheet)**
from September 1980 to December 2009, now includes 352 issues.
At \$1.50 each this would normally cost \$528, but a complete set
is only \$415.

Target: More Revenue, More Profits

***Bullseye:
Miles Standish,
PCGS Bulk Certification***

In the world of modern coins, PCGS has yet again revolutionized the numismatic industry with two words – Bulk Certification. These two words define a program that allows dealers and collectors to submit high volumes of coins at discounted prices.

Miles Standish, creator of the program, knows more about bulk certification than anyone and he can show you how to increase sales and expand your market through our bulk program.

With the Mint continually creating new designs and innovative coins, Miles can design specific campaigns to target new markets with innovative ideas, such as specialty flips and roll certification programs. The possibilities are endless!

Find out how Miles can help you hit the bullseye by expanding your business through PCGS Bulk Certification. Contact him today by calling **(949) 922-0515** or sending an e-mail to **Mstandish@collectors.com**. Trust us, he won't let you down!

World Record Spot Boosts Gold Type Market Awaits, Debates PCGS+ Impact

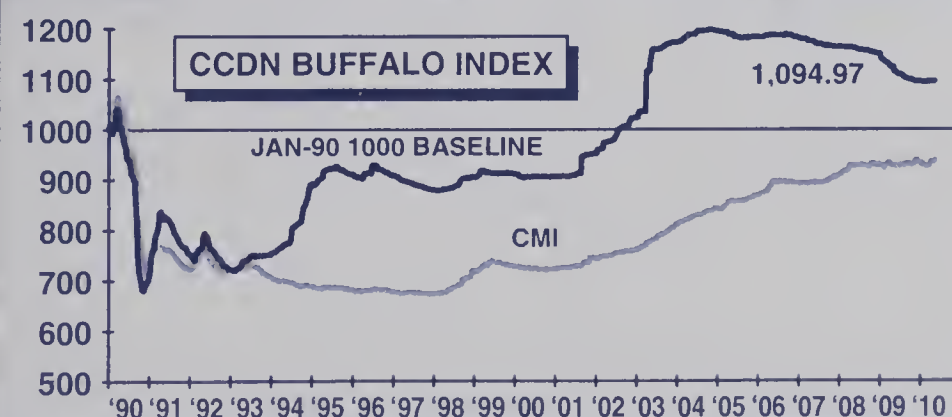

While there is only a handful of PCGS Secure Plus coins currently in the marketplace, fewer still with the + grade, there is certainly no lack of discussion about what these coins mean to dealers and collectors. Much of the more heated discussion surrounding the introduction of + graded coins has centered on those that *do not* have a + grade on the holder. The concern is that it may be presumed that the absence of the imprimatur of the + designation from PCGS suggests that the coin does not merit the qualification. This is at least in part the result of submitters who simply wanted their coins placed in the new Secure Plus holder and digitally "finger printed", not being aware that the coin would not be considered for the + qualification unless it was specifically asked and paid for. Some of these coins could very well have received the + grade if the service had been requested. The problem now is these non + Secure holdered coins are perceived as not being of premium quality and/or not top end for the grade. Furthermore, there is also a perception that since these coins have now been digitally identified, they will never receive the + grade if resubmitted. Not true, says PCGS. Even though their graders/finalizers will be aware of the previous grade given, they can change the grade. Many of these non+ slabs have already made their way to CAC, and have received their green sticker, designating the coin as solid for the grade. As confusion clears over time with regard to this new service, the value of a Secure Plus coin without a + grade will become better defined. What little is known now concerning the value of those coins with a + grade comes from recent sales at retail public auction. One example, a 1928S Peace Dollar graded MS64+, an issue with a wide spread in Bid from MS64 to MS65, realized \$1,840. CCDN sight-unseen Bid for a PCGS MS64 example is \$600 and MS65 is \$9,500. A second example is a 1916S graded MS64+ which realized \$1,955 while sight-unseen Bid for PCGS MS64-65 are \$1,575 and \$2,380, respectively. Only time will tell if non + and non CAC material will lose value or maintain their current spreads versus problem-free coins that are solid for the grade.

Perhaps of some significance concerning Silver Commemoratives this week are the number of coins that have been offered at or near published

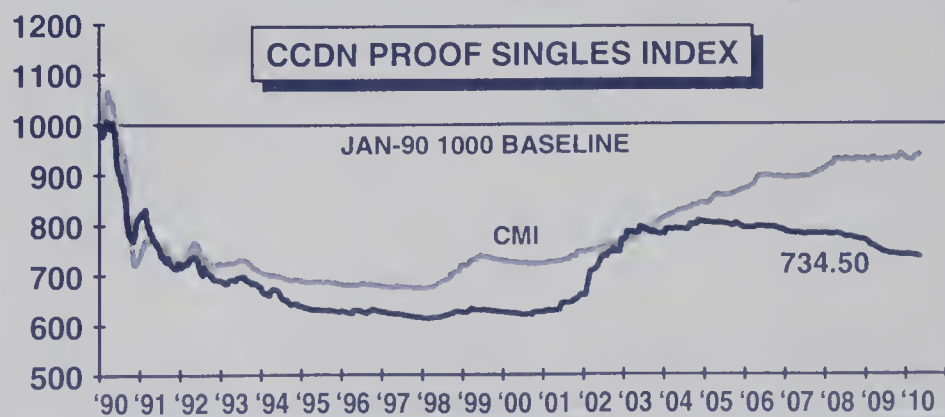

levels, with no less than twelve such offers. Both the Albany and Texas centennial are taking the brunt of the declines for NGC material. Morgan Dollars show few outward signs of activity, though offers to purchase in quantity are present for the common dates in grades MS61 to MS67. Buyers are looking for rolls of Morgan Dollars at Bid, and will take any example, sight-unseen, as long as the PCGS holder says MS67. On the Peace Dollar front, buyers stand ready to acquire some 500 cartwheels grading MS64, at current Bid. Sight-unseen Bid for PCGS MS66 Peace Dollars is \$365; MS66+ is \$550; MS66+ with CAC sticker is \$600. Mint State Type enjoys solid support, especially for Nickel and Silver issues. Early Flowing and Bust Dollars have sight-unseen buyers available for nearly all dates in grades MS63-66 at the published five and six-figure Bid levels, herein. Generic Walkers remain strong overall with buyers available at Bid for all grades across-the-board. Dealers will pay \$163 for any MS66 example graded by PCGS, regardless of aesthetic quality. Those with the MS66+ grade are receiving sight-unseen offers of \$200; an MS66+ with a CAC sticker will garner \$225.

What needs to be said about Mint State Gold? For the most part, it is a sea of plus signs. Gold Spot just hit \$1,242 an ounce – a world record high – and the 17% Bid jump for TIII \$20 Libs is a direct result. Early Gold Type is very quiet this go 'round, with the only activity affecting Classic Head Quarter Eagles, which are mixed. Proof Singles continue to decline, especially for select NGC examples which have performed poorly at recent auctions.

NGC just announced their new Metallurgic Analysis Service, which is now available. The process utilizes x-ray fluorescence, and the results of the test will be printed on the slab's label, listing the percentage of the three most abundant, non-trace metals on the surface, along with the weight of the coin. This new service will be used for patterns, assays, trials, mint errors, tokens and medals. NGC President, Rick Montgomery, stated: "Certainly, this service will be a boon to collectors of pattern coins."

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Bulk Submissions Have Never Been Easier

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

NGC offers dealers a personal consultant for bulk submissions.

For years, NGC has led the industry with consistent and accurate grading, the best customer service and the fastest turnaround times — all at an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Grading finalizer and expert numismatist Ron Drzewucki will assist you personally, to help you choose the submission program that works best for you.

To discuss your options or to arrange a visit to your location, contact Ron at 800-NGC-COIN (642-2646) or Ron@NGCcoin.com. To learn more, visit www.NGCcoin.com/bulk

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.

Single copy price \$4.00

Gold Type Extremely Active Short-Set Walkers Step Up

In what was already a very tightly packed convention schedule the entire year around, the interval between the CSNS and the Long Beach Expo offered at least a little respite from the wear-and-tear associated with traveling the show circuit. Now, many are presently in Nashville where Whitman is sponsoring the inaugural show, May 20-22. Stack's is the official auctioneer with their sale set for Friday, May 21. At the conclusion of the Nashville affair, it is but one week until the Goldberg's sale of the Dan Holmes Collection of Middle Date Large Cents, Part 2 is set to begin, Sunday, May 30. This will be followed by their Pre-Long Beach auction in Beverly Hills May 31. See a list of some certified highlights from both sales herein. The Long Beach Expo gets under way with dealer set-up on June 2. Bowers and Merena will exhibit a high grade collection of Early Copper assembled by Martin Logies. A few Large Cents graded by PCGS included in the display are: 1793 Chain AMERICA S2, graded MS65BN; 1793 Wreath, Vine and Bars in a MS69BN holder and an 1803 No Stems S243 with a grade of MS66RB. Heritage will conduct the official auction of the Expo on site, beginning June 3.

Silver Commemoratives are rather quiet this week only one lone decliner, that being the PCGS 1938 Oregon PDS Set, now Bid \$620 in MS65. An Isabella Quarter graded MS62 by PCGS is being offered wholesale for \$420 against a standing sight-unseen offer of \$400. Morgan and Peace Dollars are also mostly quiet in this report as is often the case leading into and during national shows. Common date Peace Dollars have inched up in MS64 to \$36 while large quantities are being offered at \$38. A few examples have once again slipped by at retail auction, selling for less than dealers are willing to pay sight-unseen. One such coin, an 1903O graded MS62 by NGC sold at the recent Spink Smythe sale for \$288 while a standing

\$340 offer went unnoticed. Gold Type is hot, though the Spot fire appears to be dampening a bit. On May 12, Gold recorded its world record high closing of \$1,243 and then closed the following day at \$1,229. Next, Gold reached out and touched \$1,250 an ounce during the trading session on Friday, May 14 before retreating. This spurred a rush to acquire Double Eagles on CCE by way of sight-unseen trades thru the Big Generic Market. Nearly \$700,000 in common date Gold changed hands in active sight-unseen trading this past week. Not since December of 2009 has there been so much activity focused on \$20 Saints. Spot is currently in the neighborhood of \$1,185 per ounce. Generic \$20 Saints are higher by as much as 13% from last month with the majority of action found in grades MS61 thru MS64. A couple of better dates did manage to sell for a discount during this same period, including an 1908 with Motto and a 1909D both in Gem.

Buffalo Nickels and Mercury Dimes are stable for the most part with only a few minor updates taking place. Walkers are the most active series this week, second only to \$20 Saints. Common dates are 5% higher in MS64 and are also up a bit in MS65. Dealers are now paying over \$1,100 for any PCGS/NGC short-set that grades MS64, regardless of the quality. These have always been an affordable entry point for new collectors and enough are available for a fairly large promotion, that can lead to more serious long term clients.

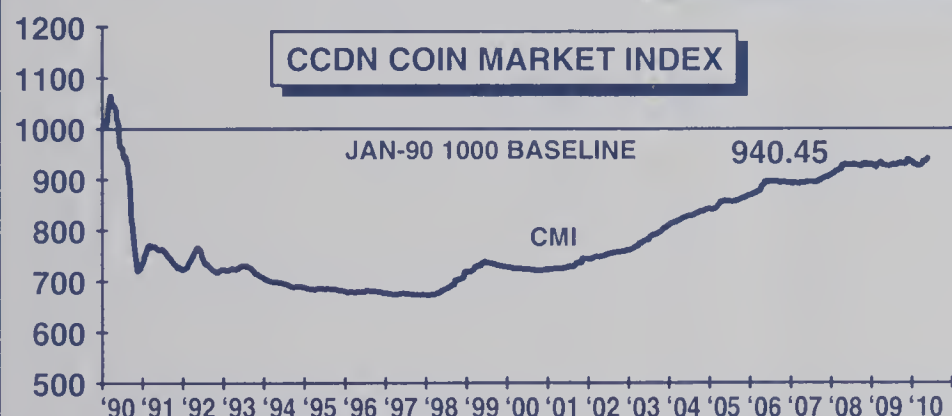

PCGS has announced the opening of a new submission center located in Paris, France. Additionally, in an effort to expand its services to collectors and dealers throughout the world, PCGSglobal.com was created. This new site allows visitors to view information about third-party grading in their native languages, including French, German, Italian and Polish. PCGS has also announced that reference works will soon be available on their site, possibly including such books as Walter Breen's encyclopedia.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report - an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

"Because Confidence is Priceless"

www.caccoin.com

...is a Monthly Publication that is the most COMPREHENSIVE and UP-TO-DATE pricing guide available in today's ever-changing field! DEALER-TO-DEALER BID/ASK Charts cover all of the following areas:

- DEMAND NOTES
- U.S. NOTES: (LEGAL TENDER)
- COMPOUND INTEREST TREASURY NOTES
- INTEREST BEARING NOTES
- REFUNDING CERTIFICATES
- SILVER CERTIFICATES

- LEGAL TENDER NOTES
- SILVER CERTIFICATES
- NATIONAL BANK NOTES
- FEDERAL RESERVE BANK NOTES

- U.S. NOTES (LEGAL TENDER)
- SILVER CERTIFICATES
- WW2 EMERGENCY ISSUES
- NATIONAL CURRENCY

COLONIAL NOTES

... **PLUS** IN-DEPTH ARTICLES and analyses, each month, written by the most respected experts in the field!

... **PLUS** AUCTION REPORTS — to give a clear and accurate picture of the most recent activity!

... **PLUS** special ISSUE-BY-ISSUE Charts covering special areas of changing importance!

Subscribe today and get the most comprehensive price guide on the currency market.

YES! Enter or extend my subscription to the Currency Dealer newsletter for the term checked below. Enclosed is my check/M.O. or MasterCard/Visa # and expiration date. ☐ **1 Year \$44** ☐ **2 Years \$78**

SMALL SIZE TYPE NOTES

The auctioneer's shortable, but otherwise unremarkable, appearance immediately brightens this time (1:40:15) to 22:25, as I note the weak loss of an overheard market had been reached and were now in the hands of the auctioneer. The auctioneer's shortable, but otherwise unremarkable, appearance immediately brightens this time (1:40:15) to 22:25, as I note the weak loss of an overheard market had been reached and were now in the hands of the auctioneer. The auctioneer's shortable, but otherwise unremarkable, appearance immediately brightens this time (1:40:15) to 22:25, as I note the weak loss of an overheard market had been reached and were now in the hands of the auctioneer.

LARGE SIZE TYPE NOTES

Prices for Large Size Type 1 structure in slowly recover, rather than moderate to fast PCUS and PNL, certification has become a near necessity for any firm represented as being "one of the best of Uncirculated" (indeed, driven by the concept of quality as the most robust competitive advantage) on other classification ratings (e.g., where better buildings are gained, and on other classification ratings). The two certification firms have introduced a new category, "The two certification firms have introduced a new category of promoting demand for their product at the very end of the marketplace. There there actually exists the most logical and useful demand for their services, to the upper end of the necessarily, most subjective quality spectrum in the 11 point Uncirculated range, where a single point in mean an especially significant difference in what a buyer might be willing to pay based solely on the third trust

FRACTIONAL CURRENCY

Problems with retention of the *h* allele was more specialized, dominated area with *p* elevation versus attraction of a given variety remained with *p* below that of large and small be Type 3 birds. It is some here remain available at auction at prices that are a small fraction of large be Type 3 birds, with small population. Functionally we considered *h* birds regardless of *p* in a common within *p* generate significant demand and are *h* is valuable even in some smaller and smaller interest.

NATIONAL BANK NOTES

National Bank Notes comprised of multiple geographic regions remain more specific than other collecting types. "Scarcity is rare material is in demand issues can sell quite high, sometimes surging high, strongly at auction while material from areas enjoying less robust collecting will command only levels that an investor collecting issues here being frustrated and quite disappointed," I can't help but learn to in any collectible marketplace, but there is a distinction between what sells less than anything, right? he is with an auctioneer, on the contrary is worth based on the interest in a particular collecting category with others at auction. What the seller paid, what is wanted, what he thought it was, seem such a difference in value, especially on what he thought it was, seem such a difference in value.

MISCELLANEOUS

(Bubble continues to be a bright spot in the market, with rare material enjoying a brisk and growing demand. This remains an area of continued informed collectors, with very little involvement by the third party. In auction form, the exception is an extremely common item that can be marketed as "K" or higher to buyers who are impressed by the "retail grade label" than the ease of locating and acquiring an item.

The *Greensheet* reports the national currency market on a monthly basis.

Need to MAIL?

**SAVE MONEY
ON POSTAGE!**
We will
pre-sort your
mailing labels
to get you the
BEST RATE!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.
separate states by comma

☐ Bulk Rate

☐ First Class

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$2.50 each • 11-25 issues - \$2.00 each • 26 & over - \$1.50 each

Or, you can purchase *complete sets* of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter (Greysheet)**

from June 14, 1963 to December 18, 2009, now includes 2,373 issues.

At \$1.50 each this would normally cost \$3,559.50, but a complete set is only \$2,375.

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)

from August 1976 to December 2009, now includes 401 issues. At \$1.50 each this would normally cost \$601.50, but a complete set is only ... \$465.

Complete set of the **CDN Quarterlies**

from January 1992, to December 2009, now includes 216 issues, a complete set is only \$240.

Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies**
now includes 2,990 issues, and extra savings at only \$2,950.

Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)**

from August 22, 1986 to December 18, 2009, now includes 1,151 issues.

At \$1.50 each this would normally cost \$1,726.50, but a complete set is only \$1,185.

Complete set of the monthly **Currency Dealer newsletter (Greensheet)**

from September 1980 to December 2009, now includes 352 issues.

At \$1.50 each this would normally cost \$528, but a complete set is only \$415.

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 22

May 28, 2010

Single copy price \$4.00

NGC Plus — It's Official Half Dollars Bust A Move

Per a May 25 press release issued by NGC: "Effective immediately, all eligible coins submitted to NGC for grading will be reviewed for the Plus Designation (+). NGC assigns a + to coins at the high end of their assigned grade, approaching the quality requirements for the next grade. In addition to their superior technical merit, coins receiving a + must have above-average eye appeal." PCGS awards the + qualifier to deserving coins following a similar criteria, but only if the Secure Plus grading service has been requested and paid for. Additionally, the Secure Plus service results in a mandatory digital fingerprint of the obverse of the coin. The Long Beach Show is heading for port and host auctioneer Heritage is set to conduct a sale beginning June 3. The Brenda John Collection of Buffalo Nickels and Lincoln Cents is the finest offering of these two series to hit the auction block in recent memory. High grade examples of the traditional key dates abound, but what makes this offering particularly special are the conditional rarities from the teens and twenties. A few of the many highlights from the sale are included below.

Silver Commemoratives are seasonably quiet, but that is not to say that coins are not trading hands because indeed they are. A dealer on one of the electronic trading networks recently posted a list of 15 of these certified classics in the \$250 to \$1,000 range. A follow up message indicated that many of the coins had sold immediately. Further, a cursory glance at recent auction results reveals more often than not coins bring well in advance of sight unseen numbers. In fact, one would be hard pressed to find material here that actually sold for below sight-unseen Bid in the past month. Gold Commems are trading robustly, including the high-end five-figure material. The sale of a Round Pan-Pac \$50 Slug and Octagonal Pan-Pac \$50 Slug in NGC holders and graded MS64 realized 10 percent and 15 percent above sight-unseen Bid, respectively. Common date Morgan Dollars at the Gem Unc plateau have advanced a bit while among the Peace contingency the 1934 in NGC MS64 is the lone winner. NGC flavored Capped Bust Half Dollars grading MS63, MS64 and MS66 climb to higher levels. Interestingly, the dealer that tendered the sight-unseen Bids also posted Bids in anticipation of NGC + coins which will soon hit the market, possibly during the Long Beach show. Bid for MS65+ comes in at \$6,000, which is some 45 percent below the sight-unseen Bid of \$8,750 at the next grade level. The recent public auction of an 1805 Draped Bust 4 Berries Dime graded MS66 by NGC has resulted in a downward adjustment to Bid. Advances within Mint State Gold Type are

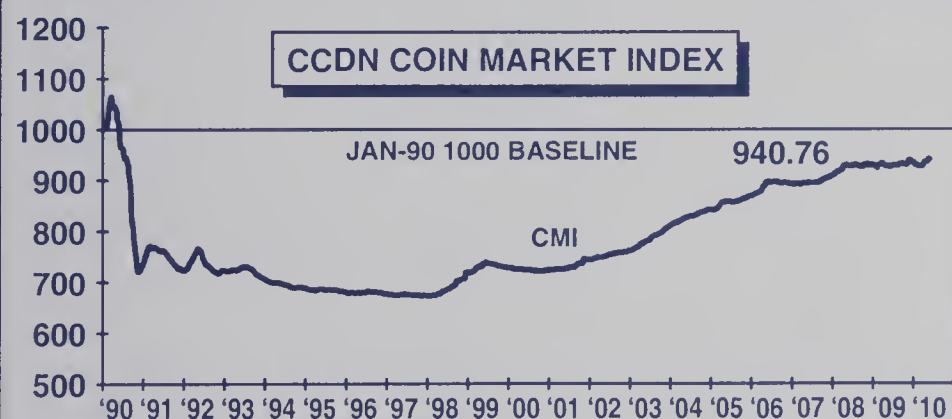

plentiful, and in most cases, significantly greater than the change in Spot from last week. Every denomination and a multitude of grades are participating in the forward march except for the "strictly numismatic" \$3 Indian Princess, which is status quo. Proof Copper, Nickel, Silver and Gold Type are singularly void of activity within this report, though not totally surprising as the dealer faithful gather in Long Beach. Flying Eagle Cents, Matte Proof Lincolns, Liberty Seated coinage, Morgan Dollars and every Gold denomination is represented in the upcoming auctions. Somewhat interesting, is that a number of the Proof Gold coins set to cross the auction block next week trace back to the Amon Carter Collection, home of the 1794 Silver Dollar that was recently sold by Steve Contursi of Rare Coin Wholesalers. The unique Flowing Hair Dollar with Silver Plug graded SP66 by PCGS was purchased for \$7.85 million by the Cardinal Collection Educational Foundation. Buffalo Nickels are rather quiet, as they have been for some time now. The upcoming auction in Long Beach will focus intense light on this series as a complete set stomps across the podium. Buffalo Nickels are one of only two areas of the market with a CCDN Coin Market Index above 1,000 points which

represents the baseline that was set in January 1990. Bidding support continues to wane here resulting in a CMI that has slipped from 1,115 this time last year to 1,095 today. Walkers, which were headliners last week, are no less fit for that honor once again. Common dates have climbed to \$650 in Superb Gem condition so long as they are housed in PCGS plastic. The new high sight-unseen Bidder here is looking for 10 at this level, and it does not matter what the coins actually look like. She is also looking for 20 examples in the new PCGS Secure Plus holder with a grade of MS67+ and is offering \$875 to acquire them. To date, only four examples have been encapsulated as such.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. sell lists, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (week old); "**m**" - Lowest asking price during the previous three weeks (month old); "**t**" - Trade during the most recent month; "**lm**" - Lowest asking price appearing *last month*; "**lt**" Trade appearing *last month*; "**ot**" Trade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS EMPL and NGC DPL Bids are for Early Deep Magma Profiles only. Bids for PCGS PL and NGC PL objects will be listed monthly in a supplemental insert. CDN Auctions Bids have always represented Early Deep Magma Profiles.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

Bulk Submissions Have Never Been Easier

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

Get personal consultations from an expert former dealer.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. As a former dealer himself, and an expert numismatist, Ron Drzewucki is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Ron directly at
 800-NGC-COIN (642-2646) or Ron@NGCcoin.com.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

Losing Patience With Coin Docs NGC Plus Debuts In Long Beach

It used to be that the weeks prior to the onset of summer enjoyed a "winding down" phase. Things have been anything but that this year. A week ago, a new world record price was paid for an individual coin—\$7.85 million—for the stunning PCGS graded Specimen 66 1794 Flowing Hair Dollar. The Goldbergs concluded the Holmes Large Cents and U.S. Coins portion of their sale a couple of days ago, and the prices realized totaled nearly \$7.9 million, not including the world coin portion. Heritage – the host auctioneer at Long Beach – will hold their auction June 3, 4 and 6. Stack's hosted the first ever auction at the Whitman Nashville Expo; it concluded just ten days ago and was good for \$1.75 million. Winding down? Less than two weeks from raising anchor on the Long Beach docking, Stack's is set to hold their "C.B. Slade, Jr. auction, June 15-16 in Baltimore, Maryland. The official auctioneer for the Baltimore extravaganza is Bowers & Merena set for June 17-19. Highlights for both are included herein.

There is no doubt that a good deal of discussion is taking place at this year's Long Beach Expo regarding PCGS' latest announcement of a major lawsuit filed against several named individuals and "John Does" they believed to have doctored coins. PCGS has developed a process code-named "Coin Sniffer" to detect foreign materials and other enhancements to a coin's surfaces in an attempt to artificially increase its value. This process is being used in conjunction with the new coin recognition laser technology that alerts them to previously submitted coins. One example of the many doctoring techniques used today is the manipulation of Standing Liberty Quarters to create the appearance of a Full Head. The example included herein shows the decomposition of an applied, soft metal that was tooled to simulate a Full Head, thereby increasing the value of the coin substantially. This type of doctoring often takes months or even years before it breaks down to the point where it becomes visible. PCGS claims to have paid over \$7 million in buy-backs under their guarantee of coins which have developed some type of problem as a result of coin doctoring.

NGC announced that they are also identifying doctored coins through the use of their proprietary technologies and continually research new methods and techniques to aid in the detection of altered coins.

This Long Beach Expo is the first where both PCGS and NGC will be offering + grades, labeling those coins that are premium quality for the grade. Both grading services use similar criteria for identifying these coins that are at the top of the grade. All pre-1964 coins in grades

XF45-MS68 are automatically considered for the + designation at NGC. PCGS submitters must use the Secure Plus grading tier for their coins to be considered.

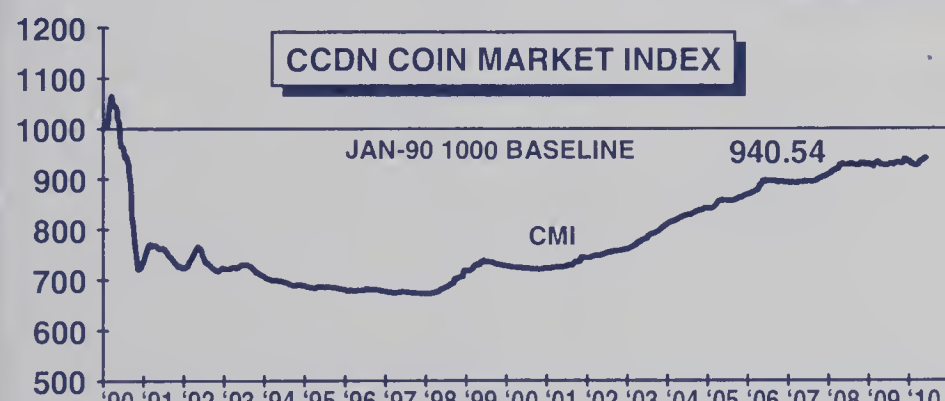

Silver Commemoratives are surprisingly active this week at the sight-unseen level with 11 advances, and as many declines. Morgan Dollars are host to a number of declines, though rather modest with most dropping by less than 4 percent. A handful of advances have also been recorded including the 1885 and 1898O in Gem. Peace Dollars have slipped a bit for select issues in MS64. Mint State Type welcomes a few advances including PCGS MS64 Half Dollars, both Capped Bust and Liberty Seated with Arrows and Rays. A select group of Half Dimes are also higher. Gold Type is taking the hardest hit this week as Gold Spot begins to drift lower. Proof Gold, on the other hand, is the leading segment with 12 advances – all on the NGC side. Leading the way are \$2½ Indians in PR66 now at \$21,000, up from \$19,300. Walkers continue their surge with a trio of Denver Mint issues – '43D, '44D, and '45D eking out a gain in PCGS MS67.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,

Market Digests Heavy Auction Action "Plus" PCGS/NGC In Baltimore

Many dealers will be in route to Baltimore in a few days to participate in yet another national convention and auction by Stack's and Bowers beginning June 15. Both NGC and PCGS will be at the show offering their regular tiers of service. Dealers and collectors alike will be anxious to receive submissions that ultimately reside in a holder with the new + affixed to the grade. Coins submitted to NGC at the show will receive evaluation for the + designation regardless of the tier of service. PCGS requires that one submit coins under their Secure Plus tier in order to be reviewed for the + grade. Recently, generic Double Eagles residing in the new PCGS Secure Plus holder without the + grade have been offered for a discount to the standard PCGS slabs. These coins have been identified as not being of premium quality for the grade whereas the coins in regular holders, presumably still have a shot at PQ status in addition to not having been digitally fingerprinted. A slightly different twist to the perception over the past few years that old green holders (OGH) are lock upgrades. New NGC holders sans + grade may see a similar fate, especially if holder/label diagnostics are identified that confirm the date of encapsulation.

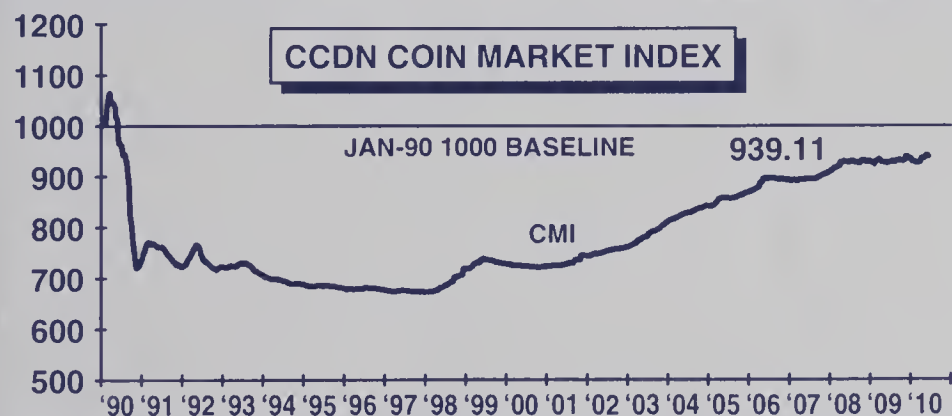

Though a few declines are present within the Silver Commemorative series, they have fared far better, perhaps than some might have expected given the large number of offerings over the past month. We have recorded over 600 public auction transactions spanning the range of this series and just a mere seven listings warranted lowering of Bid. Gold Commems prove similar, as a review of auction prices realized for nearly fifty examples has resulted in just one Bid moving lower this week. Numerous revisions have been made, both positive and negative to select Morgan Dollars throughout the chart. Certified collector orientated material in the \$30 to \$200 range have advanced, perhaps in anticipation of summer inventory needs. In addition to the 45 declines recorded, over 40 examples sold for slightly less at auction last week than the new higher sight-unseen Bids in place today. Eight of the declines accrue to issues that Bid over \$1,000, and while that is significant, there are no losers in the even more prestigious five-figure range. In fact, a dozen of the Morgan Dollars that have sold at auction in the past month realized over \$10,000 and can be seen in the chart below. A handful of PL issues have declined, the most expensive being the 1881CC in NGC MS63PL, now Bid \$385.

Mint State Type loses ground in just two cases — the Liberty Seated Half Dollar with Arrows (1854-55) in NGC MS63 and the No Motto Half in PCGS MS64. Given the

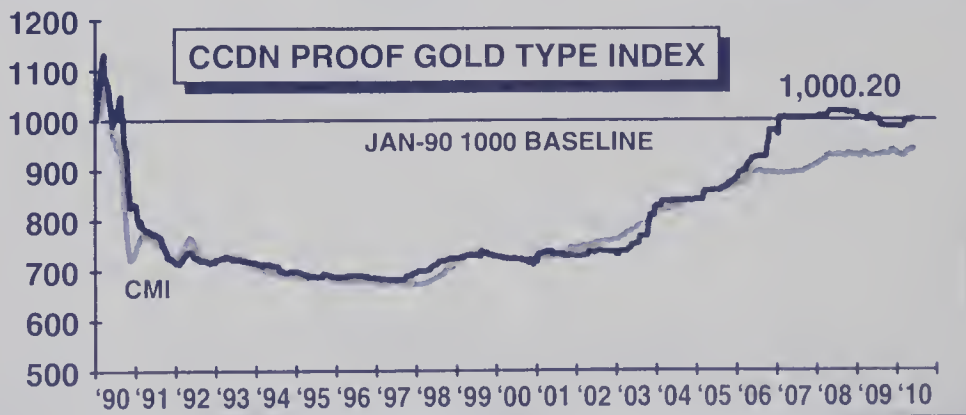

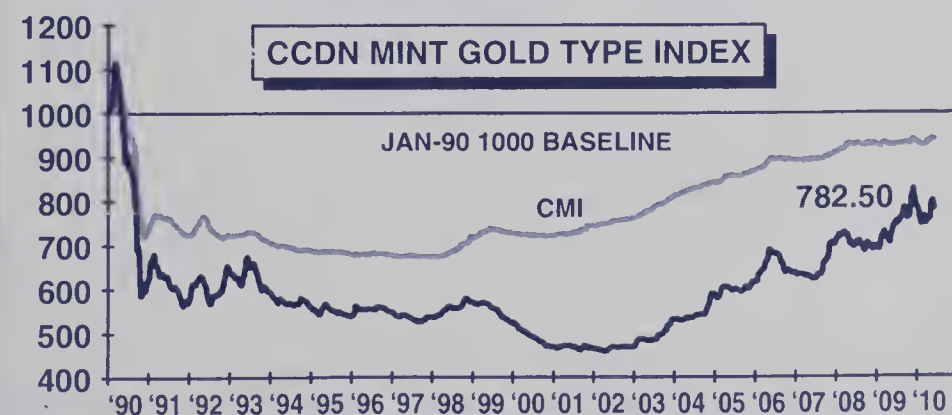

stunning volume of material sold recently, the fact that only two issues require a lowering of Bid prompts one to suggest this segment of the sight-unseen market is healthy. Mint State Gold, however, is an enigma. Spot was trading in the record territory of \$1,250 early in the week before falling back a bit, now at \$1,221. A large holding of \$20 Saints reportedly came to market as the Long Beach Expo got underway resulting in quite a bit of softening within the entire Mint State Gold Type segment. Some Bids are down by as much as 32% from last December when Spot traded for over \$1,200 per ounce for the first time. What some would say is even more surprising, is that dealers are now paying over \$1,950 an ounce for modern Proof Gold American Eagles. Proof Type has taken a few hits, the most significant being the 1859 Indian Head Cent in NGC PR66. Four of the five declines from this niche adhere to coins struck in Nickel and Copper-Nickel. Copper is unaffected this week while Silver sees Liberty Seated Dimes grading PCGS PR61 fall. No less than 11 Proof Liberty Seated Dollars, 15 Proof Seated Halves, and 25 Seated Quarters — the list could go on to include every Type on the Proof chart — recorded prices realized such that present Bids remain intact. Proof Gold Type, here the accounting is over a half-million dollars in sales for 21 coins which sold in recent weeks at auction — not one of those transactions is taking sight-unseen Bid lower.

The sale of a 1923S MS66FB Mercury Dime in an NGC holder prompts us to lower Bid to \$5,000. Apart from the '23S, the down ticks are few and modest. Even though a PCGS graded 1925 Mercury Dime in MS66FB sold at retail auction for \$1,380 a sight-unseen buyer remains visible, and will pay \$1,420 for any such example. Incidentally, a coin discussed in the PCGS lawsuit is a 1918D Mercury Dime described as the "crossbands having been rebuilt." PCGS surrendered \$90,000 to "buy back" the coin from the unwitting owner. Select Walkers in the mid 3-figure and low 4-figure range have dropped a bit. Buffalo Nickels, which we promised would yield fruitful information by virtue of the incredibly high quality collection sold at auction, did not disappoint. The information allowed us to adjust Bid to more realistic levels, especially on the more esoteric issues (mintmarked coins from the teens and twenties) in MS66 and MS67 where sight-unseen Bids are absent. Furthermore, a review of the recent Buffalo offerings indicates that the most expensive of the coins offered went unsold.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

NGC Plus Designation

For coins at the top of their grade...

NGC assigns a Plus to coins that are high-end for the assigned grade and approach the quality requirements for the next grade. Eligible coins submitted to NGC for grading are automatically considered for this designation. To learn more, visit www.NGCcoin.com/Plus

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

"Because Confidence is Priceless"

www.caccoin.com

PROOF TYPE COINS

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

JANUARY 2010

MARKET CONSOLIDATES PRIMARY STRENGTH DISPLAYED AT AUCTION

ACTIVITY

across the market

The outlook for the currency market is generally positive, with activity across the board. The primary strength displayed at auction is in the large size U.S. notes, which are in high demand. The market is also seeing a lot of activity in the small size U.S. notes, particularly in the 1 and 2 dollar denominations. The fractional currency market is also showing signs of recovery, with prices beginning to rise. The national bank notes market is also active, with prices for older issues showing a slight increase. The proof and specimen notes market is also seeing some activity, with prices for older issues showing a slight increase. The military payment certificates market is also active, with prices for older issues showing a slight increase. The colonial notes market is also active, with prices for older issues showing a slight increase.

The Green Sheet reports the national currency market on a monthly basis.

Single copy price \$4.00

Stack's Sale Garnerers \$2.5 Million Gold Earns New All-Time High

Stack's concluded its two-day C.B. Slade, Jr. sale in Baltimore and reeled in a little over \$2.54 million. Twenty-seven lots realized \$10,000 or more and account for \$644,000 of the total prices realized. The sale contained 1,859 lots excluding the five-figure "monsters" or an average per lot price tag of \$1,020. Collector oriented material appears to be alive and well. Highlights of the entire sale are included herein. The activities in Baltimore pick-up with the retail bourse and the Bowers sale now underway. Gold closed at \$1,248, which is a new world record for the yellow metal, and should be a much welcome development for the show. In spite of this, premiums for Double Eagles, both \$20 Saints and Libs, are well off historic highs. Common date Choice Saints are now Bid \$1,430, when they were \$1,770 December 4, 2009, after Gold peaked over \$1,200 per ounce for the first time in history. Gem examples had a sight-unseen Bid of \$2,500 then versus \$1,825 today.

It has been a rather quiet week for the Classic Silver Commem market – the 1893 Columbian Expo advancing in Gem and the 1892 rising in PCGS MS66. Classic Gold Commemoratives enjoy sight-seen increases this week, but sight-unseen Bids remain status quo. Support here, however, remains widespread at or very near Bid. In some instances, there are multiple Bidders vying for material. Morgan Dollars are quietly on the move to higher ground. One dealer placed new, higher Bids for the 1888O for MS61, MS62 and PCGS MS63 examples. A bevy of three-figure cartwheels including two turn-of-the-century San Francisco treats ride the trolley up the hill to \$410 and \$440, respectively, for the 1901S in MS61 and the 1902S in NGC MS62. Peace Dollars are on the move again, too. Of particular note, Bid has increased to \$3,000 for Superb Gem examples of the 1923 in PCGS plastic. While that Bid pulls it closer to its 1925 companion, it remains the lone, common date at that grade level. Other increases are more modest, though it is the better, semi-key and key dates that are targeted in MS61 and MS62. A number of select Peace Dollars climb higher after last week's barrage of minus signs. Mint State Type from MS61 to MS67 and across all three of the major metal compositions – Copper, Nickel and Silver – displays widespread support, the majority targeting higher grades. Mint State Gold Type undergoes adjustments in both directions, nothing exceeding 4% either way. Increases land exclusively on the \$1 Gold Princess in MS63 and MS64 while Eagles and Double Eagles dominate the decliners. As was

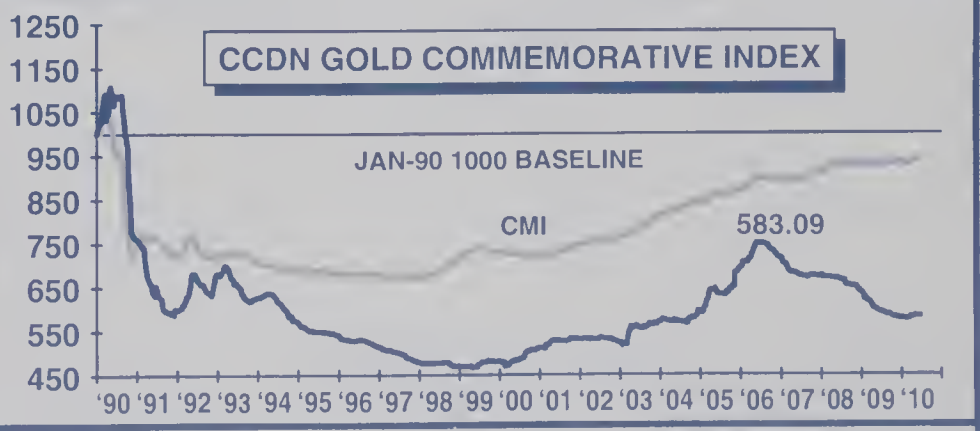

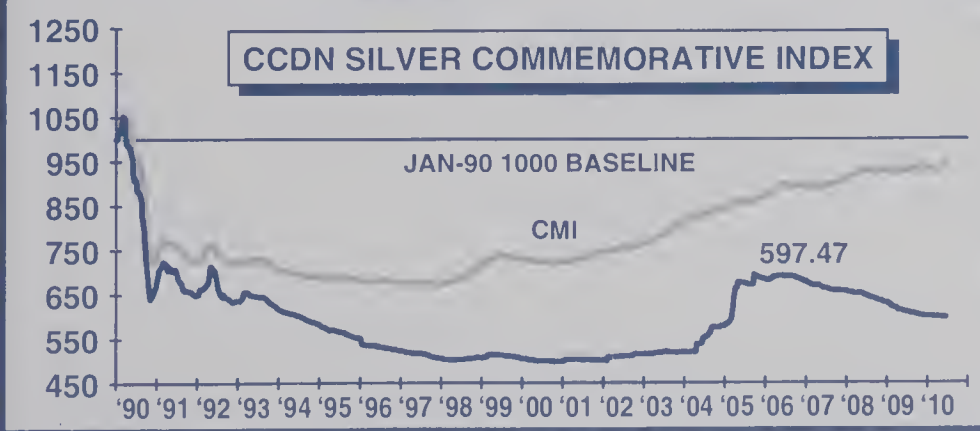

suggested in one of our recent market recaps, speculative interest in Proof Gold American Eagles might be siphoning some of the revenue stream that would otherwise find its way into pre-1933 coinage. Proof Type sees a modest week of sales, most of which fall into the under \$2,000 category. The vast majority of those sales involved Silver Type, though there were a small minority from the Copper and Nickel segments as well. Proof Gold, in particular the three Indian Head denominations and the Saint-Gaudens, which is to say all of the regular issue Gold, but struck in Proof format from 1908 to 1915, undergoes a positive revision. Increases are in place for these five-figure jewels in PR65 through PR67 for PCGS material. Of the eleven listings that exhibit a plus sign, the PCGS PR67 Saint leads the charge, striding up by 10% to \$110K. Of the 402 Proof \$2½ Indian Heads certified by PCGS, 24 have made PR67, 15 of those 24 are the issue of 1911. One coin has been certified at the PR68 plateau. NGC has made 588 coins of the Type, 94 at the PR67 level and 22 billeted in holders at PR68. NGC has spread the wealth around in PR67: the 1908 pop is 26, 1910 pop is 12, the 1911 and 1914 account for 18 and 12, respectively. Of the 22 PR68 examples, the 1911 account for exactly half of that number. Mercury Dimes: Twenty-five individual listings Bid for less than \$20 in MS65, and twenty-two in MS65FB Bid for less than \$50. What more is there to say about what was at one time perhaps the most popular design Type in the American repertoire? Walkers, if we may turn our attention to Proof Singles, are supported at present levels from 1939 to 1942, encompassing all grades with but one or two exceptions.

Some might argue that such a situation represents a de facto market bottom; logically, no Proof Walker can go unsold since there exists a binding, no return Bid. A large portion of the Superb Gem herd of Buffaloes born in the teens and twenties and hailing from Philadelphia have picked up support in the PCGS stall, and to a lesser extent in the NGC pastureland.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Daisy Wood

6 Months-\$65, 1 Year-\$117, 2 Years-\$193

6 Months \$65.00 1 Year \$117.00 2 Years \$193.00

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

[illegible]

CCDn does not buy or sell any coins whatsoever. CCDn will not recommend any particular dealers. Bid prices are represented as authentic to the CCDn; nevertheless, CCDn implies no guarantee whatsoever.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.

Auction Results Provide Some Direction

Plus Grades Creep Into Marketplace

Now home from Baltimore, it's a week of reorganization followed by preparation for many of the nation's largest dealers right down to the vest pocket weekend wheelers. In addition to placing want list purchases with clients, processing auction wins and bourse buys, several will be adjusting their Bids on the trading networks. Bowers & Merena realized \$6.3 million from their Baltimore sale preceded by the \$2.5 million Stack's hammered days earlier. A handful of these auction prices realized and internet sales resulted in reductions to Bid and can be found peppered throughout this week's Market columns. In addition to the PCGS lawsuit against coin doctors, Plus graded material remains the topic of much discussion over the past few weeks. The jury is still out, as simply not enough of the PQ graded coins have entered the marketplace to make any valid conclusions. One thing is certain, printed population/census reports are a thing of the past with the advent of "+" grades. Slab populations remain available online and NGC just announced some enhancements in addition to the newly added "+" numbers.

Silver and Gold Commemoratives had an enjoyably quiet week. Only a couple minor tweaks appear throughout these areas. Morgan Dollar Bids have undergone a comprehensive revision this week. Increases are distributed across all grades from MS61 to MS65, though limited to coins priced in the \$50 to \$1,000 range. One pleasant exception is the 1904S, which has a new higher sight-unseen Bid of \$5,600. Declines are more numerous and target a larger number of cartwheels with four-figure price tags than the advancers. Some 15 slightly better dates sold at auction this past week for up to seven percent less than standing sight-unseen offers. Most were Carson City issues in the MS62-MS64 grade range, where buyers remain available, offering holders of such material instant liquidity at published levels. Select Peace Dollars are off a little due to trades at lower levels through the dealer trading exchanges and weak auction results from Baltimore. These numbers are found in the Market column preceded by a 't' and 'a' character, representing 'trade' and 'auction'.

A pair of PCGS Proof Seated Quarters – the With Arrows in PR65 and the With Motto in PR65 and PR66 – sojourn to higher ground with a 19% increase recorded for the With Arrows example. These have been stale with a sight-unseen Bid of \$4,200 since January 2003 when they fell from \$4,400. "Drenched in richly original toning," is how a 1903 Barber Quarter graded PCGS PR67 was described that sold at auction for \$2,990. The sale of this pop 18 coin left over \$700

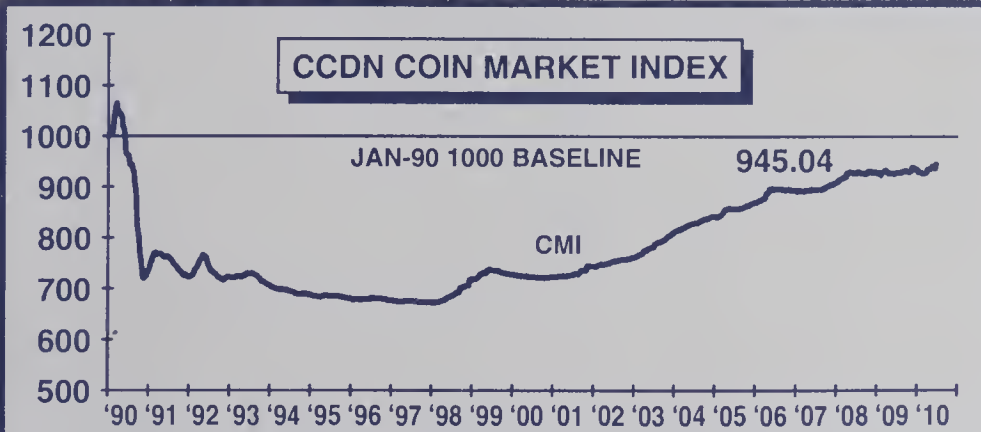

on the table, as a standing sight-unseen offer of \$3,700 is available for any PR67 Barber Quarter graded by PCGS, regardless of the coin's date, condition, look or slab generation. The sale of an NGC MS66 Seated Quarter Arrows & Rays and Seated Half Dime in the same grade necessitated a lowering of Bid. In the case of the Quarter, the decrease to Bid is approximately 20%. Draped Bust Half Dimes with Large Eagle are lower in PCGS MS64 after a poor auction performance. A handful of other adjustments are observable throughout the chart, though none are so significant that specific mention is needed here. Only a half-dozen or so examples can be found in this segment's market columns that sold for less than binding sight-unseen Bid this past week. Barber Half Dollars graded MS65 by NGC are a textbook example.

Proof Gold suffers no untoward adjustments. The recent barrage of sales, including the one recently concluded and incorporated into all of this week's number crunching - involved hundreds of thousands of dollars of prestigious Proof Gold. Though a few of the more dramatic pieces went unsold, a good deal did sell with little to no negative impact on Bid levels. Last week we noted that 25 listings on the Mercury Dime Chart in the MS65 column Bid less than \$25. When the FB qualifier is applied, 22 Bid less than \$50. Someone's attention may have been caught as there are 95 new advances on the Mercury Dimes chart. These increases jive well with an observable decrease in trades taking place through the CCE Big Generic Market. January of this year was an exciting

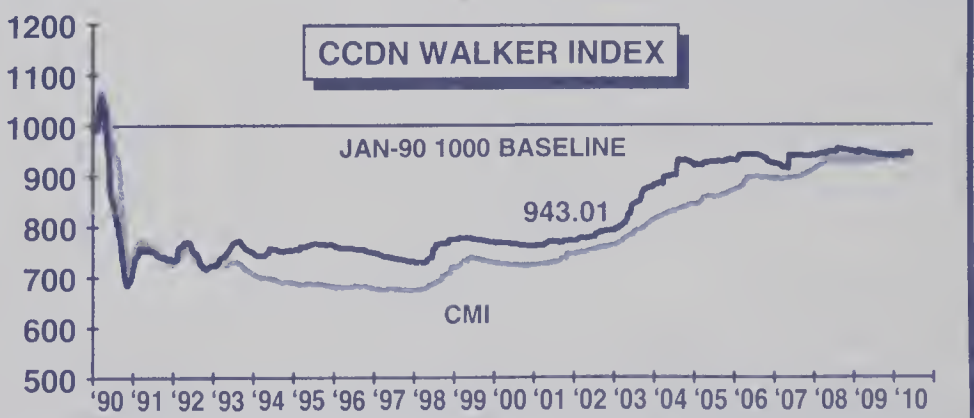

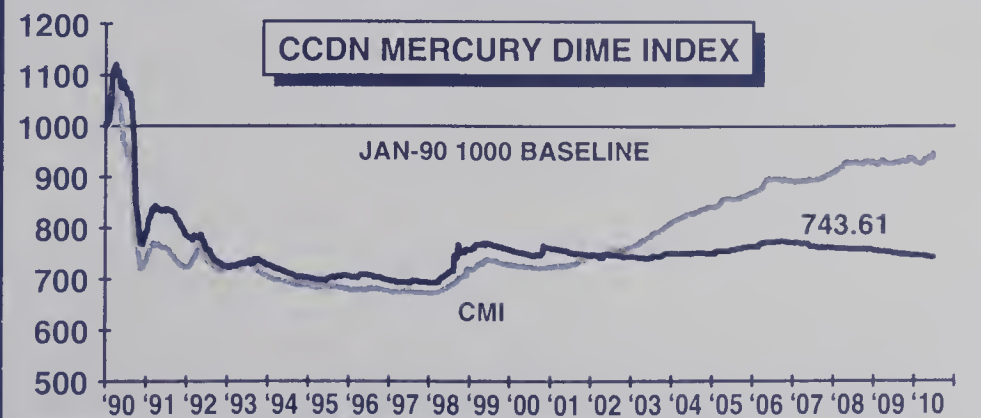

time for Merces as over \$40,000 worth sold in a two week period accounting for 45 percent of the total sold since the inception of the new platform for trading generics. Recent sales of Merces are significantly lower and for many weeks, there were no trades at all. Higher Bids here might grease the numismatic channel of commerce. Walkers are enjoying summer vacation but not before failing to prevent two of the contingency – the 1917D Obv in PCGS MS64 and the 1938 in NGC MS66 – from falling down.

The circuit picks up again in July when the hobby faithful gather in Orlando for the Summer FUN show. The show is scheduled for July 8-10 with an onsite auction provided by Heritage. A preview of some of the sale's highlights, the "fun" stuff that is, appears in the chart above.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

CAC[®]

"Because Confidence is Priceless"

Bulk Submissions Have Never Been Easier

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

Get personal consultations from an expert former dealer.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. As a former dealer himself, and an expert numismatist, Ron Drzewucki is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Ron directly at
 800-NGC-COIN (642-2646) or Ron@NGCcoin.com.
 To learn more, visit www.NGCcoin.com/bulk**

A Rare Commitment to Numismatics.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - \$2.50 each • 11-25 issues - \$2.00 each • 26 & over - \$1.50 each

Or, you can purchase *complete sets* of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter (Greysheet)**
from June 14, 1963 to December 18, 2009, now includes 2,373 issues.
At \$1.50 each this would normally cost \$3,559.50, but a complete set
is only \$2,375.

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2009, now includes 401 issues. At \$1.50
each this would normally cost \$601.50, but a complete set is only \$465.

Complete set of the **CDN Quarterlies**
from January 1992, to December 2009, now includes 216 issues, a
complete set is only \$240.

Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies**
now includes 2,990 issues, and extra savings at only \$2,950.

Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)**
from August 22, 1986 to December 18, 2009, now includes 1,151 issues.
At \$1.50 each this would normally cost \$1,726.50, but a complete set
is only \$1,185.

Complete set of the monthly **Currency Dealer newsletter (Greensheet)**
from September 1980 to December 2009, now includes 352 issues.
At \$1.50 each this would normally cost \$528, but a complete set
is only \$415.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXV No. 27

July 2, 2010

Single copy price \$4.00

Gold Spot Below \$1,200 Bids For “+” Grades Picking Up

For many dealers, the July 4 weekend will provide a brief respite from the show circuit. Then the travel schedule begins anew with Summer FUN in Orlando. Indeed, with July 7 slated for dealer setup, and the usual pre-show hotel room wheeling and dealing, the July 4 holiday for some will be nothing more than an opportunity to catch one's breath. Not so fast, with Gold Spot plummeting over \$40 from the previous close and still falling, some inventory adjustments are likely. The last time Gold Spot closed under \$1,200 an ounce was on May 25, and generic MS62 \$20 Saints were Bid \$1,490. Today these have a sight-unseen Bid of \$1,360. Bids for \$20 Libs are similar, Choice examples were Bid \$2,100 in late May and now they are 12% lower at \$1,850. This was a time when slabs brandishing the “+” grade were just being made at NGC while PCGS began a couple months earlier. CCE has now implemented a Bidding platform for generic Double Eagles to be traded sight-unseen in grades MS65+ through MS68+ with the latter grade only available for No Motto Saint-Gaudens. This Gem and better Type Gold, that is above average for the grade, including CAC approved examples are seeing a wave of increased demand.

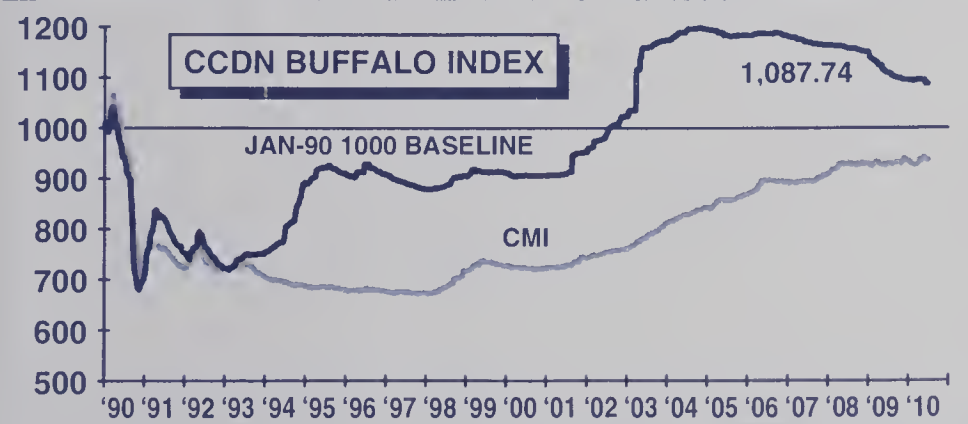

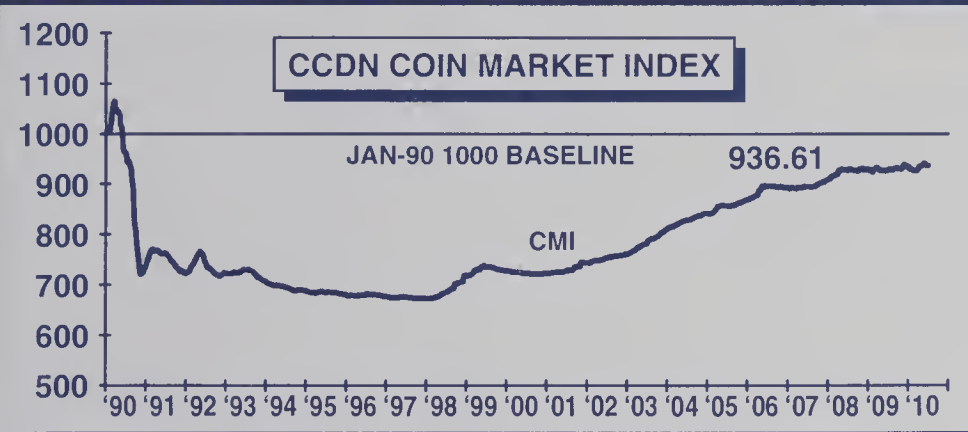

Silver Commemoratives are subdued but the importance of one issue involved and the grades targeted render it significant. The popular Isabella Quarter, the lone Quarter denomination in the set, flares up to \$2,000 in MS65 and \$3,250 in MS66. These advances are for coins in a PCGS holder. One might find the sight-unseen MS65 Bid provocative – a CAC approved example realized \$1,900 less than two weeks ago. A final note on the Isabella, low PCGS populations of 384 and 144 in MS65 and MS66 confirm the rather hearty Bids. Advanced Type collectors, often include it in an exhaustive Type Set of U.S. Coins in the same way Liberty Seated coinage with Arrows are included by denomination even though the design Type is the same. Two rather precipitous decliners in this segment are the 1936 Elgin in MS66 and the 1935S San Diego in MS65, both on the PCGS side of the ledger. Classic Gold Commems, darlings of sight-seen Bidding activity of late, are less active on the sight-unseen front. Three advances and two declines – all involving PCGS slabs – is the extent.

Issues targeted among the Morgan Dollars: 1878 7/8TF, 1883CC, 1884CC, 1891O, 1903O, 1888S and the 1891S. Often times referred to as the Strong

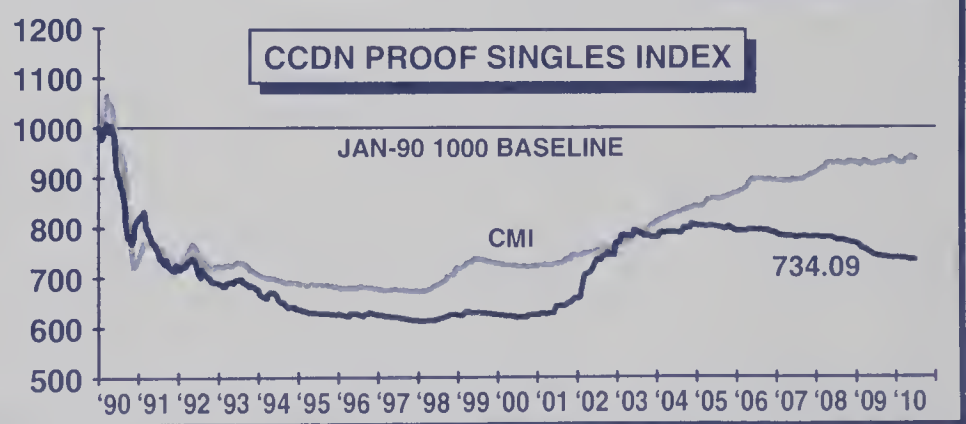

Reverse, the 1878 7/8TF is comprised of a handful of major die varieties. The so-called Weak Reverse, frequently labeled simply as 1878 7TF, also represents numerous die varieties. Among the Strong Reverse varieties, Bid is valid for any 1878 7/8TF Strong Reverse, regardless of any other attribution. Among the decliners, the 1881O in NGC MS65 and the 1892O in PCGS MS64, the new, reduced Bids reflect recent auction price realizations that have come in at lower levels. An example of the 1880CC in PCGS MS63 sold for \$310; bewildering in light of the sight-unseen Bid of \$440. GSA encased Morgans are suffering as a few dealers are currently overstocked. Two separate parties are offering the 1879CC with box and certificate for \$6,000. A few of the more common New Orleans issues are also available for less in the same format. Even GSA Dollars with the NGC wrap around grade strip are suffering a tad. Peace Dollars are biased on the positive side – eight advances, two declines. A total of four issues actually sold in the past week at auctions for levels that are below sight-unseen Bid. Occurrences of sales taking place below Bid were infrequent, almost nonexistent for a time. Of late, such transactions are on the rise. A Standing Liberty Quarter, Superb Gem in NGC hardware, sold for \$720 against a Bid of \$890. Certainly, this particular 1924D appears woefully, poorly struck. Nevertheless, the nature of a binding sight-unseen Bid must account for these worst-case specimens and these good faith Bids honored. An 1853 Braided Hair Half Cent graded NGC MS65B selling for \$550 against a Bid of \$650 is yet another example of this phenomenon. Standing Liberty Quarters certified by ANACS and ICG reflect new interest. Bid climbs in MS65 for ANACS examples. The recent sale of an 1880 Proof Trade Dollar graded PR66 by PCGS prompted a review of Bid. Analysis suggested a modest revision downward. One of the most popular and sought after Silver Proof Types in the entire

arsenal of U.S. coinage, the 1880 accounts for 25 of the 107 coins certified at this level. Population one grade higher is 23. Proof Gold Type is quiescent. A quick review of recent transactions here reveal that coins belonging to this segment rarely sell at or below published levels although items offered at auction do go unsold at times.

The Certified Coin Dealer Newsletter (USPS # 008847) is published weekly by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. Phone: (310) 515-7369
POSTMASTER: Send address changes to the Certified Coin Dealer Newsletter, P.O. Box 11099, Torrance, CA 90510
"Bluesheet" Subscription Rates:
6 Months-\$65, 1 Year-\$117, 2 Years-\$193.

CERTIFIED COIN DEALER newsletter
Dept. CCN P.O. Box 7939 • TORRANCE, CA 90504
http://www.greysheet.com • cdn@greysheet.com
Enclosed is my check/M.O. for the subscription rate of \$117. Please start sending me the Certified Coin Dealer Newsletter.
6 Months \$65.00 1 Year \$117.00 2 Years \$193.00
Name _____
Address _____
City _____ State _____ Zip _____

COMMEMORATIVES Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

All Eyes On Orlando

An active week for sight-unseen trading through the electronic dealer-to-dealer networks. Nearly a half million dollars in wholesale transactions were recorded over the past seven days. This is somewhat unusual heading into a big show such as the summer FUN. Dealers will often curtail their positions as to not be over extended while away. Many dealers have been arranging and adjusting inventory after the auction action that prevailed from late May through late June, only letting up for ten days or so through the July 4 holiday weekend. The Heritage Orlando sale is set to begin July 8 with necessary adjustments from the prices realized appearing in our next edition. From here the show circuit takes us to Missouri where a public auction hosted by Scotsman will take place in St. Charles on July 23. The same weekend PCGS will hold another private show in Las Vegas, July 22-24. Bowers and Merena will be at the members only event showing coins offered in their Boston sale that begins August 7. Many rarities are included in this pre-ANA sale, such as a 1794 Flowing Hair Dollar graded MS64 by NGC.

The actual sale of a certified coin, whether at auction or private treaty (if it is possible to confirm) is the best measure of worth in the absence of a visible Bid. Textbook examples of the dynamics are often scarcer than the coins involved. The recent sale of a pair of Silver Commemorative PDS Sets, all six coins graded PCGS MS65, has resulted in downward adjustments. The Cincinnati trio is now Bid \$1,250 while the 1936 Boone Set is now at \$575. These lower Bids are arguably much more in line with real world levels for possibly the worst possible examples. These changes might help to facilitate yet further trades for similar material. Quite a few Classic Silver Commems traded sight-seen this period and it will be interesting to see how many if any are rejected. This is a segment of the market that can really benefit from buyers being required to accept the new plus grades with return privileges unavailable. This makes sense here because many issues have very small price spreads between grades. Support for Gold Commems remains robust with the \$50 Pan-Pac Slugs enjoying ready buyers in grades MS63 to MS65. A few of the issues in the 11-piece set are supported by way of relevant Bids across-the-board with a sound majority of issues supported in five to six grade levels.

Morgan Dollars, select issues in collector friendly grades are eagerly sought by at least one dealer at higher levels. Increases upward of 26% are in place for Mint State Morgans while a handful of PL issues are up by as much as 14%. Issues undergoing a positive revision range in value from \$60 to \$850 and targeting grades MS62 through

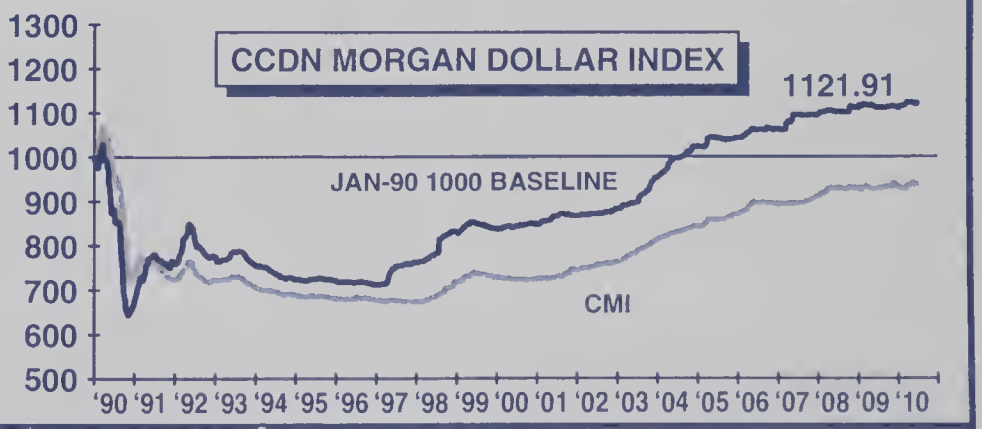

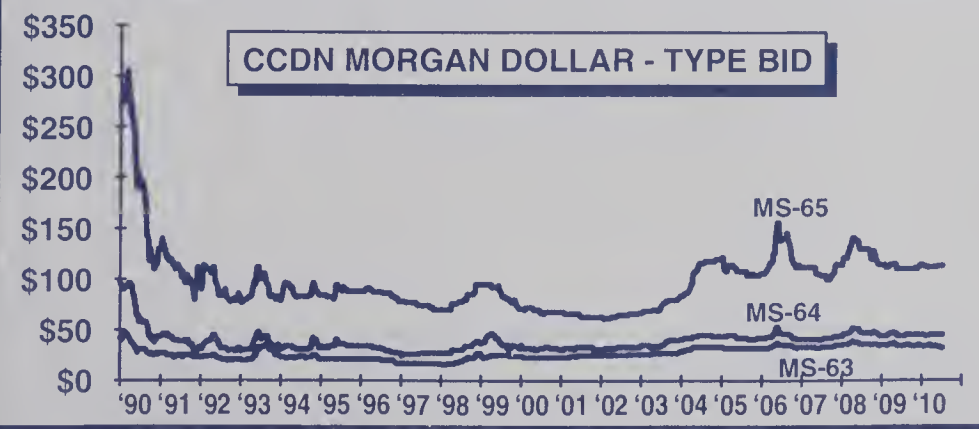

MS66, the focus however, is confined to MS63-MS65. Reports of recent changes at the grading services suggest a much more conservative approach to regrades, in particular those coins sent in toned and conserved to blast white. Many of these submissions as of late have been downgraded by up to two points. This has resulted in a tightening of supplies, especially in the MS64 and MS65 grades. Peace Dollars exhibit advances for every issue referred to as a semi-key date. The ever-popular first year of issue 1921 (High Relief) is needed and has advanced in multiple grades.

Mint State Type shows no real outward signs of activity, negative or positive. Proof Type continues to have its contingency of supporters though quite spotty in some areas, most particularly the PR61 and PR62 columns. Issues void of virtually any support at the sight-unseen level include: Flying Eagle Cents, Two Cent Pieces, and perhaps surprisingly — PCGS encapsulated Twenty Cent Pieces. On the NGC side, there is substantial support for Proof Morgan and Trade Dollars and all three denominations of Barber coinage. The 20th century series: Buffaloes, Mercs and Walkers — are, for the most part, very quiet and are awaiting transaction data that will emerge from the Orlando bourse and auction. Worst-case examples of the 1932D Washington Quarter, key date to the series in all grades, finds a new, lower Bid level in Gem as a mottled, splotch toned example sells at a discount. Like nearly every 20th century series of Silver coins collected by date and mintmark, emphasis is on bright white examples, the chasm between Bid for sight-seen and sight-unseen material is continuing to grow. Mint State Gold Type will not reveal many surprises this week for most market participants. Nearly all the adjustments are in line with the recent volatility exhibited by Spot. Now, Gold Spot is trudging south of \$1,200 at \$1,190, still unable to recover from last week's largest one day drop of \$40 to take place in over five months. Other than a few minor upward adjustments to small Gold Type issues, it looks pretty bleak here. All eyes will be on the FUN show for an indication of future direction.

ICTA issued an urgent release stating: "As of January 2012, you will be required to report ALL goods and services you purchase in excess of \$600 (including rental cars, airline tickets, office supplies, etc.) on a 1099 form." "This is not merely proposed — this provision is already law as part of the massive Health Care Reform Act.", the statement goes on to say. ICTA urges action by asking everyone in the numismatic community to support HR 5141, proposed legislation to repeal the new IRS Form 1099 requirement.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Only NGC offers Plus & Star Designations

The expert graders at NGC know superior quality when they see it. NGC Plus Designation recognizes coins at the high end of their assigned grade, approaching the quality requirements of the next grade. The NGC Star identifies those with exceptional eye appeal, such as vibrant toning, beaming luster and especially deep cameo contrast. Learn more about these services at www.NGCcoin.com/Designations

JANUARY 2010

MARKET CONSOLIDATES PRIMARY STRENGTH DISPLAYED AT AUCTION

ACTIVITY

across the market

By Richard D. ...

The outlook for the currency market is generally positive and brighter than it has been in some time. The market is showing a clear upward trend, with many dealers reporting a steady increase in demand. This is particularly evident in the large size U.S. notes and fractional currency areas, where prices have been rising steadily. The market is also showing a strong interest in the small size U.S. notes, which are becoming more popular among collectors and investors alike. The overall sentiment is optimistic, with many dealers expecting continued growth in the market.

As we move into the new year, the market is expected to remain strong. The primary strength displayed at the recent auction is a testament to the growing interest in the currency market. Dealers are reporting a high level of activity, with many items selling at or above their asking prices. This is a positive sign for the market as a whole, and suggests that the demand for currency is still very strong.

LARGE SIZE TYPE NOTES

Prices for large size type notes continue to show a steady upward trend. The market is particularly active in the large size U.S. notes, with many items selling at or above their asking prices. This is a positive sign for the market as a whole, and suggests that the demand for currency is still very strong.

the market is showing a clear upward trend, with many dealers reporting a steady increase in demand.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 29

July 16, 2010

Single copy price \$4.00

Small Gold In Big Demand Sight-Unseen Market Selectively Lower

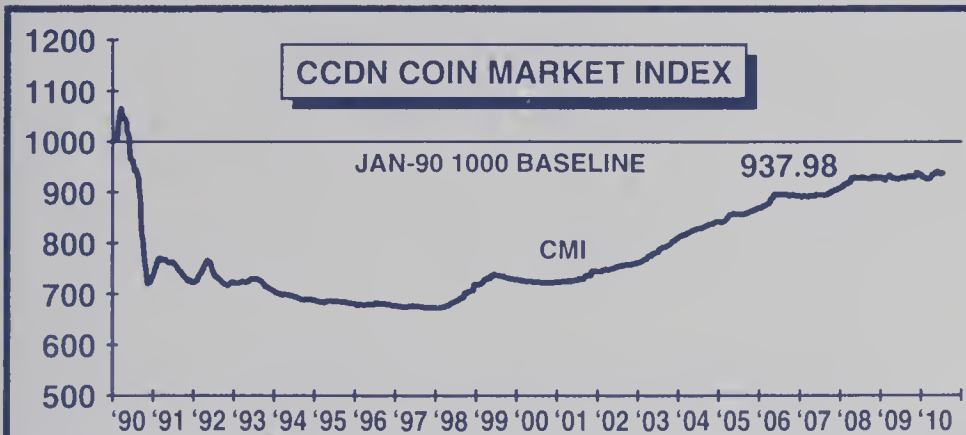

Some were expecting a rather quiet week on the heels of the Summer FUN show and auction in Orlando. A number of dealers have taken a brief vacation before the big ANA World's Fair of Money Show, multiple auctions and pre-shows begin in Boston this August. Not only did \$7.4 million or more sell through Heritage's FUN sale but another \$900,000 was sold in last 5 trading days via the electronic coin exchanges. All of this activity has resulted in a decent amount of changes throughout most of the market segments reported here.

Classic Silver Commemoratives head into summer on slightly lower footing. Six issues combine for nine minus signs with only one of the coins reflecting genuine softness, that being a 1925 Lexington - Concord Sesqui-centennial in NGC MS66. An alternative understanding due to the number of coins recently offered of this exact design and grade suggests that the first conclusion might be confusing a saturated market for weakness. An Isabella Quarter, her majesty's profile peering out from a PCGS MS65 holder was sold at auction for a level that is \$200 shy of what it will sell for to the market's highest sight-unseen Bidder. Of course, it is not out-of-the-realm of possibility that this coin is salable in a number of different venues for much more than sight-unseen Bid. Gold Commems are tagged with three issues declining. The biggest loser is a 1904 Lewis & Clark Expo Gold Dollar in PCGS MS66. These famous adventurers journey lower by nine percent, a vigorous, though not a life-or-death experience. This may result in closer attention being paid to Bid in the surrounding grades.

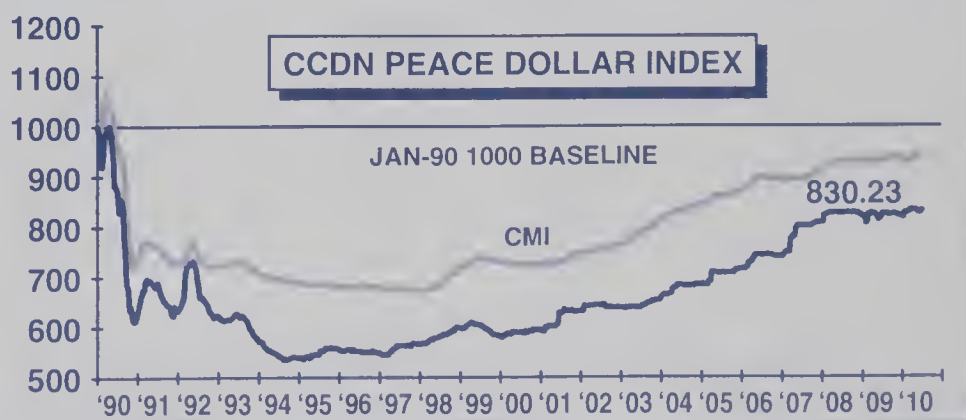

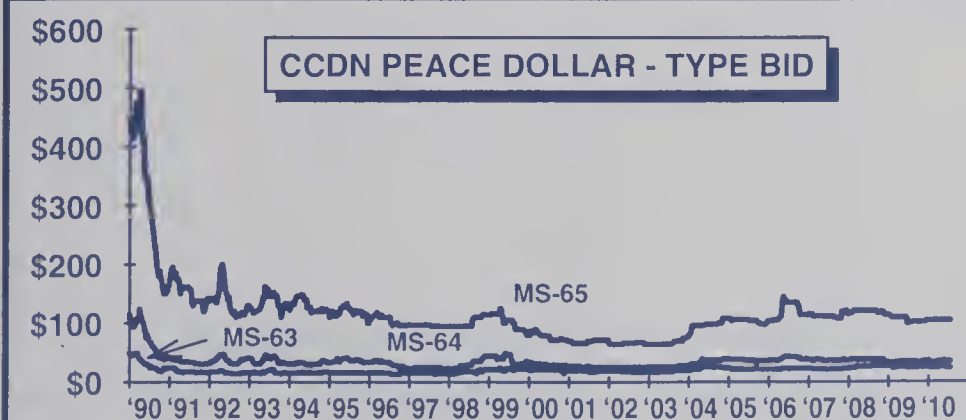

A fair number of Morgan Dollars have taken the elevator down a level. Whether they have gone all the way down to the basement, remains to be seen. Another group of nearly 40 Morgan and Peace Dollars tried to take the stairs down by way of lower auction prices realized, but were prevented by higher standing offers to buy sight-unseen. One would have had to purchase over \$9,850 worth of slabs to ensure about a \$300 profit. Some might argue

that this is not a terribly lucrative way to go, though with instant liquidity in the positive available, the downside risk is slight. Standing Liberty Quarters, both Full Head and Non were hit pretty hard this past month as witnessed by the final Bids accepted at public auction. Select declines are the result as the market for this material was unable to digest such a group. There may also be a touch of apprehension here as well from the recently discussed 1926D in that was identified by PCGS as having a rebuilt head. Mint State Gold Type offers 58 listings covering a wide range of issues where market-makers are advancing Bid to higher ground. The majority of the increases are for small denominations in lower grades, up by as much as 12% from last week. Perhaps this suggests that less affluent purchasers, nevertheless quite aware of Gold bullion's meteoric rise, want to own, enjoy, and ponder something from that bygone era in our history when such items were intended to circulate and facilitate transactions. Also encouraging is the number of generic Double Eagles that have advanced. All of this is in spite of a somewhat stagnant Spot, now at \$1,207 per ounce.

Buffaloes keep tipping over as of late and it is especially noticeable if they were raised at NGC. Some folks in the community are starting to argue that the situation here is two different grading standards and where it gets downright scary is for those rarer issues that sell for five- and six-figures. Bid levels between the various grading services remain wide. Several issues in the Very Choice and higher grades have fallen, including the higher profile Philly minted '28 and '26 in MS67. At the MS66 level there is some real hurt: '14S, '17D, '19D, and '28S. Walkers are seeing a little action with the most important transaction on the downside, being that of a 1917S Reverse graded MS64. In positive territory there are five listings led by a PCGS 1942D in Gem, up some 17%. Dealers are now paying \$650 or more for any date with a PCGS MS67 grade and it does not matter what the coin actually looks like.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.
separate states by comma

☐ Bulk Rate

☐ First Class

(Please provide City, State and Zip of mailing site for bag tag preparation)

Market The Market Column

Big Moves For Small Gold

Quiet is the theme this week as dealers may have finally reached that zone when it's time to relax, refresh, rejuvenate and reenergize. It's been a solid if not turbulent year for most and there is much more to come just around the corner, but for the moment, quiet.

Gold Commemoratives remain well-supported via visible sight-unseen Bids. Some light wholesale trading this past week included a few Gold Dollars, such as the 1904 Lewis & Clark selling for \$5,000 in PCGS MS65; a 1922 Grant No Star in the same grade/service for \$2,150 and a 1905 Lewis & Clark graded MS66 by NGC at \$15,000. Bid has since been ratcheted up to \$15,500 for the latter and there wouldn't be an ounce of surprise if Bid was pushed up precisely by the party that just paid \$15K for an example. Population on this issue is 53 and with a series as hot as this one, it may be necessary to raise Bid to snag another and own nearly five percent of the market share. Morgan Dollars are heading north with common dates in MS63 and MS66 now Bid \$34 and \$185 respectively. Better dates are in on the action as well and semi-keys like the 1883S in NGC MS64 are making a little noise too. Higher Bids come by way of at least two dealers who undoubtedly need this material. Placing oneself atop the sight-unseen Bidding heap, especially in the weeks leading up to a major convention, is good business. It leads community members directly to you, having first identified you as the "big dog" in this area of the market. Not only does it increase the chances of acquiring specific inventory needs, fresh deals might also find their way to you on the bourse. This is especially true when colleagues know you will accept virtually all material in this market segment with no ifs, ands or buts.

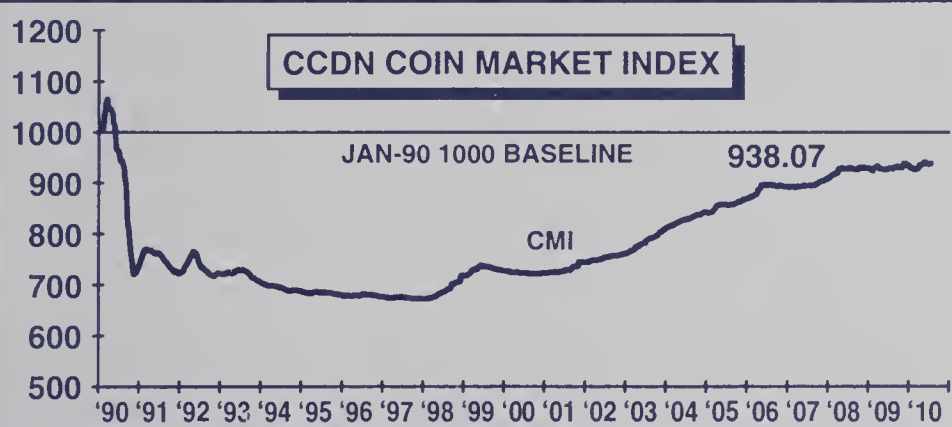

Peace Dollars enjoy advances for Gem examples of the 1921, now at \$1,175. Much less obvious than plus and minus signs, but of potentially tremendous value, is the information presented in the Market column. Let us hone in on the 1922 in Superb Gem. Bid on the PC side is \$4,000. The adjoining Market column indicates that the lowest last known market information for that issue occurred at \$10,640. The preceding "oa" signifies an "old auction", having taken place more than 30 days ago. Keep in mind that the very reason you have this sheet in your hand is to be informed when

someone is two feet away and offering to sell you an example. The info in the Market column is just enough for you to piece together an entire market dynamic. The coin doesn't trade that often. When it does, it goes for way over sight-unseen money. If the coin being offered is not a complete dog, making an offer well in advance of Bid will undoubtedly be music to the sellers ears. Mint State Copper, Nickel and Silver Type all go with the flow, as in, quiet. A perusal of the Market column here will reveal that most Type currently sold at retail auction will bring levels well in advance of sight-unseen Bid, as it should.

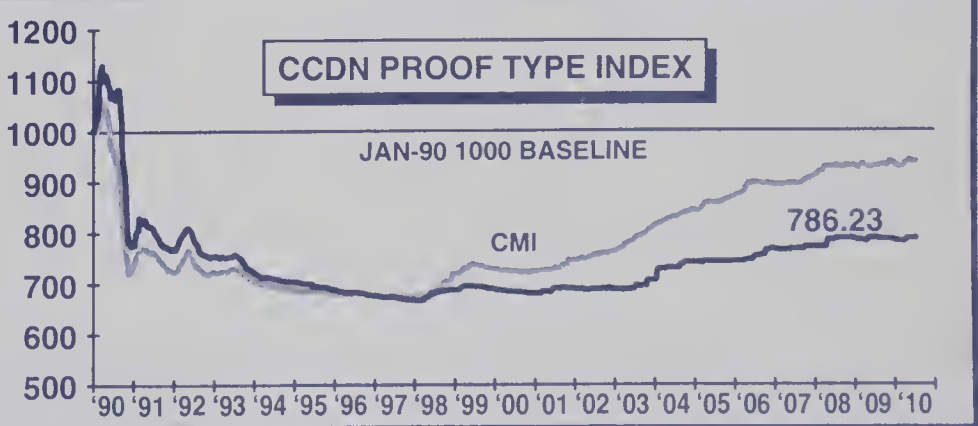

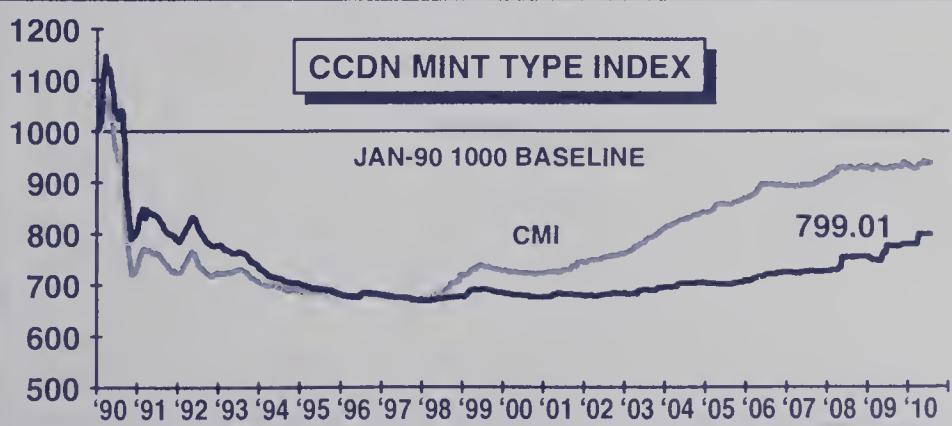

Mint State Gold Type bucks the quiet trend and displays significant activity. Advances are once again primarily targeting the other minors in lower Mint State grades. See the chart herein displaying the top-ten Gold Type performers since January excluding PCGS Type 2 \$20 Libs. The leader list can be doubled in length and still only contain Half Eagle and smaller denominations. Bids for generic Double Eagles remain healthy for the most part although the quantities buyers will absorb are much fewer now than in the recent past. Proof Type suffers from only one decline as a No Cents Liberty Nickel in NGC PR65 sold for \$520. Proof Gold, not surprisingly, is void of activity even though buyers remain in place for much of the material listed.

Market column listings can be especially useful as a tool to educate and facilitate transactions with enthusiastic, but skittish newcomers. Newbies recognize early-on that they must pay prices in line with retail numbers. The client may have his sights set on the Buffalo Nickel series. He may well be able to afford it, but he's the type that resents getting buried in anything. Placing the sheet in front of the newbie and explaining the Market column and symbols, he can see for himself what coins are actually selling for. Mercury Dimes are quiet. Walkers are also slow this week with only a few increases. The Walker short-set is a perfect example where the Market column may be profitably shared with a client. Almost every issue in the set has transacted recently and this is plainly visible via the market listings. Additionally it provides reassurance to the burgeoning collector that your asking prices are not "moon" money. Taking the time to work through it with a newbie is a good deal.

PCGSProfessional Coin Grading ServiceNewport Beach, CA (800) 447-8848

NGCNumismatic Guaranty Corporation of AmericaSarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

Bulk Submissions Have Never Been Easier

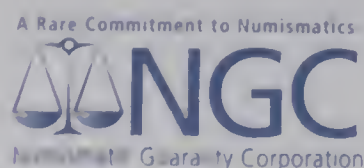

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

Get personal consultations from an expert former dealer.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. As a former dealer himself, and an expert numismatist, Ron Drzewucki is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

To discuss your options, contact Ron directly at 800-NGC-COIN (642-2646) or Ron@NGCcoin.com. To learn more, visit www.NGCcoin.com/bulk

All prices are sight-unseen dealer-to-dealer Bids. Bid prices are for the most common date within each type. Bids listed for issues that trade infrequently are the last known.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or Dealer sight-seen trades can be expected to occur at substantially higher levels in many cases.

For certified coins not listed in the CCDn, please refer to the COIN DEALER newsletter for current Bid levels.

LET CDN DO ALL THE WORK!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than \$900 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

2010 NUMISMATIC DEALER DIRECTORY

YES, I want to order mailing labels averaging 5,000+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

My check for \$325 payable to CDN, is enclosed.

☐ Bulk Rate ☐ First Class

Boost In PCGS + Grade Slabs Dollars Shine Boston Bright

Dealers are back from recent shows from local through national, including the exclusive PCGS members only event held in Las Vegas. Scotsman sold \$1.48 in their St. Charles, Missouri sale that was held in conjunction with the annual Missouri Numismatic Society's Coin Festival, now in its 50th year. Bidding was competitive for both collector material and rarities from a crowd of some 70 participants. With internet Bidding widely accepted, some of the larger national public auctions have trouble pulling in as many live floor Bidders. PCGS dealers, now home from the trade-n-grade were only beginning to organize their freshly made slabs for Boston when the + grade news broke. Effective Aug 1, PCGS will offer + grades for standard submissions at the regular, express and walkthrough service levels as well as bulk Dollar submissions and Gold express services at no additional charge. Show submissions will also be eligible for + grades beginning with the ANA pre-shows where on-site encapsulation will be offered. It will be difficult to identify which coins did not make the + grade without the help of the gold shield emblem on the label. This change makes PCGS + grades comparable to the CAC and NGC business model.

Silver Commemoratives are status quo. Gold Commemoratives, which have been hard charging for the better part of this year are quiet this week. Common date Peace Dollars enjoy Bids that now separate PCGS material from NGC coins by roughly 10 percent for examples holdered at the MS66 level. Let us note that 20 or more Morgan Dollar listings incur a 10 percent or greater upward movement and that every one of those 20 listings Bids above \$1,000. Of the more than 240 further listings tagged for an increase many Bid over \$1,000 as well. Such activity is a bit unusual heading into a major convention, as Bids are often pulled or reduced. Interest in Barber coinage is made explicit at the sight-unseen level as the Quarters are Bid higher from MS63 to MS66 on the PCGS side. Apart from that, the chart reveals only one adjustment, a Choice Unc Trade Dollar in PCGS hardware, the outcome of an 1875S selling for a discount at auction. This particular example, housed in an old green holder, accorded excellent luster for the grade and minimum abrasions, nevertheless suffers from roller marks, a phenomenon incurred at the time of striking.

Mint State Gold Type continues a course targeting the minor denominations in the lower Mint State grades. It was reported quite some time ago that the new health

care bill that becomes law January 2012 includes verbiage that would require the filing of a 1099 for all transactions over \$600. The mainstream media is now running with the story and coin shops are reporting being inundated with the public wanting to trade down from one-ounce Gold coins to smaller sized pieces in order to avoid being subject to these reporting requirements. Proof Type trudges along with only one change to report this balmy summer week and that is a downgrade to Superb Gem Seated Dimes with Stars. Scrutiny of the particular coin suggests, once again, that the definition of "worst case" for the grade may be morphing somewhat, embracing more of the aesthetics than strict technical merit.

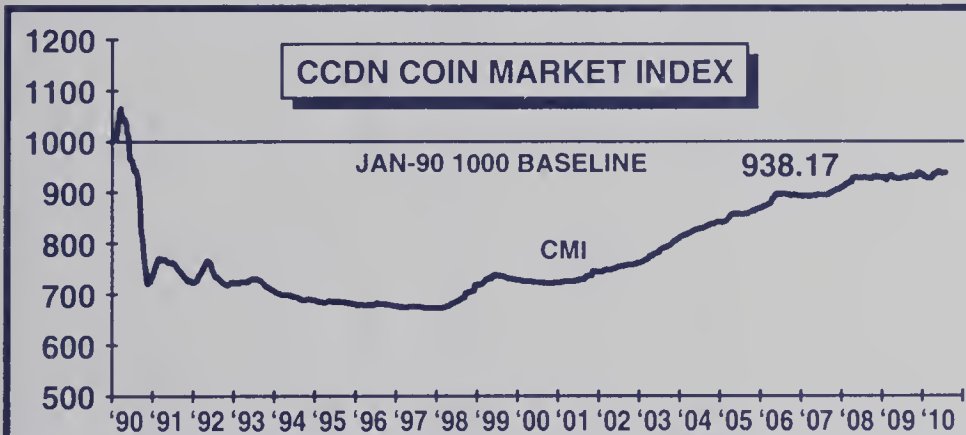

Proof Gold glitters throughout the upcoming Boston sales. An 1856 Slanted 5 Gold Dollar graded NGC PR65 Ultra Cameo, a suite of \$3 Princesses, an NGC PR66 \$4 Stella, \$5 Half Eagles and \$10 Eagles of the Liberty and Indian design and culminating in "monsters" like the 1876 \$20 Liberty NGC PR65 UCam, that renders

any anticipatory discussions about this segment of the market futile. The #1 all time Mercury Dime Registry Set is also set to hit the Boston auction block. The jaw dropping quality is so plainly evident on each and every coin from the teens and twenties that we are drawn with amused reverence more to the tail end of the series where the issues are represented by examples graded PCGS MS68FB and MS69FB, not to mention CAC approved. Richard Nachbar will be conducting a sealed Bid sale, that will close Friday evening Aug 13

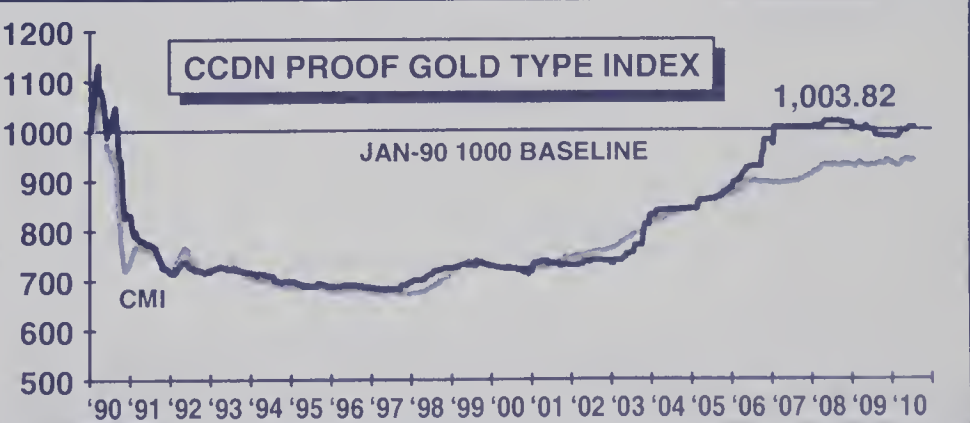

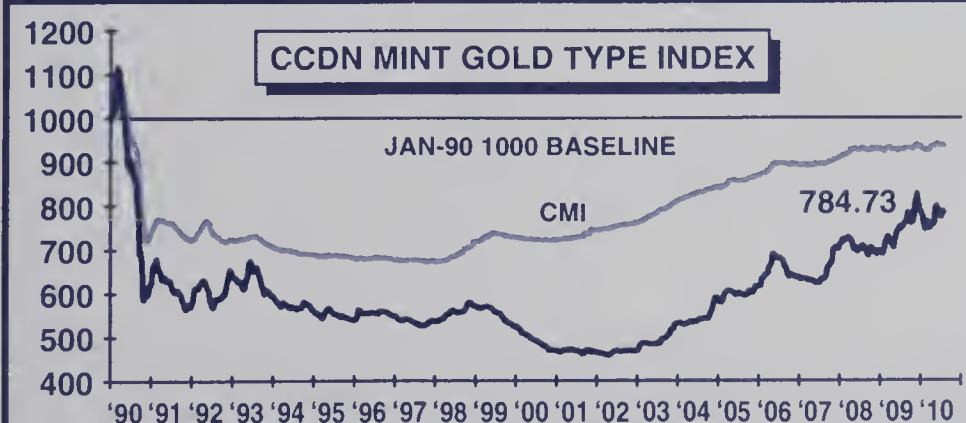

Nachbar Sale		CAC Approved
1856	Flying Eagle Cent	PCGS PR64

at the Boston ANA. We have listed several of the 24 lots included in the sale herein, all listed are stickered by CAC. The usual conditions of no reserves and no buyer fees will be in place with lot viewing beginning on PNG day, Aug 9.

The Professional Numismatists Guild has released a statement entitled *PNG Adopts Coin "Doctoring" Definition*, which includes an initial definition of coin doctoring that will help them review any complaints against members accused of compromising the groups established ethical standards. The PNG also states that no formal complaints have been filed with them nor has any evidence of alleged coin doctoring by its members, been presented.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

Sizzling Summer For Silver Dollars Small Gold — Large News

Silver Commemoratives, or as some are inclined to say these days, Classic Silver Commemoratives of the 1892 to 1954 period, to distinguish them from the so-called Modern Commemoratives, those beginning in 1982 with the Silver George Washington Half Dollar. Anyway, once upon a time (and still for the old schoolers) there were just Commems and Gold Commems. The latter is mostly calm this week as market-makers are not expending resources to adjust sight-unseen Bid levels with the ANA convention fast approaching and certainly that is not surprising. Market-makers know that the vast majority of coins including sight-unseen material is en route to Boston. Commems are perhaps the only series where collectors desirous of putting together a set of different designs with a uniform look can do so on a variety of budgets. Many low grade Mint State coins — even those considered sight-unseen quality — are acceptable to a number of collectors. Gold Commems notch three adjustments, one of which is an attention grabber. 1905 Lewis and Clark Gold Dollars graded MS66 by NGC, move up to \$16,000 this week, the second week in 3 that Bid advanced by \$500. ANACS and ICG Bid levels for Silver and Gold Commems are stable.

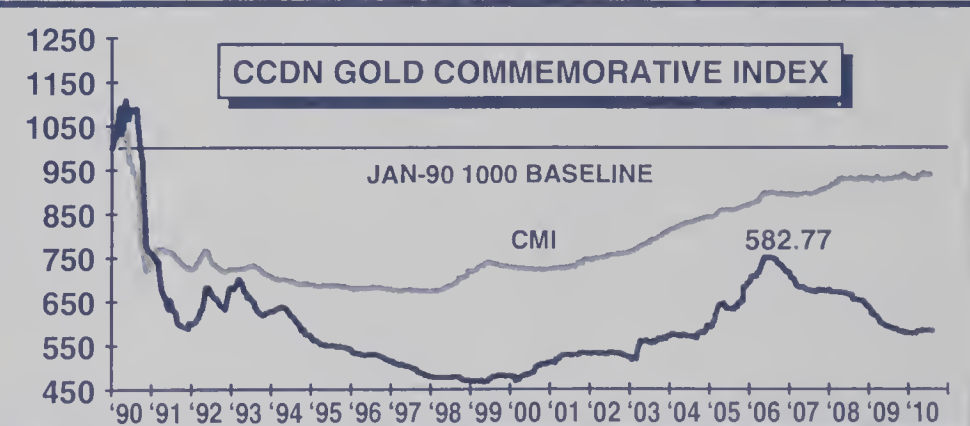

Morgan Dollars, for a second week in a row are displaying a rash of notable escalating Bids. Material targeted, again like last week, remains in the collector range, roughly \$100 to \$1,100. These are not *rare* coins in the strictest sense of that word, the most valuable of the advancers, the 1880O is now \$1,090 in PCGS MS64, a pop 1,086 coin. Because Bid is creeping up for so many of these collector coins, it might well indicate a genuine lack of material for dealers. This then tells us that collectors are out there buying and buying and buying. A great sign that this very important bellwether is in a strong phase. Peace Dollars acted similarly this week though perhaps not quite as enthusiastically as Morgans. All this good news for this area of the market may also be attributed to + grades. Most of the increases are for those slightly better dates that have larger spreads between grades. This is the kind of material that will have some real added value from the presence of the split grade or + symbol. History has already spoken by example here by way of the CAC sticker. Now that PCGS is considering all Dollars for the + grade when submitted for grading at no additional charge, a surge in the availability of this material is imminent. Enthusiastic sight-unseen Bidding also includes some ANACS and ICG

slabs, albeit on a much smaller scale. Carson City Morgan Dollars in GSA plastic remain active with plenty of buyers available at Bid as seen on Supplemental Page D. A couple increases are present for '84CC and '85CC Dollars with the NGC wrap-around grade strip in MS64-MS65. Mint State Copper, Nickel and Silver Type sits idly by awaiting Boston. Our analysis revealed only one listing requiring an adjustment, that being for Type 2 Standing Liberty Quarters graded MS65 by NGC, with Bid now lower at \$505. Mint State Gold Type is the exception to this week's rule for Type. Gold Dollars, Quarter Eagles and Half Eagles all continue their hard charging ways of late, moving up in grades MS61 through MS64. Previous analysis showed there were ten coins that had advanced in Bid since January anywhere from 26% to 58%. Indeed, Type 1 Gold Dollars graded MS61 by PCGS, which went higher again this week, are now showing a 62% increase from January 1. A few higher Bids have also been recorded for select minor Gold Type encased in ANACS and ICG plastic. Status quo for Proof Gold Type with no adjustments to report though sight-unseen buyers are visibly available at Bid for most of this material. What few pieces of available coins from this segment will likely be in Boston, in a well guarded box in the corner of a vault and available for inspection by interested parties. Buffalo Nickels, Mercury Dimes, Walking Liberty Halves and Proof Singles round out the picture with not much to say about changes to sight-unseen Bid levels. Undoubtedly many transactions will take place in the next two weeks so that when dealers return home there could well be some serious work ahead.

Effective immediately, Dominion Grading Service (DGS), will discontinue its grading and certification operations. The service got its start in April of 2008 after David Lawrence Rare Coins purchased the old PCI brand and equipment. Many believed that the grading was strict, conservative and consistent. DGS also deserves credit for essentially pioneering the visual population report. John Feigenbaum states that since DGS began, both PCGS and NGC have come a long way in refining their grading practices and technologies. He goes on to say that CAC is doing a fantastic job assessing quality in PCGS and NGC holders. DLRC remains committed to the quality and standards of DGS grading and will continue to make a two-way market in DGS graded coins.

Merit

Eye Appeal

Only NGC offers Plus & Star Designations

The expert graders at NGC know superior quality when they see it. NGC Plus Designation recognizes coins at the high end of their assigned grade, approaching the quality requirements of the next grade. The NGC Star identifies those with exceptional eye appeal, such as vibrant toning, beaming luster and especially deep cameo contrast. Learn more about these services at www.NGCcoin.com/Designations

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 33

August 13, 2010

Single copy price \$4.00

\$35 Million Plus To Boston Gavel

Generic Gold Type Sluggish

Heritage realized \$22.4 million in the opening night of their Boston ANA sale from the 638 lots that sold. Combine that with Bowers & Merena at \$9.3 million and Stack's adding another \$4.2 million for a whopping \$35,000,000 with much more to come. The highest grossing lot from the Aug 11 session was an 1851 Humbert \$50 Lettered Edge, No 50 on the reverse, octagonal shaped Slug graded PCGS MS63 that sold for \$546,000. A few other notable highlights include a 1944 Walking Liberty Half Dollar graded MS68 by PCGS that received \$109,250; a 1916 Standing Liberty Quarter graded PCGS MS67FH CAC for \$149,500 and the finest set of Barber Half Dollars that fetched over \$2 mil. The overall sentiment felt by many in Boston is that really great coins are once again achieving really great prices.

Silver Commemoratives undergo a handful of adjustments, all of which are rather modest. An 1893 Columbian Expo graded PCGS MS66, with a CAC bean, sailed to \$1,100 in a Boston sale. This exceeds the sight-unseen Bid of \$620 by a nautical mile. Greysheet Bid is \$900. Perhaps most significantly, \$1,100 exceeds the sight-unseen Bid of \$1,000 for a PCGS MS66+ example. For the record, sight-unseen Bid at the MS67 plateau is \$4,700. A 1923S Monroe Doctrine graded PCGS MS66 with CAC approval sold recently for \$3,910 while a sight-unseen offer of \$5,500 is present for 66+ graded example. Market participants are privy to a whole new world of opportunities here as the split grade concept becomes commonplace. Gold Commems continue to enjoy Bid support over a wide range of grades and for each coin in the 11-piece set and the \$50 Slugs as well. Of the nearly \$100K in Gold Commems that we recorded transactions for this past week only one was CAC approved. A 1915S Pan-Pac Gold \$1 graded PCGS MS65 CAC sold for \$2,300, exceeding sight-unseen Bid of \$2,050 for an MS66+ example.

Well over \$500K in Morgan Dollars sold in Boston auctions so far resulting in just a couple of minus signs, an 1896O in NGC plastic and a 1901 in PCGS hardware, both incidentally at the MS62 plateau. Each of the 26 CAC approved Morgans that sold exceeded sight-seen levels, with all but a few lots

exceeding Bid by 50 percent or more. To cite a couple CAC transactions, an 1880O PCGS MS65 sold for \$35,650 and an 1883 PCGS MS66 sold for \$750. Only two minor downward adjustments have been made to Peace Dollars and they remain stable for the most part.

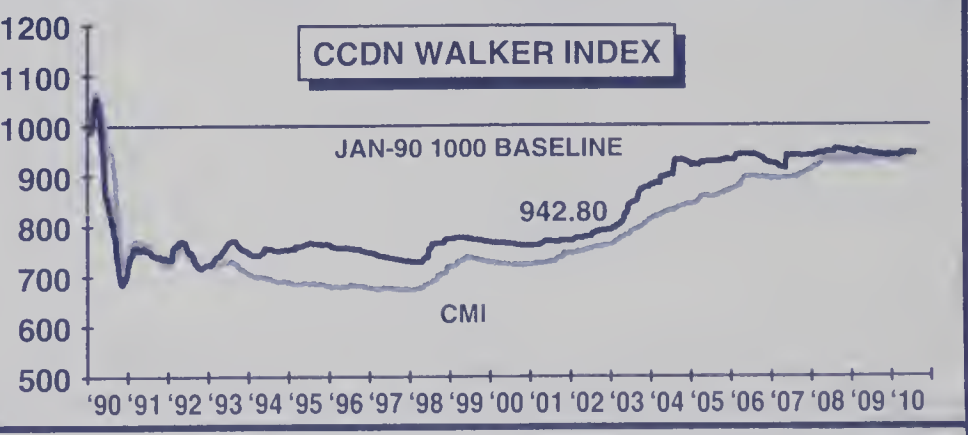

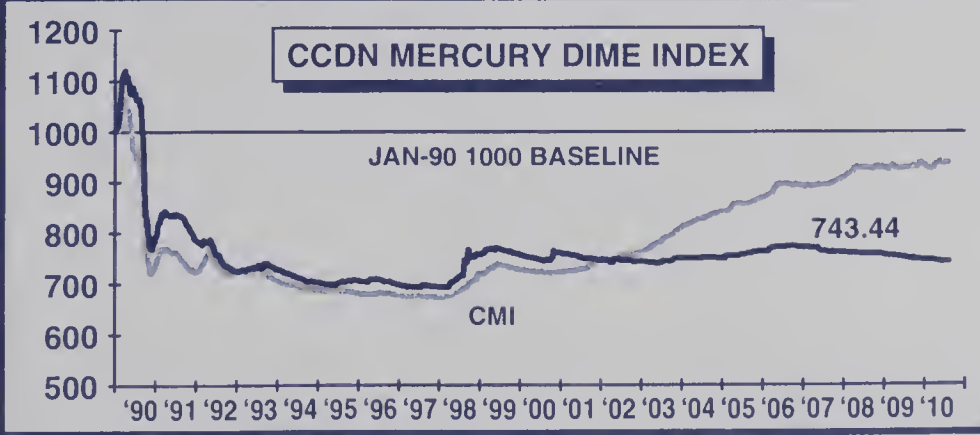

Mint State Type - Copper, Nickel and Silver - encompassing such a wide range of the market, remains strong, with bourse reports of attractive, problem-free specimens being snatched up in a hurry. Gold Spot is now at \$1,215, with three of the last five morning sessions closing over the \$1,200 per ounce plateau. Mint State Gold Type has not reflected this most recent move though if Spot remains above the \$1,200 level for any length of time, many will find it surprising if at least some of this material does not advance in response. Only \$100K in Gold traded this past week through CCE's big generic market. This is about half of the prior week's total. Generic Gold Type is slowly becoming more available in + grades through wholesale channels and may give this market a much needed boost.

Proof Type reflects a few declines; the majority of issues we track have sold for well in advance of sight-unseen Bid. Proof Gold Type, magnificent coins one-and-all did quite well in Boston, easily surpassing sight-unseen levels on both sides of the ledger. The only downturn was recorded from the discounted sale of an NGC \$4 Stella graded PR66 Cameo. Buffalo Nickels undergo a few adjustments, the most significant being that adhering to the 1925S in PCGS MS64. Recent auction results reveal that the ever popular 1937D 3-Leg retains its fan base as a PCGS MS65 example trampled its way to \$40,250. Mercury Dimes are mostly stable and the series faithful are awaiting the Heritage ANA sale of the #1 all-time Registry Set. Among Proof Singles, a 1936 NGC PR67★ Walker realized \$16,100 easily retaining its title here.

Collectors Universe, parent company to PCGS, filed an amended complaint against alleged coin doctors on August 10 in California. It appears that at least one defendant has been dropped from the case with additional allegations filed against remaining defendants.

NGCNumismatic Guaranty Corporation of AmericaSarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

CAC[®]

"Because Confidence is Priceless"

www.caccoin.com

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.

Market Absorbs \$50 Million In Auction Sales CCE To Attack Phony Bids

Reality is that some \$50 million dollars were spent acquiring rare coins through the medium of public auctions alone. The hobby elite, in all shapes, sizes and pocketbooks, were gathered together for about ten days in Boston for the ANA convention and pre-shows. The bad news is, minus signs are peppered throughout the Bid columns as a direct result of lower prices realized at the Boston sales. The good news is, the majority of downward adjustments are minor with only a few big drops recorded. Even better news is the fact that only a handful of select material actually sold for less than sight-unseen Bid.

Silver Commemoratives did fairly well during the Boston auction marathon. Having reviewed no less than 400 transactions, only a dozen or so minus signs were recorded. Often these declines are the result of several of the same coin and grade being offered in consecutive lots with the least attractive selling for much less than the others. The highest realization achieved for a Silver Commem during the \$50 million bonanza, is \$43,125 awarded for a Superb Grant Memorial with Star in PCGS MS67. Gold Commems also did well overall at auction with a half-dozen \$50 Slugs selling for well above sight-unseen Bid. A trio of 1926 \$2½ Sesquis in MS65 holders have sold at public auction since Aug 7. One was CAC stickered, and realized 50% more than the PCGS and NGC examples. Generic Morgan Dollars are down a bit from last week with MS65-MS66-MS67s now Bid \$112-\$180-\$550 respectively. Two of the declining issues from over 1,000 Cartwheels auctioned last week are five-figure items, 1901 in NGC MS64 and 1879S (Rev '78) in NGC65 DMPL. Peace Dollars present a placid front and go untouched in the higher grades of MS66 and MS67. Here though the situation is materially different from that of the Morgans and Commems. Lack of chart activity is not for lack of coins going off left and right, but rather prices realized not coming into collision with sight-unseen levels. Nearly every date and mintmark sold in a majority of grades over the past couple of weeks with mostly solid results.

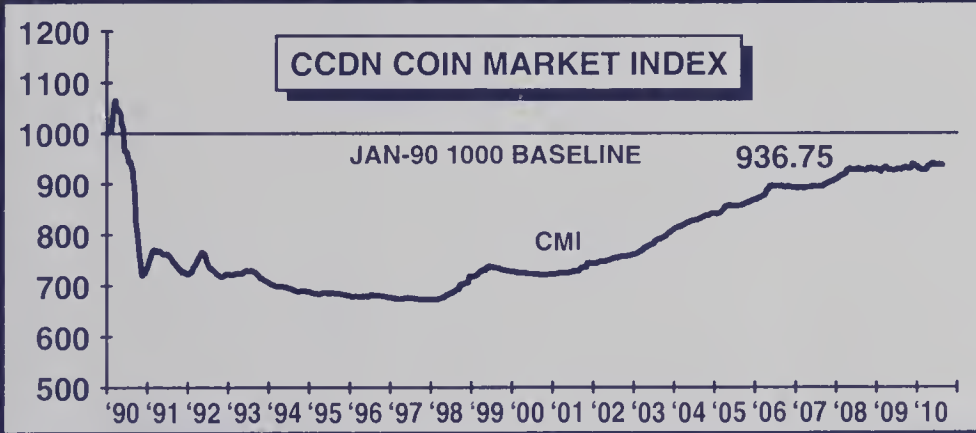

Mint State Type is visibly more active than normal from the extensive amount of material trading hands in Boston. Most of the declines are modest, such as Liberty Seated Dimes w/ Arrows (1853-55) graded PCGS MS66, falling to \$3,000 from \$3,060 a week prior. Gold Type, the greater part of this segment is mostly unaffected by coin conventions and auctions. The recent upward price movement in Gold Spot is being reflected by way of higher Bids for generic \$20's

from MS61 to MS65. A Superb Gem NGC \$20 High Relief Wire Rim Saint sold for less than \$100K in Boston. Few of these beauties have been offered at the MS67 level in the past ten years. In Jan 2010 an NGC example sold for \$138K, then one must travel back in time to Sep 2006, when \$184K was paid for a PCGS coin. Proof Gold Type did well at the ANA sales with over \$870K sold through Heritage alone. The only Buffalo Nickel of note to undergo a reversal is the 1927D in NGC MS66. Mercury Dimes revealed some prices allowing Bid to relax for 11 items in the \$365 to \$2,500 Bid range.

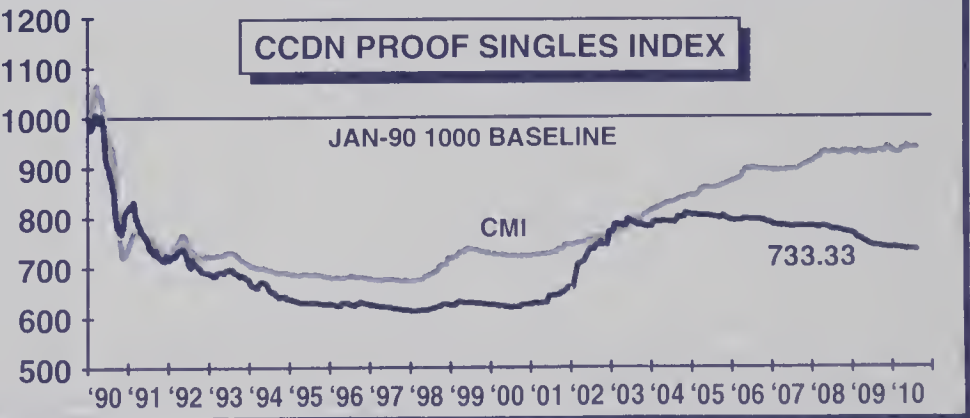

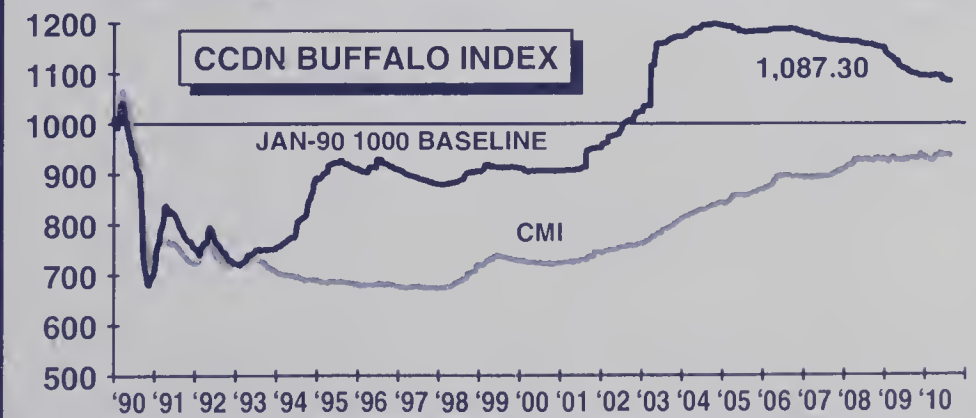

Earlier this year the Certified Coin Exchange made some major improvements involving the way coins are traded through their dealer-to-dealer network and are continuing to make changes for the better. First, CCE allowed dealers to hit sight-seen Bids and then execute the trade with a + graded coin delivered sight-unseen. The idea was to put a stop to dealers placing artificially high Bids, only to reject the coin and return it under the sight-seen trading rules. Unfortunately, too few slabs with the + grade have entered the marketplace for this new rule to have any real effect and make an impact. This can be seen in the population chart herein. In addition to filing a rejection report, dealers may now send coins deemed unacceptable by the sight-seen Bidder to David Hall at PCGS. The coin in the PCGS or NGC slab will then be reviewed by David and some of the PCGS graders to validate that the coin is of acceptable sight-seen quality. Action will be taken against repeat offenders including having their sight-seen Bids banned for 30 days, 3 months and even banned for life on the third strike. CCE is also encouraging dealers to Bid sight-unseen by offering a rewards program of sorts. The top 3-5 dealers with the highest value of Bids and number of Asks within a specific segment will receive a listing identifying them as a market-maker. Dealers are cautioned that low-ball Bids placed en masse will not qualify.

Coin doctoring continues to be a real problem and appears to still be taking place as alleged in the revised suit filed by Collectors Universe on behalf of PCGS last week. PNG has announced that they have retained new independent legal counsel to avoid any potential conflict of interest concerning specific coin doctoring cases. The Guild's existing legal counsel is also co-counsel for the plaintiffs in a lawsuit naming a few PNG member-dealers among other defendants.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Only NGC offers **Plus & Star** Designations

The expert graders at NGC know superior quality when they see it. NGC Plus Designation recognizes coins at the high end of their assigned grade, approaching the quality requirements of the next grade. The NGC Star identifies those with exceptional eye appeal, such as vibrant toning, beaming luster and especially deep cameo contrast. Learn more about these services at www.NGCcoin.com/Designations

MORE THAN 20 MILLION COINS GRADED

Official Grading Service of

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report - an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

"Because Confidence is Priceless"

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.
separate states by comma

☐ Bulk Rate

☐ First Class

(Please provide City, State and Zip of mailing site for bag tag preparation)

Higher Bids For Better Morgans

Trickle Of + Coins Trading

Decent trading of certified coins sight-unseen was observed this week, with the Certified Coin Exchange reporting over \$200K in transactions. This is nearly six times the volume of sight-seen exchanges in the same time period. This may soon change and become less lopsided as the new CCE sight-seen trading rules take hold. Many dealers have about given up on attempting sight-seen transactions with select dealers who have the highest Bids because of repeat rejections from the Bidder. The usual response from the party that rejected and returned the coin is that it was not of acceptable quality. The seller now has some recourse and can send the coin to PCGS for review. If the coin is considered to be graded correctly and problem free, CCE will take action against the dealer who did not honor their Bid by rejecting the coin.

Silver Commemoratives are receiving some positive attention this week from dealers as higher sight-unseen Bids have been recorded for a number of issues. Increases average around 5% higher from our last report with the majority of activity taking place within the MS65 and MS66 grades. Quite a few of the better Commems have sold this past month, both at auction and dealer-to-dealer. Many of these transactions can be seen in this week's Market columns, such as the NGC MS66 Hawaiian that traded wholesale for \$6,000. Gold Commems are less active in that no changes are in order, yet transactions continue to commensurate in healthy volume. Another 1905 Lewis & Clark \$1 sold dealer-to-dealer, \$16,000 was shelled out for an NGC MS66 this week after \$15,000 was accepted last month for the same service and grade.

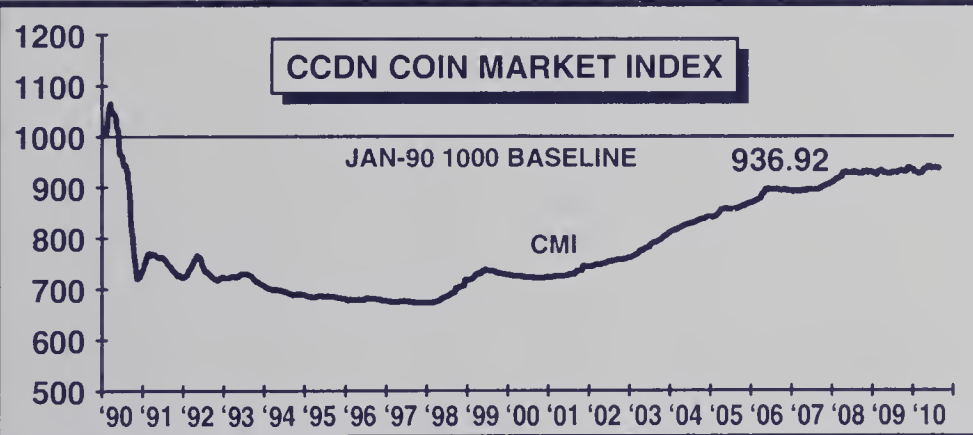

Silver Spot has traded over \$19 an ounce for consecutive days but Bids for most generic Morgan and Peace Dollars remain as they have. Common date Peace Dollars in Mint State grades MS61 and MS62 have sight-unseen Bids of \$18 and \$19 respectively. Change here seems likely when one considers dealers are currently paying \$17 for Circulated examples. Slightly better date Morgans are the recipients of a rash of higher Bids in all grades through MS66. The biggest Bid jump is for an 1881 graded MS66 by NGC, now Bid \$1,600 sight-unseen. These have sold for as little as \$1,440 in recent retail auctions and can be confirmed by looking at the Market column. A closer look at the Market column will reveal over 100 Morgan Dollar issues that have sold in auction for less than Bid. Much of this material sells for under \$500 and has virtually no down side risk as sight-unseen buyers are visibly

available and are paying more. In the past two days a Morgan Dollar graded MS67+ (pop 25) has traded sight-unseen for \$850 while a PCGS MS68 (pop 381) sold blindly for \$3,000.

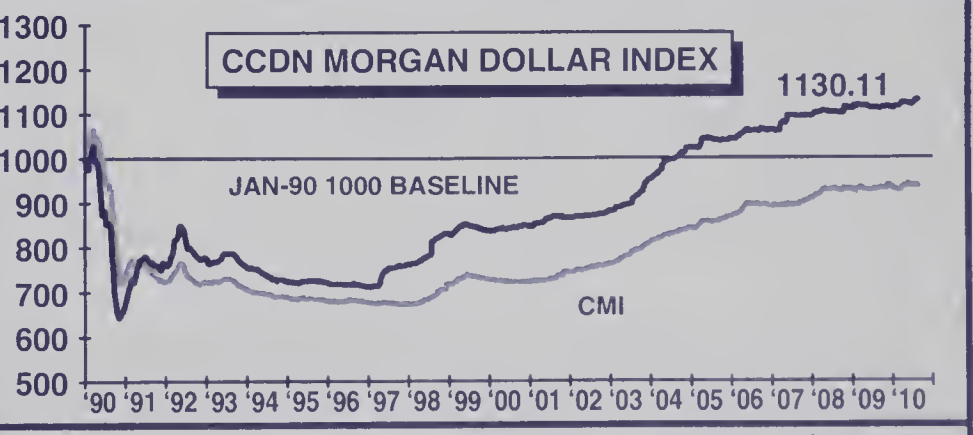

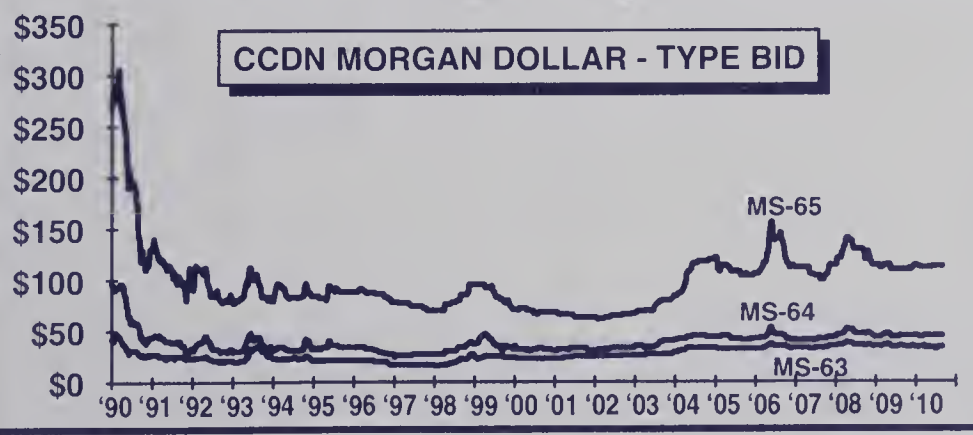

Gold Type is mixed though increases outnumber declines by about 4-1 with the majority of plus signs targeting NGC material. The increases are relatively small dollar wise, though strong on a percentage basis, when compared to the less than \$2 upward move in Gold Spot from this time last week. One generic \$20 Saint-Gaudens with a PCGS MS62+ grade traded this week for \$1,420 which is \$20 more than sight-unseen Bid for a regular MS62 and \$20 less than Bid for a MS63 example. The worst casualty on the downside was a Gem NGC \$5 Indian that sold dealer-to-dealer for \$10,500 resulting in a 7% drop to Bid. NGC has encapsulated 549 at the MS65 grade level, with three receiving the + endorsement. Only two NGC MS65 \$5 Indians have sold at auction since January, a 1911 at \$13,225 in February and a 1909 at \$13,800 a month earlier.

Proof Type is steady overall and almost always sells for well above sight-unseen money. By taking a look through the Market columns here, one will be hard pressed to find all but few examples that sold at auction for less than Bid. One example would be the NGC PR66 Liberty Seated Dollar with Motto dated 1870 that sold in Boston for \$14,955 while a sight-unseen offer of \$15,300 watched. In addition to seeing what these slabs sell for at auction, the Market columns are also providing useful information when no symbol is present or the column is blank altogether. These blanks confirm that this material is virtually non existent or not currently available in the marketplace. Mercury Dimes, Walking Liberty Half Dollars and Buffalo Nickels are all holding mostly firm with a single decline for the latter as the 1935 is now lower in PCGS MS66. A few minor drops have been registered for Walkers from lower Asking prices and auction results.

Show and auction activity will soon be picking up steam, beginning with local and regional shows in Richmond, Orlando and Bakersfield taking place through mid September. PCGS will also host another revamped trade-n-grade in Vegas beginning September 9 with grading discounts for members and authorized dealers. Next, they will host the Long Beach Expo beginning September 23 with public auctions taking place before, during and after the event.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "ll" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

MARKET CONSOLIDATES PRIMARY STRENGTH DISPLAYED AT AUCTION

ACTIVITY

... across the market

by Kevin Foley

The outlook for the collectible currency marketplace appears materially brighter than at this time one year ago. As 2008 drew to a close, the peak levels of an overheated market had been reached and were clearly a thing of the past. Transactions were contracting, both as to their overall numbers and the levels at which they were taking place. A general air of trepidation as to what the future held overhung the market. Dealers were reluctant to buy, for fear that more attractive prices would likely be available from the simple expedient of waiting. Buyers were confronted with contradictory price levels, both with unrealistic auction reserves and private sale offerings at yesterday's much stronger prices. From sellers reluctant to accept the bid, yet undeniable reality that their stock was no longer worth what they had paid. Indeed, it was difficult to know where levels really were as those who remained market-makers bought and sold at what the current interplay of supply and demand dictated, while others sought to transfer the consequences of a decline in value of their inventories onto the shoulders of buyers less informed of the new lower levels than they should be. The one bright spot yet in evidence a year ago was that auction sell-through rates remained at a higher level than might have been expected in a market that was truly collapsing, rather than simply undergoing a price correction to rebalance supply and demand at more rational price levels.

As we move on to the new year, what might to some have seemed a looming depression in the numismatic world has clearly not come to pass. The various auction companies active in the currency trade are conducting sales consistent in size with their offerings of a few years ago, although the product mix has clearly changed. Ultra rarities that once commanded mid six-figure and higher prices are far less often available at auction now, as sellers of such items wait for a hoped for return to higher levels for such items. While overall prices undoubtedly remain significantly lower than two years ago, auction sell-through rates, a real measure of the balance between seller and buyer price expectations, continue to suggest growing levels of underlying demand promoted by the lower prices currently in effect.

LARGE SIZE TYPE NOTES

Prices for Large Size Type continue to slowly recover, rather than continue to fall. PCGS and PMG certification has become a near necessity for any item represented as being some degree of Uncirculated. Indeed, driven by the concept of registry sets, where buyers compete against each other to claim leading rights to the finest holdings in various categories, the two certification firms have invented a clever way of promoting demand for their product at the very end of the marketplace. Here, there actually exists the most logical and useful demand for their services, as the upper end of the necessarily somewhat subjective quality spectrum in the 11 point Uncirculated range, where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third-party

grade label attached to an item. For virtually any Large Size Note, the population of individual examples (certified as "60" or higher) is very often in the single digits. Any additional demand at all created by register set buyers where such grade scarcity exists, can markedly increase the slope of the price gradient and thus serve as an advertisement for the value of third-party grading.

SMALL SIZE TYPE NOTES

Price levels here also continue to recover, with significant interest being focused on low and lower serial numbers, as well as scarcer Star Notes. Indeed, the marketplace for low and lower serials, once almost a curiosity where items exponentially rarer than more ordinary items of the same type sold for relatively modest premiums, has now expanded to the point that there are multiple market-makers in this specialty, and it has become a real mainstream area appealing to a much broader purchasing base than applied a decade ago. While third-party certification has not penetrated here to the same extent that it has in the Large Size specialty, a trend in that direction is very clearly present and premiums at the upper end of the Uncirculated spectrum are widening for such certified material, especially versus similarly described uncertified items. Error Notes remain a popular collector driven specialty.

FRACTIONAL CURRENCY

Fractional Currency remains very much a cult item - as opposed to a speculative dominated area, with price levels for very attractive material at a given scarcity remaining well below that of Large and Small Size Type Notes. Ultra rare items here remain available at auction at price levels that are a small fraction of Large Size Type material with similar populations. Exceptionally well-covered Notes, regardless of how common, continue to generate significant demand and are easily saleable even when somewhat aggressively priced.

NATIONAL BANK NOTES

National Bank Notes, comprised of multiple geographic specialties, remain more spotty than the other collecting specialties. Scarce to rare material from in demand states can sell quite strongly, sometimes surprisingly strongly at auction, while material from areas enjoying a less robust following will command only levels that can leave sellers feeling somewhere between frustrated and quite disappointed. It can be a hard lesson to learn in any collectible marketplace, but there is a real distinction between what sellers think something ought to be worth and what it currently is worth based on the interplay of potential owners competing against each other at auction. What the seller paid, what he wanted or what he thought the item should be worth is really quite irrelevant to the entire process. Some never seem to figure this out.

MISCELLANEOUS

Obsolesces continue to be a bright spot in the market, with rare material enjoying a broad and growing demand. This remains an area driven by informed collectors, with very little involvement by the third-party certification firms. The exception is for extremely common items that can be marketed as "67" or higher to buyers more impressed by the certified grade label than the ease or challenge of locating and acquiring an item.

newsletter

Vol. XXV No. 36

September 3, 2010

Single copy price \$4.00

Generic Dollars Quiet With Silver At \$19.67 Overall Sight-Unseen Market Higher

Silver Spot is trading near \$20 an ounce for the first time since March of 2008 when it actually surpassed the \$21 plateau before retreating all the way down to under \$9. This latest move has yet to be reflected within generic Morgan or Peace Dollars by way of higher sight-unseen Bids. Only a handful of up ticks and down ticks are sprinkled throughout these charts, most significant of which is the new, higher \$840 Bid for Choice examples of the 1894S. Dealers often assert that the Morgan and Peace Dollar segment is a market bellwether, implying that where these Silver Cartwheels go the market follows. In fact, Morgan Dollars started the year with a *CCDN Coin Market Index* (CMI) of 1,112 and has forged ahead to 1,130. A solid 1.6% rise running second only to Mint State Type which logged a 2.5% increase over that same period. Peace Dollars record two declines, the most severe of which is the 1923 in PCGS MS66 as it falters to \$375. With regard to the CMI, Peace Dollars have indeed acted in parallel to Morgans, notching a 1.3% improvement in the index since January. Morgan Dollars graded by ANACS and ICG are receiving Bidder attention for select issues in MS63 and MS64. GSA Dollars are active with several dealers offering Bid or near Bid for much of the material listed on supplemental Page D. Sellers are also present, mostly asking between 5% and 10% over listed levels for both the original GSA slab with box and certificate as well as examples with the NGC wrap around grade.

PCGS Superb Gem examples of the 1922 Grant Memorial with Star start things off on a positive note within Silver Commems, advancing by more than 10% this week to \$28,000. An example of this pop 4 coin sold on Aug 7 for \$43,125. It included the CAC endorsement and resided in a PCGS Secure holder, presumably indicating that it was passed over for the + grade designation. Rounding out the story, sight-unseen Bid for a PCGS MS67+ is currently \$35,000. A half dozen of these in NGC MS67 slabs have sold at auction in the last 5 years ranging in price from \$21,850 to \$36,800. A handful of more modestly priced Silver Commems have moved to higher ground including NGC MS65 Fort Vancouver now commanding \$550. Gold Commems are

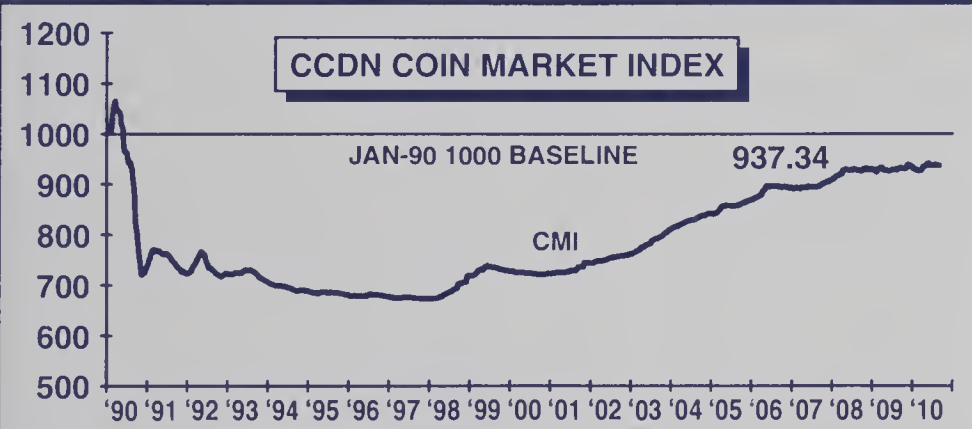

especially quiet this week but this is not to be mistaken with lack of interest, activity or support.

Mint State Type witnesses increases for Barber Halves and Liberty Seated Halves with Motto in PCGS holders. The latter is targeted in three grades – MS65 to MS67. This segment is leading the market higher year-to-date and is second only to Gold Type when looking back two years. This latter date chosen arbitrarily but at a safe distance in time prior to the lending crisis that staggered the economy in October of 2008. Gold Type is back in the fast lane as Spot finally made a decisive move, held its ground, and that has apparently converted the market-makers into believers. A glance at the chart tells the story. The increase to \$11,000 for NGC MS63 \$10 No Motto Libs is worthy of notice. Since September 2008, this celebrated cluster of design Types has registered a 13.5% aggregated move higher.

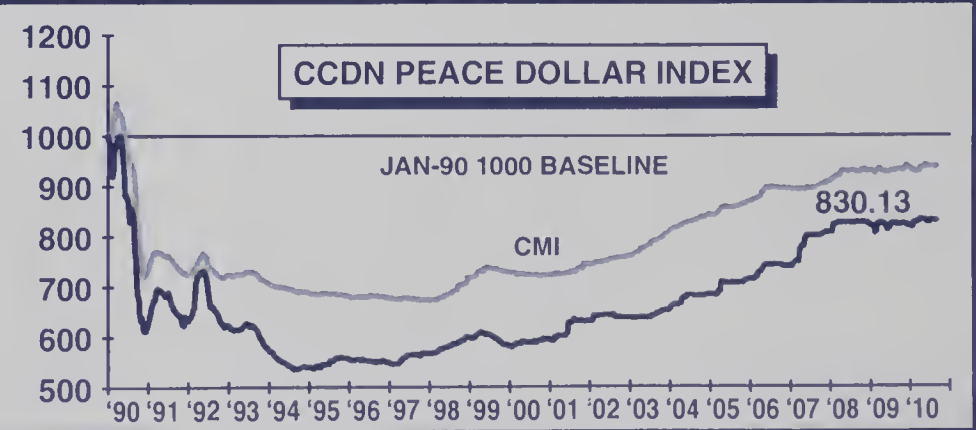

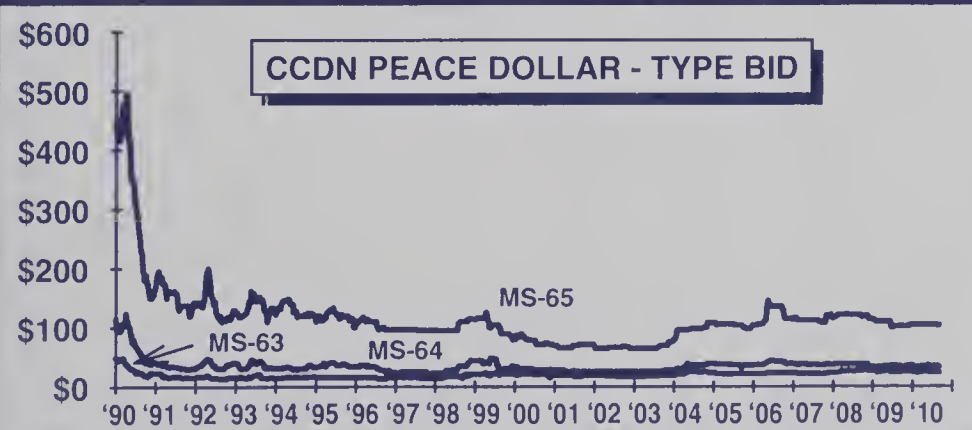

Proof Type enjoys a cadre of enthusiasts, both dealers and collectors seem to always be on the lookout for this material; nevertheless, Bid support is somewhat on the anemic side. Proof Gold, at one time had very few relevant sight-unseen Bids, received a great deal of attention when the grading services launched their + grade services. As a result, sight-unseen Bids for many issues are also recent all-time highs covering two decades.

Buffalo Nickels are resting comfortably following the long procession of high-end coins that sold at auction over the past three months. Increased Bids are evidenced for the MS66 common dates: 1936, '37 and '38D, all three higher for NGC, the latter also up in PCGS plastic. This is the third worst performing segment within our index as Buffaloes have trudged downhill by a little over six percentage points since September 2008. Mercury Dimes are silent for the most part, perhaps still recovering from the barrage of high end five-figure realizations at recent auctions, not to mention the \$195K paid for a PCGS MS67FB example of the 1916D less than a month ago.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

"Because Confidence is Priceless"

Top Peace Dollars Take Flight Barber Coinage Continues To Climb

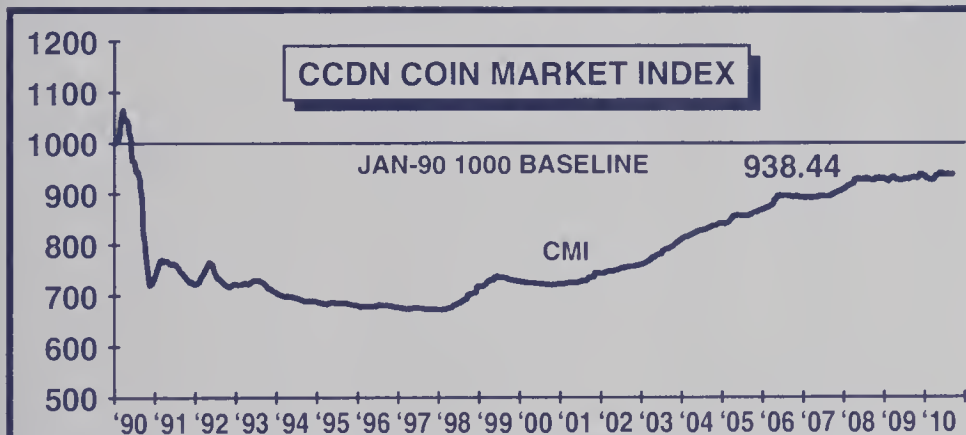

One of the main conversations heard amongst collectors and dealers at coin shows and shops across the country is \$20 Silver. "Silver is the new Gold", said one dealer, referring to the increased interest in Silver at the \$20 per ounce level and speculation of a possible break-out to even higher ground. Spot Silver has risen over 8% in the last month while Gold is up 3.6% in the same time frame. Mint State generic Dollars are behaving much differently than generic Gold Type as they have yet to react to the recent positive move in the precious white metal. Bids for Type Gold, especially \$20 Saints and Type 3 \$20 Libs have responded in unison with Gold Spot most of the time.

High grade Peace Dollars are the headline story on the sight-unseen front. Revisions to Bid levels in grades MS65 to MS67 are in many of the cases, the first time Bid has changed in at least five years, sometimes quite a bit longer. The 1934D in Superb Gem condition for example was stuck at \$8,000 since August 2002, and is now Bid at \$25,000. Whether this is nearly enough to force one out of hiding is debatable. Combined population is a scant four pieces and that total of course might include re-submissions. Last time an example sold was May 2009 when a PCGS example realized \$86,250. Morgan Dollars struck in 1878, the first year of issue and the first Silver Dollar produced for everyday commerce after a five year break, have long held a favored position among this series' devotees. The re-designed eagle on the reverse appeared with eight tail feathers on a portion of the Philadelphia production run, but with enough made to make it an affordably collectible variety. This week's action targets the 8TF issue in a number of Mint State grades through MS65 when holdered by PCGS and MS61 in NGC plastic.

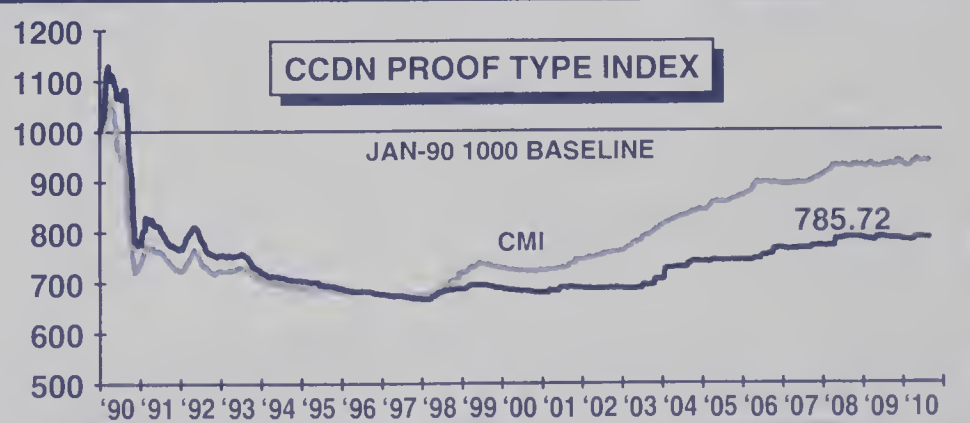

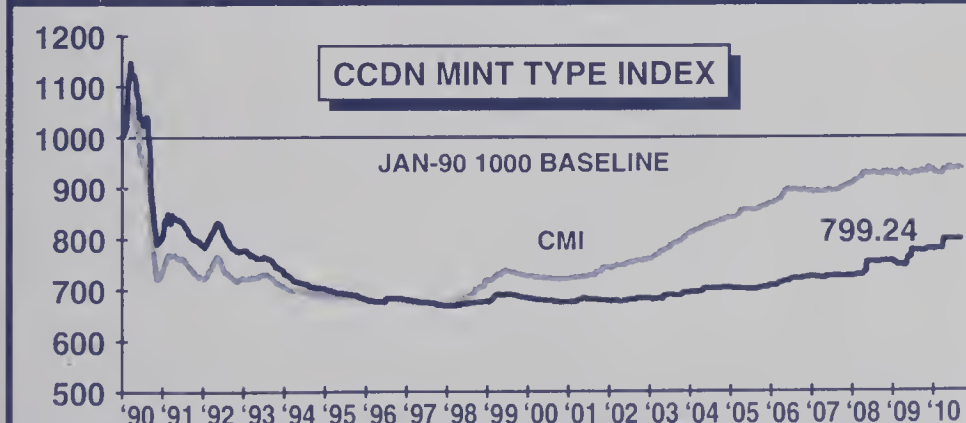

Mint State 61 and MS62 examples of the 1920 Pilgrim Tercentenary lead the way forward for the Silver Commemoratives segment as Bid increases by as much as 10 percent. A more modest increase hits the same issue in PCGS MS65 taking Bid to \$180. Delaware and 1893 Columbian issues have changed hands for lower levels necessitating downward revisions to Bid in select grades. Gold Commems undergo no adjustments of any kind and remain solid throughout for both services.

Barber coinage continues to see heightened demand resulting in higher posted Bids in an attempt to entice sellers. Both Quarters and Halves are targeted in those grades often referred to as "collector friendly", specifically MS62 to MS64. Choice Unc Barber Quarters are now Bid at \$270 and \$260 sight-unseen for PCGS and NGC fare, respectively. Mint State 64 examples are now at \$415 up 27% from this time last year. Quite a few mid four- to five-figure Type coins traded sight-unseen through the dealer-to-dealer networks this past week. Some of the coins included among these blind transactions were: a Trade Dollar graded MS66 by NGC for \$10,000; a PCGS PR67 Barber Quarter for \$3,700; and \$5,000 for an 1874 Liberty Seated Quarter with Arrows graded PCGS PR65. Mint State Gold Type is peculiarly mixed even as Spot continues to hover in and around world-record territory. Lower Mint State grade Double Eagles, MS61 to MS64, perhaps the very issues most inclined to follow Spot, do just that, notching advances across-the-board. CCE's Big Generic Market reveals that last week MS62 \$20 Type 3 Libs were by far the most popularly traded grade of the Type with transaction volume swamping nearly 7-to-1, that of MS63. Declines prevail in the Gem column.

Significant increases adhere to the 1955/55 Lincoln Cent for Red and Brown examples that grade MS62 or MS63. Bids are now perched at \$1,500 and \$2,000, which represents 25 percent and 33 percent advances respectively from last month. Even after these Bid jumps, sight-seen levels for Choice problem-free examples remain a hefty 50 percent greater at \$3,150. This suggests a world of difference separates sight-seen and unseen quality — a characteristic of Copper coins in general that has long existed in the marketplace. Some observers suggest that the introduction of split-grades, represented not numerically, but in the form of a + qualifier or the CAC sticker of approval, will not close the gap but rather create an environment that facilitates trading for each level of quality. Better date Washington Quarters continue to find lower and lower sight-unseen levels representing another segment of the market where sight-seen and unseen levels are ever moving closer to a difference in quality approaching one full Mint State grade.

The Certified Coin Dealer Newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublishing.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Bulk Submissions Have Never Been Easier

Ron Drzewucki, Finalizer
In 25 years as a numismatist, Ron has taught several grading seminars and classes. A Life Member of the ANA and ANS and former owner of St. Louis Rare Coins, he is known for accurate, consistent grading. As an expert grader and former dealer, he is ideally suited to help you expand your business with NGC certification.

Get personal consultations from an expert former dealer.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. As a former dealer himself, and an expert numismatist, Ron Drzewucki is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

**To discuss your options, contact Ron directly at
 800-NGC-COIN (642-2646) or Ron@NGCcoin.com.

MORE THAN 20 MILLION COINS GRADED

Greatest Gold Mine of Coin Data - Yours **FREE!**

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.
separate states by comma

☐ Bulk Rate

☐ First Class

(Please provide City, State and Zip of mailing site for bag tag preparation)

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Chent or sight-seen trades can be expected to occur at substantially higher levels in many cases.

What's Up Spot? Silver Type Gets All the Hype

Today's headline underscores the fact that physical Gold is once again well into new record high territory... and the numismatic crowd and the attendant market makers have yet to embrace this Orwellian Brave New World. Spot located the gas pedal, closing at \$1,272 but Gold Type for the most part is stuck in neutral. Indeed, some issues have even thrown the engine into reverse. \$20 Saint-Gaudens, which attract perhaps the most diverse crowd in the entire hobby, from those who want to own and enjoy a big Gold coin made in America to Type collectors, Gold specialists and research oriented numismatists. Every coin in the series is blessed with demand in one form or another. A plethora of plus signs are seen for \$20 Saints on supplemental Page F, published once-a-month, while the Mint State Gold chart does not. Many of sight-unseen Bids here are actually lower from our last report. At least one east coast dealership is offering \$12,500 sight-unseen for any \$20 Saint graded PCGS MS67 with CAC approval and \$3,000 more if PCGS added the +.

Morgan Dollars head into Long Beach port, winding down the summer on calm seas, just a few ripples left in the wake of what proved to be a quite upbeat season for this market. In June Morgan's showed a CCDN Coin Market Index a couple tenths short of 1,120 and today that same index is 1,130. While the charts reflect no more than eight almost trivial tweaks, transactional data identified the usual suspects exhibiting sketchy behavior. Those delinquents include issues hailing from Carson City, New Orleans, and a few Philly players, in grades ranging from MS62 to MS65. Nearly every week, examples will sell at retail auction for a few dollars less than binding sight-unseen Bid. This week an 1881CC graded PCGS MS65, left town \$80 skinny after selling for \$660. Buyers on the other side of town are betting \$740 in the blind. Peace Dollars are easy like Sunday morning as summer winds fade leaving no comments whatsoever on the charts. This, on the heels of last week's barrage of increases that were recorded for several low pop rarities. Look for the generic Dollars in lower Mint State grades to start moving with Silver now trading at \$20.75 an ounce. Silver closed over its last record high established in March 2008, and is now claiming a new peak, after thirty-some years.

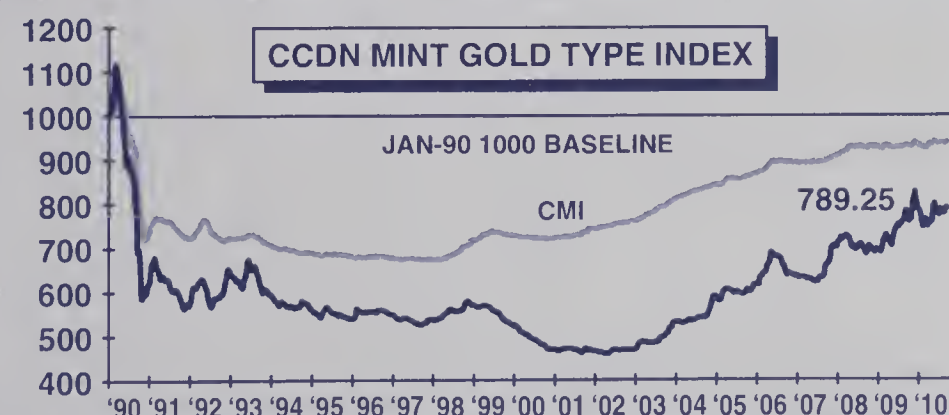

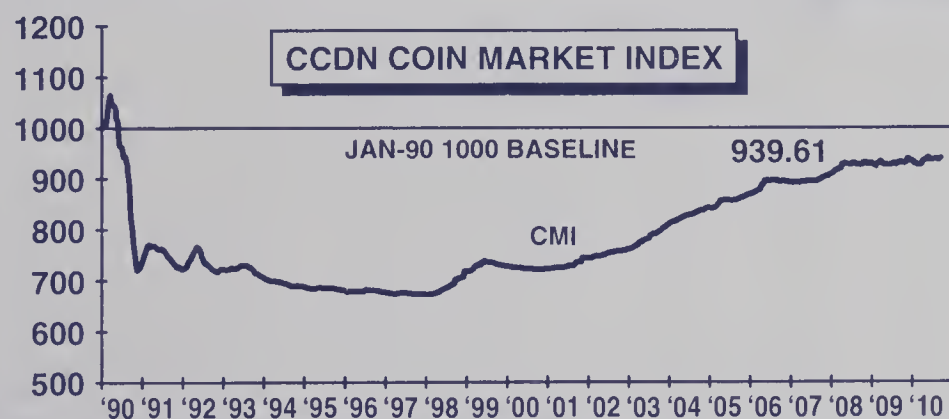

Some of the most vigorous sight-unseen Bidding support is seen on the Gem Uncirculated aisle of the Silver Commemoratives market. Buyers are available for the majority of issues, either at Bid or very near. Perhaps the not surprising corollary follows that when a particular design Type has a willing sight-unseen Bidder for MS65 graded material there is often a ready buyer at the MS64 and MS66 grade level as well. The situation thins decidedly in MS63 and MS67, and lacking altogether in MS61 and MS62. The 1936 Battle of Gettysburg notches an increase in MS64 when ensconced in NGC uniform. Most Gold Commems are still needed at current levels in multiple grades.

Mint State Type joins Silver mania this week. No less than 34 listings show advances, nearly half lining up in the MS61 and MS62 district. Copper activity is constant, while 3¢ Nickels in PCGS MS64 head into winter on a positive note. Standing Liberty Quarters, Type 2, lead the winter solstice parade revealing a 21 percent move to \$1,750 for Superb Gems if labeled Full Head by NGC. Old school wisdom has always pointed to the 1930S as the lone Type at the rarefied MS67FH tier. Interestingly, NGC census data reveals that in MS67FH the 1928S, '29S and '30 are more populous and exactly the same rankings prevail in MS66FH. Dealer revisions this month produce several positive changes to the Franklin Half Dollar chart, with positive forward steps for select later dates that qualify as having Full Bell Lines.

Goldberg's Pre-Long Beach sale will run Sept. 20 to Sept. 22 along with Bonhams & Butterfields, a one-day event on Sept. 20. Heritage's auction will run concurrent with the Expo starting Sep 23. A preview of some of the many highlights from that sale are included herein. Many Long Beach participants upon concluding business on the left coast will journey to the Philadelphia area for the Whitman coin show and Stack's sale, both set for Sept. 30 through Oct. 2.

NGC

Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. It is the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

Who Can Help You **DOUBLE** Your Bulk Business?

You're Looking at Him

In the world of modern coins, PCGS has yet again revolutionized the numismatic industry with two words – Bulk Certification. These two words define a program that allows dealers and collectors to submit high volumes of coins at discounted prices.

Miles Standish, creator of the program, knows more about bulk certification than anyone and he can show you how to double your business and expand your market through our bulk program.

With the Mint continually creating new designs and innovative coins, Miles can design specific campaigns to target new markets with innovative ideas, such as specialty flips and roll certification programs. The possibilities are endless!

Find out how Miles can bulk up your business through PCGS Bulk Certification. Contact him today by calling **(949) 922-0515** or sending an e-mail to **Mstandish@collectors.com**. Trust us, he won't let you down!

PROOF TYPE COINS

All prices are sight-unseen dealer-to-dealer Bids.

Bid prices are for the most common date within each type.

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

Precious Metals Peak At Expo

Lincoln Cent Sells For \$1.7 Million

What a terrific week for the rare coin market with Gold spot at an all-time high of \$1,294 and Silver surpassing the \$21 per ounce mark. This has sparked a good deal of enthusiasm at the Long Beach Expo. Additionally over \$8 million in rare coin sales recorded via public auction in Los Angeles before the show began. Bonhams & Butterfields got things started by realizing over \$1.1 million in their 500 lot auction on Sept. 20. Ira and Larry Goldberg kept the ball rolling by hammering home more than \$6.9 million in sales. A list of ten highlights from the Goldberg auction are included below.

Certified common date Morgan Dollars grading MS63-MS64 are on an upward trek this week. At least one dealer is looking to acquire over 1,500 coins and will take either PCGS or NGC slabs sight-unseen. Peace Dollars are singing a similar tune. Common dates are targeted at elevated levels in MS63, while the 1923 receives attention in both MS63 and MS64. One better date Peace Dollar also finds its way into this week's forward motion, the 1934S in NGC MS65, now good for \$4,500 regardless of the individual merit or lack thereof on any particular example. NGC census data reveals that the 1934S is the fourth scarcest Gem Peace Dollar graded by NGC with 69 pieces certified. Only the 1928S, '25S, and '24S are scarcer with populations of 40, 59, and 64, respectively. Silver Commemoratives have undergone a thorough revision with particular emphasis having been placed on select design Types as well as the better dates within a given design Type. No less than 200 advances are distributed throughout the chart. Forty listings enjoy a 20 percent or greater increase this past week led by the 1937D Oregon Trail in NGC MS66, winding its way 60 percent higher to \$280, followed by Arkansas Type, Texas Type, and the 1936 South Carolina Sesquicentennial. Apart from the NGC MS66+ 1905 Lewis and Clark Gold Dollar selling for a discount, Gold Commems retain a solid foundation. Each of the regular issues has a willing sight-unseen buyer in at least four of the seven grades listed herein.

Mint State Silver Type discovers higher Bids in place for Type I 3¢ Silvers graded MS62 and Type II examples in MS64 condition when plasticized by PCGS. Mint State Gold Type finally gains some real traction on the sight-unseen front. Leading the way forward is the ever-popular \$20 Saint-Gaudens, now Bid \$2,050 for Gems. Last week these had a sight-unseen Bid of \$1,910 and \$1,920 for PCGS and NGC slabs respectively. This \$130+ increase is valid for the worst possible example grading MS65 — including \$20 Saints with stains, streaks, spots, chatter and discoloration. Quarter Eagles, both

Liberty and Indian are targeted at higher levels in MS62 through MS64. Proof Gold Type is perhaps best summed up by noting the sale of an 1870 \$10 Liberty graded NGC PR65UC that sold for \$112,125 this week. Observers point out that even though, listing for listing, this is the most expensive segment within the hobby, there should be no surprise that it enjoys overwhelmingly solid support in grades PR65 through PR67. A careful review of the Market columns here reveal that of the lowest priced example to have sold, recent realizations are almost always well above sight-unseen Bid.

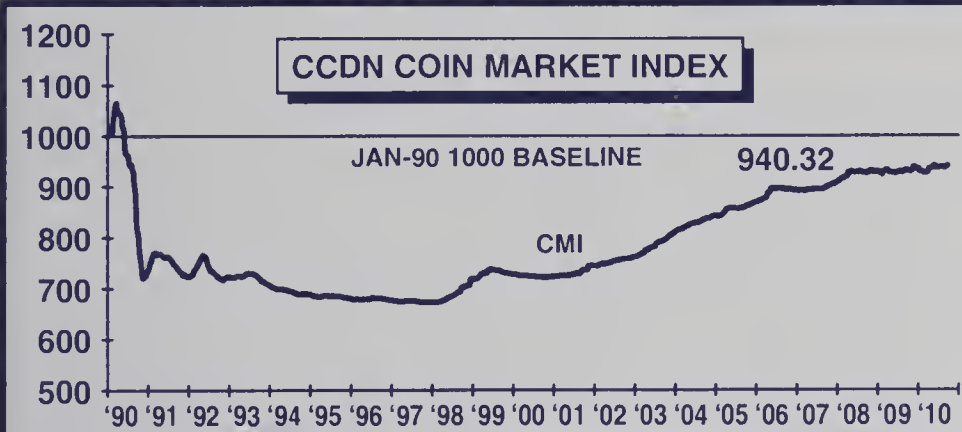

Buffalo Nickels looked poised to rally and gain support from the hobby faithful if only at reduced levels. However, the sale of two complete high-grade collections, which included some earthbound results, has not increased dealer support in any visible way. Mercury Dimes, which also enjoyed a renaissance of sorts upon the sale of the #1 Registry Set, has fallen back into the shade as well, comforted only by a handful of visible Bids. Walking Liberty Half Dollars get snagged in just two places, one a 1943D in PCGS MS64, the result of an online auction, the other, a 1938 graded MS65 by PCGS, the product of a dealer's offer to sell the item at a discount. Proof Singles court a few positive advances, the 1940 Jefferson Nickel is the object of affection in PR65-PR67. Downward Bid adjustments are in place for 1936 Walkers graded PR65 and PR66. Clues to why a particular coin has dropped can often be found in the Market columns that are published on the forth week of the month.

The only known 1943D Lincoln Cent struck on a regular issue bronze planchet has changed hands for \$1.7 million. The coin graded MS64BN by PCGS was first brought to the attention of the numismatic community in 1979. Two previous auction appearances record that it sold for \$212,750 in February 2003 and \$82,500 in May 1996. Along with

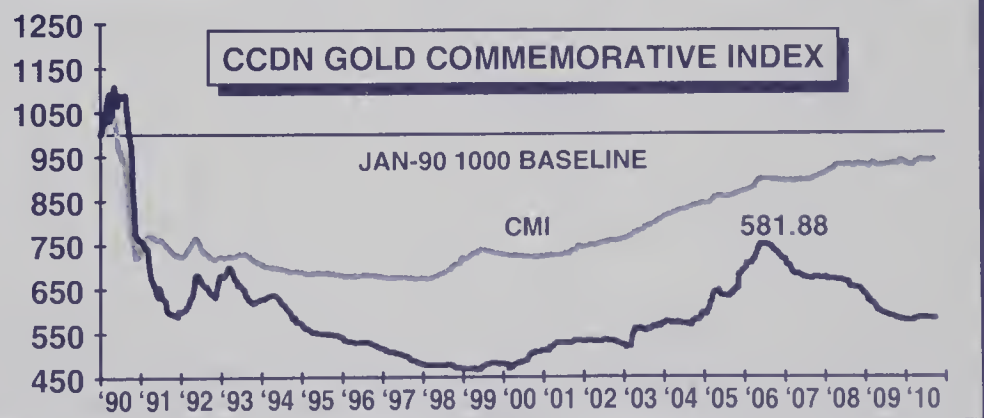

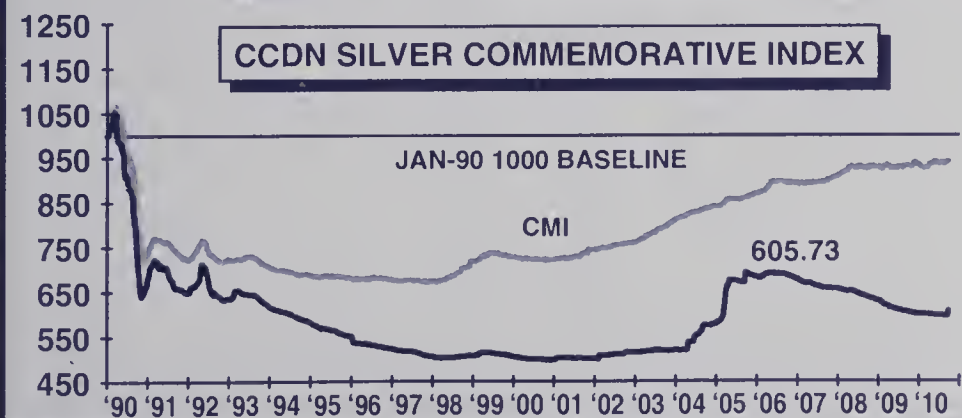

this unique rarity, a 1944 Lincoln Cent struck on a steel planchet, as well as an experimental 1942 Philadelphia Lincoln Cent struck on a planchet composed of tin will be on display at the January 2011 Fun Show. Legend Numismatics brokered the sale on behalf of the buyer and Angel Dees Coins and Collectibles on behalf of the seller. Many well heeled hobbyists find coin collecting to be relaxing, an intellectually challenging and exciting pursuit, a good natured competition, and as much fellowship as one could desire. Financial hardship or otherwise, prized coins are the very last asset that such folks will surrender in order to meet pressing financial obligations.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

FCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCCS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

[illegible]

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

Only NGC offers Plus & Star Designations

The expert graders at NGC know superior quality when they see it. NGC Plus Designation recognizes coins at the high end of their assigned grade, approaching the quality requirements of the next grade. The NGC Star identifies those with exceptional eye appeal, such as vibrant toning, beaming luster and especially deep cameo contrast. Learn more about these services at www.NGCcoin.com/Designations

Vol. XXV No. 40

October 1, 2010

Single copy price \$4.00

\$21.5 Million Realized In So Cal Philadelphia Expo In Progress

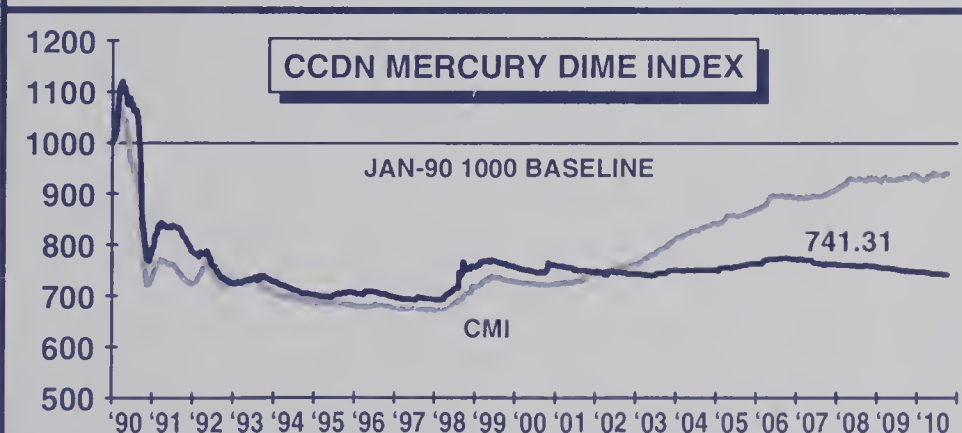

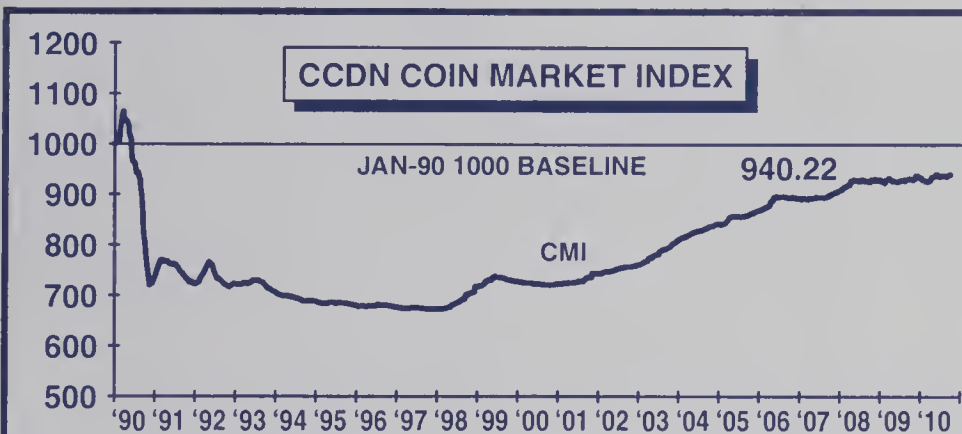

Dealers have left the west coast after a week long gathering that began in Beverly Hills and concluded in Long Beach. The end result was over \$21.5 million worth of rare coins traded hands at public auction alone. Auction prices realized from these three sales (Bonhams & Butterfields, Ira & Larry Goldberg and Heritage) have been thoroughly examined with the necessary adjustments reported herein. All of this resulted in quite a bit of activity, especially with ongoing record breaking Gold prices and 30 year highs for Silver, now at \$1,309 and \$21.78 per ounce respectively. The action does not stop here as most major dealers are currently in the northeast attending the Whitman Philadelphia Expo and participating in the Stack's auction taking place Sept. 30 - Oct 2.

Morgan Dollar enthusiasts will find the charts stacked deep with representative cases of each of the three "triggering events" that influence the reporting of sight-unseen Bids. The first such event is the placing of a visible Bid that exceeds the most recently published value. A decent sampling of Bid increases are displayed this week though nowhere near the amount of Bid jumps recorded last month. The second triggering event involve sales of coins at levels which would indicate that Bid numbers should be adjusted downward. Over three dozen of these declines are in place within Dollars in this report. The third triggering event, ironically, involves situations where both of the previous events are involved on the same coin. This third event is easily detectable when the market column is published on the 4th week of the month, but otherwise remaining somewhat mysterious. This last event is important as it indicates the sale of a coin in a retail venue where it realized less than what it would have sold for sight-unseen to a dealer. Several dozen of these scenarios took place in last week's auctions where primarily Morgan Dollars were sold for less than dealers are paying, leaving money on the table and not in the consignor's pocket. Carson City mint marked Morgans entombed in original GSA holders remain active, with both buyers and sellers participating. Dealers are paying at least \$150 sight-unseen for any such example and \$5-\$10 more for problem-free white coins. Spreads between Bid and Ask are tightening for NGC graded and banded GSA Dollars as long inventory lists of this material are currently hanging over the market. Peace Dollars are mixed this week with an equal number of increases and declines. Just about all of the recent sight-unseen Bid jumps for 4- and 5-figure cartwheels in grades MS65-MS67 remain valid.

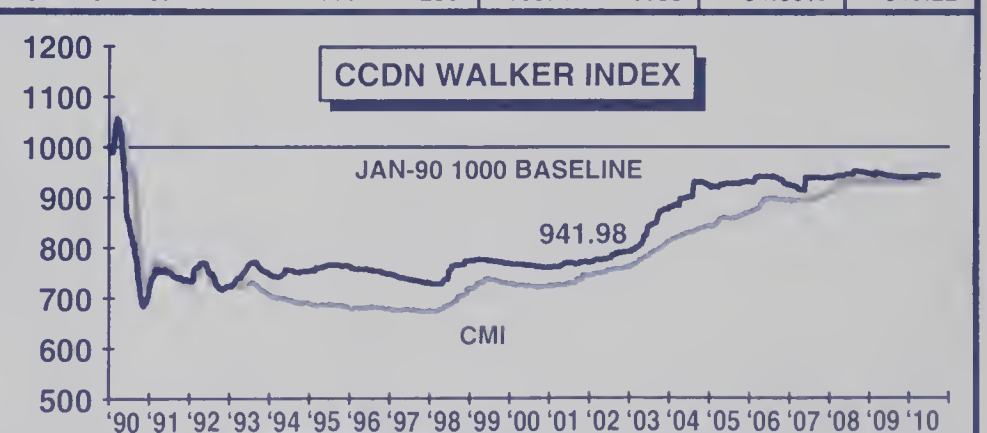

Silver and Gold Commems are each undergoing some slight downward modifications, though not too startling when considering the huge number of lots offered at auction last week. What is cause for concern is the fact that quality pieces and CAC approved examples are selling for *Bluesheet* levels with some regularity. This includes a PCGS/CAC MS62 McKinley Gold Dollar and an NGC MS66+ 1905 Lewis & Clark Gold Dollar. At least one market-maker is stepping up and widening their sight-unseen Bids to include Commems graded by ANACS and ICG. Over 35 increases are seen with advances up to 26% over our last installment. Mint State Gold Type has finally become a bit more livelier, for the moment anyway, riding Gold's coattails to higher levels. Yes, minus signs are present as well, mostly in response to poor results recorded in the recent rash of auctions.

At the recent auctions a herd of Buffaloes thundered onto the podium but sold at less-than-thunderous prices. Nearly every single date was offered in a public sale last week, all with a PCGS grade of MS65. Bid levels have stumbled downward as a result, affecting nearly a dozen listings. This points to a situation perhaps where Bids have moved lower, not as a direct response to the sale of a "worst case example" model that normally drives the published Bids, but the sale of a rather handsome assemblage of coins of average quality into an underlying weak market. A segment in fact that hasn't been seriously challenged since the beginning of the economic crisis two years ago. The brave sellers in these situations, of course, help to inject liquidity into this portion of the market paving the way for real world prices. Ironically, market observers note that it is the first guy to sell into a weak market that often minimizes his own losses. Those who just want to hold out a little longer never quite seem to reach that "turn around" point and end up selling into an even weaker market. A similar story with a much different ending was told by Walkers grading PCGS MS66. Nearly every single date from and including 1934 was offered via public auction last week, yet only a single decline was necessary. In other words, solid prices, or prices well above the sight-unseen levels published here were achieved.

Saint Charles, Missouri is the next stop for the national traveling show dealers. Scotsman is holding another Collectors' Auction in association with the Silver Dollar & Rare Coin Expo Oct. 14-16. A number of rarities are slated for the auction block including nearly 100 lots of early Copper, highlighted by a 1793 Half Cent graded PCGS F15.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

Sight-Unseen Market Higher

St. Charles - Stamford - Baltimore

"All the leaves are brown and the sky is grey..." and the fall season is traditionally that time of year where collectors spend a great deal of time indoors. With Gold Spot claiming record after record and Silver Spot making the news by recording thirty-year highs, coin shops and dealerships look to be pretty busy between now and the holidays.

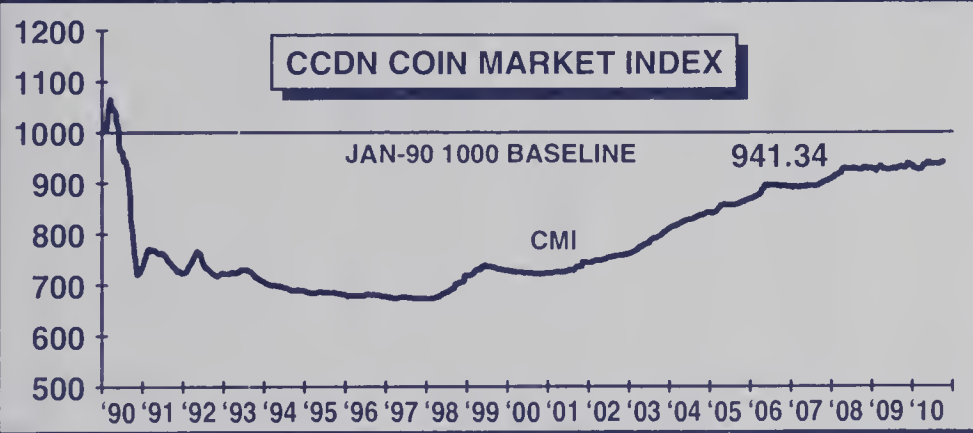

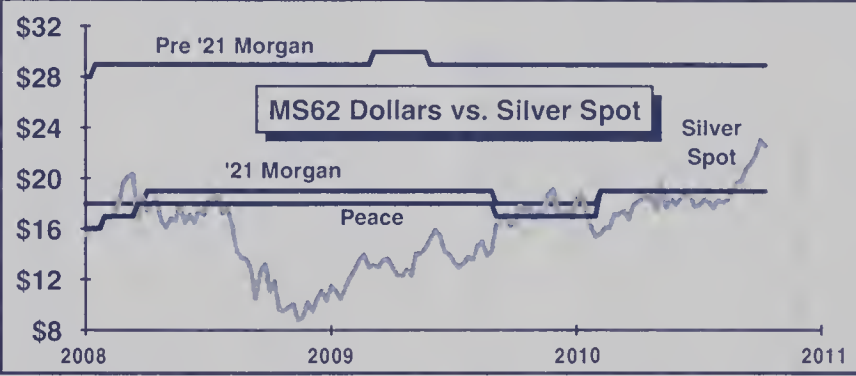

A barrage of higher sight-unseen Bids are in place for most of the more "common" dates that hail from the Morgan Dollar series for examples certified at the MS64 and MS65 level. With \$23 Silver, the lower Mint State grades of MS61 through MS63 may soon see increased activity. They have remained essentially flat-lined for nearly 3 years while Spot Silver has been much more volatile. Meanwhile, a handful of "slightly better" to "better" date Morgan Dollars claim some action, including the 1904S in MS61 and MS62. Over fifty transactions within retail auction venues involving Morgan Dollars this past week occurred at levels less than binding sight-unseen Bid. The vast majority however, fell within 10% of these wholesale offers to buy. Bear in mind, with shipping costs, labor and bookkeeping most of these sales would be reckoned a wash. Peace Dollars undergo a thorough revision resulting in a very upbeat story line. At least one advance is recorded in each grade from MS61 to MS66. Particularly plentiful are the increases hitting select issues certified at the MS64 or MS65 plateau. Leading the way is the 1922D in MS66, which is now Bid \$1,200. This translates into a hefty 45% increase for those encapsulated by NGC and a similarly scintillating 33% increase for PCGS graded product.

Silver Commems once again enjoy an onslaught of Bid jumps for a wide range of a material with 230 increases recorded this week in all. Within the MS67 grade, at least one dealer is concentrating on PDS Sets of Booker T. Washingtons graded by PCGS. First issued in 1946, Superb Gems become increasingly more difficult to locate for the years 1947 and 1948 and then taper off in scarcity slightly in 1949 and 1950. Bids in chronological order starting with the 1947 and ending with the 1950 are \$3,900, \$3,900, \$3,350, and \$3,200, respectively. A quick glance at the PCGS pop reveals that very few of these Sets have been made at this grade level. Specifically 2-1947; 0-1948; 7-1949 and 2-1950. Gold Commems started gyrating on the sight-seen front earlier this week and the activity continues at the sight-unseen check out window as three of the Gold Dollars - 1903 McKinley, 1903 Jefferson, and 1904 Lewis & Clark - are all Bid to higher ground in a multitude of grades from MS61 to MS66.

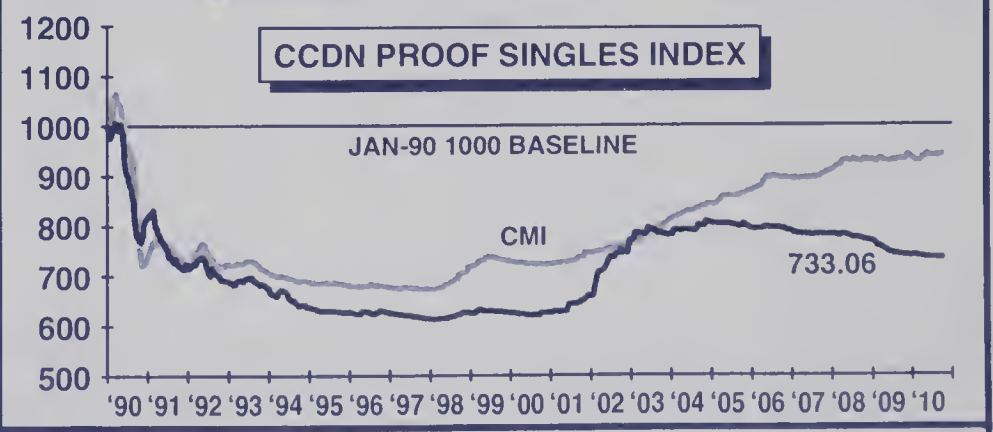

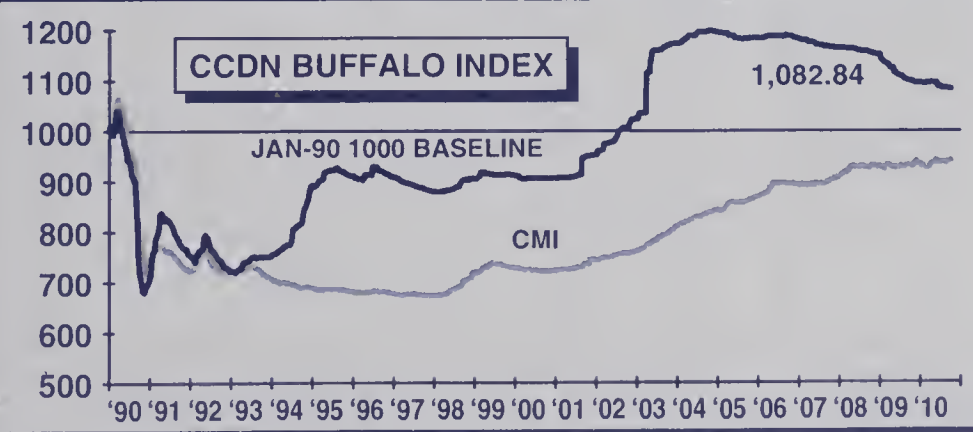

Mint State Type, excluding Gold, wraps up the first swerve of fall activity on a quiet note. Recent retail public auctions did little to challenge sight-unseen levels and can be viewed as a good sign for the market. Mint State Gold Type finally heralds some real

positive movement from grades MS61 to MS65. Generic Gold Type has been sluggish for the past several weeks and premiums have remained low even with Gold Spot hitting \$1,350 an ounce. Bid is relaxed for Early Half Eagles struck from 1829-1834 as an MS65 graded example of the 1834 Plain 4 variety housed by NGC sold for \$132,250. That same year, 1834, witnessed the debut of a new Half Eagle design, the Classic Head that would remain until 1839. Coins of this Type certified MS62 by NGC now fetch \$3,000 without regard to a coins individual merit. Proof Type is status quo apart from one minor tweak, that being Choice examples of PCGS graded Liberty Nickels with Cents which falter to \$170. Twenty Cent pieces encapsulated by NGC enjoy a solid foundation of support starting with PR62 and remaining firm through PR67. No less than 25 sales occurring within the past 60 days and covering nearly every grade suggest that sight-unseen levels are not being tested. Numerous other Types offer a similar story including Barber Dimes, Quarters and Halves, all of the Liberty Seated coins with Legend (or Motto), and Trade Dollars, to name but a few. Proof Gold Type boasts no changes. An 1892 \$20 Coronet graded PCGS PR66DCam that realized \$152K last week is the same specimen that sold for \$121K at the beginning of this year. Walking Liberty Half Dollars reveal some signs of life by way of higher Bids. At lease one dealer is offering \$1,750 for a 1947D graded MS67 by PCGS. It is a population 8 coin with no coins graded higher. PCGS reports 125 coins grading MS66+ for the entire Walker series and another 16 coins making MS67+. Presently one 1942S is holdered at MS66+, this particular issue wielding a Bid of \$675 in MS66 and \$75,000 in MS67. On the NGC side, a new player steps in offering \$425 for any Walker certified MS67.

Upcoming events include the Silver Dollar Expo, in St. Charles, MO Oct 14-16. Scotsman Auction Co. is set to conduct a sale in conjunction with the show on Oct 15. Coinfest is slated for Oct 28-30 in Stamford, CT. Baltimore is the site of the next Whitman Expo, scheduled for Nov 4-7. Bowers is the host auctioneer for the Baltimore gathering. The Zürich Collection of Proof Gold that includes a run of Double Eagles from 1878 to 1907 will anchor the sale.

NGCNumismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.
www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

To learn more, visit www.NGCcoin.com/security

**Now you can verify certification on the go.
Visit m.NGCcoin.com from your mobile device.**

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

CAC[®]

"Because Confidence is Priceless"

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Chent or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Who Can Help You **DOUBLE** Your Bulk Business?

You're Looking at Him

In the world of modern coins, PCGS has yet again revolutionized the numismatic industry with two words – Bulk Certification. These two words define a program that allows dealers and collectors to submit high volumes of coins at discounted prices.

Miles Standish, creator of the program, knows more about bulk certification than anyone and he can show you how to double your business and expand your market through our bulk program.

With the Mint continually creating new designs and innovative coins, Miles can design specific campaigns to target new markets with innovative ideas, such as specialty flips and roll certification programs. The possibilities are endless!

Find out how Miles can bulk up your business through PCGS Bulk Certification. Contact him today by calling **(949) 922-0515** or sending an e-mail to **Mstandish@collectors.com**. Trust us, he won't let you down!

CERTIFIED COIN DEALER

newsletter

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 42

October 15, 2010

Single copy price \$4.00

Overall Sight-Unseen Market Higher Premiums Lower For Saints/Morgans

Precious metals continue to climb, breaking historic price records as they go. Gold Spot is now at an all time high of \$1,380 and Silver is fast approaching \$25 per ounce. Silver Spot is more than 20% higher than it was a month ago and Gold is up by nearly 9% in the last 30 days. These increases have not translated into any real Bid advances for much of the sight-unseen market as might be expected. In fact, premiums over melt are actually falling for certified generic Double Eagles as well as Morgan and Peace Dollars. Bullion is currently out performing the rare coin market, and some obvious values may soon be exposed here.

Silver Commemoratives are enjoying another round of sight-unseen Bid increases as this segment continues to grow in popularity. Advances have been recorded for Superb Gem examples of the 1936 York County, now at \$325. These have a combined PCGS/NGC population of 851 in MS67 with only 52 graded higher. Texas Type is 9% higher than our last report in the PCGS MS66 grade column and a 6% move is in place for NGC examples. These have been selling in \$250-\$350 range at retail auction with some regularity. Last week four Booker T. Washington PDS Sets from the MS67 grade column posted significant increases. 1949 PDS Sets are the recipient of another round of attention, jumping from a Bid of \$3,350 to \$3,900. A review of population data reveals that the 1949 issue proves to be the most likely to locate, with enough coins made to form 7 complete PDS Sets in PCGS MS67. Gold Commems find a few of its contingent looking to stretch out in sight-unseen territory. Four listings of Gold Dollars expand their reach by 2 to 6 percent. Increases are seen for the 1905 Lewis & Clark in PCGS MS63, 1915S Pan-Pac graded MS65 by PCGS, and the 1922 Grant Memorial in MS63. An NGC MS66+ example of the 1905 Lewis & Clark \$1 traded sight-unseen for \$17,000 this week through the Certified Coin Exchange, while an MS65 specimen has been offered wholesale for 9,000.

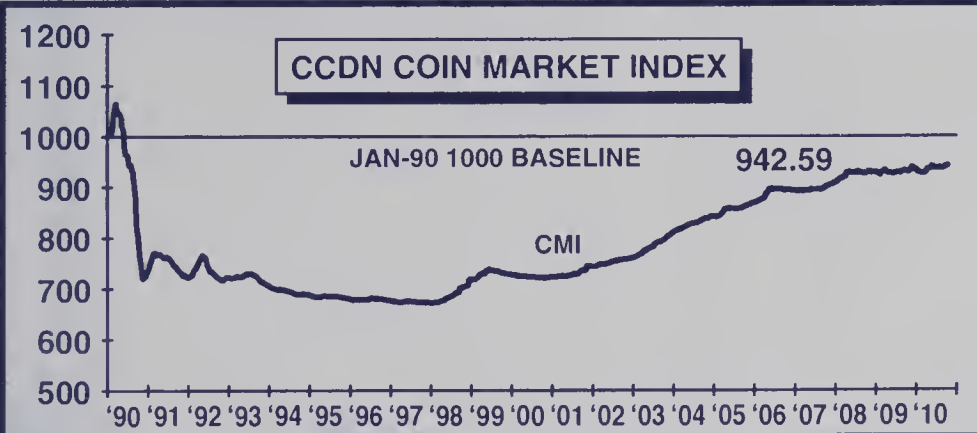

Generic certified Morgan and Peace Dollars have changed hands in huge quantities this week, primarily in grades MS63, MS64 and MS65. Bids have remained steady for most common dates during a time when Silver Spot is setting new 30 year record highs just about every day. A tidy, select, group of slightly better dates are making some moves this week. A fuel-charged bump takes NGC

MS66 examples of the 1898 to \$370. This amounts to a 23% jump for these NGC graded cartwheels that have a pop of 430 with only 16 at the MS67 tier. Pedestrian movement more aptly characterizes the remainder of the advancing community. Demand for high grade Peace Dollars has increased as of late, although this week's activity is limited to the 1926S, standing on the MS66 platform and surrounded by an NGC frame. Bid is 5% higher to \$2,000 in hope of freeing an example and bringing it to market. The last auction appearance was in January of this year when one sold for \$3,738. Declines when tallied across both walkways total four and the fissures in the grain are hardly noticeable.

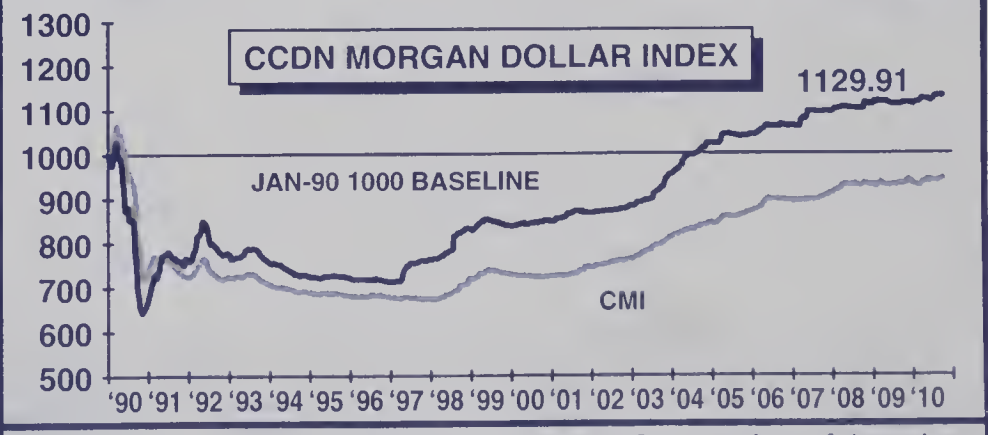

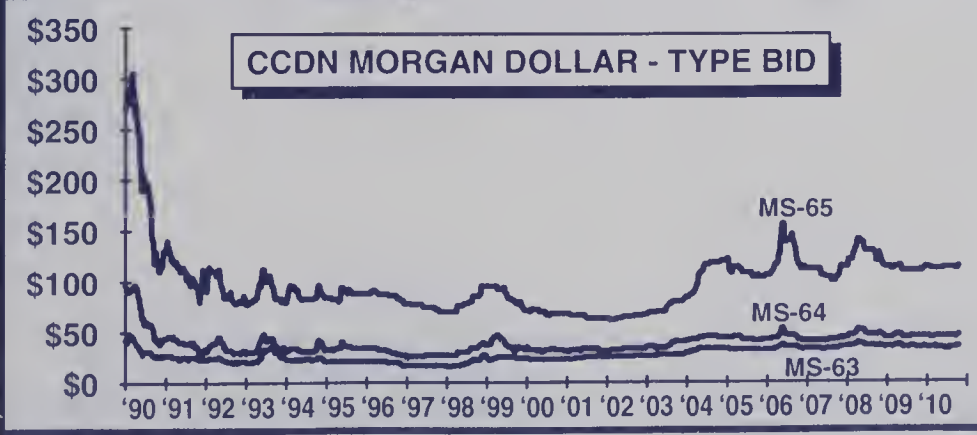

Mint State Gold Type boasts a dynamic membership, perhaps the most active segment of entire certified sight-unseen world. Smaller denomination Gold occupies the overwhelming majority of the advancers' activity. Common Double Eagles on the other hand are mostly lower from our last report as sufficient supplies remain readily available at or near current levels. Wholesale Asks are only \$150 or so over Gold Spot for generic \$20 Saint-Gaudens in the lower Mint State grades. Proof Gold remains steady with sight-unseen buyers visible at published Bid for the majority of issues. A \$4 Stella just appeared on the market with an Asking price of \$178,500, for an NGC coin graded PR66.

An eclectic bunch of Walking Liberty Half Dollars are on the up-swing, including NGC MS65 graded examples of the 1917. Also worthy of mention: the 1933S, now at \$600 in MS62 and the 1929S in PCGS MS65 is needed at \$1,500. Type 1 Standing Liberty Quarters have increased modestly to \$205 in MS63 for PCGS graded fare. At least one dealer is also prepared to pay \$150 or more for any of the later common dates starting at 1926D encapsulated by PCGS and the same holds true on the NGC side, but starting with the 1928. A handful of noteworthy advances are prominently displayed on the once-a-month presentation of certified Franklin Half Dollars. Among the patriots are the 1962D in PCGS MS66 at \$600 Bid and the 1963D receiving a higher sight-unseen offer of \$250 in the same grade.

Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Need to MAIL?

**SAVE MONEY
ON POSTAGE!**
We will
pre-sort your
mailing labels
to get you the
BEST RATE!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.
☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Sight-Unseen Market Trudging Higher Generic Double Eagles Soft

It has been another strong week for traders of certified coins in the sight-unseen arena. Over one-half million dollars in trades took place during the past seven days through the Certified Coin Exchange, one of the more active dealer-to-dealer trading networks. This activity took place on the heels of a \$55 downward correction for Gold Spot, while Silver is nearly \$1.30 an ounce lower than its 30-year peak recorded October 14. Many dealers are cautiously optimistic that the bull run in precious metals will resume and continue to bring more attention to numismatics.

Several Morgan Dollars are targeted at higher levels this week including the stalwart 1890 in MS65, which is now Bid \$1,200. Ever-popular and always in demand, the 1878 advances in MS63, for both the 1879 Reverse and 1878 Reverse, the two issues now at \$135 and \$80, respectively. Examples of the 1884 in NGC MS67 reach \$2,200. This issue wielded an exalted Bid of \$5,250 in January 1999, before it plummeted quite precipitously to \$3,900 where it resided well into 2004. Since then, Bid has been slimmed down again and again until it reached its nadir of \$2,100. Peace Dollars are rewarded this week with another round of spirited upward adjustments. Gem examples of the 1934S rise peacefully to \$5,200 on the NGC side while PCGS examples in MS64 are pegged at the now higher Bid of \$3,500. Once again, it is the better dates that are receiving the majority of advances. This week's Market columns reveal some 200 Dollars that have sold in retail auction for less than wholesalers are paying, sight-unseen.

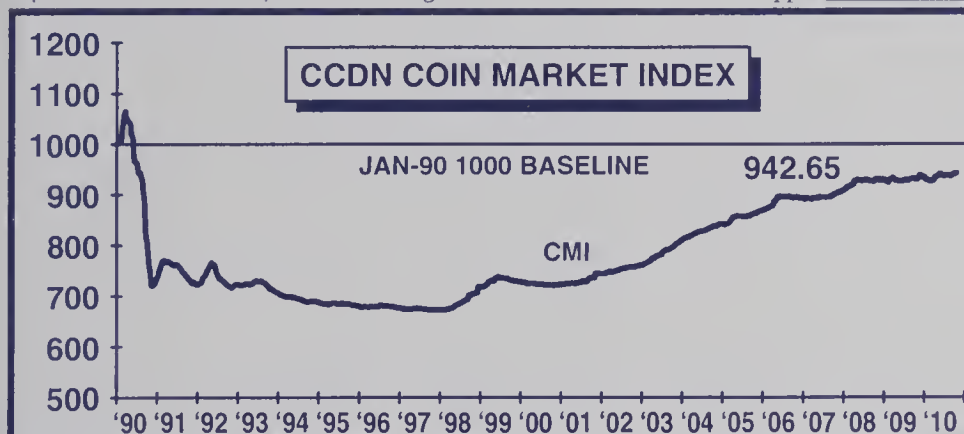

Silver Commems are mixed with a handful of mostly modest Bid increases and decreases, the most buoyant a \$15 jump hitting PCGS Gem examples of the 1935S San Diego. An example of the Hawaiian Sesquicentennial graded NGC MS65 just traded sight-unseen for \$4,000. Gold Commems reveal a well-manicured market segment with nothing of value left on the table as witnessed by the auction results found in the Market columns. The only narrow escapee being a PCGS MS65 \$2½ Sesqui that realized no more than wholesale Bid. Two esoteric and outstandingly cool Type coins receive some long overdue attention. Bid advances to \$3,000 for Reeded Edge Bust Halves slabbed by PCGS as MS64, and No Drapery Half Dollars in MS62 rise to \$4,500 and \$3,250 for PCGS and NGC fare, respectively. 1839 Liberty Seated No Drapery Halves are indecently scarce, PCGS has holdered 27 coins as Mint State and NGC another 18, a combined 9 (6 PCGS and 3 NGC) at the MS62 grade level. Mint State Gold Type

claims a victory with many more issues advancing than retreating. However, \$20 Saint-Gaudens in MS61 through MS65 remain an enigma. Bids were feverishly hit as nervous sellers dumped quantities of generic Double Eagles in response to a lower Spot.

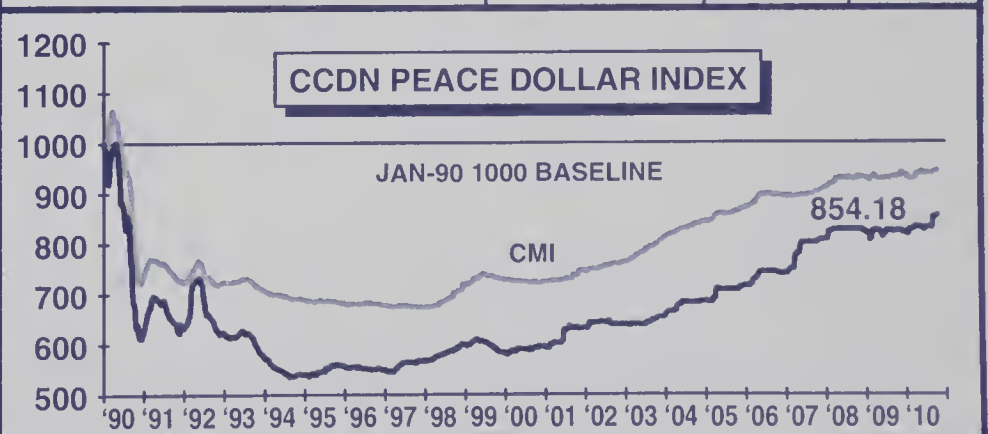

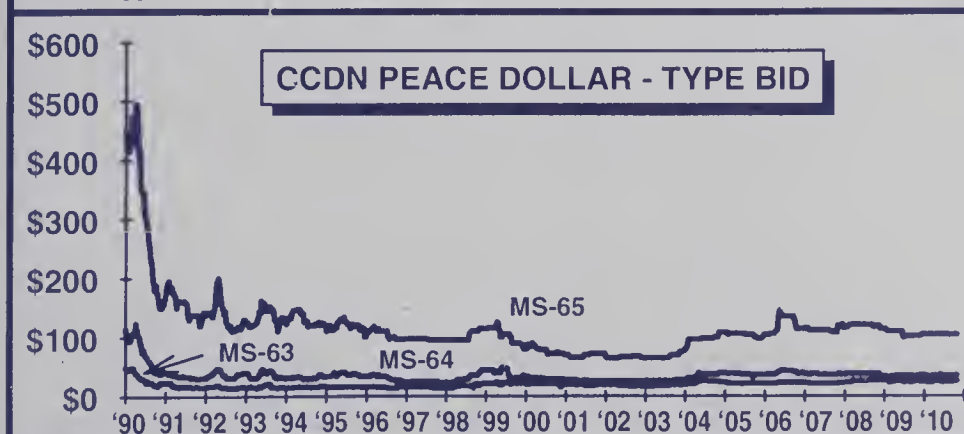

The Buffalo Nickel and Mercury Dime charts offer a wealth of information this week even though Bid changes are completely absent. When the Bid and Market columns are reviewed side-by-side it is easy to compare recent auction results with sight-unseen Bid. PCGS Buffalos graded MS65 offer the most substantive dataset of recent activity while the other grade columns have displayed a lack of sales information for quite some time. Take note: generic MS66 Buffalos are currently available for sale on retail websites for the same or less than the high Bidder is paying, sight-unseen. A significant offering of Mercury Dimes graded MS66FB and MS67FB by PCGS have sold at auction recently though sight-unseen Bid levels were not seriously challenged. Walking Liberty Halves reflect increased activity as Bid pushes upward on nearly a half dozen dates from the latter part of the series. The big dog of the bunch is the 1947D in PCGS MS67 which increases by greater than 14 percent from last week, now at \$2,000. The '47D is a population 8 coin and there are 941 coins at the MS66 level with 9 coins receiving MS66+.

Heritage is set to conduct a public sale Oct 28-30 in Stamford, CT, in conjunction with the Coinfest show. Whitman will host a show in Baltimore, Maryland Nov 4-6. Bowers will perform as the venue's host auctioneer with a sale set for Nov 4-5. Stack's will conduct a pre-show sale in Baltimore Nov 2-3. Some of the many highlights from the Stack's sale are included herein. The Santa Clara Expo will be the next major stop for many dealers Nov 19-21 in Northern California following the east coast events. Teletrade is the official auctioneer of the Expo, and is currently accepting consignments with no seller's fees for CCE dealers who consign by Nov 8.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers. are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert, CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more
confidence
in the value
of a coin,
look for the CAC
green sticker.

Security Made Simple

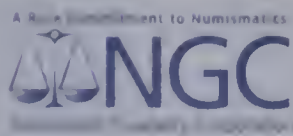

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

To learn more, visit www.NGCcoin.com/security

**Now you can verify certification on the go.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963) *newsletter*

Vol. XXV No. 44

October 29, 2010

Single copy price \$4.00

Higher Bids Chase Morgan Dollars Superb Commems Celebrate

Common date Morgan Dollars grading MS64 sparkle for a second time this week as Bid reaches \$47, regardless of the date and without regard to quality. Earlier this week MS64 examples advanced to \$50 for sight-seen fare where quality does matter. Today's market stocks as many as 12 different issues in the MS65 common date aisle where sight-unseen Bid adjusts upward to \$115. Some of the issues in this generic category are considerably scarcer than others. A chart touching on this consideration is presented herein.

Additional issues can be found that possess a ten fold factor of scarcity and are Bid just a few dollars higher. A couple examples include: the 1888 with a PCGS population of 3,070 and Bid of \$120 and the 1896 at \$118 Bid with 3,267 graded MS65 by PCGS. Peace Dollars exhibit ongoing pressure resulting in advances adhering to the 1923-1925, which are now Bid \$36 in MS64. Gracing the 1923 in MS65 with a \$105 Bid places the Philadelphia struck coins from 1922-1925 on an equal footing.

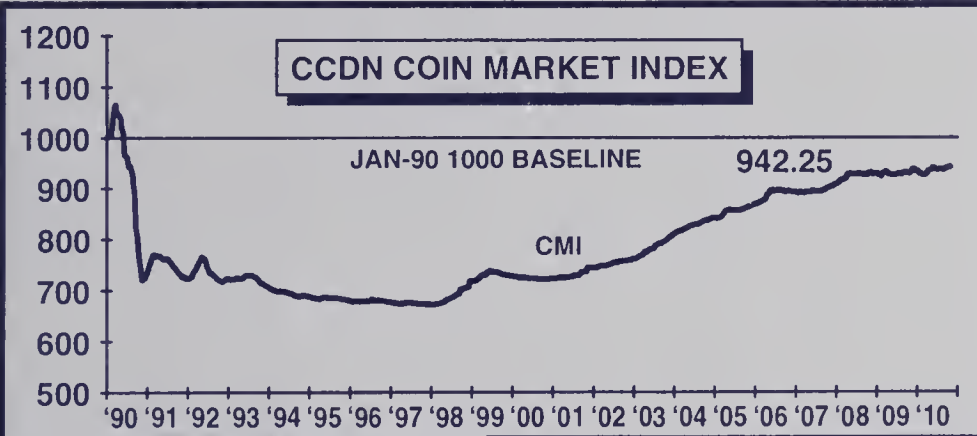

Superb Gem Silver Commemoratives certified by PCGS take a quantum leap forward. In the case of the 1924 Huguenot-Walloon, Bid is perched at \$2,200. December 1999 is when Bid unraveled for this particular issue. At that time published Bid stood at \$3,550 and promptly declined to \$3,020 to finish the year. A public sale three months later necessitated a precipitous drop to \$2,000 followed by immediate support placing Bid up to \$2,400. It remained in that neighborhood until another sale took it down to \$2,000 in May 2007. Trending decidedly downward, the issue reached its bottom at \$1,100 in June 2009. In March of this year an example sold at retail auction for \$2,070, \$130 less than the new, posted sight-unseen Bid of \$2,200. A Monster \$10,000 increase finds the Hawaiian Sesquicentennial now at \$25,000. The Columbian Expo of 1893, the 1922 Grant and the '36 Albany are good for a greater than 20 percent gain in MS67. Bay Bridge, Cleveland,

MS65 Morgan	PCGS Pop
1881S	44,973
1880S	30,817
1879S	21,747
1885O	16,388
1882S	15,970
1887	13,946
1886	13,713
1884O	12,125
1898O	10,410
1904O	9,730
1885	7,651
1883O	6,570

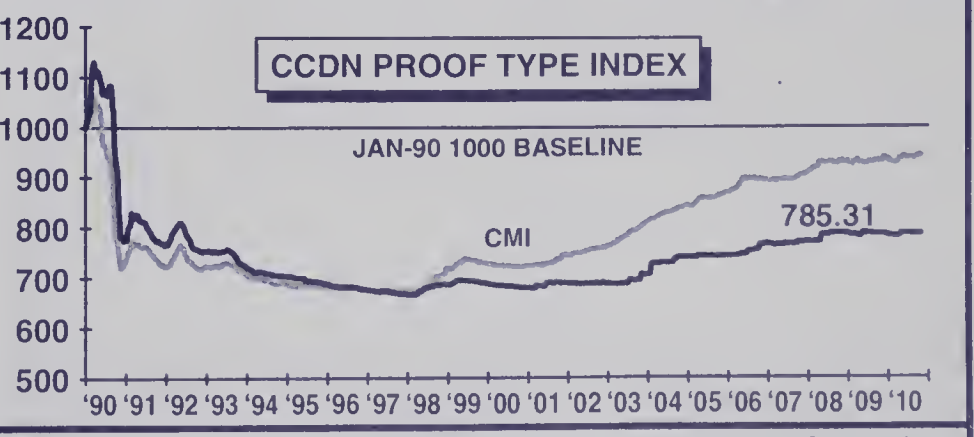

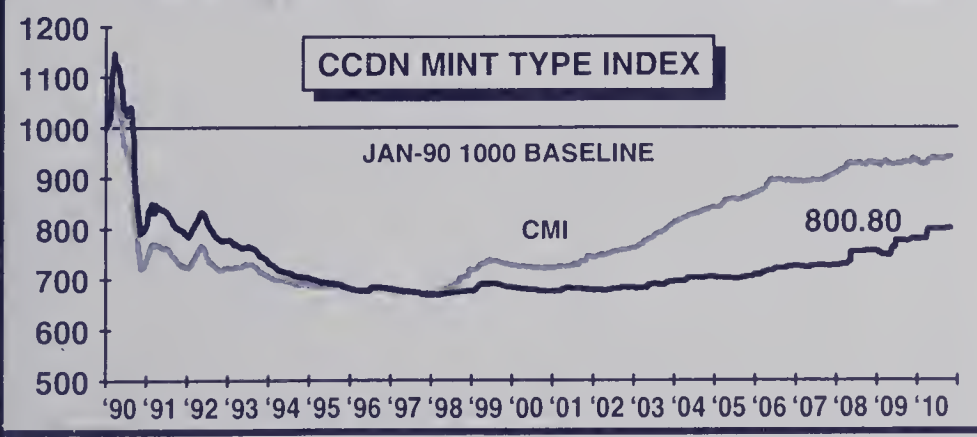

and Connecticut all get in on the higher Bid action as well. Gold Commems have quieted down of late, consolidating gains made in the earlier part of the year. Recent transactions reveal one sale taking place at just three percent over Bid, though more typically sales are occurring at 10 to 40 percent above sight-unseen levels. Mint State Gold Type suffers 27 declines, all of which are in line with Spot's recent volatility. One lonely advancer, Type I Gold Dollars (1849-1854) certified by NGC as MS65, bump up to \$4,000. At press time Gold had recovered some of its recent losses, crossing the \$1,340 marker after hitting a near term low of \$1,322 on October 27.

Proof Type: Copper, Nickel and Silver along with Proof Gold Type will be vigorously challenged next week in Baltimore when the Bowers sale and the Stack's sale both get underway. Featured prominently within the Bowers offerings is the Zürich collection of Proof Double Eagles starting with an 1878 PR64 Cameo in an NGC holder. Stack's brings an above average representation as well, including an 1888 \$20 Liberty graded PCGS PR64 Cameo and displaying the CAC approval sticker on the holder. Demand for Walking Liberty Half Dollars remains solid. A couple transactions prompted a review of Bid levels, but in the end there are no adjustments necessary. Recent wholesale offerings from the Mercury Dimes segment include a 1924S in PCGS MS65FB plastic that is available for \$12,750. Within the Buffalo Nickel segment, a 1917S graded NGC MS67 is being shopped around at \$52,500 and a 1918S graded MS65 by NGC is available for \$9,850. Dealers are now paying \$40 for any of the 280 PCGS PR67 holdered Roosevelt Dimes dated 1950.

At the Oct. 30 conclusion of the Heritage auction and Coinfest show in Stamford, CT, some folks may head over to New York City for the Doyle sale on Nov. 1 which includes a modest number of US coins and banknotes. Next week the coin show faithful will mosey on to Baltimore, Maryland where Whitman will host a show Nov. 4-6. Following Baltimore, a cross-country journey takes dealers to Santa Clara, CA where the Expo is set for Nov. 19-21 with an online host auction by Teletrade.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In the cases a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN Bid* may be more indicative of current market value.

[illegible]

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXV No. 45

November 5, 2010

Single copy price \$4.00

\$1,390 Gold — \$26 Silver

Sight-Unseen Market Healthy

Most of the larger dealers are currently in Baltimore attending the Whitman Expo and participating in the Bowers & Merena auction Nov 4-5. Stack's has concluded their Nov 2 public sale of some 3,300 lots and realized nearly \$4.6 million. Many dealers will routinely adjust and/or remove their sight-unseen Bids just prior to and during a major show as to not be over extended while away. This is not the case this time around, in fact quite the contrary. A truck load of higher sight-unseen Bids are in place hoping to acquire material. This activity is most noticeable with the Morgan and Peace Dollar segments, with 145 advances recorded in all. These higher sight-unseen Bids have translated into over \$200K in transactions for generic Dollars thru CCE's Big Generic Market platform in under five weeks. This is 5% of the \$4 million worth that has traded since the inception of the new trading rules exactly three years ago. Market participants realize this represents only a small fraction of the actual number of sight-unseen trades as dealers will often consummate their deals over the phone. Much of this increased activity can be directly correlated with the rise in Silver Spot which crashed right through the \$25 barrier and is now at \$26.23 per ounce. Common date Morgans, 1878-1904, scoot up in MS61, MS62, and MS64 now Bid a minimum of \$28, \$30 and \$48. 1921 Morgan Dollars were struck in ridiculously large quantities and just about everyone has seen one stashed away in a coffee tin. Notwithstanding, a Mint State U.S. Silver Dollar is a "rare coin" to the newbie. Hard to imagine a seller letting these go at the former Bids of \$18, \$19, and \$21, for MS61 MS62, and MS63 certified coins. Bid is now \$21, \$22, and \$24, preserving the aforementioned chronology. Common date 1922 to 1925 Philadelphia issued Peace Dollars also do the Spot waltz, twirling the night higher in MS61, MS62, and MS63.

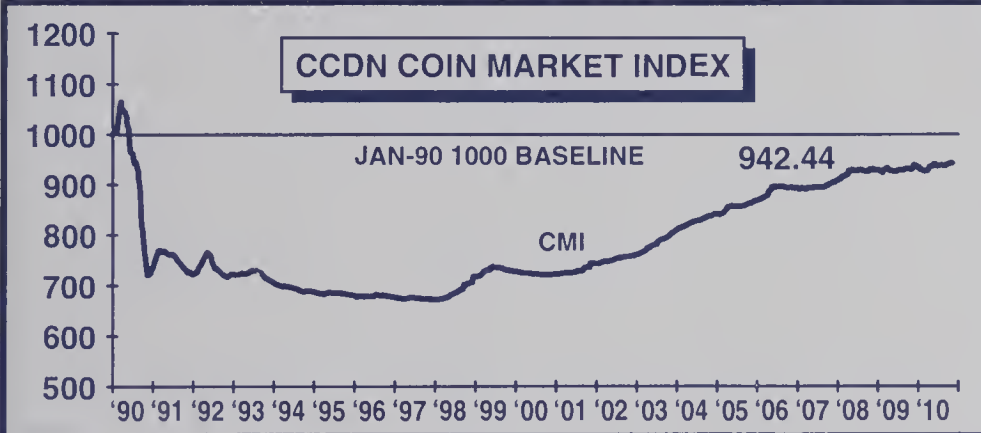

PCGS and NGC record a trifle of trivial adjustments in the area of Silver Commemoratives. The once-a-month ANACS-ICG report discloses an active market with significant Bid increases adhering to many issues. 1926S Oregon Trail Memorials lead the way with at least one dealer offering \$100 for Choice examples. Close behind is the '26 Oregon graded MS64 by ANACS, also Bid at \$100. ICG's headliner, yup a 1937D Oregon in MS63 hiking uphill now at \$145.

Gold Commems suffer a couple declines, namely the 1915S Pan-Pac and the 1903 Louisiana-Jefferson Gold Dollars, both at the Superb Gem level. In July 2002, a Pan-Pac Gold \$1 wielded a supporting Bid at \$10,750; it then dropped to \$9,750 as the result of a sight-unseen trade in June 2004. Continuing on a downward spiral it presently marks a low of \$4,800.

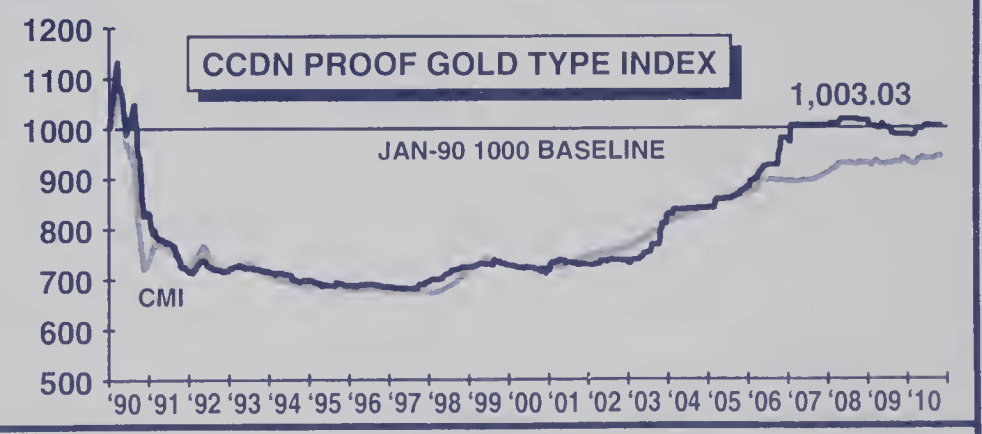

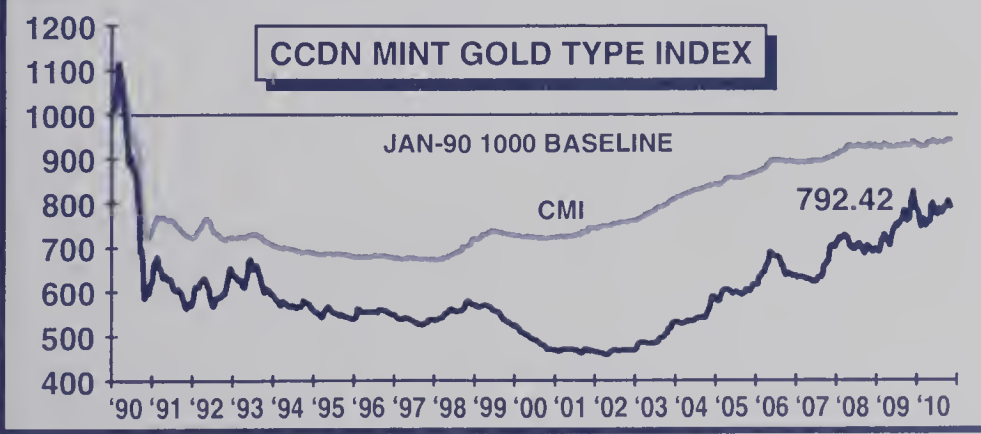

Mint State Type, the bread-and-butter of the collector market, has survived the 2-year recession remarkably well. Mint State Gold doesn't fail to entertain as this segment is chock full of activity. With Gold Spot now trading over \$1,390 per ounce one might expect larger Bid jumps and more widespread increases than what is currently taking place. On the numismatic front, marquee coins such as the 1907 \$20 High Relief in NGC MS66 move higher to \$59,000.

Proof Type musters a couple tweaks to Bid in response to recent sales. Like Mint State Type, it's all good; literally millions of dollars worth trade hands nearly month after month with only the occasional decline to sight-unseen Bid. Sliding over to Goldtown, recent sales include two \$2½ Libs, a PR61 and a PR62, a PR67 \$2½ Indian, a \$5 Liberty grading PR65, and a PR67 \$5 Indian – all encapsulated by NGC. PCGS participants include a \$3 Indian and \$5 Lib graded PR62; a \$2½ and \$5 Lib graded PR64; two \$20 Libs, one PR64 and the other PR65, all did just fine in public sales last week.

Dealers have posted higher buys for early Walkers graded by ANACS. A 60% increase to sight-unseen Bid is looking to flush out an example of the 1921 and 1921D in grades MS63–MS65. Walking Liberty Halves unearth a few "bottom-of-the-barrel" dregs not worth the Bid they were buried under. This week's treasures include four PCGS MS66 issues – the 1935 easily the valedictorian of its sight-unseen class possessing both "ugly" and technically marginal for the grade. Higher sight-unseen Bids are in place for 1916D issues graded MS64 thru MS65 by ANACS. Buffalo Nickels bluster their way lower for a '38D/S in NGC MS67 and a 1916D NGC MS64. Population numbers for the '38D/S discloses 104 Superb Gems at NGC; the mintmark oddity is discernible at 4x magnification and many collectors look to this variety as a starter coin.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

Cartwheels Keep Rollin' Along

Generic Gold Follows Spot

Morgan Dollars continue to enjoy a sparkling, lustrous fall season. Common date Dollars with a grade of MS64 now have a higher sight-unseen Bid of \$53, up \$5 from last week, which is over 10%. A similar situation is occurring in MS63 where Bid is now at \$37. Generic Gems are also higher, now at \$117, a level not seen in just over two years. At that time, Silver Spot was a mere \$9 an ounce, down from its 28-year peak of \$20.69 set in March of 2008, when MS65 Morgans were selling for \$141. This week, Silver Spot briefly traded for over \$29 an ounce, a level not seen since 1980. Common date Peace Dollars are also enjoying higher Bids in grades MS61-63, now \$21, \$22, and \$28, respectively. To some, opportunity may be knocking as these numbers are near melt, and therefore represent very little downside. A number of better date Morgans are also on a trek upward this week, including the 1888S in Gem, now Bid at \$2,000, up \$200 from last week. With a combined PCGS and NGC pop of 349, these are somewhat available. In fact, over 13 have sold at retail auctions so far this year for prices as high as \$3,220.

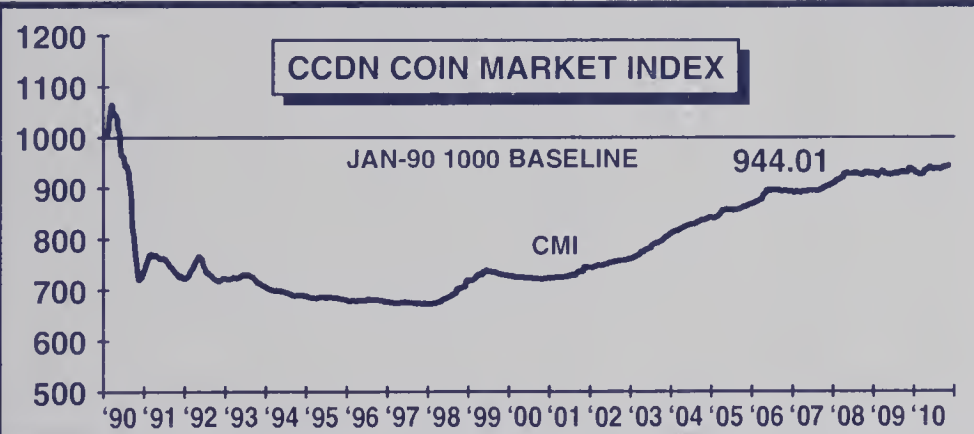

Silver Commems are relatively stable, with only one decline, this being the 1893 Isabella Quarter in PCGS MS65, which is now Bid \$1,570 in response to a lower wholesale asking price. PCGS examples of the 1935S San Diego are higher in grades MS65 and MS66, now at \$110 and \$125. A few better issues sold through the dealer-to-dealer trading network, including a PCGS MS64 Grant with Star for \$2,750 and a Hawaiian in like grade for \$2,400. Gold Commems remain solid with only a couple Gem examples dropping slightly.

Mint State Silver Type remains strong, especially in higher grades with visible Bidders ready to buy sight-unseen for nearly all issues. A few examples lacking active buyers in MS66-67 include the following: Type I Standing Liberty Quarters, Flowing Hair Half Dollars, and Seated Half Dimes 1837-1840. Mint State Gold Type has finally responded to Gold Spot's ever-increasing levels. Spot is trading comfortably above the \$1,400 an ounce benchmark, and everything under the golden sun is on an uphill trek. Some observers predicted generic Double Eagles would suffer the inglorious fate of hitting the melting pot as many of the Gold Bugs were clearly ignoring old numismatic Gold in favor of shiny, new bullion. The reasoning behind these grim predictions stems from old-school business logic: a

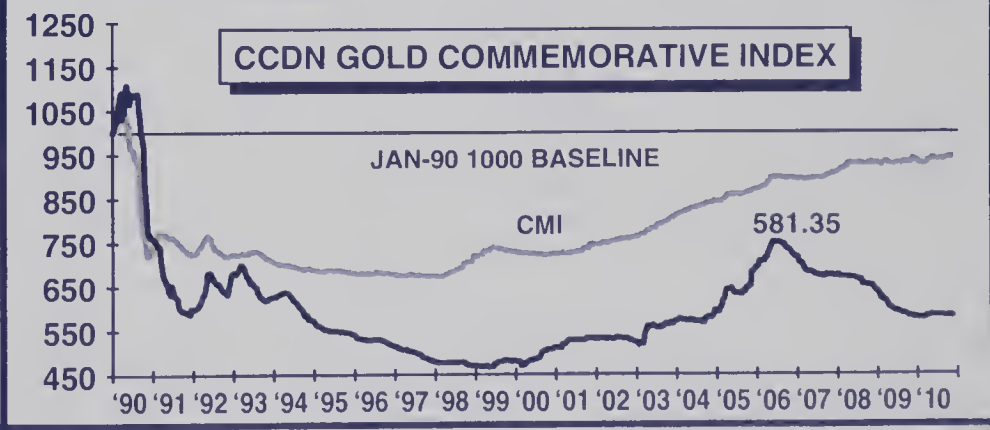

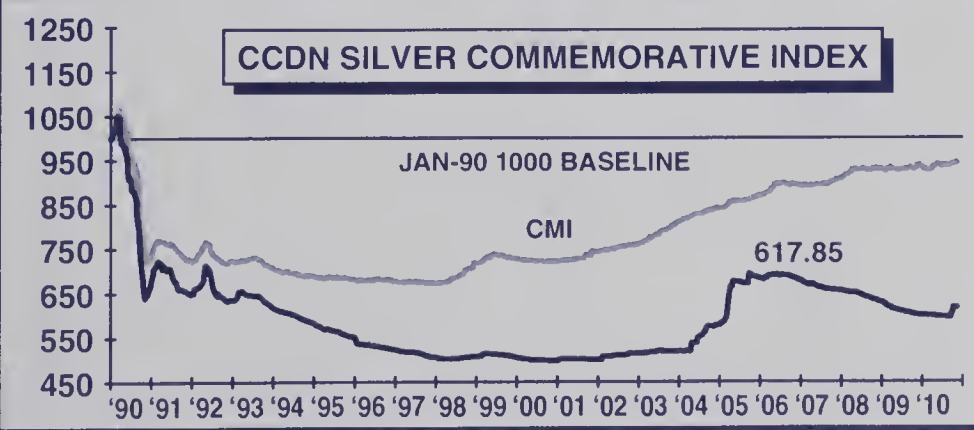

smaller but sure profit today is better than a less certain, though potentially greater profit, later on. Though such a scenario is still possible, it appears unlikely as premiums have increased rather significantly this week. In fact, Gold Type is leading the sight-unseen market with increases as high as 10% above previous levels for issues such as MS64 \$20 Saint-Gaudens.

Proof Type avoids any revisions this week, but there was a challenge to a few Types, namely Barber Dimes in PR64, Liberty Seated Dimes with Legend in PR66 and Shield Nickels in PR65. Examples of these in NGC slabs are available for purchase at just \$20-\$50 over sight-unseen Bid, offering liquidity with very little loss, if any. Proof Gold Type holds its own. High quality coins from this segment blow away sight-unseen Bid when offered sight-seen at public auction. Lower quality pieces tend to go unsold at auction, and are rarely offered on the open market where the sale price may be observed. A solid week for Walkers, with over a dozen increases seen in grades MS63-67. Generic Walkers have active buyers needing quantities at current published levels in all Mint State grades across-the-board. At least one dealer is willing to pay \$2,250 sight-unseen for a Superb Gem example of the 1937D in PCGS plastic, a population 37 coin. Amongst the once-a-month briefing on Better Dates, MS61 examples of the 1955/55 Doubled Die Lincoln Cent have buyers at a new, higher sight-unseen Bid of \$1,200. 1911D \$2½ Indians preserve Bid support from MS61 through MS64 and additionally in MS66 on the NGC side. Prooflike Morgan Dollars are virtually status quo, with only the 1882S dropping slightly in MS65PL. Early Gold Type is super strong, with sight-unseen buyers available for the majority of issues beginning with AU58. Sight-unseen Bids are virtually non-existent for Matte Proof Lincolns, and trade sight-seen almost exclusively for much higher levels.

Many dealers are currently in Boston, attending the Bay State Show, November 11-14. Next, Collectors Universe hosts the November 19-21 Santa Clara Expo where Teletrade will offer onsite lot viewing of the coins in their November 21 online sale. Running from December 2-4 is the Southwest Money Show in Houston. Then, the PCGS Members Only show in Vegas will take place December 15-18 at the Venetian.

PCGSProfessional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGCNumismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike Dollars. Bids for P.L. s are usually much lower than for DMPL s, but command some premium over non-P.L. strikes.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXV No. 47

November 19, 2010

Single copy price \$4.00

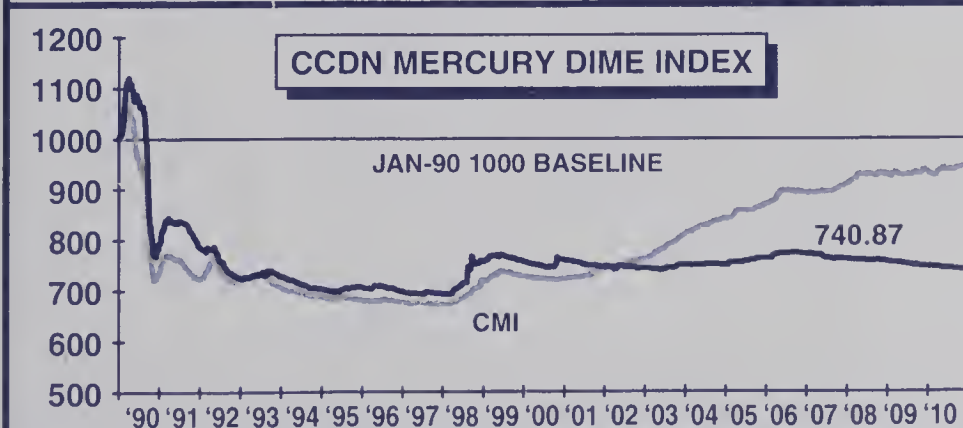

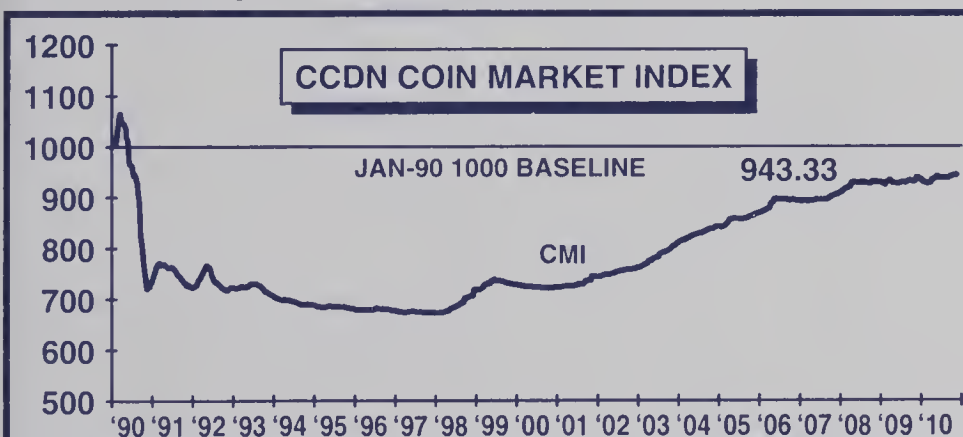

Generics Bullish Broader Market Mixed

Many dealers are currently in Northern California attending the Santa Clara Expo, running through November 21. Teletrade is holding their online auction in conjunction with the show, their largest auction ever encompassing 5,200 lots. This sale includes free shipping, and Teletrade is hoping this will boost sales. While many will take a respite for Thanksgiving, those who can't get enough will attend the Michigan State Numismatic Society's coin show November 26-28, in Dearborn. Things rev back up with the December 2-4 Southwest Money Show and PNG Day in Houston. Next is the PCGS Members Only show in Vegas set for December 15-18 at the Venetian.

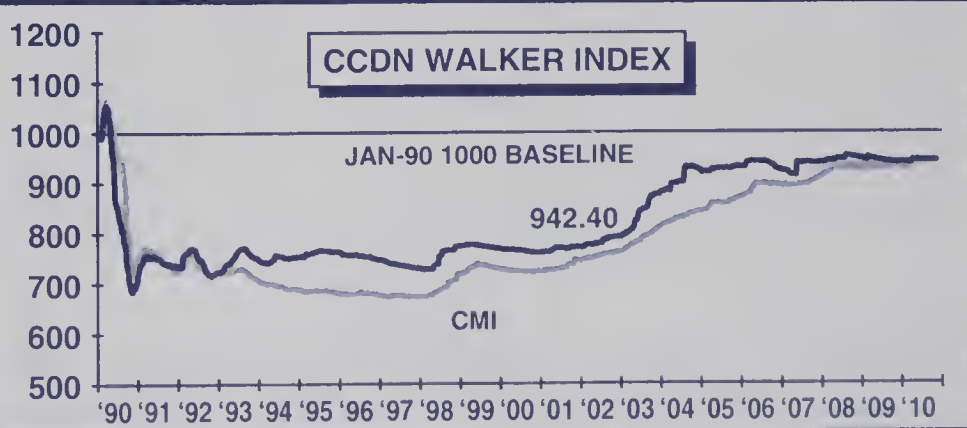

Generic Morgan Dollars certified as MS65 by PCGS and NGC are presently trading in a bull market climate. Sight-unseen Bid rises to \$118 this week, and dealers are looking to acquire quantities from each service at the new, higher level. On the Ask side, common date Gem Morgans are offered at \$125, and the quantities available are somewhat limited. Plus (+) graded coins are making their way into the numismatic market pipeline, though certainly not yet supplying that steady state volume characterized by CAC approved coins. The number of + graded coins, especially common dates, will continue to increase rapidly because any coin sent in for grading is being awarded the + designation, if warranted, for no extra charge by PCGS and NGC. CAC, of course, charges \$15 per submission which for many coins like generic Dollars wouldn't make financial sense to submit for a Green Bean. Retail auction price realizations for all three products - NGC+, PCGS+, and CAC are observably impressive for select material. One specific area where this is seen is within Carson City Morgan Dollars. Results range from well above wholesale Bid (which they should) to, in some instances, staggering. From CAC's inception, then reintensified with PCGS' and NGC's announcement of plus grading, market observers were wondering whether or not the + grading would decrease the value of low end coins. Many say the jury is still out, while others believe there is now a clear separation in demand between quality material as opposed to that which is low end for the grade.

Recent auction results suggest some select weakness in a number of the segments published here. Amongst the Morgan Dollars, around 50 slabs sold for less than sight-unseen Bid, but only 12 downward revisions were made. Some 39 retail transactions took place at levels below Bid, even though there is at least one dealer ready, willing, and obligated to pay more. A few of these examples leaving money on the table in Baltimore include the following: an 1894 PCGS MS63 which sold for \$2,760 against a sight-unseen Bid of \$3,800; an 1888S PCGS MS64 which sold for \$483 against a sight-unseen Bid of \$690, and an 1880CC NGC MS65 which sold for \$720 against a sight-unseen Bid of \$930. A 1925S Peace Dollar graded PCGS MS64 sold for \$380 while one buyer wants to write a check for \$530 without even needing to see the coin. This phenomenon threads its way throughout most of the market segments this week - Mint State Type, Proof Type, Commemoratives, and Buffalo Nickels.

Getting back to the generic bull, common Buffalo Nickels graded NGC MS65, are sought at the new higher level of \$33. The four issues now at \$33 are the 1937, 1937D, 1937S, and 1938D. NGC has certified around 24,470 Gems of which 5,928 are the '38D. Populations for the other three dates per the NGC Census are 1,731, 1,228, and 1,436 for the '37, '37D and '37S, respectively. The next most populous date in MS65 is the 1936D, which has a pop of 902 with Bid at \$47 and peculiarly these follow the 1936 with a pop of 849, and Bid is \$36. Mercury Dimes take the PCGS Bid train north, making stops at MS65FB, MS66FB and MS67FB, dropping higher sight-unseen Bids at each station. Quite analogous with the Buffaloes, the dates involve reflect widely differing populations. Standing Liberty Quarters have maintained the vast number of Bid increases recorded last month, and remain relatively unchanged. A couple Silver Commemorative listings join the ranks that are marching higher, namely the 1936D San Diego in PCGS MS65 now at \$110 and the PCGS MS66 now Bid at \$118. Staying focused upon the 20th Century, Franklin Halves boast numerous advances in the lower price range.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

*For more
confidence
in the value
of a coin,
look for the CAC
green sticker.*

MS65 Morgan Dollars Now At \$120 Select Issues In Superb Gem Decline

Generic Gem Morgan Dollars enter the Thanksgiving holiday festivities at a new, plumper Bid level of \$120. Buyers are seeking large quantities of these cartwheels, and at this level, it doesn't matter what they look like. Gem Morgans that are untoned, or virtually white, are receiving sight-unseen Bids of \$124, and if graded with a plus, several high Bidders will pay \$130. Generic Peace Dollars are also higher this week, with the Choice grade column targeted. Several dealers will take quantities of these at \$30 in MS63, \$36 in MS64, and \$105 in MS65. As with all sight-unseen Bids, these buy offers are based on the labeled grade in the plastic, not the look of the coin. Bids for + graded examples of these generics are very similar in MS63 and MS64, although a 43% premium is being offered for PCGS MS65+ specimens. Even with these higher prices being offered, the trading volume of these certified generics is stunningly low, especially considering that Silver Spot is near its 30-year peak. This may be due in part to the brief holiday break. A viewing of the market column within Dollars will reveal over 100 examples that have sold at retail auction for less than sight-unseen Bid, some by as much as 30%. One of the major market-makers here, if not the biggest market-maker, recently said, "Why don't they sell them to me?" when he was told that this material routinely sells at public auction for less than his sight-unseen Bids.

A couple Classic Silver Commems ride the first tide of holiday cheer. Sitting in the front cabin is the 1918 Lincoln Centennial, which chugs 9% higher to an even \$300 in PCGS MS65. The 1915S Pan-Pac is also up in NGC MS62 and PCGS MS63, now Bid \$375 and \$475, respectively. A Superb Gem NGC PDS Set of the 1938 Oregon Trail Memorial sold at auction for a staggering discount this week, and as a result Bid has dropped over \$700. This "blow out" sale follows a trend the past few weeks where one or two higher-grade items from a few of the market segments have sold in retail auctions with virtually no reserve. Gold Commems are mostly stable if not down right solid at current levels. Only one example had a disastrous performance in an online auction: the 1916 McKinley Memorial, graded MS66 by NGC. It sold for only \$1,100, while a sight-unseen Bid was already in place, and still is, for \$1,400. Consequently, the consigner left \$300 on the table, while the new owner is poised to make a \$300 profit immediately.

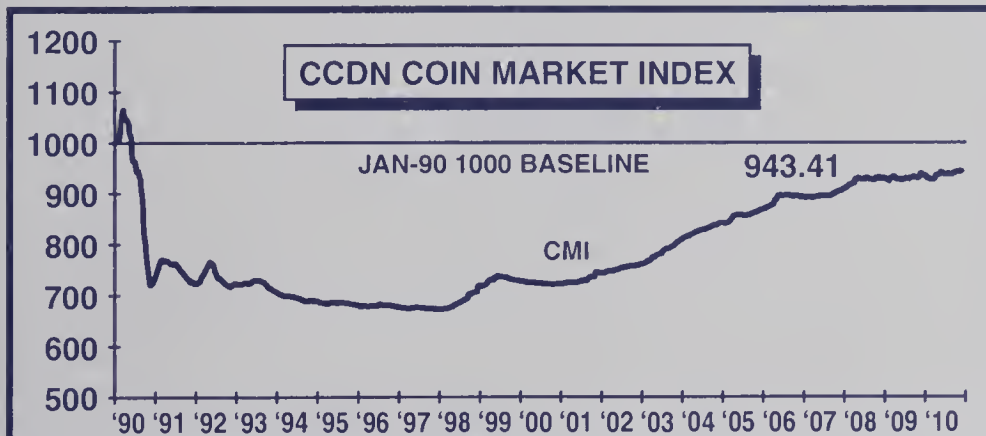

Mint State Type remains relatively quiet week after week, with very few, if any, positive movements by way of increased Bids. The same story exists within Proof Type where declines usually dominate the action, if any. Mint State Gold Type is mixed with ups and downs, even with Spot up \$25 from last week. Generic Double Eagles are once again moving with Gold Spot in grades MS61-MS64. Trading volume here, similar to Common Morgan and Peace Dollars, is very subdued. An 1854 Type 1 Gold Dollar certified by NGC as MS61 sold at auction for \$285, while live buyers were and are on the wire for that piece at \$440. For an instant profit, the current owner could just send the slab; no questions asked.

There is very little to report within the Buffalo Nickel segment other than the 1913 TH in NGC MS67, with CAC sticker, that sold for a huge discount. This Buffalo got away from the herd for \$2,875. Currently, the high sight-unseen buyer will pay \$4,200 for this same coin in a PCGS slab, Green Bean not necessary. Mercury Dimes continue the theme this week with no upward activity to report. A PCGS MS64FB example of the key date 1919D sold for \$2,545 last week. Interestingly, the last time a PCGS example with the same grade was out at auction, it brought \$3,738, just five months ago. Some of the coins that are being spilled off are arguably casualties of the recession. For fear of being illiquid at almost any price, only now have these items been allowed to sell for realistic levels for these times. Sight-unseen Bids have been adjusted upward for MS64 Denver Mint Walking Liberty Half Dollars issued from 1941 through 1943.

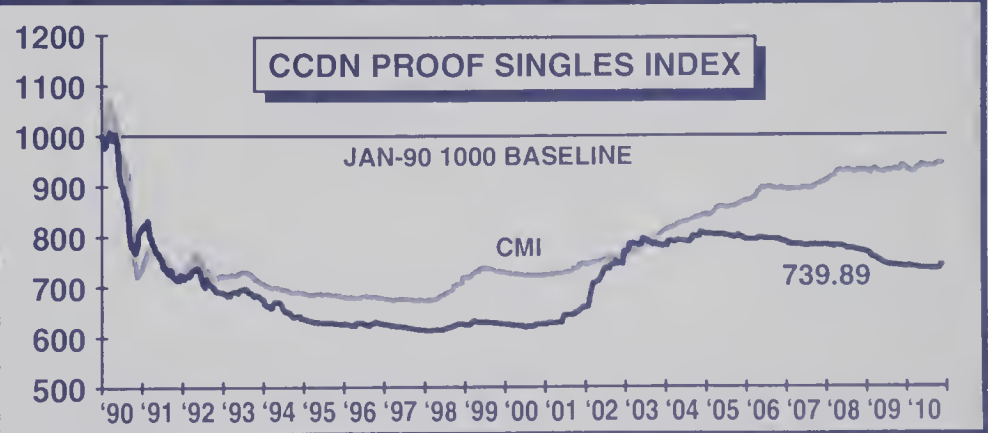

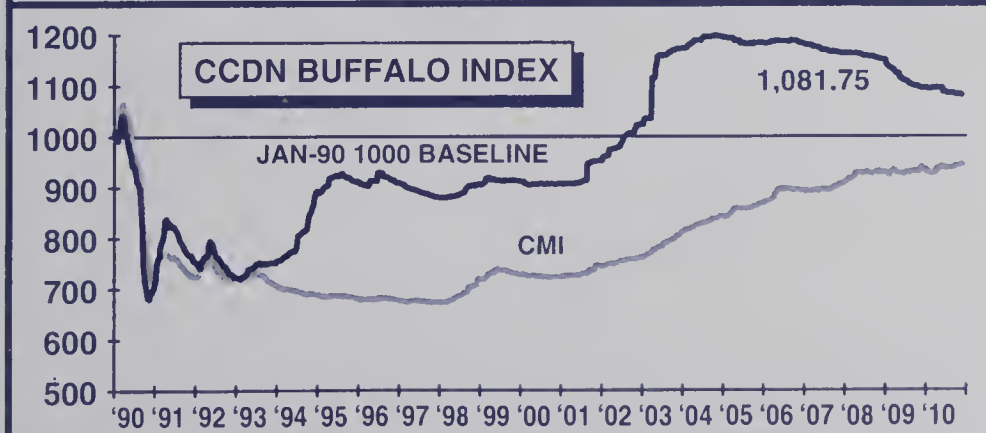

Michigan State Numismatic Society will hold a coin show November 26-28, in Dearborn. December 2-4 is slated for the Southwest Money Show and PNG Day in Houston, with an auction by Heritage December 2, 3 and 5; see preview of their many offerings herein. Bowers & Merena will hold their Collections & Accumulations Auction, December 14. This sale is being billed as a "collector's paradise" including a huge array of material, much of which is significantly more affordable than what is featured in the typical rare coin auction. Sin City is the locale for the PCGS Members Only show, December 15-18 at the Venetian.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers — are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (*week old*); "m" - Lowest asking price during the previous three weeks (*month old*); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCCs DMPL and NUC DPL Bids are for fully Deep Mirror Proolike cans. Bids for PCCs PL and NUC PL Bids are to be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror proolike specimens.

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Get your sets ready!

THE 2010 NGC REGISTRY AWARDS

Awards presented for:
BEST COMPETITIVE SETS
BEST CUSTOM SETS
BEST COLLECTORS JOURNALS

*Deadline for
set registration & journal entries:*
FRIDAY, DECEMBER 3, 2010

Winners announced:
FRIDAY, JANUARY 7, 2011

We're looking for the top sets in the world — and as the largest and most inclusive registry in the hobby, NGC will see thousands of world-class sets. Make sure yours are among them!

Take the honors in one of these categories and you'll receive a personalized plaque, an icon of recognition next to your set's Registry listing and up to five Deluxe PHOTO PROOF® presentations of NGC coins from your winning set. Sets must be at least 50 percent complete to be eligible.

To join the Registry or for more information about the awards, please visit www.NGCcoin.com/Registry

Need to MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And **current** is a promise taken seriously — the database is updated **daily**. All for only \$325 — well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than \$950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only \$25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____ signature

☐ My check for \$325 payable to CDN, is enclosed.

☐ Only send these states _____ and charge me 7¢ per label, and a one-time \$25 break-out fee.
separate states by comma

☐ Bulk Rate

☐ First Class

(Please provide City, State and Zip of mailing site for bag tag preparation)

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

"Because Confidence is Priceless"

Generic Morgans Continue North Shot In Arm For Mercury Dimes

Generic Morgan Dollars maintain the blistering pace of advances, which has characterized this group for many weeks now. This activity can be attributed to the recent rise in Silver Spot, which has gone from \$20 in mid September, to \$29 per ounce today, a 45% increase in 11 weeks. During the same period, generic Dollars haven't performed quite as well, as seen in the chart below. Even though these Dollars are increasing, and are well above their historic lows, they are nowhere near their peaks. Generic PCGS and NGC MS65 Morgans were trading sight-unseen for \$535 in May 1989, and as low as \$60 in February 2002; they are Bid \$120 today. ANACS and ICG Morgans are mixed with a couple Carson City issues moving up among others in grades MS63-MS64. Select Peace Dollars graded by ANACS and ICG are also moving higher including the 1927D, 1927S, 1934D, and 1935S in grades MS63 and higher. Sight-unseen Bids for examples of the 1922 Peace Dollar graded MS64 by PCGS or NGC are now Bid \$37 placing them ahead of their 1923-1925 Philly peers, yet they all remain available at \$40 Ask. GSA Morgan Dollars with clean boxes and certificates are trading at current Bid levels while those certified with an NGC wraparound grade band suffer one minor adjustment as the '82CC graded MS64 falters to \$390.

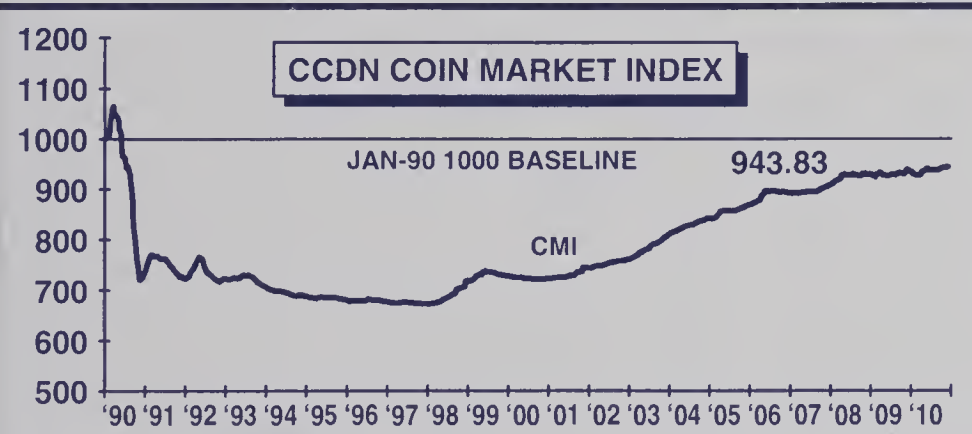

Silver and Gold Commemoratives are relatively status quo, with the only significant change found within Classic Gold Commems for Lewis and Clark Gold Dollars graded MS63 by PCGS, moving up 7% to \$1,300 Bid. A handful of advances touch the ANACS/ICG listings — all involving the 1934 Texas and Texas Type. Activity related to the Mint State Type market was mild-mannered this past week in the absence of any major auction prices realized that require analysis. Mint State Gold Type as might be expected involves a host of Bid revisions, the vast majority are upward. \$20 Saints and Libs are good for increased Bids from MS61 through MS64; perhaps a surprise is that the Bid for Gem \$20 Saints suffered a decline to \$2,050. This on the heels of Gold Spot once again

trading intraday near the \$1,400 per ounce level before closing at \$1,389. Proof Type and Proof Gold Type hold steady for the most part. Both segments enjoy a solid core of support provided by numerous buyers. Bid levels in both segments are operative usually in the unfortunate situation of another dealer having to liquidate on a moment's notice.

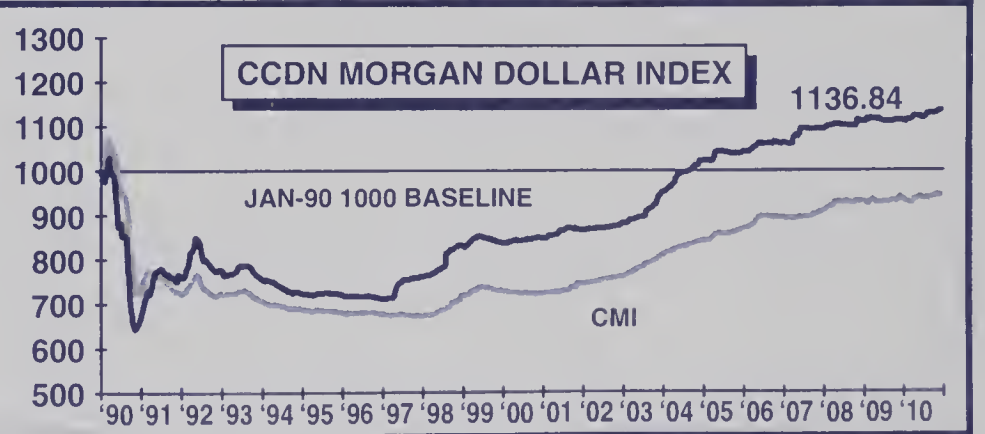

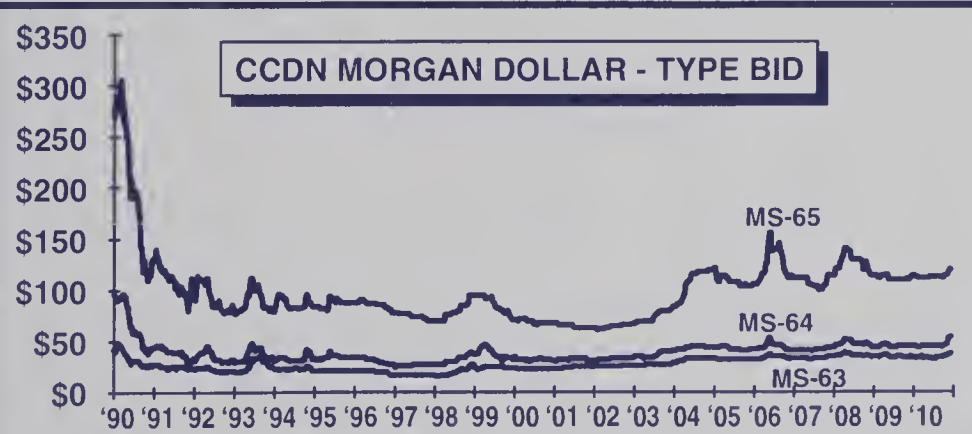

The American Eagle Palladium Coin Act of 2010 will become law soon, as it passed in both the House and Senate. The Winged Liberty design from the Mercury Dime series will be employed on the obverse of this .9995 one ounce Palladium bullion coin with a \$25 face value. The reverse will bear a high-relief version similar to the reverse found on the 1907 American Institute of Architects medal. Palladium Spot has been reacting accordingly and is up 10% in just three days, now resting at \$764 per ounce. This may account for the sudden surge in demand for Mercs, as dealers look to pick some up quickly before word spreads. Indeed, the sight-unseen story of the week is the Mercury Dime segment. More than 70 upwardly revised Bids targeting coins certified by NGC and a further 20 from PCGS, offers hope that this series can return to its status as an enthusiastically collected series. Roughly half of the higher sight-unseen Bids are for Mercs with fully split bands that grade MS67. Philadelphia minted issues lead the charge starting with examples of the 1917 slabbed MS65FB by NGC, which are now Bid \$200, a whopping 74% increase from our last report. The last two examples of this pop 94 coin sold at retail auction late last year for \$299 and \$240. Philadelphia issues graded MS67FB by NGC from 1917 thru 1920 also move higher, now \$1,500, \$3,000, \$2,000 and \$1,000 respectively.

Bonhams is set to conduct an auction on December 8 in New York. Dealers will then turn their attention to Bowers & Merena who are set to hold the Collections & Accumulations Auction on December 14. This sale is billed as a "collector's paradise." Next, PCGS will host a members only affair at the Venetian hotel-casino in Las Vegas December 16-18.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

"Because Confidence is Priceless"

Vol. XXV No. 50

December 10, 2010

Single copy price \$4.00

Cartwheels Vault Ever Higher

CAC On CCE

Another round of significant increases target generic Morgan and Peace Dollars. Bid levels for this bellwether of the sight-unseen market have skyrocketed over 10% this week after several months of continuous incremental advances. Multiple dealers need large quantities of these cartwheels in grades MS63-MS67 for Morgans and MS61-MS65 for Peace Dollars. This segment of the market has caught fire with multiple transactions first taking place at the wholesale Ask price prior to the new, higher sight-unseen Bids being placed. This action is thanks to a higher Silver Spot which traded intraday this week for over \$30 an ounce—a thirty year high.

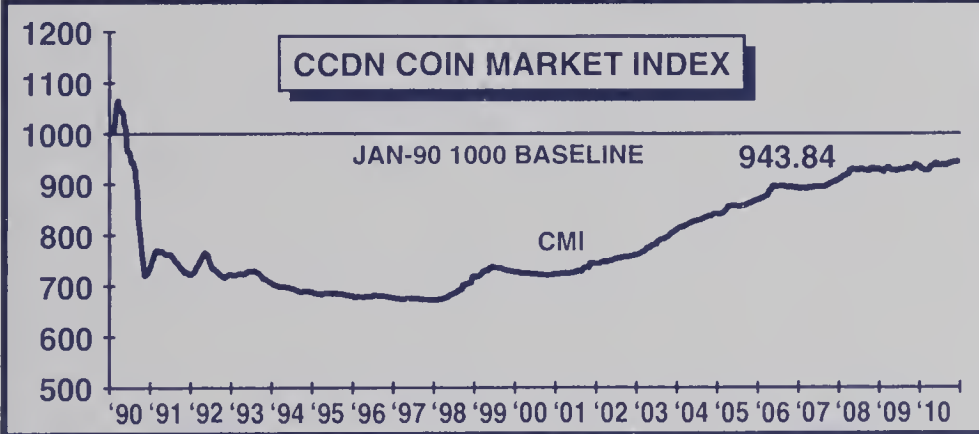

Some slight downside activity does find its way into the Dollar charts lightly sprinkled in the form of minus signs for slightly better dates, including San Francisco issues certified MS65 by PCGS, such as the 1886S, 1887S, 1888S, and 1898S. Given the more than \$625K realized by Morgan Dollars at a recent Heritage sale, there is nothing to suggest widespread weakness. Prooflike Morgans undergo a few downward revisions, though the majority of activity in this segment is the increase to Bid at the MS63PL tier, which is now \$52. Fifteen downward adjustments characterize the sight-unseen Silver Commemorative segment. Reflecting upon the large number of coins offered at auction recently – a good many realizing wholesale sight-seen Bid levels and above – perhaps confirms that the widening gap between sight-unseen and sight-seen Bids has still further to develop. Gold Commems are relatively status quo with only two declines to report. A notable increase is seen with the 1905 Lewis & Clark Gold Dollar, which muscles over the great continental divide as Choice PCGS examples stretch to \$1,500.

Mint State Type lifts off with Flying Eagle Cents taking flight in MS61 and MS62 before settling at cruising altitudes of \$240 and \$260, respectively. These have a combined pop of 163 in MS61 and 1,148 in MS62. Mint State Gold Type lays a claim to a sizable contingent of advancing Bids, nevertheless the scope and magnitude of the issues stepping down the ladder is greater. Of particular note are the two MS63 Type II \$20 Libs that sold for a discount at auction. An 1876 graded by NGC sold for just shy of \$7,200 and a PCGS 1873 Open 3

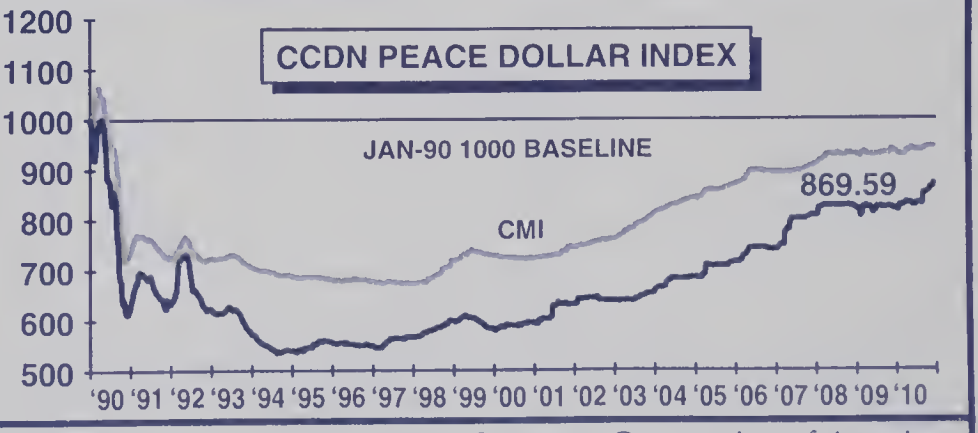

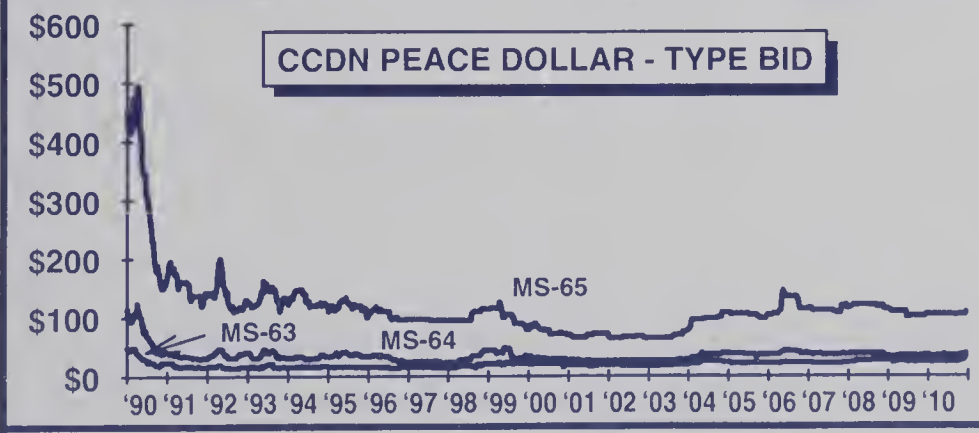

realized \$6,900. Another example of a recent sale of a TII \$20 Lib in NGC MS63 is an 1876S—a more populous coin than the 1876 with a population of 70 compared to the 43 for the 1876—that sold for \$14,950 in August, 2010, driving home the point that one “bottom-of-the-barrel” coin is not indicative of the larger market. Mercury Dimes are quiescent; the only ripple a downward tweak to Bid for the 1928S in PCGS MS64FB.

As the sight-unseen market for PQ material looks to establish itself as a viable way to trade rare coins, the Mercury Dime series presents some interesting possibilities. Issues like the 1918D where Bid in MS66 is \$725 and in MS66FB jumps to \$65,000 and MS67FB Bid at \$110K while MS67 stands at \$2,050. Walkers dated 1947 that qualify for MS67 status by PCGS gain higher ground as they stride to a Bid of \$1,250. Conditional rarities abound in this series; for example, the 1947 is a population 22 coin. Noting a population in MS66 of 892 suggests that on average PCGS makes 40 coins at MS66 for every one made MS67. The present sight-unseen Bids are \$1,250 versus \$200 for MS67 and MS66, respectively. Perhaps even more startling is the final year of issue Denver counterpart, not regarded as a particularly difficult issue when compared to other coins in the series. In MS66, PCGS has holdered 951 coins and 8 coins one notch higher, yielding a MS66/MS67 ratio of 119:1. Sight-unseen Bids reside at \$200 and \$2,250, respectively. Bid for a ‘47D in PCGS MS67 rested at \$1,375 from May 2007 until September 2010 when it began its incremental climb to its present level of \$2,250.

CAC stickered coins are now being traded through the Certified Coin Exchange with all the same securities and rules that apply to both sight-seen and sight-unseen transactions. CCE members can now see live posted Bids and real completed transactions for CAC endorsed slabs. For example, 40 PCGS-CAC MS65 \$20 Saints traded sight-unseen on December 8 for \$2,350 each, while an NGC-CAC MS66 \$10 Indian blindly changed hands for \$10,000 through the exchange. This is all taking place on the heels of the reported upcoming launch of CoinPlex, another dealer-to-dealer electronic trading network of certified coins.

NGCNumismatic Guaranty Corporation of AmericaSarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over \$100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

*For more
confidence
in the value
of a coin,
look for the CAC
green sticker.*

Out of the ashes...

"Wow! NCS was a life-saver for our client. He was afraid he had lost everything and came out with more than \$27,500 in rare coins, bullion and generic gold."

— Danny Lee
CEO, Liquid Bullion

NCS recovers a rare collection from a devastating accident.

In mid-2010, a private collection of rare US coins was nearly destroyed in a house fire. Fortunately, the experts at NCS were able to salvage the coins from the rubble and return them to their previous condition.

Don't let a devastating accident destroy the value of your collection. To learn more about expert conservation services from NCS, visit www.NCScoin.com/Conservation

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Lorena Washington, Coin Dealer Advocate

If You're a Coin Dealer, You Need To.

If you're a coin dealer, your mission is to sell coins. Lorena Washington's mission is to make it easier for you.

Right now, Lorena's job is to make sure that there are no empty tables at the upcoming **Long Beach Expo, February 3-5, 2011**, and show management has given her all the ammunition she needs. And donning her trademark pink vest at all major coin shows – you can't miss her.

Our new Section F ensures that for an absolutely minimal investment, you'll be in the house. It's at the back of the room, but will still be able to enjoy the many benefits of the Long Beach Expo, including the ability to interact with *hundreds* of dealers and *thousands* of collectors. You can even order a table in Section F by the day if you're so inclined, or if you sign a three-year contract, your last table is **FREE!** We are also offering discounted Early-Bird

Dealer Ribbons, a Wednesday Post-setup Beer Fest, and if you place your order directly with Lorena at an upcoming trade show, she will include a nice gift basket free of charge.

Just look at these Section F prices:

Inline booths: \$125 per day, \$250 all three days.

Corner booths: \$175 per day, \$350 all three days.

But hurry, tables in Section F are first come, first served.

To reserve your space or to talk to Lorena about a table in Section F or elsewhere, contact her at **805-962-9938** or **lorena@exposunlimited.com**, or visit **longbeachexpo.com**. Or better yet, talk to her at an upcoming coin show. She'll make you an offer you can't refuse.

Think Pink. . .Think Lorena. . .Think Long Beach!

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

LET CDN DO ALL THE WORK!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than \$900 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

2010 NUMISMATIC DEALER DIRECTORY

YES, I want to order mailing labels averaging 5,000+ names from the 2010 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. _____signature

My check for \$325 payable to CDN, is enclosed.

☐ Bulk Rate ☐ First Class

Exponential Growth Visits Silver Dollar Market Last Issue of 2010, Happy Holidays!

Happy Holidays from the CDN Family of Publications. May you enjoy a wonderful New Year! This is our last publication of 2010; our next issue will be dated January 7, 2011.

Morgan Dollars explore higher territory yet again with advances being recorded for generics in grades MS64 and MS66 this week; the new, higher Bids are now at \$61 and \$222, respectively. As always, there are some naysayers who are quick to point out that these Bids fall short of all-time highs, at a time when Silver is at a three decade peak. From that alone, they conclude that we are not in a particularly healthy market climate for certified coins. First, recall that the MS64 grade was added to *the Greysheet* in 1985, and formally accepted with the inception of third-party certification in 1986. A few months into certification, examples of the most common date Morgan Dollars were Bid sight-unseen at \$220 in MS64. Population numbers were very small, with the novelty of both this new Very Choice grade and the concept of slabbing coins driving at least some of the exuberance. Fast forward to January 1997, when common date MS64s bottomed out at \$26 Bid. NGC provided the community with just shy of 110,000 MS64s at that time, this total reflecting the ten most common dates. By this time, PCGS had graded over twice as many with 244,500. Since the lows of 1997, MS64 Bid levels have reached a new peak at this week's \$61 level. Today's population of generic MS64 Morgans has grown considerably with PCGS grading over 429,000 and NGC over 490,000.

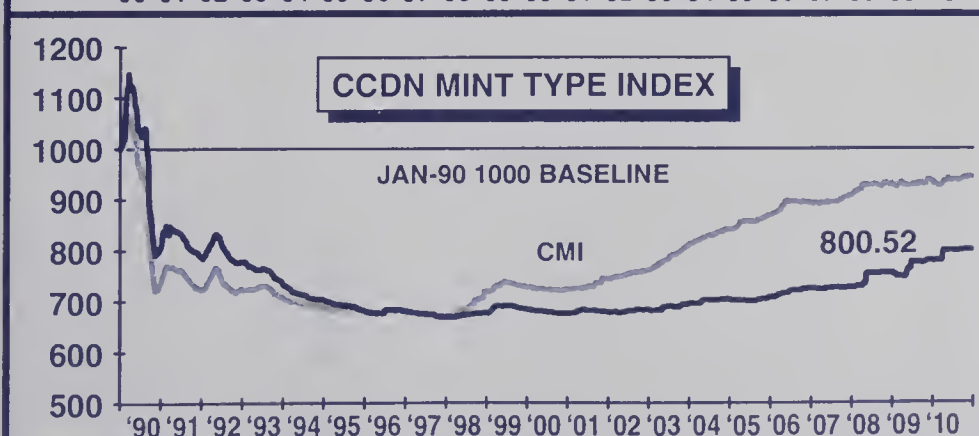

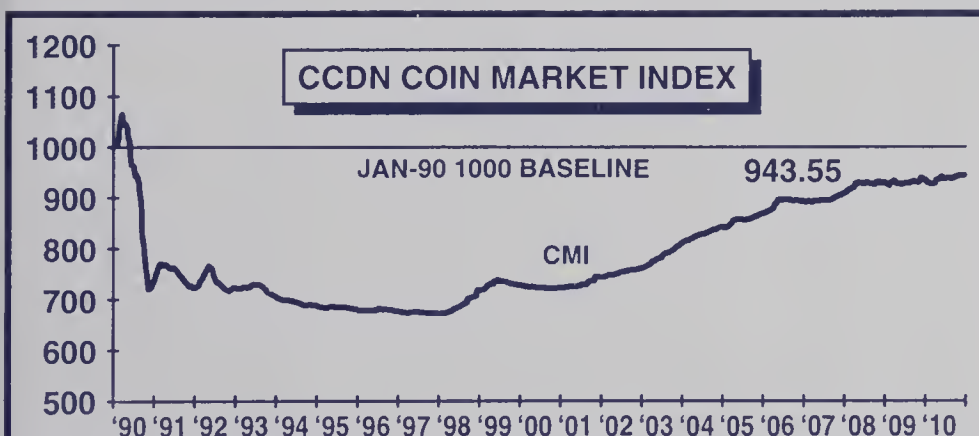

Excitement is brewing for select key and semi-key dates including the PCGS certified examples of the 1893 at the MS66 level experiencing a move that more than doubles Bid. Stepping down the ladder to PCGS MS65, at least one dealer is ready to cut a check for \$100K should one of the three certified 1901 examples find its way to him. PCGS has yet to certify a 1901 above the Gem level. This date is notorious for having a soft, mushy strike, and a paltry three coins have captured the PL or DMPL qualifier at PCGS. The remainder

of better Morgans are moving up as high as 47% in Superb Gem. 1922S Peace Dollars make headway on the PCGS MS66 highway following the road higher to \$8,500 having started the journey a week ago at \$8,000. Silver and Gold Commems are mostly status quo this week. However, activity surrounds both segments by way of completed transactions. For example, a pair of NGC MS66 Hawaiians traded sight-unseen for \$6,000, while a \$2½ 1926 Sesquicentennial graded MS66+ by PCGS exchanged hands for \$11,600.

The only real activity seen for Type coins this week is found within the Mint State Gold segment. All three Types of Gold Dollars are higher in grades up through MS64. Quarter Eagles are higher in MS61-MS62. Generic \$20 Saint-Gaudens are mostly lower across-the-board, even with Gold Spot hovering in record territory, just below the \$1,400 per ounce plateau. Even though Bids are lower, this market segment continues to be actively traded for both common and better dates. For example, a 1927S graded MS63 by PCGS traded for \$45,000, sight-seen, through the exchange. The last time this coin sold at auction was August 2010, when two PCGS examples sold for \$43,125 and \$37,375.

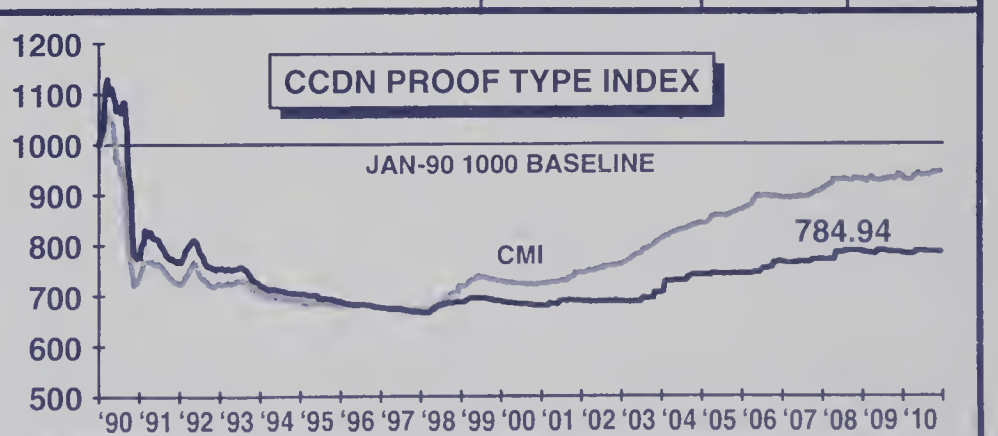

Bonhams' Coins, Medals and Banknotes sale raked in almost \$2.1 million on Wednesday, December 8. Among the 444 lots was an 1889CC Morgan Dollar. Certified as Genuine by PCGS due to artificial toning, this coin nevertheless managed to sell for \$8,775. Other certified notables included an 1896 PR62DCAM Dollar closing with a price of \$3,276. Gold performed well with \$5 Indians shining in PCGS MS64 at each end of the series. One 1908 example brought in over \$3,000 while a 1929 took center stage, selling for \$42,120.

Over one hundred CAC approved coins have traded sight-unseen through CCE in their initial week of being present on the network. During the same period, nearly a dozen of the PCGS/NGC slabs with the + designation were traded through the system. CoinPlex, the only other platform where CAC and + designated coins can be traded dealer-to-dealer, is set to launch January 1.

The Certified Coin Dealer newsletter [the Bluesheet] reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

CAC[®]

"Because Confidence is Priceless"

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

To learn more, visit www.NGCcoin.com/security

**Now you can verify certification on the go.
Visit m.NGCcoin.com from your mobile device.**

It's Like Getting

PAID to ADVERTISE

Here's How It Works!

Place an ad in the 2011 Numismatic Dealer Directory with payment by January 31st and receive a second ad half-size **FREE!**

You may place your **FREE Ad** under a different category in the 2011 Numismatic Dealer Directory or in one of our other publications during 2011.

Do The Math...

Buy a 1/2 Page Ad in the 2011 NDD by Jan. 31st

FREE 1/4 Page ad in the Greysheet

FREE 2011 Numismatic Dealer Directory

FREE Bolding in Both State & Alpha sections

\$500 (1 time charge)

FREE (\$350 value)

FREE (\$25 value)

FREE (\$20 value)

**Your ad will
be seen
all year.**

	NDD	CDN	(Half-Size)
1/8 Page Ad	\$180	\$70	FREE
1/4 Page Ad	\$300	\$140	FREE
1/2 Page Ad	\$500	\$350	FREE
Full Page Ad	\$800	\$700	FREE

Total Value **\$895**

You Pay Only \$500
